***Nashville,** city, the co. seat of Davidson co., Tenn., and the capital of the state, on the Cumberland R., 205 mls. from its mouth and 230 mls. E. N. E. of Memphis. It is also on the Louisville, Nashville & Great Southern R. R.; is the S. E. terminus of the Nashville & Northwestern R. R., the W. terminus of the Tennessee & Pacific R. R. and the N. W. terminus of the Nashville & Chattanooga R. R. The river is navigable to this point during high water, and at such times the city is the center of an active commerce. Nashville is noted for its elegant streets, beautiful residences and commanding public edifices. The capital building stands on an eminence 175 feet above the river, is of fine proportions and built of a beautiful limestone or marble found on the

spot. The other noteworthy public buildings are the State Penitentiary, 300 by 50 feet, containing 200 cells; the University of Nashville, with which is connected a medical college and several female seminaries. The city is growing in importance as a manufacturing center, having several new cotton mills and investing largely in the coal and iron resources of the surrounding section. Pop., 25,865; in 1860, 13,043, making it the second city in population, as it is in commercial importance, in the state. It has 23 newspapers, the leading of which are the "Union and American," "Republican Banner" and "Nashville Demokrat."

Nashville Centre, p. o. in Martin co., Minn.

Nason's Mills, p. o. in York co., Me.

Nasonville, p. o. in Wood co., Wis.

Nassau, co. in Fla., N. E. part. Area, 400 sq. mls. Pop., 4,247; in 1860, 3,644. The surface is level; the soil sandy. This co. forms the N. E. extremity of the state. It lies between the Atlantic Ocean on the E. and Ga. on the N. and W., from which it is separated by St. Mary's R. The Florida R. R. passes through the central part from S. W. to N. E. Fernandina is the co. seat. Agr. productions in 1870: Oats, 75 bush.; Indian-corn, 24,058 bush.; Irish pot's, 555 bush.; sweet pot's, 17,614 bush.; cotton, 17 bales; rice, 1,900 lbs. Cash value of farms, $132,213. Total, estimated, value of all farm productions, including additions to stock, etc., $89,653. Value of manufactures, $132,725.

Nassau, tn. in Rensselaer co., N. Y. Pop., 2,705.

Nassau, p. v. in the above tn., 5 mls. from Brainerd. Pop., 348.

***Natches,** city and co. seat of Adams co., Miss., on the E. bank of the Mississippi R., 279 mls. above New Orleans and 100 below Vicksburgh. It is beautifully situated on bluffs which overlook the river at a height of 200 feet; has wide rectangular streets, and many fine private and public buildings. Its river commerce is extensive, and it has several manufactories and large business houses. Pop., 9,057; in 1860, 4,272. Three newspapers, of which the "Courier" and "Democrat" are the chief.

Natchitoches, parish in La., W. central part. Pop., 18,265; in 1860, 16,699. It is bordered on the E. by Sahne Bayou and by Rigolet de Bon Dieu, and intersected by the Red R., which drains it with its tributaries. The surface is level; the soil is fertile. Steamboats navigate Red R. through this parish from New Orleans to Shreveport. Natchitoches is the co. seat. Agr. productions in 1870: Indian-corn, 231,746 bush.; Irish pot's, 779 bush.; sweet pot's, 12,356 bush.; cotton, 15,671 bales. Cash value of farms, $1,939,575. Total, estimated, value of all farm productions, including additions to stock, etc., $1,525,476. Value of manufactures, $21,000.

***Natchitoches,** p. v. in the above co. and the co. seat, on Old Red R., 68 mls. S. E. of Shreveport. Has a large river commerce, chiefly in corn and cotton. Pop., 1,401. Two newspapers.

Nebo, p. o. in Laclede co., Mo.

NEBRASKA is bounded on the N. by Dak. Ter., from which it is partly separated by the Keya Paha R., the Nebraska R. and the Missouri R.; on the E. by Iowa and Mo., from which it is separated by the Missouri R.; on the S. by Kans. and Col. Ter., and on the W. by Wyo. Ter. It lies between 40° and 43° N. lat., and 95° 13′ and 104° W. long., and its area is 75,995 sq. mls., or 48,636,800 acres. The length from E. to W. is 412 mls., and the width from N. to S. 208 mls.

Surface.—Nebr. is a part of that vast plain which extends along the eastern base of the Rocky Mts., and gently slopes down toward the Mississippi R. The surface is flat or gently undulating. There are no ranges or elevations in the state that might be termed mountains. The soil consists for the most part of a black and porous loam, which is slightly mixed with sand and lime. The streams flow in deeply eroded valleys with broad alluvial flood-grounds or bottoms of the greatest fertility, which are generally well timbered with cottonwood, poplar, ash and other deciduous trees. The uplands are undulating prairies, presenting an almost unlimited field for stock raising and wool growing. Thousands of cattle are annually brought from Tex. and fattened on the wild grasses of these prairies.

Late surveys establish the fact that the aggregate area of the bottom-lands is from 13,000,000 to 14,000,000 of acres.

In the N., W. part of the state are the so-called "mauvaises terres," or bad lands, extensive tracts of country which are covered with rocks and hills worn into the most wierd and fanciful forms; and in the N. part are sand hills or domes, which have been raised by the prevailing winds piling up the dry and loose materials of which they are composed into their present picturesque forms.

Rivers.—The Missouri, after traversing Dak. Ter., forms part of the northern and the whole of the eastern boundary of the state. It flows through a vast bottom bounded by lofty bluffs, and has within the state but two large tributaries, the Niobrara and the Nebraska, or Platte, Rs. The former intersects the northern tier of counties and receives Smoky R., Keya Paha R. and other affluents. The principal stream of the state, the Platte R., is formed by the North and South Forks uniting near North Platte, in Lincoln co., and then flows in a general eastward direction, joining the Missouri above Plattsmouth. It is a fine stream, carrying an immense body of water during the rainy season; but owing to its broad and shallow bed is not navigable. All its tributaries of importance come from the N., as Wood R., Loup Fork, with its numerous branches, Elk Horn R. and others. With the exception of Salt Cr., no stream flows into the Platte on the S., the waters on that side, though rising in some cases within 10 mls. of its banks, running to the S. E. and joining the Republican Fork of the Kansas R., which flows through the southern part of Nebr. These streams are Muddy Cr., Little Blue R., with Big Sandy Cr., and the Big Blue R., with numerous branches and affluents. The smaller streams which join the Missouri are Great Nemaha R., Little Nemaha R., which drains the south-eastern counties, Weeping Water R. and others.

The Climate of Nebr. is on the whole similar to that of other states of the great Mississippi plain in the same latitude. The mean annual temperature varies from 47° in the most northern section to 53° in the most southern. But owing to the greater elevation, the western part of the state is somewhat colder than the eastern. In winter the westerly winds, sweeping down from the Rocky Mts., often depress the thermometer to 20° and sometimes to even 30° below zero; while in summer a temperature of 100° and over is not unusual. In the southern tier of counties the mean temperature of summer is 76½°, and of winter, 30½°.

The greatest amount of rain and snow (28 and 30 inches) falls in the Missouri Valley, and thence westward the rain-fall steadily decreases to 24 inches near Fort Kearney, 16 inches in the western counties and 12 inches in the S. W. corner of the state.

Population.—Nebr. had, in 1860, a population of 28,841, and in 1870, of 122,993. Of these, 92,245 were natives of the United States, including 18,425 natives of the state. The foreign-born population numbered 30,748; of whom 2,635 were born in British America, 10,954 in Germany, 299 in Austria, 593 in Switzerland, 2,352 in Sweden, 506 in Norway, 4,616 in England, Scotland and Wales, and 4,999 in Ireland. The colored population was small, numbering but 789, and the last census reports but 87 Indians.

Minerals and Mining.—Although no traces of the precious metals have thus far been discovered, Nebr. is rich in mineral treasures. Productive coal fields underlie the greater part of the state, and mines are in operation along the Platte R., near Pawnee City, on Nemaha R. and in other localites. The salt basins of Nebr. are rich and extensive. The principal one is located in Lancaster co., surrounding the city of Lincoln, and embracing an area of 12 by 25 mls. The brine from the springs yields 29 per cent. by weight of good salt. In the same co. there are inexhaustible quarries of sandstone, which is very soft when quarried, but hardens by exposure to the air. Blue limestone is found near the head waters of Salt Cr., and near Lincoln, and beautiful gray magnesian limestone, as susceptible of fine polish as Italian marble.

Agriculture.—About one-fourth of the area of Nebr., embracing the Bad Lands and Sand Hills of the N. W., is unfit for farming: another fourth consists of the rich alluvial river bottoms, and the remaining half of undulating prairie uplands. By the United States agricultural report for 1872, the average crops are as follows: Oats, 40 bush. per acre; barley, 31¼ bush.; rye, 21½ bush.; hay, 1⅞ tons; pot's, 120 bush.; wheat, 17¼ bush., and corn, 39 bush. These figures attest the extraordinary fertility of the farm lands of the state.

In 1870 the farms embraced 2,073,781 acres, of which 647,031 acres were improved land, 213,374 acres woodland and the remainder unimproved. The number of farms was 12,301, against 2,789 in 1860.

The total value of farms was $30,242,186, and of farm productions, including additions to stock, etc., $8,604,724. The principal productions are spring wheat, 2,109,321 bush.; winter wheat, 15,765 bush.; rye, 13,532 bush.; Indian-corn, 4,736,710 bush.; oats, 1,477,562 bush.; barley, 216,481 bush.; Irish pot's, 739,984 bush.; tobacco, 5,988 lbs.; wool, 74,655 lbs.; butter, 1,539,535 lbs.; hay, 169,354 tons, and sorghum molasses, 77,598 gals.

The total live stock had a value of $6,551,185, and comprised 30,511 horses, 2,632 mules and asses, 28,940 milch cows, 5,931 working oxen, 45,057 other cattle, 22,725 sheep and 59,449 swine.

The Manufacturing interests of the state are as yet little developed. In 1870 there were 670 manufacturing establishments, employing 1,865

horse-power in steam-engines, 1,446 horse-power in water-wheels, 2,665 operatives and $2,169,963 of capital. The products had a value of $5,738,512; $1,429,913 of wages were paid, and $2,902,074 worth of raw materials were consumed. The principal products of industry were flour and meal, $1,516,150; boots and shoes, $195,722; carpentering and building, $535,520; distilled liquors, $146,789 and malt liquors, $83,832.

The Commerce of Nebr. is exclusively domestic and restricted to the importation from the older states of groceries, manufactures and articles of luxury, and shipping cattle and country produce. Thus far, however, but little produce is shipped, as the constant influx of immigrants requires its retention at home.

The railroads are being pushed forward with great energy. In 1865 the length of railroads was 122 mls; in 1868, 473 mls.; in 1870, 705 mls.; in 1871, 943 mls., and in 1872, 1,051 mls. The Union Pacific R. R. extends from Omaha through the entire length of the state, and in the main follows the valley of the Platte R. The Burlington & Missouri River R. R. runs along the valley of the Platte R. from Plattsmouth to Ashland, and thence to Lincoln and to the junction with the Union Pacific R. R., W. of Fort Kearney. The Midland Pacific R. R. extends from Nebraska City on the Missouri R. to Seward, Seward co. The Omaha & Northwestern R. R. is in operation from Omaha to Herman, Washington co., and will be extended to Niobrara R. The Omaha & Southwestern R. R. consists of two lines: the one running from Omaha to Omaha Junction on the Burlington & Missouri River R. R. and the other from Crete, on the last-named line, to Beatrice, Gage co., following the valley of the Big Blue R. The northern part of the Atchison & Nebraska R. R. is within this state and extends from the southern state line, near the Missouri R., to Lincoln. The Fremont, Elkhorn & Missouri Valley R. R. has been completed from Fremont to Wisner, Cuming co., and will be extended to the Niobrara R.

Wealth, Taxation and Indebtedness.— In 1870 the true or estimated value of real and personal estate was $69,277,483, and the assessed value $54,584,616, of which $38,365,999 was for real estate, and $16,218,617 for personal property. The State Board of Equalization reports the assessed valuation of both kinds of property for 1871 to have been $55,549,868, and for 1872, $69,323,950, showing an increase during the last year of $14,323,950.

The total state debt on the 1st of January, 1873, was $292,595, while the resources of the state on the same day amounted to $336,023, viz.: $356,634 cash in treasury, $244,558 taxes due, $215,321 delinquent taxes due, and $19,510 militia expenses due from the United States.

The total receipts during the year 1872 were $1,058,704, and the expenditures $739,616.

Education, Press, etc—Nebr. has more organized schools, more school-houses, and those of a superior character; more money invested in buildings, books, etc., than were ever had before by any state of the same age. The land endowment for the public schools embraces one-eighteenth of the entire area of the state, 2,623,080 acres. The Governor is of the opinion that the whole educational system, from common school to university, can be made entirely independent of the state.

In 1870 the number of school districts was 1,032; of persons in the school age, 41,063, and of these there were enrolled in the public schools 23,158. An excellent Normal School for the training of teachers is located at Peru, Nemaha co. The State University is at Nebraska City. The State Asylum for the Deaf and Dumb, at Omaha, was opened in 1869. At Lincoln are the State Lunatic Asylum and the State Penitentiary.

The number of newspapers published in the state was 42, with a circulation of 31,600, viz.: 7 dailies, 1 tri-weekly, 30 weeklies and 4 monthlies.

Government.—Nebraska was organized as a territory in May, 1854. A constitution was framed by the State Convention and ratified by the people in 1866, and in January, 1867, Nebraska was admitted into the Union as a state. The executive power is vested in a Governor, Lieutenant-Governor, Secretary of State, Treasurer, and Auditor. These officers are elected for two years, except the Auditor, who is elected for four years.

The Legislature consists of a Senate and a House of Representatives. The former has 13 members, the latter 29 members. All male citizens of the United States, who have resided 6 months in the State, and ten days in the district in which they offer to vote, are legal electors.

The Judiciary comprises a Supreme Court, District Courts, Probate Courts, and Justices of the Peace. The Supreme Court consists of a Chief Justice and two Associate Justices, elected for a period of 6 years. The state is divided into three judicial districts, in each of which one of the supreme court justices holds District Court Sessions.

Nebraska is divided into the following counties: Adams, Antelope, Arapahoe, Black Bird, Boone, Buffalo, Burt, Butler, Cass, Cedar, Cheyenne, Clay, Colfax, Cuming, Dakota, Dawson, Dixon, Dodge, Douglas, Fillmore, Franklin, Gage, Hall, Hamilton, Harlan, Howard, James, Jefferson, Johnson, Kearney, Lancaster, Knox, Lincoln, Madison, Merrick, Nemaha, Nuckolls, Otoe, Pawnee, Pierce, Platte, Polk, Red Willow, Richardson, Saline, Sarpy, Saunders, Seward, Stanton, Thayer, Valley, Washington, Wayne, Webster, York.

The state capital is Lincoln, 2,441 inhabitants. The most important cities, with their population, are Omaha, 16,042; Nebraska City, 6,050; Plattsmouth, 1,954; Brownville, 1,305, and Tremont, 1,195.

Neuse River, in N. C.; formed by the confluence of Flat and Eno Rs., which rise in Orange co. It flows S. E. through Wake, Johnson, Wayne and Lenoir cos., then forms the northern boundary of Jones co., and empties through a wide estuary into the S. W. extremity of Pamlico Sound. It is navigable upward of 100 mls., to Waynesborough, for 8 months of the year. Its largest tributaries are Little R. and Conteutnea Cr.

Neutral City, p. v. in Cherokee co., Kans., near Spring Cr. and 42 mls. S. of Fort Scott.

NEVADA extends from 114° to 120° W. long., and the northern boundary coincides with the 42 parallel of N. lat. On the S. E. it is bounded by the Colorado R., and on the S. W. by a line drawn from the intersection of 39° N. lat. with 120° W. long. to the right bank of the Colorado near Fort Mojave in 35° N. lat. The area is 112,090 sq. mls., or 71,737,600 acres.

Surface.—Nev. forms part of the elevated plain lying between the Sierra Nevada and the Wahsatch Mts., and known to geographers as the Great Basin. It has a mean elevation of over 4,000 feet, and is traversed from N. to S. by numerous mountain ranges from 1,000 to 6,000 feet above the general level of the country, which are separated from each other by valleys varying in width from 5 to 10 mls. The parallelism of these mountains and valleys imparts to the country a character of great uniformity.

The combined area of the valleys and the area occupied by the mountains and their foothills are very nearly equal. The Sierra Nevada, of California, bounds the basin on the W. by its steep eastern slope, and enters Nev. at only a single point, where it throws over the border a high flanking spur, the Washoe Mts. Along the base of the Sierra extends a depression of the surface about 3,850 feet above the sea level, into which flow the Humboldt, Truckee, Carson's and Quinn's Rs. From this depression the general level of the country rises gradually eastward to the border of the state, near which the valleys have a height of about 6,000 feet.

The mountains are mostly destitute of water, with small rivulets or scanty springs at their bases. The lowest portion of every valley is occupied by an alkali flat, where in the winter the moisture collects and renders the clay-like mud bottomless and impassable. The three highest ranges, which receive heavier snowfalls in winter and more abundant rains in summer, are the West Humboldt Mts., 100 mls. E. of the California state line; the East Humboldt Mts., 75 mls. from the Utah line, and the Toyabes, nearly intermediate between the two. Star Pk., the highest point of the West Humboldt Mts., is 10,000 feet high, and several pks. of the Southern Toyabe range from 10,000 to 12,000 feet in elevation. Between the West Humboldt Mts. and the Cal. state line are the following ranges: Trinity Mts. and Antelope Mts., forming one chain, which bounds the valley of the Lower Humboldt R. on the W.; the Truckee Mts., E. of Winnemucca Lake; the Lake Range, between Winnemucca and Pyramid Lakes; and the Virgima Mts., W. of Pyramid Lake and extending S. to within a short distance of Carson City.

Between the Toyabe Mts. and the West Humboldt Mts., with their continuation N. of the Humboldt R., the Santa Rosa Mts., are the Pah-Ute Mts. and the Coyote Mts., with Pleasant, Grass and Regan Valleys. To the E. of the Toyabe extends Smoky Valley, which is separated from Monitor Valley by the Smoky Range. In the southern prolongation of the East Humboldt Mts. is the White Pine Valley, which separates the Hot Creek and Reveille ranges. Still further E. there follow the Butte and Ruby valleys, Egan Mts., Steptoe Valley, Ungaweah Mts., Antelope Valley and Goshoot Mts.

The south-eastern portion of the state belongs to the Colorado Basin, measuring about 12,000 sq. mls. A low broken range, with the pks. Tem Piute, Pahranegat and Picohe, forms its northern rim. The surface is diversified by abrupt ranges, with intervening valleys. The most important are the Kingston, Spring Mountain, Vegas and Muddy Ranges, which greatly vary in height above the valleys.

Rivers and Lakes.—The largest stream of Nev. is the Humboldt R. (see page 415), which traverses the state from W. to E. and terminates in the large "sink," or mud plain, which also receives the Carson R. The Truckee R. issues from Lake Tahoe in the Sierra Nevada, Cal.; after a rapid descent breaks through the Virginia Mts., and turning N. empties into Pyramid and Winnemucca lakes. Quinn's R. intersects the N. W. part of the state and terminates in the Black Rock Desert. Walker's Lake lies in Esmeralda co., and receives Walker's R., which rises in the Sierra Nevada. Reese R. traverses the valley W. of the Toyabe Mts. from S. to N., without, however, reaching the Humboldt R. These rivers are all small, but for a region so arid and destitute of water have great economical value.

The Great Colorado R. of the West intersects the southern extremity of Nev. and then forms part of the S. E. boundary, separating it from Ariz. Ter. A few small creeks are the only tributaries it receives from this state.

Climate and Vegetation.—The climate of Nev. is characterized by great extremes—cold winters and hot summers—and by a very dry atmosphere with but little rain or snow. The annual amount of moisture falling in the two forms is roughly estimated at 18 inches, one-half between the months of April and November inclusive. In the warmer months the rains are always limited and of short duration. Dew is almost unknown.

The vegetation of Nev. is very scanty, especially in the southern part of the state, but nowhere is the surface entirely destitute of plant life, except on the alkali flats of the valleys. The sage-brush, or Artemisia, covers extensive tracts. Along the streams extend belts of meadow-land. Timber is scarce, continuous forests are wanting, and the slopes of some of the mountain ranges only support small groves of trees.

Population.—The aggregate population in 1870 was 42,491, of whom 38,759 were white, 347 colored, 3,152 Chinese and 23 Indians.

The number of persons born in the United States was 23,690, of whom 2,313 were natives of Nev.; and in foreign countries, 18,801, of whom 2,356 were born in British America, 2,549 in England, 5,035 in Ireland and 2,181 in Germany.

In all classes of occupations were engaged 26,911 persons, viz.: 2,070 in agriculture, 7,431 in personal and professional services, 3,621 in trade and transportation and 13,789 in mining, mechanical trades and manufactures.

Minerals and Mining.—Nev. is preëminently a mining state. In 1872 it produced nearly one-half of all the bullion produced W. of the Missouri R. The state then had 162 mills and furnaces, with 1,904 stamps, and capable of reducing daily 5,183 tons of ore. The mills turned out, for 1871, $20,010,175, and for 1872, $23,719,212 in gold and silver bullion, besides several thousand tons of lead, copper and antimony. The cos. which produced more than $1,000,000 in bullion in 1871 were the following: Lander, $2,099,014; Lincoln, $3,604,833; Storey, $10,644,704; White Pine, $1,223,266.

The richest silver and gold deposit of the state, and probably in the world, is the famous "Comstock Lode" in the Virginia Range, Storey co. It crops out on the eastern slope of the range at an altitude of about 2,000 feet above the level of the plains, and has been clearly traced about 4 mls., within two of which are the portions that have thus far been developed. The "Sutro Tunnel," now in progress of construction, is intended to facilitate the working of the mines on the Comstock Lode, by penetrating the vein at a greater depth. When completed it will make easy the draining of the mines, and will allow the ores to be brought to the surface at an easy grade, thus avoiding the expense of pumping and hoisting from great depths.

Agriculture.—The soil of the valleys is not lacking in the elements required for plants, but the aridity of the climate restricts the lands fit for farming to the areas that may be irrigated. The Land Office report for 1869 estimates the agricultural lands at 17,608,960 acres (embracing meadow lands bordering on rivers, lakes and mountain streams, also the richest portion of the sage-brush lands, contiguous to the rivers), the grazing land at 23,998,720 acres, and reclaimable swamp lands at 74,800 acres.

In 1870 there were 92,644 acres of unimproved land, 13,415 acres of woodland and 102,451 acres of unimproved lands in farms. The cash value of farms was $1,485,505, and the estimated value of all farm productions, including additions to stock, etc., $1,659,713. The principal products were: Spring wheat, 147,987 bush.; winter wheat, 80,879 bush.; Indian-corn, 9,660 bush.; oats, 55,916 bush.; barley, 295,452 bush.; pot's, 129,249 bush.; wool, 27,029 lbs.; butter, 110,880 lbs., and hay, 33,855 tons.

The live stock had a value of $1,445,449, and comprised 7,520 horses, 990 mules, 6,174 milch cows, 2,434 working oxen, 22,899 other cattle, 11,018 sheep and 3,295 swine.

Manufactures.—The last census reports 330 manufacturing establishments, employing 120 steam-engines with 6,007 horse-power and 2,859 hands. The capital invested was $5,127,799; the wages paid amounted to $2,498,473. The raw material consumed had a value of $10,315,984, and the products of $15,870,539. This sum included $260,000 for reduced and refined gold and silver; $12,119,719 for milled quartz; $894,600 for pig lead; $641,250 for iron castings, and $432,500 for sawed lumber.

Railroads.—The Central Pacific R. R. passes through the northern part of the state. It enters Nev. at the Truckee R., follows this stream down to the Big Bend, thence crosses the desert to Humboldt Lake; thence follows the Humboldt R. to about the 115th meridian, where it leaves the valley of this river and strikes across the state in an E. N. E. direction to Utah Ter. The Virginia & Truckee R. R., connecting Virginia City and Carson City with Reno on the Central Pacific R. R., is 51 mls. long, and has done much to develope the three cos. through which it passes, viz.: Storey, Ormsby and Washoe. Several other roads have been projected.

Wealth, Taxation and Debt.—The total amount of taxable property, as shown by the assessment lists of the various cos., was, in 1871, $20,901,009; and in 1872, $22,879,145, showing an increase in the latter year of $1,978,035. The last census report gives the true value of real and personal estate in 1870 at $31,134,012.

The total receipts for the fiscal year ended on December 31, 1872, amounted to $1,284,485 in coin, of which $420,868 were received from the county treasurers for taxes, tolls, etc., and $500,000 for the sale of state bonds. The disbursements were $1,047,930, leaving a balance on hand of $236,555.

The total indebtedness of Nev. on December 31, 1873, was $726,450, of which $660,000 were bonded, $16,660 accrued interest, and $49,790 outstanding unpaid warrants.

Education and Press.—The system of public instruction now in operation was established in 1861, and has thus far worked well. In 1873 there were 4,950 children in the state between 6 and 18 years of age; the number of children enrolled in public schools was 3,372, and of children attending private schools, 439, leaving 1,410 children reported as not attending any school. The number of male teachers was 29 and of female teachers 47. The total school expenses in all the cos. amounted to $98,469, being $24,632 more than in the preceding year.

In 1870 there were 12 papers published in the state, which had a circulation of 11,300. Five of these papers were dailies, two semi-weeklies and five weeklies.

Government.—Nev. is a part of the territory acquired from Mexico in 1848. It was organized as a territory in 1861, and was admitted into the Union as a state in 1864.

Every male citizen of the United States, of the age of 21 years and upward, who shall have actually resided in the state six months, and in the district or co. 30 days next preceding an election, shall be entitled to vote.

The legislative authority is vested in the Senate and Assembly. The members of the Assembly, 35 in number, are chosen biennially for two years. The Senators, 18 in number, are chosen at the same time and places as members of the Assembly, for four years. The sessions of the Legislature are biennial, commencing on the first Monday of January next ensuing the election of members of the Assembly.

The executive government consists of the Governor, Lieutenant-Governor, Secretary of State, Treasurer, Comptroller, Surveyor-General, and Attorney-General, who are elected by the qualified electors at the time and places of voting for the members of the Legislature. They hold their offices for four years.

The judicial power is vested in a Supreme Court, District Court, and in Justices of the Peace. The Supreme Court consists of a Chief Justice and two Associate Justices, who are elected by the people and hold their offices for the term of 6 years. This court has appellate jurisdiction in all cases of equity, in all cases at law in which is involved the title or possession of real estate and mining claims; and on questions of law in criminal cases, in which the case charged amounts to felony. The state is divided into 9 judicial districts. The District Judges are elected by the people for the term of 4 years.

Nevada is divided into the following 13 counties: Douglas, Elko, Esmeralda, Humboldt, Lander, Lincoln, Lyon, Nye, Ormsby, Roop, Storey, Washoe, and White Pine.

The state capital is Carson City.

Nevada, new co. in Ark., S. W. part. Area, 625 sq. mls. Was formed from portions of Ouachita and Columbia cos. The surface is rolling and on the whole well timbered. The valleys contain much excellent soil. The Little Missouri R., a tributary of the Washita R., forms the northern boundary and drains the northern part of the co. with Cypress Bayou and Terre Rouge Cr. The southern part is drained by Bayou Bdeau and Bayou Dorcheat, affluents of the Red R. Mount Moriah is the co. seat.

Nevada, co., in Cal., E. part. Area about 1,100 sq. mls. Pop., 19,134; in 1860, 16,466. It is separated from Sierra co. by the Middle Fork of the Yuba R. and drained by the South Fork of the same. The surface is mountainous. The Sierra Nevada trends through the E. part of the co. and bears pks. over 9,000 feet in elevation. The spurs and foot hills of the Sierra descend in height from E. to W., and are interspersed with numerous fertile valleys and prairies. There are several lakes in the high Sierra, of which Donner is the largest and most beautiful. Cereals, fruits and vegetables are cultivated to a considerable extent. The vine thrives well on the hill-sides and yields abundantly. Gold mining is the principal occupation. The Central Pacific R. R. intersects the S. part of the co. Nevada City is the co. seat. Agr. productions in 1870: Wheat, 585 bush.; rye, 80 bush.; Indian-corn, 306 bush.; oats, 190 bush.; Irish pot's, 5,548 bush.; butter, 50,741 lbs.; hay, 4,804 tons. Cash value of farms, $508,750. Total, estimated, value of all farm productions, including additions to stock, etc., $371,605. Value of manufactures, $1,293,809.

New Castle, co. in Del., N. part. Area, 525 sq. mls. Pop., 63,515; in 1860, 54,797. It is bounded on the E. by the Delaware R., on the N. by Pa. and on the W. by Md. The principal streams are Brandywine, Christiana, Redclay, Whiteclay, Appoquinnimink, Black Bird and Duck Crs. The surface is level and low; the soil productive. Agriculture and manufacturing are the chief occupations. The Delaware R. R. and its branches intersect the co. New Castle is the co. seat. Agr. productions in 1870: Wheat, 504,284 bush.; rye, 1,089 bush.; Indian-corn, 1,002,519 bush.; oats, 353,371 bush.; Irish pot's, 193,636 bush.; sweet pot's, 6,501 bush.; butter, 765,746 lbs.; hay, 31,490 tons. Cash value of farms, $24,573,079. Total, estimated, value of all farm productions, including additions to stock, etc., $4,004,098. Principal products of industry: Carriages and wagons, $765,920; freight and passenger cars, $917,860; cotton goods, $1,050,898; flour and meal, $1,446,482; gunpowder, $737,800; forged and rolled iron, $823,835; iron castings, $1,053,077; morocco, $1,401,317; machinery and engines, $631,428; matches, $321,300; ship-building and repairing, $1,003,100, and woollen goods, $544,721. Total value of manufactures, $15,003,131.

New Hampden, p. o. in Highland co., Va.

NEW HAMPSHIRE, one of the New England states; is bounded on the N. by Canada, on the E. by the Atlantic Ocean and by Maine, from which it is partly separated by the Piscataqua R., on the S. by Mass., and on the W. by Vt., from which it is separated by the Connecticut R. It extends from 42° 41′ to 45° 11′ N. lat., and from 70° 40′ to 72° 28′ W. long. Its area is 9,280 sq. mls., or 5,939,200 acres.

The sea-coast is but 18 mls. long, and terminates in the N. at the estuary of the Piscataqua R. Nine mls. off the coast are the Isles of Shoals, a group of 8 rocky islands, the largest of which contains 350 acres.

Surface.—Along the sea-coast extends a tract of low and level land, some 30 mls. wide and partly occupied by salt marshes. Excepting this small tract N. H. is hilly and mountainous, as it forms part of that large belt of elevations which extends from Me. into Conn., and is divided from the Green Mountain system by the Connecticut R. In the southern part of the state this undulating high-land belt supports several lofty groups or isolated pks., as Mts. Monadnock, Sunapee, Kearsarge, etc.; but it is in the northern part that it culminates in the famous White Mts., which in height are surpassed by the Black Mts. of N. C. only, but in grandeur of scenery are unapproached by any other chain of the Appalachian System. They form a plateau, occupying the southern part of Coos co. and the northern parts of Carroll and Grafton cos., and are deeply furrowed and rifted by a number of torrents, as the Ammonoosuc, Baker's, Pemigewasset, Swift, Saco, Ellis, Wild and Peabody Rs. On this plateau rise lofty pks. either in ranges or irregularly distributed in isolated summits.

Mt. Washington, 6,288 feet above the sea, is the highest peak of the whole region and of the White Mts. proper, which form a chain between the head waters of the Ammonoosuc and Mount Washington Rs. The latter is the name of the upper course of the Saco. The chain extends N. E. and S. W. In the part lying S. W. of Mt. Washington it supports Mts. Monroe, 5,384 feet; Franklin, 4,904 feet; Pleasant, 4,764 feet; Clinton, 4,320 feet; Jackson and Webster; and in the part lying N. are Mounts Clay, 5,553 feet; Adams, 5,714 feet; Jefferson, 5,794 feet, and Madison, 5,365 feet. Other chains, scarcely less elevated, branch off from Mt. Washington in a southerly direction between Mount Washington R. and Rocky Branch, and in a south-easterly direction between Rocky Branch and Ellis R.

The plateau which extends from Mt. Webster to the W., between the upper course of the Ammonoosuc from the East Branch of the Pemigewasset R., is crowned with Willey Mt., Twin Mt. and many other peaks exceeding 4,000 feet in height. It connects in the W. with the Franconia Mts., a chain trending N. and S. between the East and West Branches of the Pemigewasset and bearing the following peaks: Bald Mt.; Eagle Cliff, 3,446 feet; Mt. La Fayette, or Great Haystack, 5,290 feet, and Flume Mt., about 4,500 feet. The valley which separates the western base of the Franconia Mts. from the Profile Mt. and Mt. Pemigewasset is traversed by the East Branch of the Pemigewasset R. and the South Branch of the Ammonoosuc R.

The White Mts. proper and the Franconia Mts., with the plateau intervening between the two ranges, constitute the principal group of the system, but are surrounded on all sides by lower chains and peaks. The whole system covers an area of over 800 sq. mls. The best description of the numerous objects of interest which are crowded together in this narrow space, and of the different routes leading to them, is contained in: "New England, a Handbook for Travelers," etc., published by James R. Osgood, of Boston, in 1873. A very popular route is the one via Conway, up the Saco R. to Bartlett, and thence along the Ellis R. to the Glen House, or along the upper course of the Saco to the Crawford House. From both these hotels, roads lead to Mt. Washington, the ascent of which now may be made by a railroad completed in 1869, on the plans of Sylvester Marsh. The track has a grade of 3,625 feet in three mls., or of 1 foot in 4½. The chief peculiarity of the track is a heavily notched iron center-rail, into which plays a center cog-wheel on the locomotive. The ascent is made in 90 minutes. The usual route to the Franconia Mts. is from the Ammonoosuc R. to the Profile House and Flume House in the Pemigewasset Valley. The new Fabyan House and the Twin Mountain House are situated on the road leading from Bethlehem up the Ammonoosuc R. to the Crawford House, or Ammonoosuc Station, the initial point of the Mt. Washington R. R.

Rivers and Lakes.—The principal stream of N. H. is the Connecticut R., which rises in the north-eastern corner, and from its junction with Hall's Stream forms the entire western boundary of the state. Its principal affluents in N. H. are Perry's Stream, Indian Stream, Hall's Stream, the Ammonoosuc R., the Mink R., or Lower Ammonoosuc, R., rising in the White Mts., Mascony R., Sugar R., which drains Lake Sunapee, and Ashuelot R., which intersects Cheshire co. and joins the Connecticut near the S. W. corner of the state. The Merrimac R. is formed by the confluence of the Pemigewasset R., which rises in the White Mts., and the Winnipiseogee R., and intersects the southern half of the state from N. to S. It receives from the W. the Contoocook R., the Piscataquoi R. and the Souhegan R.; and from the E. the Suncook R. The Piscataqua R. is formed by the confluence of the Salmon Falls R. and Cocheco R., and forms, with the first-named branch, part of the eastern boundary of the state. The Saco and Androscoggin Rs., belonging chiefly to the neighboring state of Me., water eastern N. H. with portions of their courses.

The largest lake of the state is Winnipiseogee, or Winnepesaukee, which receives the outlet of Squam Lake. Ossipee Lake lies E. of the latter, and is drained by the Ossipee R., a tributary of the Saco. Umbagog Lake, belonging to the Androscoggin system, lies partly in N. H. Beside these larger sheets of water, this state has numerous smaller ones in nearly all parts of its territory.

The Climate of N. H. is rigid, and especially in the more elevated mountains are the winters long and very severe. The summers are mild and pleasant, although a temperature of over 100° in the shade is not of rare occurrence. The mean annual temperature varies from 38° in Coos co. and the White Mts. to 48° in the southern parts of the state. The rain-fall averages from 10 to 14 inches in summer, from 6 to 12 inches in winter and from 32 to 40 inches during the year. The sea-coast and the Connecticut Valley receive the largest amount of precipitations.

The Vegetation of N. H. comprises magnificent forests of oak, pine, beech, sugar maple, birch, etc., which cover the mountains and the northern part of the state. Willows, poplars and

sycamores grow along the rivers and often attain to extraordinary dimensions. The wild and secluded parts of the state are still inhabited by the bear, panther, wild cat, lynx, wolf and fox, nor are the mink, marten, raccoon, skunk, etc., of rare occurrence. The birds are represented by wild turkeys, pigeons, quails, woodcocks, woodpeckers, various birds of prey and aquatic fowls.

The Population of N. H. was, in 1790, 141,855; in 1800, 183,858; in 1810, 214,460; in 1820, 244,022; in 1830, 269,328; in 1840, 284,574; in 1850, 317,976; in 1860, 326,073, and in 1870, 318,300, showing for the last decade a decrease of 7,773. The number of whites was 317,697; of colored persons, 580; and of Indians, 23.

In regard to nativity the population was distributed as follows: Born in the United States, 288,689, including 242,374 natives of the state; born in foreign countries, 29,611, including 12,937 natives of British America, 436 of Germany, 2,679 of England, 12,190 of Ireland, and 892 of Scotland.

In all classes of occupations were engaged 120,168 persons, viz.: in agriculture, 46,573; in professional and personal services, 18,528; in trade and transportation, 8,514, and in manufactures and mechanical and mining industries, 46,553.

Minerals and Mining.—The mineral wealth of the state consists chiefly in deposits of magnetic and specular iron, especially in Grafton and Carroll cos. In Franconia tn., Grafton co., are iron furnaces. Carroll co. also yields lead, silver, zinc and copper. Isinglass, or glimmer, of great purity is obtained at Alstead and Grafton. The graphite found in various parts of the state is largely used for the manufacture of crucibles. Productive quarries of soapstone are at Francestown and Oxford.

Agriculture.—In 1870 N. H. had 29,642 farms, 75 of which exceeded 500 acres in extent, and one 1,400 acres. The total acreage in farms was 3,605,994, of which 2,334,487 acres were improved land, and 1,047,000 woodland. The total value of farms was $80,589,313; of farming implements, $3,459,943; and of all farm productions, including additions to stock, $22,473,547.

There were produced 193,621 bush. of wheat, 47,420 of rye, 1,277,768 of Indian-corn, 1,146,451 of oats, 4,515,419 of Irish pot's, 105,822 of barley, 155,334 lbs. of tobacco, 1,129,442 lbs. of wool, 5,965,080 lbs. of butter, 849,118 lbs. of cheese, 1,800,704 lbs. of maple sugar, and 612,648 tons of hay.

The live stock had a value of $15,246,545, and comprised 39,095 horses, 37 mules and asses, 90,583 milch cows, 40,513 working oxen, 91,705 other cattle, 248,760 sheep, and 33,127 swine.

The Manufactures of N. H. are numerous and have greatly increased within the last decade. There were, in 1860, 2,592 establishments, and in 1870, 3,342. They employed 280 steam-engines with 8,787 horse-power; and 2,312 water-wheels with 68,291 horse-power, showing the extensive use made of the immense power afforded by the rivers. The number of hands employed was 40,783, who received $13,823,091 wages. The capital invested in this branch of industry was $36,023,743; of raw materials consumed, $44,577,967, and of the products, $71,038,249. The most important of these were cotton goods, $16,999,972; woollen goods, $8,703,307; worsted goods, $1,447,422; boots and shoes, $5,162,259; sawed lumber, $4,286,142; flour and meal, $2,747,973; furniture, $1,475,776; hosiery, $1,757,445; tanned leather, $1,965,576; curried leather, $1,720,520, and paper, $1,913,595.

Commerce and Railroads.—The only port of entry of the state (Portsmouth), in the year ended June 30, 1872, imported goods to the amount of $98,682, and exported goods to the amount of $5,512. The commercial fleet of the state comprised 65 sailing vessels and 5 steamers, together with a tonnage of 17,194.

N. H. had, in 1841, 53 mls. of railroads; in 1851, 537 mls.; in 1861, 661 mls., and in 1872, 820½ mls. (according to the report of the railroad commissioners). The most important lines were the Boston, Concord & Montreal R. R. (93 mls.); the Cheshire R. R. (53½ mls.); the Portsmouth, Grand Falls & Conway R. R. (65 mls.); Atlantic & St. Lawrence R. R. (52 mls.); the Concord & Portsmouth R. R. (58 mls); the Northern R. R. (82¼ mls.) and the Merrimac & Connecticut Rivers R. R. (27 mls.).

Wealth, Taxation and Debt.—The total personal and real estate of the state had, in 1870, an assessed value of $149,065,290; the true or estimated value of the same was $252,624,112. The total revenue of the state for the year ending May 31, 1872, was $732,145, and the total expenses $304,496, thus leaving a surplus of revenue to be applied to the reduction of the state debt of $427,659. The total indebtedness, June 1, 1872, was $4,138,124.

Education, Press, etc.—The public schools of the state are well managed, and rank with the best in the country. In 1870 they numbered 2,452. The number of persons of school age (from 4 to 21 years) in 1871 was 75,505, of whom 71,957 were enrolled in the public schools, while the average attendance was 49,293. The entire amount appropriated for the support of schools was $568,528. An excellent State Normal School is at Plymouth. It was established in 1870. The higher institutions of learning comprise Dartmouth College, at Hanover, which was founded in 1769, and had, in 1871, 23 instructors and 360 students. The "Chandler Scientific School" is also at Hanover. The "Methodist Biblical Institute," a theological college, is at Concord. The New Hampshire College of Agriculture and the Mechanic Arts was opened in 1870, and occupied Culver Hall at Hanover. It has 9 instructors.

The 51 newspapers had, in 1870, a circulation of 173,919, and included 7 dailies, 37 weeklies, 1 semi-monthly, 6 monthlies and 2 bi-monthlies.

The New Hampshire Asylum for the Insane and the State Penitentiary are at Concord. The latter has been self-supporting for a number of years.

Government.—N. H. was settled by English colonists at Dover and Plymouth in 1623. These settlements were annexed to Mass. in 1641, but became a separate province in 1741. It was one of the 13 original states, framed a constitution in 1776 and ratified the United States Constitution June 21, 1788.

The legislative power is vested in the Senate and House of Representatives. The former consists of 12 members, who hold their office for one year, the latter has one member for every town, parish or place entitled to town privileges, having 150 ratable male polls, of 21 years of age or upwards; two members for every town, etc., having 450 ratable polls, and so proceeding in that proportion. The representatives are chosen by ballot for one year. The legislature is officially styled the General Court of N. H.

The Governor is chosen annually in March; must be 30 years of age; must be of the Protestant religion, and must have been an inhabitant of the state for seven years next preceding the election.

There are annually elected five councilors, for advising the Governor in the executive part of government. All judicial officers, the Attorney-General, Solicitor, Sheriff, Coroners, Registers of Probate, and general field officers of the militia are appointed by the Governor and Council.

The Secretary of State, Treasurer and Commissary-General are chosen by joint ballot of the Senators and Representatives.

The Superior Court is the only tribunal of general jurisdiction.

N. H. is divided into the following 10 counties: Belknap, Carroll, Cheshire, Coos, Grafton,

Hillsborough, Merrimack, Rockingham, Strafford and Sullivan.

The state capital is Concord, 12,241 inhabitants. The other cities are, Manchester, 23,536 inhabitants; Nashua, 10,543; Dover, 9,294, and Portsmouth, 9,211.

New Hanover, co. in N. C., S. E. part. Area about 800 sq. mls. Pop., 27,978; in 1860, 21,715. It borders on the Atlantic Ocean and in the W. on Cape Fear R., Black R. and South R. The Northeast Cape Fear R. intersects it from N. to S. The surface is level and large portions are covered with pine forests, which yield turpentine. The soil is sandy and but moderately productive. In the eastern part of the co. are extensive swamps. The Wilmington & Weldon R. R. passes through the co. from N. to S. Wilmington is the co. seat. Agr. productions in 1870: Indian-corn, 133,176 bush.; oats, 540 bush.; Irish pot's, 4,192 bush.; sweet pot's, 94,713 bush.; butter, 7,480 lbs.; hay, 261 tons. Cash value of farms, $651,180. Total, estimated, value of all farm productions, including additions to stock, etc., $634,083. Value of manufactures, $2,069,804.

New Haven, co. in Conn., S. part. Area about 625 sq. mls. Pop., 121,257; in 1860, 97,345. It is bounded on the W. by the Housatonic R. and on the S. by Long Island Sound, and intersected by the Naugatuck R. and the Quinnipiac R. The central part of the co. is a level plain, from which the ground ascends toward the E. and the W. Several ranges of hills trending from N. to S. pass through the co. and divide it into a series of beautiful and fertile valleys. It is intersected by the New York, New Haven & Hartford R. R., the Shore Line R. R., New Haven, Middletown & Willimantic R. R. and New Haven & Northampton R. R. New Haven is the co. seat. Agr. productions in 1870: Wheat, 4,358 bush.; rye, 56,868 bush.; oats, 106,372 bush.; Indian-corn, 234,331 bush.; Irish pot's, 510,580 bush.; sweet pot's, 429 bush.; tobacco, 103,562 lbs.; butter, 804,236 lbs.; hay, 73,971 tons. Cash value of farms, $17,256,347. Total, estimated, value of all farm productions, including additions to stock, etc., $3,614,178. Principal products of industry in 1870: Agricultural implements, $239,164; boots and shoes, $479,880; brass ware, $555,708; carriages and wagons, $2,816,048; clocks, $1,189,100; men's clothing, $935,067; copper (rolled) $925,400; cutlery and edge tools, $1,314,578; hardware, $6,699,752; India-rubber goods, $1,900,000; iron, forged and rolled, $563,000; iron castings, $1,803,431; machinery, $916,310; pork packed, $782,500; needles and pins, $576,963; plated ware, $3,338,422; straw goods, $800,000; tin, copper and sheet-iron ware, $660,155; wire, $784,852, and woollen goods, $1,627,709. Total value of manufactures, $45,156,181.

New Haven, city, and the co. seat of New Haven co., Conn., on New Haven R., near the mouth of the Quinnipiac R. and Mill R., on the New York, New Haven & Hartford R. R. (74 mls. E. of New York); is the W. terminus of the New Haven, New London & Stonington R. R., the S. terminus of the New Haven & Northampton R. R. and the S. E. terminus of the New Haven, Middletown & Willimantic R. R. Steamers leave for and arrive from New York twice daily. It is beautifully situated on a plain on which terminate two ranges of hills, with steep and partly perpendicular precipices, known as East Rock, 360 feet high, and West Rock, 384 feet high. Chapel street is the principal thoroughfare and business street, Hillhouse avenue the most beautiful, being lined with elegant mansions standing amidst well-kept lawns and magnificent shade trees.

N. H. is called the "City of Elms," from the fact that nearly all the streets are lined with fine old elms. Near the center of the city is the famous "Public Green," a handsome lawn surrounded by trees. Here, on Church street, is the City Hall, an elegant building in the Italian gothic style, and near Temple street the State House, constructed on the model of a Grecian temple.

The educational institutions of N. H. are celebrated throughout the country. Foremost among them stands Yale College, which was founded in 1701, and removed to this city in 1717. The buildings of the academic department face College street, opposite the Green, and comprise the old dormitories, the Athenæum, the Chapel, Durfee Hall and Farnam Hall; Alumni Hall is on High street, and contains portraits of many distinguished graduates. The College Library is an ornate building in the Tudor style, and contains over 90,000 volumes. Near it is the costly structure of the School of Fine Arts, which was built and donated by Mr. A. S. Street, of N. H. Opposite the college grounds is the Theological Seminary, with the Marquand Chapel. The Sheffield Scientific School, on Grove street, comprises two fine modern buildings, with laboratories, recitation rooms, astronomical observatory and collections of minerals and geological specimens. The Law School and Medical School of the college are in separate buildings on Church and York streets.

In 1871 there were 644 students in the academic department, with 68 instructors and 215 students in the professional schools (including 150 in the Scientific School), with 25 instructors. The two most important private schools, which prepare pupils for Yale College, are the Hopkins Grammar School and the Collegiate and Commercial Institute of General Russell.

N. H. has 27 private schools. The Hillhouse High School, which has one of the finest buildings of the city, and the twenty other well graded public schools enjoy a deservedly high reputation.

The manufactures of N. H. are numerous and important. Over $10,000,000 are invested in the 374 manufacturing establishments, several of which employ nearly 1,000 laborers each. The principal articles produced are carriages, firearms (Winchester rifles, etc.), clocks, India-rubber goods, iron castings, boots and shoes, locks (in the largest factory of this kind in the world), shirts, corsets, clothing, etc.

N. H. has much commerce, especially with the West Indies. The commercial fleet in 1872 comprised 142 sailing vessels and 15 steamboats, together with 20,222 tons.

The population was, in 1850, 20,345; in 1860, 39,-267, and in 1870, 50,840. Of these were born in United States 36,482, and in foreign countries 14,358, including 2,423 natives of Germany, 1,087 of England, and 9,601 of Ireland. Among the 14 newspapers published in the city are 5 dailies.

NEW JERSEY is bounded on the N. by N. Y., on the W. by Pa., and on the E. by the Hudson R., the Kill van Kull, New York B., and the open Atlantic. The northern boundary, which separates N. J. from N. Y., is a straight line running from the junction of Neversink and Delaware Rs., in 21° 19′ N. lat. to the W. bank of the Hudson R., in 40° 59′ 48″ N. lat. Cape May

is the southern extremity. The area is 7,576 sq. mls. or 4,848,640 acres.

Surface.—This state may be divided into three distinct sections. The north-western part is mountainous, being traversed by a broad belt of ridges, belonging to the Appalachian System. The middle section consists of red sandstone with trap ridges, and is diversified by gentle undulations. The lower half of the state, with its sandy soil and its forests of pine, is comparatively level, and forms a part of the Atlantic coast plain.

The Appalachian Mts., in N. J., may be grouped into two main ranges—the Blue or Kittatinny Mts. and the Highland Range. The first is a continuation of the Shawangunk Mts. in N. Y., and is almost an unbroken ridge from the northern boundary to the Delaware Water Gap. It is the culminating ground in the state, varying in height from 925 to 1,800 feet. The crest is almost level and every where covered with forests. Between the foot of this range and the Delaware there is a line of rocky hills of limestone and slate, rising in irregular knobs and crests from 100 to 300 feet above the river. The Highland Range is composed of a great number of mountain ridges, and occupies a belt of country 22 mls. wide on the N. Y. state line, and 10 mls. wide on the Delaware R. The traveler who crosses this range from S. E. to N. W. passes over a succession of steep declivities, alternating with low valleys. The crests rise from 300 to 600 feet above the valleys. The principal divisions of the range are Bear Fort Mt., Wawanda Mt., 1,450 feet high; Hamburgh Mt., with Rutherford Hill, the highest point of the range, 1,488 feet high; and Tochuck Mt. (all near the N. W. boundary); Wallkill Mt. and Alamuche Mt. further to the S. W.; Jenny Jump Mt., Scott Mt. and Pohatoong Mt., in Warren co.; Schooley's Mt., in Morris co.; and Musconetcong Mt., near the S. W. end of the range, 986 feet high.

These ridges sink away with very gentle slopes toward the N. E., while their S. W. terminations are very abrupt. The Red Sandstone region extends as a broad belt along the E. base of the Highland Range, and is traversed by irregularly distributed ridges of trap rock. The principal of these are Sourland Mt., in Hunterdon and Somerset cos., and the Bergen Hill and Palisade Mt., in Hudson and Bergen cos. They are rough in outline, very abrupt in their descent toward the S. E. and gentle in their slope toward the N. W. High Point, in Passaic co., is the highest trap ridge of the state, and rises 868 feet above the sea level. The southern half of N. J. is characterized by the absence of mountains or rocky eminences. Its rounded hills are all earthy. The Navasink Highlands, which trend along the sea-shore S. of Sandy Hook, are about 400 feet high.

The marshes, which border the ocean and the tidal waters, form a striking feature of the state. They are usually covered with grass and sod, and their upper surface is nearly level with high water. Under the sod there is soft mud, too miry for horses and cattle to walk on. The entire area which they cover is about 295,474 acres.

Rivers, Lakes, etc.—N. J. is well watered in all its parts, and the abundance of its streams renders perfect drainage very easy; while their rapid fall gives them great value for their water-power. The Hudson R. runs along the E. border for 28 mls., and owing to the position and structure of the Palisades, which rise abruptly on its western bank, receives but few affluents from this state. The largest is the Wallkill, which traverses the Kittatinny Valley between the Blue Mts. and the Highland Range in a N. N. E. direction, and joins the Hudson in New York.

The Hackensack R. flows nearly parallel with the Hudson and empties into Newark B., which also receives the Passaic R., a stream that drains about 800 sq. mls. The valley is almost closed in by the Highlands on one side and the trap ridges on the other side. The Passaic is joined by Pompton Rockaway and Wippany Rs. The Raritan R. rises in the W. part of the state and empties into Raritan B., after receiving the Millstone, Green Brook and South Rs. The Delaware R. forms the W. boundary of N. J., and drains 2,100 sq. mls. of its area. Its tributaries are Paulin's Kill (which drains the S. part of the Kittatinny Valley), the Pequest, Pohatcong and Musconetcong Rs., which flow through the smaller valleys of the Highland Range; Cooper's, Mantua, Oldman's, Salem and Alloway Crs., which traverse the lower part of the state. The valley of the Delaware, from Carpenter's Point to the Water Gap, runs nearly parallel to the Blue Mts. The Water Gap, where the river bursts through these mountains, is famous for the grandeur of its scenery.

There are many beautiful sheets of water in the N. W. part of the state. Lake Hopatcong, or Brooklyn Pond, 914 feet above tide water, lies on top of the Highlands, is 5¼ mls. long and from ⅛ to ¾ of a mle. wide. The surroundings make it a delightful summer resort. It is drained by the S. branch of the Raritan R. Greenwood Pond, or Long Lake, is partly in N. Y. and partly in Passaic co. It is 8 mls. long and abounds in fish. Green Pond is another beautiful sheet, very near the top of Green Pond Mt., at 1,044 feet of elevation. The sea-coast of N. J. is indented by many bays. In addition to Delaware B. in the S., Newark B., Raritan B. and Sandy Hook B. in the N., there are considerable bodies of water lying in the tide marshes of the shore. They are joined by narrow passages, and so complete is this internal connection, that vessels of light draft can sail from the mouth of Metedeconk R. to Cape May without going outside the beach. Beginning at the N. there are Barnegat B., Little Egg Harbor, Absecum B., Great Egg Harbor, Peck's B., Townsend Sound, Jarvis Sound and Cape Island Sound.

Climate and Vegetation.—The climate of N. J. is on the whole mild, being tempered by the ocean. The mean annual temperature varies from 50½° in the N. W. part to 56° at Cape May. The amount of rain and snow which falls is from 40 inches on the plains to more than 50 inches on the highlands. N. J., when first settled, was almost entirely covered with forests, except the marshes on the coast, and although the state is densely inhabited and well cultivated, large parts of it are still well timbered with pine, cedar, oak, hickory, walnut, chestnut, poplar, and other trees peculiar to the latitude.

The Population of N. J. was, in 1790, 184,139; in 1800, 211,149; in 1810, 245,562; in 1820, 277,426; in 1830, 320,823; in 1840, 373,306; in 1850, 489,555; in 1860, 672,035, and in 1870, 906,096; 875,407 of whom were whites, 30,658 colored persons, 15 Chinese and 16 Indians.

The natives of the United States numbered 717,153, of whom 575,245 were born in the state; the natives of foreign countries, 188,943, of whom 54,001 were born in Germany, 2,061 in Switzerland, 686 in Austria, 3,128 in France, 26,606 in England, 5,708 in Scotland, and 86,784 in Ireland.

In all classes of occupations were engaged 296,036 persons, viz.: 63,128 in agriculture, 83,380 in professional and personal services, 46,206 in trade and transportation, and 103,322 in manufactures, mining and mechanical industries.

Minerals and Mining.—N. J. has much mineral wealth. Magnetic and other iron ores are found in Burlington co., near Dover, and other parts of the state. Rich mines of zinc are worked near Franklin, Sussex co., and immense beds of marl underlie the southern parts and yield the most valuable manure. In Cumberland co. occur beds of quartz sand, which supply large glass factories with the necessary raw material.

Agriculture.—The 30,652 farms of N. J. included,

in 1870, 2,989,509 acres (about three-fifths of the area of the state), of which 1,976,474 acres were improved and 718,335 acres woodland. The value of farms was $257,523,376; of farming implements, $7,887,991, and of all farm productions, including additions to stock, etc., $42,725,198. The products were: Spring wheat, 2,099 bush.; winter wheat, 2,299,334 bush.; rye, 566,775 bush.; Indian-corn, 8,745,384 bush; oats, 4,009,830 bush.; barley, 8,283 bush.; buckwheat, 353,983 bush.; wool, 336,609 lbs.; Irish pot's, 4,705,439; sweet pot's, 1,550,784 lbs.; bush.; butter, 8,266,023 lbs.; hay, 521,975 tons. The products of the orchards had a value of $1,295,282, and of market gardens, $2,978,250.

The value of all live stock was $21,443,463. It consisted of 79,708 horses, 8,853 mules and asses, 133,331 milch cows, 3,830 working oxen, 60,327 other cattle, 120,067 sheep and 142,563 swine.

The Manufactures of N. J. have much increased during the last census decade. In 1860 there were 4,173 establishments with a capital of $40,521,048, turning out products to the value of $76,306,104; in 1870 the number of establishments had increased to 6,636, the capital to $79,606,719, and the value of products to $169,237,732. The manufactories employed 984 steam-engines of 32,307 horse-power, 1,132 water-wheels of 25,832 horse-power, and 75,552 operatives, and consumed raw materials to the amount of $103,415,245.

The principal articles produced and their value were: agricultural implements, $833,875; boots and shoes, $3,639,076; bread, crackers, etc., $1,377,335; brick, $1,695,530; building and carpentering, $8,105,125; carriages and wagons, $2,281,643; freight and passenger cars, $1,670,427; men's clothing, $3,269,325; cotton goods, $2,326,167; thread, twine and yarn, $1,739,061; flour and meal, $12,593,148; glassware, $1,561,127; window glass, $1,241,509; hardware, $1,457,135; hats and caps, $5,007,270; India-rubber goods, $2,224,839; forged and rolled iron, $5,297,898; nails and spikes, $1,769,812; pig iron, $1,546,965; iron castings, $3,897,805; cast steel, $1,401,778; jewelry, $3,315,679; tanned and curried leather, $6,043,058; patent and enameled leather, $2,738,941; malt liquors, $3,219,484; lumber, $3,330,769; machinery, $1,772,342; steam-engines and boilers, $961,577; lead and zinc paints, $1,203,082; printed cotton and woollen goods, $5,005,997; saddlery and harness, $1,732,305; sash, doors and blinds, $2,160,795; silk goods, $4,527,664; soap and candles, $1,606,234; stone and earthen ware, $1,106,985; trunks, valises and satchels, $3,793,000; varnish, $912,419; watches, $582,800; woollen goods, $1,896,825, and worsted goods, $518,930.

Commerce and Railroads.—N. J. has six custom districts (besides Jersey City, which is attached to the custom district of New York), viz.: Bridgetown, Burlington, Great Egg Harbor, Little Egg Harbor, Newark and Perth Amboy. In June, 1872, they had 792 sailing vessels, 86 steam vessels, and 178 unrigged vessels, with a total of 93,325 tons of burden. Newark and Perth Amboy exported to foreign countries $416,442 worth of commodities, and imported from foreign countries $87,587 worth.

The railroad mileage of the state was, in 1841, 186; in 1851, 303; in 1861, 587; in 1871, 1,265, and in 1872, 1,378. The principal lines are the Camden & Atlantic R. R., the Belvidere & Delaware R. R., the Central New Jersey R. R. (291 mls.); the Morris & Essex R. R. (118 mls.); the New Jersey Southern R. R. (86 mls.); the West Jersey R. R., (129 mls.), and the lines of the United New Jersey R. R. and Canal companies (165 mls.). (They include the Camden & Amboy R. R. and the New Jersey R. R., and have been leased to the Pennsylvania Central R. R.)

N. J. has several canals, which greatly facilitate the domestic commerce of the state, the most important of which are the Morris Canal (101 mls.), connecting the Delaware & Hudson Rs.; and the Delaware & Raritan Canal, extending from New Brunswick to Bordentown.

Wealth, Taxation and Debt.—The estimated value of real and personal estate was, in 1870, $940,976,064; the assessed value of the former was $448,832,127, and of the latter $176,036,844. The total taxation, not national, in the same year, was $7,416,724, of which $373,046 was for the state, $2,397,348 for the counties, and $4,646,330 for cities, towns, etc.

The total receipts for the fiscal year 1872 amounted to $2,545,684, and the disbursements to $2,444,235, leaving a balance in cash of $101,449.

The funded state debt was, in 1870, $2,995,200, and the aggregate indebtedness of the counties, cities, towns, etc., $17,929,033.

Education, Press, etc.—The State Board of Education consists of the Governor, Attorney-General, Secretary of State, President of the Senate, Speaker of the House and the Trustees of the Normal School. This board appoints the state and county superintendents of the public schools. During the fiscal year ended August 31, 1872, there were expended for school purposes $2,263,070, of which $1,168,803 were derived from the two-mill tax appropriated by the state. The value of all the school property in the state was $4,965,788. The number of school districts was 1,378; of school-houses 1,486; of male teachers, 955, and of female teachers, 2,120. The public schools had an attendance of 99,444 pupils, and the private schools of 35,305, while 63,330 children of school age (from 5 to 18 years) attended no school.

The State Normal School at Trenton is in successful operation, and had, in 1872, 34 male and 194 female students. The Farnum Preparatory School, at Beverly, and the Model School, are connected with the Normal School. The College of New Jersey, at Princeton, is the foremost institution of learning in the state, and in its aims and purposes resembles Yale and Harvard Colleges. In 1871 it had 18 instructors and 380 students. Rutgers College, comprising an academic and a scientific school, is at New Brunswick. The Glenwood Collegiate Institute is at Matawan, and Seton Hall College at South Orange. There is also a college at Bordentown and another at Burlington. The Presbyterian Seminary at Princeton was founded in 1812, and the Drew Theological Seminary at Madison in 1867.

The penal and charitable institutions of the state are the State Penitentiary at Trenton, which is nearly self-supporting; the State Lunatic Asylum, at Bloomfield; the State Reform School for Youthful Delinquents at Jamesburg; the Home for Disabled Soldiers at Newark, and the Soldiers' Children's Home at Trenton.

The press of N. J., in 1872, comprised 138 periodical publications, of which 22 were dailies, 3 semi-weeklies, 99 weeklies, 3 semi-monthlies, and 9 monthlies.

Government.—New Jersey was first settled by Danes, Swedes and Dutch, and was dependent on New York until 1738, when it was made an independent province. It was one of the 13 original states, adopted a constitution in 1776, and ratified the United States Constitution December 18, 1787.

Every male citizen of the United States, of the age of 21 years, who shall have been a resident of the state 1 year, and of the county in which he claims to vote, 5 months next before the election shall be entitled to vote for all officers that now are or hereafter may be elective by the people.

The legislative power is vested in a Senate and General Assembly. The two houses meet yearly on the second Tuesday in January. The Senate consists of one member for each county (at present 21), chosen by the legal voters for 3 years. The Assembly is composed of members annually elected, who are apportioned among the counties according to the number of their inhabitants, provided that each county shall at

all times be entitled to one member, and the whole number of members shall not exceed sixty (which is at present the actual number).

The executive power is vested in a Governor, who is elected by the legal voters for 3 years, shall not be less than 30 years of age, and shall have been a citizen of the United States for at least 20 years, and a resident of the state 7 years next before his election. The Secretary of State is appointed by the Governor by and with the consent of the Senate, for a term of 5 years. The Treasurer is elected by the Legislature for one year; the State Librarian is appointed for three years; the Superintendent of Public Schools is appointed by the Trustees of the School Fund for two years, and the Adjutant-General and Quartermaster-General are appointed by the Governor.

The judicial power is vested in a Court of Errors and Appeals; a Court for the Trial of Impeachment, a Court of Chancery, a Prerogative Court, a Supreme Court, Circuit Courts and such inferior courts as now exist or may hereafter be established by law. The Court of Errors and Appeals consists of the Chancellor, the Justices of the Supreme Court, and 6 Judges, who are appointed for 6 years.

The House of Assembly has the power of impeachment; and all impeachments are tried by the Senate. The Court of Chancery consists of a Chancellor, who is the Ordinary or Surrogate-General, and Judge of the Prerogative Court. The Supreme Court consists of a Chief Justice and 4 Associate Justices.

Justices of the Supreme Court, Chancellor and Judges of the Court of Error and Appeals, are appointed by the Governor with the consent of the Senate. The Justices of the Supreme Court and Chancellor hold their office for 7 years.

The Circuit Courts are held in every county by one or more justices of the Supreme Court, or a judge appointed for that purpose.

New Jersey is divided into the following 21 counties: Atlantic, Bergen, Burlington, Camden, Cape May, Cumberland, Essex, Gloucester, Hudson, Hunterdon, Mercer, Middlesex, Monmouth, Morris, Ocean, Passaic, Salem, Somerset, Sussex, Union, Warren.

The State Capitol is Trenton, 22,874 inhabitants; the other principal cities are Newark, 105,059; Jersey City, 82,546; Paterson, 33,579; Hoboken, 20,297; Elizabeth, 20,832; Camden, 20,045; New Brunswick, 15,058; Orange, 9,348; Bridgeton, 6,830; Rahway, 6,258; Millville, 6,101; Burlington, 5,817; Plainfield, 5,095; Salem, 4,555, and Union, 4,640.

New Jerusalem, p. o. in Berks co., Pa.

New Kent, co. in Va., S. E. part. Area, 190 sq. mls. Pop., 4,381; in 1860, 5,884. The Pamunkey R. forms the northern boundary, the York R. the north-eastern and the Chickahominy R. the south-western. The surface is undulating and the soil of moderate fertility. New Kent Court House is the co. seat. Agr. productions in 1870: Wheat, 20,719 bush.; rye, 89 bush.; Indian-corn, 92,675 bush.; oats, 19,959 bush.; Irish pot's, 2,836 bush.; sweet pot's, 4,029 bush.; butter, 2,305 lbs.; tobacco, 8,600 lbs. Cash value of farms, $344,940. Total, estimated, value of all farm productions, including additions to stock, etc., $191,842. Value of manufactures, $84,394.

NEW MEXICO, one of the south-western territories; is bounded on the N. by Colo. Ter., on the W. by Ariz. Ter., on the S. by Mexico and Tex., and on the E. by Tex. and Ind. Ter. It lies between 31° 20′ and 37° N. lat., and 103° and 109° 9′ W. long. Its area is 121,201 sq. mls. or 77,568,640 acres.

Surface.—N. Mex. is a portion of the great table-land which occupies the continent W. of

the Mississippi Valley, and the culminating ridge of which is formed by the Rocky Mts. A number of chains of this great mountain system traverse the territory from N. to S., and are grouped along the valley of the Rio Grande on the E. and on the W. The Rio Grande enters N. Mex. from Colo. Ter., and intersects the northern state line near the center, traversing here the southern portion of the San Luis Valley, the largest and most attractive of the great parks, which is bounded on the W. by the lofty San Juan Mts., and on the E. by the Sierra Blanca. The San Luis Valley is about 7,500 feet above the sea, and the mountain barriers on either side rear their highest peaks far into the regions of perpetual snow. A few miles N. of Santa Fe the Sierra Blanca terminates in a few bold bluffs, and further S. the Rocky Mts., bordering the valley of the Rio Grande on the E., are represented by detached ranges, as the Manzana Mts., Sierra Oscura or del Oso, Sierra Soledad; and, lastly the Sierra de los Organos, which terminates on the Rio Grande near El Paso. The Sierra del Caballo, the Fra Christobal Mts. and other lower ranges rise on the banks of the Rio Grande and are separated from those named above by the dreaded "Jornada del Muerto," or Dead Journey, an arid sand plain in Socorro and Dona Ana cos.

Still another series of ranges, the Sierra Capitana, Sierra Sacramento and the Guadalupe Mts. intersect the wide region between the Sierra Soledad and the Pecos R.

All that portion of the territory which lies W. of the Rio Grande Valley is occupied by lofty plateaus or mesas, detached mountain chains, and intervening desert plains.

The Sierra San Mateo passes through Santa Ana co., and the Zuni Mts. through Valencia co., joining the Sierra del Datil, which intersects Socorro co. The most southern of the high and broken ranges W. of the Rio Grande is the Sierra Mimbres, which divides this stream from the head waters of the Gila.

Rivers.—The Rio Grande is the largest river of the territory and intersects it from N. to S. Its tributaries are neither numerous nor large. The Rio Chama, which drains the south-western slopes of the San Juan Mts., and the Rio Puerco, which receives the Rio San Jose, join the main stream from the W. The Pecos R., which empties into the Rio Grande in Tex., has its source in the mountains E. of Santa Fe, flows S. E. as far as Lincoln co., and then S. along the western borders of the Llano Estacado. The Canadian R. rises in the Sierra Blanca and intersects the north-eastern part of N. Mex. The Cimarron R., or Red Fork of the Arkansas, rises among the Raton Mts., near the northern boundary of Colfax co.

The W. part of the territory is drained by tributaries of the Colorado of the West. The Rio San Juan, rising in the Sierra de la Plata of Colo. Ter., intersects Taos co. The Rio Colorado Chiquito or Flax R., which rises in Santa Ana co., and the Gila R., which rises in the Sierra Luero, flows westward into Ariz. Ter. The Rio de los Mimbres rises in the Mimbres Mts., has a southerly course and empties into the Laguna de Guzman in Mexico.

Climate and Vegetation.—The climate greatly varies in different portions of the territory, according to latitude and elevation above the sea. In the northern mountainous portions the winters are severe, and the mean annual temperature is less than 48°, while the valley of the Rio Grande enjoys mild winters and hot summers and has, in its southern parts, a mean annual temperature of 60° to 64°. Few parts of the United States have a more arid climate than N. Mex., the rain fall varying from 8 inches in the Rio Grande Valley to 20 inches near the Tex. state line; hence vegetation is by no means luxuriant. The bottom-lands of the streams support narrow belts of cottonwood. The uplands are either sandy plains and deserts, or support a growth of "grama" or "mesquite" grass, which dries upon the stalk, yielding a nutritious hay. The characteristic plants of the desert portions of the territory are the mesquite bush and various species of cactus.

Population.—The Spanish adventurer Alvarez Nuñez was the first to penetrate from the S. into the region now constituting N. Mex. in 1536. Three years later a second journey was undertaken by Marco de Niza, and in 1540 a third by Coronado. The latter crossed the Gila R., and beyond the Rio Grande saw the first buffaloes. In 1595 Juan de Oñate took possession of the territory in the name of the King of Spain, without, however, giving distinct boundaries to the new acquisition. It remained a part of Mex. until 1846, when, on the outbreak of the war with the United States, General Kearney took possession of Santa Fe. In the treaty of Guadalupe Hidalgo, which terminated the war, N. Mex. was ceded to the United States.

The population consists chiefly of descendants of the early Mexican colonists and of the semi-civilized Pueblo Indians, who carry on farming and gardening, live in villages ("pueblos"), and are the bitter enemies of the roving tribes. In 1850 N. Mex., which then included Ariz. Ter. and a part of Colo. Ter., had a population of 61,547; in 1860, 93,516; and in 1870 (after the organization of the territory with its present limits), 91,874. Of these there were 90,393 white, 172 colored, and 1,309 Indians out of tribal relations. The Pueblo Indians numbered 19,429, and the nomadic tribes 5,080 (estimated). The foreign-born population (5,620) included 122 natives of British America, 120 of England, 543 of Ireland, 582 of Germany and 3,903 of Mexico.

Minerals and Mining.—The principal wealth of the territory consists in its mineral treasures. The Old and New Placer Districts in Santa Fé and Bernalillo cos. embrace an extent of more than 200 sq. mls. and possess many rich gold and silver lodes. Of equal extent is the Pinos Altos District, in Grant co. The Cimarron District (400 sq. mls. large), in Colfax co., is supplied with water by a canal 37 mls. long. Here is the famous Maxwell Lode, which has yielded as much as $15,000 worth of gold in one week. The Carson Lode, in the Manzana Mts., produces from $60 to $1,200 worth of gold to the ton of ore. In various parts of the territory other deposits of gold and silver have been discovered. Iron, copper and bituminous coal are also abundant.

Agriculture.—The arid climate renders farming in N. Mex. impossible, except with the aid of irrigation. The valley of the Rio Grande contains nearly all the cultivated lands; but there are doubtless many other extensive districts which may be opened to the farmer by the construction of irrigating canals. The farms contained, in 1870, 143,007 acres of improved land, 106,283 acres of woodland and 584,259 acres of other unimproved land. The cash value of farms was $2,260,139, and the estimated value of all farm productions, including additions to stock, etc., $1,905,060. The products were: Spring wheat, 338,930 bush.; winter wheat, 13,892 bush.; Indian-corn, 640,823 bush.; oats, 67,600 bush.; barley, 3,876 bush.; peas and beans, 28,856 bush.; Irish pot's, 3,102 bush.; tobacco, 8,587 lbs.; wool, 684,930 lbs.; butter, 12,912 lbs.; wine, 19,686 gallons; and hay, 4,209 tons.

The live stock had a value of $2,389,157, and comprised 5,033 horses, 6,141 mules and asses, 16,417 milch cows, 19,774 working oxen, 21,343 other cattle, 619,438 sheep, and 11,267 swine.

Railroads.—N. Mex. has no railroads; but several companies have been incorporated, whose lines will intersect the territory and afford the much needed connections and means of transportation. The Denver & Rio Grande R. R. will connect Denver, Colo., with El Paso, Mexico, and

extend along the valley of the Rio Grande. The Southern Pacific R. R. will pass through Dona Ana and Grant cos.

Wealth and Taxation.—The assessed value of real estate in 1870 was $9,917,991, and of personal property, $7,866,023. The true or estimated value of both kinds of property was $31,349,793. The state taxes amounted to $34,115, and of county taxes to $26,101.

N. Mex. has no public school system. The law passed by the legislature in 1855 for the establishment of public schools, to be supported by taxing the real estate, was submitted to the people for ratification : but was defeated with 5,016 against 37 votes. There were 5 newspapers published in the territory in 1870.

Government.—N. Mex. was organized as a territory by act of Congress September 9, 1850. The Governor, Secretary, Superintendent of Indian Affairs and Purveyor of Public Funds are appointed by the President by and with advice and consent of the Senate. The Supreme Court consists of a Chief Justice and two Associate Justices, appointed by the President for 4 years. This court holds one term annually at the seat of the territorial government. One of the justices holds a district court session in each of the three districts into which the territory has been divided. The Supreme and District Courts have chancery and common law jurisdiction.

N. Mex. is divided into the following 14 counties: Bernalillo, Colfax, Dona Ana, Grant, Lincoln, Mora, Rio Arriba, San Miguel, Santa Ana, Santa Fe, Socorro, Taos and Valencia. Santa Fe is the capital.

New Orleans, city, port of entry, co. seat of Orleans co. and capital of the state of La.; is situated on the left bank of the Mississippi R., about 120 mls. above the mouth, in 29° 58′ N. lat. and 90° 8′ W. long. The city extends along the convex shore of a great bend formed by the river, whence it has received the name of "Crescent City." The ground on which it stands is four feet below the river during high water, and is protected from innundation by substantial "levees," or dikes.

New Orleans was founded in 1718 by Bienville, who, as governor of the then French colony of La., removed thither the seat of government from the shore of the Bay of Mobile. In 1722 it had 100 wooden houses and about 200 inhabitants. In 1800 the population was 8,000; in 1820, 27,176; in 1840, 102,193; in 1860, 168,823, and in 1870, 191,418. It is at present the ninth largest city in the Union. The population comprises 142,943 natives of the United States, of whom 78,209 were born in La., 15,224 natives of Germany, 14,693 of Ireland, 2,643 of England, Scotland and Wales, 8,806 of France, 951 of Spain, 668 of Switzerland and 775 of Cuba.

New Orleans is the most important commercial center of the southern states, and the terminus of the following railroads: The Memphis & New Orleans R. R., Morgan's Louisiana & Texas R. R. and the New Orleans, Jackson & Great Northern R. R. The Mississippi and its tributaries afford steamboat communication with the larger inland cities of the United States, and make New Orleans the center of nearly 20,000 mls. of navigable higways. From 1,000 to 1,500 steamboats may often be seen lying at the wharves of the city discharging the rich produce of the great interior valley of the country—grain, flour and pork from the northern states, cotton from the southern, and tobacco, hemp, etc., from Ohio and Ky.; or receiving, as return freight, sugar, coffee, wines and other products of foreign countries. During the fiscal year ended June 30, 1872, there were imported from foreign countries goods of $18,542,188 in value, including 317,422 gals. of malt liquors, 2,921,417 lbs. of rice, 25,417,771 lbs. of coffee, 4,305,601 sq. yds. of bleached and unbleached cotton goods; 6,851,968 sq. yds. of printed cotton goods, $270,010 worth of fruits, 27,253,338 lbs. of pig iron, 239,574,185 lbs. of iron railroad bars, 6,054,628 lbs. of steel rails, 56,387,200 lbs. of salt, 36,615,523 lbs. of sugar, 662,257 gals. of molasses, 89,259 cwt. of tin, 83,768 lbs. of cigars, 86,966 gals. of cordials, 648,293 gals. of wine in casks, 41,105 dozens of bottles of wine, 413,131 sq. yds. of dress goods, etc.

The domestic exports during the same year had a value of $89,501,149, and included 790,959 bush. of Indian-corn, 33,875 bush. of oats, 89,911 bbls. of wheat flour, 425,962,689 lbs. of cotton of $82,111,842 in value, 32,843,850 lbs. of oil cake, 6,382,675 lbs. of lard, 311,305 lbs. of pork, 38,184,337 lbs. of leaf tobacco, etc.

The number of vessels which entered the port during the same fiscal year was 800, with 501,965 tons of burden, and of vessels which cleared for foreign countries, 816, with 537,715 tons of burden. The commercial fleetof New Orleans comprised 379 sailing vessels, with 13,566 tons; 163 steam vessels, with 39,784 tons, and 8 unrigged vessels, with 1,306 tons.

New Orleans is regularly laid out, and with the exception of the oldest part, between

Canal, Rampart and Esplanade streets, handsomely and substantially built. These three are the principal streets of the city, the first containing the largest stores and retail business houses; the last the most magnificent residences. Among the chief buildings are to be mentioned the Roman Catholic Cathedral of St. Louis, on the Place d'Armes, or Jackson Square, opposite the river, the City Hall, the United States Custom House, an immense granite structure, and the United States Mint. The city contains over 70 churches, many of which are large edifices. The charitable institutions are numerous, as the Charity Hospital on Common street, which accommodates 450 patients; the Asylum of St. Elizabeth, in charge of the Sisters of Charity; the Maison de Sante, six orphan asylums, Stowe's Hospital, Franklin Infirmary, etc. Nor is there any lack of places of amusement. The French Opera, the St. Charles Theater, the Academy of Music and "New Varieties," are widely and favorably known. The finest hotel of the city and one of the best in the country is the "St. Charles," a large and beautiful structure on St. Charles street, with accommodations for 1,000 guests.

The public school system embraces four high schools and 53 district schools. The University of Louisiana, on Common street, consists of a prosperous law school and a medical school, which has a good anatomical museum and several valuable collections. Other higher educational institutions are the Union Normal School, the Leland Academy, the Peabody Seminary and Straight's University. The Roman Catholics have a Jesuit college, a seminary for the training of priests, several academies, parochial and other schools.

There are published in New Orleans 22 newspapers, 6 of which are dailies, as the "New Orleans Bee, or l'Abeille," French and English; "New Orleans Picayune," circulation 12,600; "New Orleans Commercial Bulletin," "New Orleans Republican," "New Orleans Times," and the "New Orleans Zeitung," German.

The objects of interest in the vicinity of the city are the Battle-Field, 4½ mls. S. of Canal street, the place where General A. Jackson defeated the British, under General Packenham, in 1815; the United States Barracks, situated on the river, 3¼ mls. below the city; the Ursuline Convent, a short distance N. of the Barracks, with an imposing front of 200 feet; Lake Pontchartrain, 5 mls. N. of the city, famous for its fish and game, is reached by the Lake R. R.; and Jefferson City, a pleasant suburb immediately W. of the city.

Newport, co. in R. I., forming the S. E. extremity of the state. Area about 125 sq. mls. Pop., 20,050; in 1860, 21,896. It comprises the mainland lying E. of Narraganset B., and the islands in that bay. The surface is undulating and the soil generally good. Newport is the co. seat. Agr. productions in 1870: Wheat 152 bush.; rye, 1,540 bush.; oats, 76,980 bush.; Indian-corn, 92,975 bush.; Irish pot's, 92,878 bush.; butter, 266,775 lbs.; hay, 17,229 tons. Cash value of farms, $4,803,680. Total, estimated, value of all farm productions, including additions to stock, etc., $898,593. Value of manufactures, $2,346,232

***Newport,** city, port of entry and co. seat of Newport co., and semi-capital of the state of R. I.; situated on the Island of Rhode at the southern terminus of the Old Colony R. R., 68 mls. S. of Boston. Its position on the E. coast of Narraganset B., and on a capacious, deep and easily accessible harbor, gives it unusual commercial facilities, which are turned to account in an extensive coastwise and fishing trade. The city improvements have been very marked within a few years, and it boasts many elegant private residences, beautiful public buildings and spacious hotels. It is renowned for its pure sea air, and has become one of the most fashionable summer resorts of the Atlantic coast. It is connected by steamers with the cities N. and S. of it, and is largely engaged in manufactures, the principal products being carriages, cabinetware, clocks, cotton goods, etc. Pop., 12,521; in 1860, 9,817, making it the second city in size in the state. Four newspapers.

NEW YORK, one of the middle states; is bounded on the E. by Vt., Mass. and Conn., on the S. by N. J. and Pa., and on the N. W. by Canada, from which it is separated by Lake Erie, the Niagara R., Lake Ontario and the St. Lawrence R. It is triangular in shape. One angle rests upon the Atlantic, another on Lake Champlain, while a third reaches W. to the southern shore of Lake Erie. The eastern boundary, from Canada to Staten Island, is 311¾ mls. long, and its largest dimension from E. to W. is 412 mls. The state includes Long Island, which extends 130 mls. into the Atlantic Ocean, and Staten Island, which separates the inner from the outer bay of New York.

N. Y. has an area of 47,000 sq. mls., or 30,080,000 acres, and lies between 40° 29′ 40″ and 45° 0′ 42″ N. lat., and 71° 51′ and 79° 47′ 25″ W. long.

The Surface is greatly diversified and includes rolling plateaus, level valleys and lofty mountain chains belonging to the great Appalachian System. Two deep channels constitute the chief base lines of the state. The one is a somewhat rugged valley in which lie Lake Champlain, Lake George and the Hudson R., and this is intersected at right angles, about midway, by the second, the Valley of the Mohawk. These deeply-grooved valleys of the Hudson and the Mohawk give to N. Y. the substantial advantage that it is the only state bordering on the Atlantic which could make a communication between the sea-board and the great lakes and valleys of the interior of the continent without having to overcome one or more mountain ridges; and to them it largely owes its commanding position in the Union as the "Empire State."

The narrow belt of country lying E. of the Hudson River Valley is intersected by the spurs of the Green and Hoosac Mts., one of which passes through Dutchess and Putnam cos. and terminates with bold precipices on the banks of the great stream opposite West Point.

That portion of the state which lies W. of the Hudson R. consists chiefly of rolling table-lands, gently sloping down toward the valley of the Mohawk R. and Lake Ontario in the N., and toward Lake Erie in the W. It is traversed by the prolongations of the ranges of N. J., as the Shawanyunk Mts., the Blue Ridge and the complex chains of the "Highlands," which occupy Orange co. and abut on the Hudson at West Point. Here, where the National Military Academy lies, amidst natural features of unrivaled grandeur and beauty, is the rocky gateway through which the Hudson R. passes on to the sea, and which is commanded by the bold heights of Crows' Nest, Storm King, Beacon Hill, Bull Hill, Old Beacon and others, elevated above the sea from 1,000 to 2,000 feet. North of these ranges and of Rondout Cr. the surface rises in Greene and Schoharie cos. to the lofty

Catskill Mts., which sweep in a wide curve from the valley of the Hudson R. to the valley of the Mohawk R., and attain in Round Top, High Pk., Overlook Mt., Rockland Mt. and others, an elevation of 4,000 feet and more. The lower range of the Helderberg Mts. trends parallel to the Catskills through Albany co. N. of the valley of the Mohawk R. and W. of Lake Champlain are the Adirondack Mts., consisting of several chains, which trend N. E. and S. W. and culminate in Mt. Marcy. (See Adirondack Mts.)

Rivers and Lakes.—The principal stream of the state is the Hudson R., which rises in the Adirondack Mts. and has a southerly course of 300 mls. in length, 160 mls. of which are navigable for the largest vessels. (See Hudson R.) The St. Lawrence R., which washes a part of the N. W. boundary, receives the following tributaries from the state: the Oswegatchie R., with Indian R., Beaver R., which drains Cranberry Lake; Grass R., Racket R., rising in Racket Lake; St. Regis R. and Salmon R. Lake Champlain receives Saranac R., Au Sable R. and Roquet R. All these streams rise in the Adirondack Mts. and drain the beautiful lakes in which these abound.

Into Lake Ontario empty Black R. with its affluents, Moore R., Independence Cr. and Beaver R., the Oswego R., which is formed by the confluence of the Oneida and Seneca Rs., and is the outlet of Oneida, Onondaga, Skeneateles, Owasco, Cayuga, Seneca, Crooked and Canandaigua Lakes, and the Genesee R., which rises in Pa., intersects N. Y. from S. to N. and drains Conesus, Hemlock and Honeoye Lakes.

The Niagara R. receives Tonawanda Cr., and Lake Erie receives Cattaraugus Cr. and other small affluents. The S. W. part of the state is drained by the Alleghany R. and its tributary, Conewango Cr., which receives the outlet of Chautauqua Lake. The Susquehanna R. rises in Otsego Lake and drains the south central part of N. Y., receiving here the outlet of Schuyler Lake, the Unadilla R., Chenango R., Tioughnioga R. and the Tioga R., with the Conhocton and Canisto Rs. The East and West Branches of the Delaware R., which separates N. Y. from Pa., intersect and drain Delaware co.

Climate and Vegetation.—The climate of N. Y., though marked by great extremes, is on the whole moderate and salubrious. The Adirondack region, with its long and severe winters, is the coldest part of the state, and has a mean annual temperature of less than 40 degrees. The mean annual temperature in the central portions is from 44° to 48°, and in the extreme southern, 50°. The rain-fall varies from 32 inches in the St. Lawrence Valley to 44 inches in the lower Hudson Valley. The interior parts of the state receive about 40 inches.

N. Y. was formerly covered with forests, and these are still extensive, although the state is one of the most densely populated and best cultivated in the Union. The Adirondack Mts. are timbered with coniferous trees and poplars. In the other portions the most prevalent are deciduous trees, as the oak (in over 10 species), maple, hickory, chestnut, elm, lime, or linden, beach, sycamore and cedar.

Population.—N. Y. is the nineteenth state in the Union as regards territorial extent; but the first as regards population. This was, in 1870, 4,382,759, including 4,330,210 whites, 52,081 colored persons, 439 Indians and 29 Chinese. The natives of the United States numbered 3,244,405, including 2,948,883 natives of the state, 38,339 of Conn., 3,633 of Ill., 1,263 of Ind., 1,235 of Ky., 5,964 of Me., 3,675 of Md., 41,062 of Mass. 4,825 of Mich., 9,196 of N. H., 30,941 of N. J., 7,426 of Ohio, 34,771 of Pa., 6,900 of R. I., 1,328 of S. C., 36,177 of Vt., 3,612 of Va., and 2,546 of Wis. The foreign-born population numbered 1,138,356, of whom 78,510 were natives of British America, 1,698 of Denmark, 22,273 of France, 316,882 of Germany, 3,928 of German Austria, 110,003 of England, 528,806 of Ireland, 27,277 of Scotland, 7,856 of Wales, 6,426 of Holland, 3,591 of Italy, 4,061 of Poland, 1,473 of Russia, 5,522 of Sweden, and 7,911 of Switzerland.

The growth of the state has been extraordinary. In 1790 the population was 340,120; in 1800, 589,051; in 1810, 959,049; in 1820, 1,372,111; in 1830, 1,918,608; in 1840, 2,428,921; in 1850, 3,097,394; and in 1860, 3,880,735.

The population of 10 years of age and more numbered 3,378,959, of whom 1,491,018 were engaged in all classes of occupations, viz.: 374,323 in agriculture, 405,339 in professional and personal services, 234,581 in trade and transportation, and 476,775 in manufactures and mechanical and mining industries.

Minerals and Mining.—The mineral treasures of N. Y. are great, although they neither include coal nor the precious metals. Iron ores are especially abundant. Specular iron and hematite occur in Columbia and Dutchess cos., and magnetic iron in Putnam, Orange and Westchester cos. The Adirondack region is also very rich in iron deposits. Lead occurs in Ulster, St. Lawrence and the cos. E. of the Hudson R. The central and some of the western cos. yield large quantities of gypsum, which is extensively used as manure and also exported. Quarries of a superior marble are worked near Sing Sing, and other building materials, as sandstone, limestone and granite are found abundantly in various sections of the state. The salt springs in Onondaga, Orleans, Erie & Genesee cos. yield over 12,000,000 bush. annually of pure salt and support a prosperous industry. New York is rich in medicinal springs, the most famous of which are those of Saratoga, Balston, New Lebanon, Avon and Sharon. Petroleum is obtained in Allegany co.

Agriculture.—The soil of the state greatly varies in fertility in the different portions. The valleys of the Hudson and Mohawk Rs., and the so called "Genesee Flats" on the lower Genesee, are exceedingly productive, include the richest portions of New York, and produce fine crops of grain and fruits. The hilly districts and table-lands are best adapted to stock raising and dairying, while the great Adirondack region presents conditions of soil and climate which render it almost unfit for any branch of agriculture, and hence it is known as the "Wilderness." But with all these diversities New York may be called a fertile state; and as its farmers are energetic and intelligent, paying great attention to scientific agriculture, its productions take a high rank as regards quantity as well as quality.

In 1870 the 216,253 farms comprised 22,190,810 acres, or nearly 74 per cent. of the total area of the state. The number of acres of improved land was 15,627,206; of woodland, 5,679,870, and of other unimproved land, 883,734. The farms had a cash value of $1,272,857,766; of farming implements and machinery, $45,997,712. The total value of farm productions, including additions to stock and implements, was $253,526,153; of orchard products, $8,347,417, and of market gardens, $3,432,354. The products were: Spring wheat, 1,834,330 bush.; winter wheat, 10,344,132 bush.; rye, 2,478,125 bush.; Indian-corn, 16,462,825 bush.; oats, 35,293,625 bush.; barley, 7,434,621, bush.; buckwheat, 3,904,030 bush.; tobacco, 2,349,798 lbs.; wool, 10,509,225 lbs.; Irish pot's, 28,547,593 bush.; wine, 82,607 gals.; butter, 107,147,526 lbs.; cheese, 22,769,964 lbs; milk sold, 135,775,919 gals.; hay, 5,614,205 tons.; hops, 17,558,681 lbs., and flax, 3,670,818 lbs.

The live stock had a value of $175,882,712, and comprised 536,861 horses; 4,407 mules and asses; 1,350,661 milch cows; 64,141 working oxen; 630,522 other cattle; 2,181,578 sheep, and 518,251 swine.

Manufactures.—In 1860 N. Y. had 22,624 manufacturing establishments, and in 1870, 35,205, a number which is exceeded only by that of Pa. The 4,664 steam-engines had 126,107 horse-power, and the 9,011 water-wheels, 208,256 horse-power.

The number of hands employed was 351,800; the capital invested, $355,904,320; the wages paid were $142,436,758; the raw materials consumed had a value of $452,065,452, and the products of $785,194,651 (by $73,130,307 more than Pa., and by $231,282,083 more than Mass.). The principal products of industry, with their values, were as follows: Agricultural implements, $11,847,037; bags, $2,002,288; leather belting and hose, $1,377,100; book-binding, $4,557,119; boots and shoes, $22,674,874; packing boxes, $2,127,953; brass founding, $1,287,107; bread, crackers and bakery products, $9,535,153; brick, $4,483,202; brooms and whisp brushes, $3,135,723; carpentering and building, $17,305,232; carpets, $5,185,176; carriages and wagons, $11,049,345; cheese, $12,164,065; men's clothing, $44,718,491; women's clothing, $4,830,425; confectionery, $3,942,391; cooperage, $4,945,434, cotton goods, $10,740,961; drugs and chemicals, $4,578,857; edge tools, $1,558,545; envelopes, $1,142,000; firearms, $1,890,957; flour and meal, $60,237,220; canned and preserved fruits, $1,059,150; furniture, $13,715,137; chairs, $2,350,131; dressed furs, $7,023,488; gas, $8,512,705; gas and lamp fixtures, $1,397,000; glassware, $2,492,073; gloves and mittens, $3,507,795; hardware, $2,484,787; hats and caps, $3,708,723; hoop skirts and corsets, $2,886,619; hosiery, $5,528,742; India-rubber and elastic goods, $3,076,720; iron blooms, $2,171,165; forged and rolled iron, $16,834,480; pig iron, $7,922,463; iron castings, not specified, $17,252,226; stoves, heaters and hollowware, $6,741,210; jewelry $9,757,855; lead pipe, $10,732,800; tanned leather, $26,988,320; curried leather, $6,310,222; distilled liquors, $3,181,743; malt liquors, $15,818,863; planed lumber, $6,332,341; sawed lumber, $21,238,228; machinery, $11,282,937; steam-engines and boilers, $3,025,023; malt, $6,052,132; marble and stone work, $7,825,354; refined sugar, $12,837,184; pianos, $1,440,284; lead and zinc paint, $2,312,500; paper, $10,757,563; patent medicines, $3,322,467; printing and publishing, $14,854,573; saddlery and harness, $3,660,929; sash, door and blinds, $5,138,771; sewing machines, $6,920,140; sewing silk, $1,503,500; soap and candles, $6,125,018; starch, $4,678,413; tin, copper and sheet-iron ware, $8,130,944; tobacco and cigars, $18,940,658; upholstery, $2,923,251, and woollen goods, $14,152,625.

Commerce and Railroads.—New York has ten customs districts, viz.: New York and Sag Harbor on the sea-coast, and Champlain, Buffalo, Cape Vincent, Dunkirk, Genesee, Niagara, Oswegatchie, and Oswego on the lakes and rivers bordering the state. During the year ended June 30, 1872, the total imports of foreign commodities had a value of $138,836,356; the exports of domestic goods of $273,019,362, and of foreign goods, $15,180,935.

The total number of merchant vessels belonging to the state was 8,255, which had a tonnage of 1,375,192.

According to the reports of the Commissioner of Railroads, of March 26, 1872, there were 194 railroad companies incorporated by the state (exclusive of 104 horse railroad companies). The total length of railroads was 4,307, and will be, after the completion of the lines now in the course of construction, 6,980 mls. The incorporated capital amounted to $302,880,210; the subscriptions paid in to $272,624,490; the debts, $129,251,952, and the total cost of construction and stocking, $388,710,030. There were carried, during the year, 1871, 28,791,838 passengers and 22,739,447 tons of freight. The following are the principal lines: New York Central & Hudson R. R. R., from New York City to Buffalo, via Albany, (440¾ mls.), with 8 lateral branches of 298½ mls., and 3 leased lines of 110¼ mls., making a total length operated by the company of 853¾ mls.: Erie R. R., from New York City to Dunkirk (445 mls.), with branches and leased lines 959 mls. Albany & Susquehanna R. R. (164½ mls.); Buffalo, New York & Philadelphia R. R., from Buffalo to Emporium, Pa. (117 mls.); New York and Harlem R. R., from New York city to Chatham, with branches (134¾ mls.); Harlem Extension R. R., from Chatham Four Corners to Rutland, Vt., 114 mls.; New York & Oswego Midland R. R., from Oswego to Middletown (248 mls.), (with branches, 379 mls.); Rome, Watertown & Odgensburg R. R. (238 mls.); Rensselaer & Saratoga R. R. (181 mls.); Long Island R. R. (158 mls.); Southern Central R. R., from Fair Haven, on Lake Ontario, to Pa. state line, 116 mls., etc.

N. Y. has an extensive canal system, the principal artery of which is the Erie Canal, which extends 350 mls. along the valley of the Mohawk R., from Albany to Buffalo, thus making, with the Hudson R., an uninterrupted water communication between New York city and Lake Erie. The Chemung & Chenango Canal connects the Susquehanna R. with Lake Erie and the Hudson R. Other lines are the Champlain Canal (60 mls.); the Black River Canal (91 mls.); the Chenango Canal (97 mls.); the Oswego Canal (38 mls.); the Cayuga & Seneca Canal (23 mls.); the Chemung Canal (23 mls.), and the Genesee Valley Canal (107 mls.), connecting the Erie Canal with the Alleghany R. The total length of the canals is 938 mls. The expenses on their account were, in 1872, $2,537,164, and the revenues from tolls, etc., $3,107,138.

Wealth, Taxation and Debt.—The assessed valuation of real estate, in 1870, was $1,532,720,907, and of personal estate, $434,280,278. The true value of both kinds of property was estimated at $5,500,841,264. The interest bearing debt, in 1870, was $32,409,144, and in 1872, $25,386,726, showing a decrease of $7,022,418. The debts of the counties, according to the census, amounted to $50,688,784, and of the cities and towns to $76,719,304. The total of the whole public indebtedness was $159,808,234. The total taxation amounted to $48,550,308, of which $8,720,155 were state taxes, and $24,727,391 county taxes. The tax levy for the year 1872 amounted to 9⅛ mills, of which 5¼ mills were for bounty debt and canal and general deficiencies. The total amount of taxes collected under this levy was $19,580,882.

Education and Press.—For the year ended September, 1872, the total receipts for school purposes were $11,462,900, and the total expenditures $10,322,691, of which $8,953,318 were for teachers' salaries. The state then had 11,740 school-houses in 11,369 school districts. The number of children attending public schools was 1,010,242; normal schools, 5,657, and private schools, 131,519. The fact that, since 1850, nearly $100,000,000 have been expended for the public schools, clearly testifies to the great interest taken in them by the people.

There are eight normal schools for the training of teachers in the state, viz.: at Albany, Oswego, Brockport, Cortland, Fredonia, Potsdam, Buffalo and Genesee. The number of higher educational institutions is very large, and includes Columbia College, University of New York, Manhattan College and Rutgers College for female students—all in New York city; Cornell University at Ithaca, the St. Lawrence University at Canton, the Alfred University at Alfred, Hamilton College at Clinton, the University of Rochester, Elmira Female College; Vassar College for young ladies, near Poughkeepsie; Ingham University at Le Roy, the Baker Collegiate Institute at Brooklyn, and the celebrated Collegiate and Polytechnic Institute also at Brooklyn. The 22 higher institutions, exclusive of the professional schools, had, in 1871, 3,207 pupils and 303 instructors. There were further, 36 medical schools, 11 theological seminaries and 5 law schools. The 232 academies had nearly 30,000 pupils and 1,061 instructors. An agricultural college is connected with Cornell University, a polytechnic department with the University of New York, and a mining school with Columbia College.

The number of newspapers and periodicals

published in the state, in 1872, was 894 (nearly one-seventh of the number published in the United States), including 89 dailies, 3 tri-weeklies, 18 semi-weeklies, 558 weeklies, 25 semi-monthlies, 107 monthlies, 2 bi-monthlies and 20 quarterlies. There were published 36 in the German, 3 in the French, 1 in the Swedish, 5 in the Spanish, 3 in the Italian and 1 in the Portuguese languages. The total circulation of the periodical publications was 7,561,497.

Charitable and Penal Institutions.—N. Y. has 3 institutions for the deaf and dumb (two at New York city and one, St. Mary's Asylum, at Buffalo), in which there were under instruction 696 pupils. Institutions for the blind are in New York city and Buffalo.

There were confined, on Jan. 1, 1871, 4,484 persons in the State Lunatic Asylums, which were the following: The State Lunatic Asylum, at Utica; the Willard Institute, at Ovid; the New York Lunatic Asylum, at New York City; the King's County Asylum, at Flatbush; the Monroe County Asylum, at Rochester; the Marshall Institute, at Troy, and the Providence Asylum, at Buffalo. Other similar institutions were the Bloomingdale Asylum, at New York city, the Asylum on Blackwell's Island and New York Asylum for Idiots, at Syracuse. The 124 orphan asylums received from the state treasury $313,253, and the 84 hospitals and dispensaries, $343,676.

The three State Penitentiaries, at Sing Sing, Auburn and Clinton, are but partially self-supporting. In 1871, the state contributed $470,307 toward their maintenance. The House of Refuge and the Juvenile Asylum, on Randall's Island, the Western House of Refuge, at Rochester, and the Catholic Protectory at West Farms, are correctional institutions for youthful delinquents.

Government.—Hendrick Hudson, an English navigator, in the service of the Dutch East India Company, was the first European who (in 1609) entered the Bay of New York and explored the river now bearing his name. Four years later the Dutch established trading posts on Manhattan Island and below Albany. In 1614 the colony received the name of "New Netherlands," but, in 1664, the Duke of York appeared with a squadron before New Amsterdam and demanded its surrender. Governor Stuyvesant had to yield, and the colony received the name of New York. The Dutch retook it in 1673; but in the following year it was finally ceded to the English by the treaty of Westminster.

N. Y. is one of the original 13 states of the Union; framed a constitution in 1777, and ratified the United States constitution July 26, 1788. The state constitution has been amended several times. The constitution framed by the convention in session from June to October, 1846, was ratified at the general election in November following. In 1866 the measure of holding a convention was approved by the people; and in June, 1867, the convention met, and terminated its labors in February, 1868.

The new constitution was submitted to the people, but only the amended Judiciary Article was adopted. With this exception, the constitution of 1846 is still in force.

Every male citizen of the age of 21 years, who shall have been a citizen for 10 days, and an inhabitant of the state one year next preceding any election, and for the last 4 months a resident of the county where he may offer his vote, shall be entitled to vote. But colored citizens are required to possess a freehold estate of $250 in value over and above all debts and encumbrances.

The legislative power is vested in a Senate and Assembly. The Senate consists of 32 members and the Senators are chosen for 2 years. The Assembly consists of 128 members, who are elected annually.

The executive power is vested in a Governor, who must be 30 years of age and must have been a resident of the state for 5 years next preceding an election. The Governor is elected for two years at the times and places of choosing members of the Assembly. The Lieutenant-Governor is chosen for 2 years and is president of the Senate, but only has a casting vote therein.

The Secretary of State, Comptroller, Treasurer, Attorney-General and State Engineer and Surveyor are chosen at a general election for 2 years.

Three Canal Commissioners and three Inspectors of State Prisons are chosen for three years.

The Assembly has the power of impeachment. The court for the trial of impeachments is composed of the president of the Senate, the senators, or the major part of them, and the judges of the Court of Appeals, or the major part of them.

The Court of Appeals is composed of a Chief Judge and six Associated Justices, who are chosen by the electors for a term of 14 years. The state is divided into eight districts, each of which has a Supreme Court.

The Supreme Court has general jurisdiction in law and equity, subject to the appellate jurisdiction of the Court of Appeals. Five of the justices reside in the district which is the city of New York; and four in each of the other districts. The state is divided into eight districts. The justices of the Supreme Court are elected for 14 years. Every county has its County Court, Surrogate Court and several Justices of the Peace.

N. Y. is divided into the following 60 counties: Albany, Allegany, Broome, Cattaraugus, Cayuga, Chautauqua, Chemung, Chenango, Clinton, Columbia, Cortland, Delaware, Dutchess, Erie, Essex, Franklin, Fulton, Genesee, Greene, Hamilton, Herkimer, Jefferson, Kings, Lewis, Livingston, Madison, Monroe, Montgomery, New York, Niagara, Oneida, Onondaga, Ontario, Orange, Orleans, Oswego, Otsego, Putnam, Queens, Rensselaer, Richmond, Rockland, Saratoga, Schenectady, Schoharie, Schuyler, Seneca, Steuben, St. Lawrence, Suffolk, Sullivan, Tioga, Tompkins, Ulster, Warren, Washington, Wayne, Westchester, Wyoming, Yates.

Albany is the capital of the state, and has 69,422 inhabitants. The other principal cities, with their populations, are: New York, 942,292; Brooklyn, 396,099; Buffalo, 117,714; Rochester, 62,386; Troy, 46,051; Syracuse, 43,051; Utica, 28,804; Oswego, 20,910; Poughkeepsie, 20,800; Auburn, 17,225; Newburgh, 17,004; Elmira, 15,863; Cohoes, 15,257; Binghamton, 12,692; Lockport, 12,426; Schenectady, 11,026; Rome, 11,006; West Troy, 10,693; Rondout, 10,114; Ogdensburg, 10,114; Watertown, 9,336; Ithaca, 8,762; Hudson, 8,615, Saratoga Springs, 7,516; Peekskill, 6,560; Kingston, 6,315; Port Jervis, 6,377; Lansingburgh, 6,372; Flushing, 6,223; Middletown, 6,049; Seneca Falls, 5,890; Geneva, 5,521; Jamestown, 5,336; Dunkirk, 5,231, and Plattsburg, 5,139.

New York, co. in N. Y., S. part. It is co-extensive with the city of New York. Pop., 942,292; in 1860, 813,669. Agr. productions in 1870: Irish pot's, 6,135 bush.; sweet pot's, 35 bush.; hay, 1,730 tons. Cash value of farms, $9,144,475. Total, estimated, value of all farm productions, including additions to stock, etc., $373,534. Value of manufactures, $332,951,520. (See New York city.)

***New York,** city, the commercial metropolis of the western continent and the third largest city of the civilized world; lies in 41° N. lat., 74° long. W. of Greenwich, and 3° long. E. of Washington. It is co-extensive with New York co., N. Y., and occupies Manhattan Island, which is washed on the W. by the Hudson R. and the E. by Long Island Sound, here called "East River;" is 13¼ mls. long and in the mean 1 3-5 mls. wide, and has an area 22 sq.

mls. Harlem R. and Spuyten Duyvil Cr. separate it from the main land. The former joins the East R. opposite Wards' Island; the latter empties into the Hudson R. The southern part of New York forms a triangle, which terminates in the S. W. with the Battery, at the junction of the Hudson and East Rs. New York B. extends from the Battery to the Narrows between Long Island and Staten Island, is from 50 to 60 feet deep and from 1 to 5½ mls. wide. Randall's, Wards' and Blackwell's islands in the East R., and Bedloe's, Ellis' and Governor's islands in the bay, belong to the city. On the three last named are the United States forts—Wood, Ellis, Castle William and Columbus. The strait known as the "Narrows," 14 mls. S. of the Battery, connects New York B., or the "Upper B.," with the "Lower B.," the entrance to which is between Sandy Hook and Coney Island. The Narrows are defended by Forts Lafayette and Hamilton on Long Island and Tompkins and Richmond on Staten Island.

The city is compactly built for 5 to 6 mls. above the Battery, and beyond is occupied by handsome villas and the imposing structures of several charitable institutions. Below Fourteenth Street it is somewhat irregularly laid out; but above this line straight parallel streets extend from river to river, and are intersected at right angles by 16 wide avenues running N. and S.

The Battery is a park 10½ acres large, with lawns and fine shade trees, and is situated at the southern extremity of the island. The water front is secured by a sea-wall, and from the broad promenade above admirable views are had of the bay with its shipping, steamboats and ferries. The round structure on the Battery known as "Castle Garden" was built in 1807 for a fort, but became afterward an opera and concert house, and is now used as a depot for immigrants, who are here received from their ships. White Hall Street extends from the Barge office, on the E. of the Battery, northward to Bowling Green, a small park of considerable historical interest, and from this runs the grand avenue, the famous "Broadway," due N. to Tenth Street, and thence N. N. W. to Central Park. It is the principal business street of the city, and with its magnificent stores and business houses, its palatial hotels and banking houses, its throngs of omnibuses and handsome equipages, its leisurely "flaneurs" and eager business crowds, presents a more animated and brilliant picture than any other thoroughfare in the world. A short distance above Bowling Green is Trinity Church, a noble Gothic brown-stone building, with a spire 284 feet high, and standing in the venerable graveyard in which are buried many men of historic fame.

Wall Street, running E. from Trinity Church, is the financial center of the country, the resort of the bankers and brokers. Here is the stately United States Sub-treasury, on the site of the hall where Washington was inaugurated first President of the United States in 1789. Further down the street is the United States Custom House, a massive marble and granite structure, which was originally built for a merchants' exchange. Broad Street leads off from Wall Street (opposite the Treasury) and contains the beautiful buildings of the Stock Exchange and Gold Exchange.

Returning to and going up Broadway, we pass the colossal pile of the Equitable Life Insurance Company, crowned by a clock tower and a weather telegraph; the marble palace of the "New York Herald," and the "Park Bank," built in the Florentine Renaissance style. On the W. side is the "Astor House," the oldest of the grand hotels in the country, and still holding its rank as one of the best.

Park Row here stretches off from Broadway obliquely to the N. E. It is lined with the buildings of the great daily papers, the "Tribune," "Times," "Staats Zeitung" (German), "World," "Sun," and others of less renown, while in the vicinity are those of the foremost weeklies of the country, the "Nation," the "Independent," the "Christian Union," etc.

The triangular space between Broadway and Park Row forms the "City Hall Park," at the southern end of which stands the new United States Post-office, one of the most substantial and magnificent structures in the country. It is built of granite in the Renaissance style, fire-proof throughout, and has a frontage on Broadway of 340 feet. The City Hall is a white marble building, 216 feet long and 105 feet wide, ornamented with pilasters and crowned by a clock tower. Near it, and at the northern front of the Park on Chambers Street, stands the new Court House, 250 feet long and built of white marble, a truly palatial edifice, with a highly ornamented Corinthian vestibule. Opposite the Court House is the great marble building devoted to A. T. Stewart's wholesale business. Passing up Broadway we find it lined on either side with immense and costly structures, the most prominent of which only can be mentioned here, as the New York Life Insurance Company, with its Ionic portico; the vast St. Nicholas Hotel, of white marble; the Metropolitan Hotel, of brownstone; the lofty Grand Central, with eight stories and louvre domes; the great retail houses, with their brilliant show windows; the theaters, museums and other pleasure resorts. The entire block between Broadway, Ninth and Tenth Streets and Fourth Avenue, is occupied by the colossal iron building of A. T. Stewart's retail store, and on the opposite corner stands the Episcopal "Grace Church," the house of worship for one of the most fashionable congregations of the city. Further N. is Fourteenth Street, running from river to river, with the Academy of Music, Steinway's Music Hall, the Germania Theatre, and other places of amusement, and bounding Union Square, which is surrounded by hotels, and fine stores, as Tiffany's great jewelry establishment. One block E. of Union Square is the Westminster Hotel, one of the finest and most aristocratic in the city. Following Broadway to Twenty-third Street, Madison Square is reached, with the famous Fifth Avenue Hotel, the Albemarle Hotel, the Hoffman House, and on the opposite side the highly ornate Union League Club. On the W. side of Madison Square, Broadway is intersected by Fifth Avenue, containing more costly and palatial mansions than any other street in the world, foremost among which is the great marble dwelling of A. T. Stewart, a palace princely in extent and magnificence.

The Bowery, E. of Broadway and nearly parallel, connects with Fourth Avenue in the N. and through Chatham Street with Park Row in the S., and contains many large but less pretentious retail stores, banks, hotels, saloons and places of amusement. The block between Seventh and Eighth Streets and Third and Fourth Avenues is occupied by the Cooper Institute, founded and liberally endowed by the great philanthropist Peter Cooper. It contains a library, a free reading-room, with the leading periodicals of the world, and rooms in which courses of lectures and special studies are given. Close by are the Mercantile Library (150,000 volumes), in the old Astor Place Opera House; the Astor Library, in a large Romanesque building, in Lafayette Place (150,000 volumes); the "Bible House," the property of the American Bible Society, which issues vast numbers of Bibles (9,000,000 since

1817); the yellow sandstone building of the New York Historical Society, etc. Higher up the avenue is the National Academy of Design, built of gray and white marble in the Italian Gothic style (Venetian), and containing halls in which exhibitions of paintings and statuary are held. Near it is the large structure of the Young Men's Christian Association. On Fourth Avenue and Forty-Second Street is the Grand Central Depot, the converging point of the New York, New Haven & Hartford R. R., the New York Central & Hudson River R. R. and the Harlem R. R. It covers three acres, is 700 feet long and has a stately front with three lofty louvre domes. Two squares W. of it is the Distributing Reservoir of the Croton Aqueduct, 44 feet high, 420 feet square, with an area of four acres and a capacity of 23,000,000 gallons.

The Central Park is between Fifth and Eighth Avenues and Fifty-ninth and One-Hundred-and-Twelfth Streets. It is ½ mle. wide and 2½ mls. long, and includes a rectangular area of 863 acres, of which 183 acres are covered with reservoirs of Croton water. The carriage roads have a total length of 15 mls., the bridle paths of 8 mls. and the walks of 25 mls. The design of Fred. L. Olmsted has, in the main, been carried out, and the park is now to be classed among the most beautiful in the world.

New York has over 350 churches, many of which are very fine and sumptuous buildings. The Cathedral of St. Paul (Roman Catholic), in gothic style, was commenced in 1858, and will be the grandest church edifice in the country. It occupies the highest point on Fifth Avenue, and the front will be flanked by two towers 328 feet high. St. George's Church (Episcopal), an elegant Romanesque building, on Stuyvesant Square, has a beautiful front with twin towers 245 feet high. The Church of All Saints (Methodist), in Byzantine architecture, has a fine cupola and is built of alternate layers of brick and white marble. On the corner of Fifth Avenue and Forty-Third Streets is the Jewish Temple Emmanuel, the chief of the 27 synagogues of the city. It has a most superbly decorated interior, designed after the Moorish palace, Alhambra, in Spain.

New York is supplied with water by the Croton Aqueduct, which brings the water from Croton R. (over 40 mls. distant) to the reservoirs in Central Park and on Fifth Avenue. The original cost of this great work was $9,000,000.

New York is the terminus of the New York Central & Hudson River R. R., the Harlem R. R. and the New York, New Haven & Hartford R. R. By ferry transfer it communicates with the termini of the Erie R. R., the Northern R. R. of New Jersey, the New York & Oswego Midland R. R., the Central R. R. of New Jersey, the Camden & Amboy R. R. and the railroads of Long Island, and by steamboat with Sandy Hook, the terminus of the New Jersey Southern R. R. and with Vanderbilt's Landing, the terminus of the Staten Island R. R. The distance to Albany is 143 mls.; to Boston, 234 mls.; to New Haven, 74 mls.; to Philadelphia, 89 mls., and 226 mls. to Washington.

With the surrounding cities of Brooklyn, Jersey City, Hoboken, etc., New York is connected by 26 lines of ferryboats. The magnificent steamers on the Hudson run to Albany, Troy and intermediate places, and on the Sound to Stamford, Bridgeport, New Haven, Stonington, Fall River, Hartford, etc., while other lines afford access to all the important points of Long Island, Staten Island, and on the New Jersey coast.

Over 30 lines of ocean steamers maintained, in 1872, regular communication between New York and the transatlantic ports of America and Europe, viz.: 6 English lines (Cunard, Inman, Guyon, National, Anchor, and White Star); 3 German (the North German Lloyd, the Hamburgh American Co. and the Stettin Lloyd); 1 French (the "Havre Line"), etc.

Population.—The first settlement on Manhattan Island was made by Hendrick Christiansun in 1613. At the close of the following year the future metropolis consisted of a small fort on the site of the present Bowling Green, and four houses, and was known as New Amsterdam. In 1664 it was surrendered to the British, and passing into the hands of the Duke of York, received its present name. In 1677 it contained 384 houses, and in 1700 the population had increased to about 6,000; in 1731 to 8,628, in 1756 to 10,381, in 1790 to 33,131, in 1800 to 60,489, in 1820 to 123,706 (when it became the largest city in the United States), in 1850 to 515,547, in 1860 to 805,651 and in 1870 to 942,292. The population is truly cosmopolitan, and in 1870 included 523,198 natives of the United States, with 484,108 of the state and 419,094 natives of foreign countries. Of these were born in Austria (proper), 2,737; in Germany, 151,203; in Switzerland, 2,178; in England, 24,442; in Ireland, 201,999; in British America, 4,419; in France, 8,265; in Denmark, 682; in Sweden, 1,558; in Norway, 374; in Holland, 1,237; in Belgium, 325; in Italy, 2,793; in Spain, 453; in Poland, 2,393, and in Russia, 1,151.

There were engaged in all classes of occupations 350,556 persons, viz.: in agriculture, 1,401; in professional and personal services, 115,259; in trade and transportation, 88,611, and in manufactures and mechanical trades, 145,285. The professions were represented by 715 clergymen, 316 journalists, 1,283 lawyers, 1,741 physicians and surgeons, and 3,511 teachers. The classes of occupations above enumerated included 49,440 domestic servants, 28,451 laborers, 23,872 traders and dealers, 27,590 clerks, salesmen and accountants in stores, 9,813 carmen, draymen and teamsters, 3,855 bakers, 3,533 blacksmiths, 6,960 boot and shoemakers, 6,586 masons and stone-cutters, 4,870 butchers, 5,071 cabinet-makers and upholsterers, 10,427 carpenters and joiners, 1,101 confectioners, 1,606 coopers, 3,787 machinists, 9,747 milliners, mantua-makers, etc., 5,824 painters and varnishers, 2,584 plumbers and gas fitters, 5,134 printers and 18,564 tailors and seamstresses.

New York, measured by the value of products, is the first manufacturing city in the Union, but measured by the number of establishments, hands employed, capital invested and materials consumed, is second to Philadelphia. It had, in 1870, 7,624 establishments, which employed 129,577 hands (including 91,305 males, 32,231 females and 5,991 youths), and used 1,261 steam-engines, with 28,716 horsepower. The capital invested was $129,952,262, and the wages paid amounted to $62,824,049. The raw materials consumed had a value of $178,696,939, and the total products of $332,951,520.

The principal articles produced were: agricultural implements, $325,000; artificial flowers, $767,475; bags, $1,774,600; leather belting and hose, $1,093,000; book-binding, $4,187,315; boots and shoes, $6,935,365; packing boxes, $2,872,759; brass founding and finishing, $1,091,117; bread, crackers, etc., $6,728,587; carpets, $3,702,600; carriages and wagons, $3,684,578; men's clothing, $34,456,884; drugs and chemicals, $2,252,950; flour and meal, $5,999,600; furniture, $10,256,045; furs dressed, $6,780,488; hats and caps, $4,665,957; India rubber goods, $1,606,000; iron castings, $7,243,027; jewelry, $3,394,700; lead pipe, $10,607,800; malt liquors, $7,770,680; machinery, $4,689,410; marble and stone work, $4,132,880; refined sugar and molasses, $25,794,333; pianos, $3,863,225; printing paper, $2,737,000; patent medicines, $2,645,000; printing (of all kinds, book, job and newspaper), $11,574,931; sewing machines,

$6,660,140; soap and candles, $4,522,710; cigars, $5,956,970; tobacco, $4,149,781; type founding, $1,278,252, umbrellas and canes, $1,812,839; watch cases, $1,754,400, and wire work, $1,424,380.

Commerce and Shipping.—No city in the world enjoys greater natural facilities for commerce, domestic as well as foreign, than New York. The harbor is deep, capacious and of easy access; the Hudson R., in connection with the Erie Canal, affords water communication with the great lakes, and the railroads, terminating at or near the city, extend to all parts of the Union.

The exports and imports during the last four fiscal years (ending June 30th) were as follows:

	Imports.	Domestic Exports.
1869	$306,357,673	$227,335,154
1870	315,200,022	254,137,208
1871	384,862,300	298,531,772
1872	418,515,829	270,413,674

The annexed table exhibits the leading articles exceeding $3,000,000 in value, imported to and exported from the port of New York for the fiscal year ending June 30, 1872, compared with the aggregate of the United States for the same period.

DOMESTIC EXPORTS.

Articles.	Port of New York.	Total U.S.
Gold and Silver Bullion, and Gold and Silver Coin	$52,190,940	$ 72,798,240
Cotton—bales, 351,275; lbs., 161,323,538	30,741,904	180,684,595
Wheat—bush., 17,889,037	27,444,656	38,915,060
Oils, Illuminating—galls., 70,097,897	17,970,342	30,536,108
Bacon and Hams—lbs., 185,432,236	15,888,436	21,126,592

Earthen, Stone, and Chinaware	3,341,441	5,270,785
Flaxseed—bush., 2,234,484	3,268,143	4,318,030
Watches and Watch Materials	3,214,710	3,448,983
Rags—lbs., 76,139,629	3,030,385	4,890,045
Total	$315,429,018	$446,339,522
All other articles	103,086,811	193,999,244
Total foreign imports	$418,515,829	$640,338,766

It should be borne in mind that the foreign imports represent gold values, and the domestic exports, except $72,798,240 of coin and bullion, are in currency values, from which an average of about 10 per cent. should be deducted to make the basis of the latter equal to that of the former.

During the year ended June 30, 1872, 2,189 American vessels of 1,008,069 tons, and 3,452 foreign vessels of 2,961,270 tons, entered into the port from foreign countries; and 1,716 American vessels of 852,478 tons, and 3,347 foreign vessels of 2,896,038 tons, cleared from the port for foreign countries.

In the same year the number of American steamers which entered into the port was 184, of 267,443 tons, and of foreign steamers 641, of 1,833,819 tons; the number of American steamers which cleared from the port was 172, of 347,307 tons, and of foreign steamers 639, of 1,797,398 tons.

The commercial fleet belonging to New York comprised 2,433 sailing vessels, of 462,251 tons; 679 steam vessels, of 313,689 tons, and 2,201 unrigged vessels, of 256,753 tons, making an aggregate of 5,538 vessels of 1,038,325 tons.

Education, etc.—The school of the Reformed Protestant Dutch Church, founded under Stuyvesant's administration, was the first public school of the city, and the schools remained Dutch long after the colony had passed into the possession of England. The increasing English immigration, however, led to the establishment of English schools, the first of which was opened in 1710, by William Huddlestone. In 1795 the legislature granted

$50,000 annually for the promotion of the educational interests of the city, and incorporated the "Free School Society," which subsequently became the "Public School Society." The Board of Education was organized in 1842, and when the Public School Society was dissolved, in 1853, assumed the sole control of the public schools of the city.

In 1871 the number of pupils in all public schools was 106,170, and of teachers 1,745. On January 1, 1872, the following institutions were subject to the Board of Education: two Normal schools, with 6 male and 22 female teachers; the Model Primary school, with 6 female teachers; the Saturday Morning school, with 11 teachers; the Colored Normal school, with 2 teachers; 94 Grammar schools, with 1,056 teachers and 30,696 pupils; 6 Colored Grammar schools; 100 Primary schools, with 1,310 teachers and 53,751 pupils; 1 Evening High school, with 31 teachers and 909 pupils, and 34 Evening schools, with 358 teachers and 11,783 pupils.

The following charitable institutions received support from the school fund: the New York Orphan Asylum, the Protestant Half-Orphan Asylum, the New York House of Refuge, the Leake's and Watt's Orphan House, the Colored Orphan Asylum, Home for the Friendless; the Home School, the 11 Industrial Schools of the American Female Guardian Society, the Five Points' House of Industry, the Ladies' Missionary Home; the New York Juvenile Asylum, the Roman Catholic Asylum, the House of Reception of the New York Juvenile Asylum, the Nursery and Child's Hospital and the 20 Industrial Schools and 5 Lodging Houses of the Children's Aid Society.

The receipts of the school fund in the school year 1870 to 1871 amounted to $2,784,049, of which $422,216 were from the state school fund, the same amount from the county fund, and $1,537,756 from taxes. The expenses were $2,733 591, of which $227,977 were for the erection of new school-houses, and $1,891,965 for teachers' salaries.

The five collegiate institutions are Columbia College (founded in 1754), 12 instructors and 117 students; College of the City of New York (founded in 1854), 36 instructors and 723 students, of whom 410 were in the preparatory department; University of the City of New York (founded in 1831), 35 instructors and 107 students; College of St. Francis Xavier (founded in 1847), 25 instructors and 477 students, and Manhattan College (founded in 1863) 43 instructors and 631 students. The two last named are Roman Catholic. The other higher educational institutions are St. Catherine's School of Our Lady of Mercy, St. Stephen's Latin School, Rutgers Female College; the College of Pharmacy of New York, the New York College of Dentistry, the Homœopathic Medical College, the New York Medical College for Women, the Bellevue Hospital Medical College, the College of Physicians and Surgeons, the Protestant Episcopal Theological Seminary, etc.

New York had, in 1872, 97 benevolent and charitable institutions, among which are 13 orphan asylums, 13 poor houses, 4 work houses, 9 asylums for women, 4 asylums for the aged and infirm, 4 houses of correction, 1 institution for the cure of inebriates, 3 institutions for the blind and the deaf and dumb, 1 foundling house, 1 lunatic asylum, and 41 hospitals and dispensaries.

The Press of the city comprises over 360 different publications, of which 19 were German, 3 French, 1 Scandinavian, 4 Spanish, 2 Italian and 1 Portuguese, but the great majority English. The daily papers numbered 29, the weekly 280. The principal dailies, with their circulation in 1873, are the following: "New York Herald," 88,000; "Tribune," 40,000; "Times," 42,000; "Sun," 101,500; "News," 109,000; "World," 60,000; "Staats-Zeitung" (German), 50,000; "Evening Post," 11,500. The principal weeklies, aside from the weekly editions issued by the great dailies, are the "Nation," 9,540; "Independent," 43,000; "Frank Leslie's Illustrated Newspaper," 82,200; "Harper's Weekly," 145,000; Harper's Bazaar," 85,000; "Moore's Rural New Yorker," 45,000; "Christian Union," 132,000; "Chimney Corner," 72,000; "New York Weekly," 200,000, etc. The principal monthlies are the "American Agriculturist," 90,000; "Harper's Magazine," "Galaxy," 23,000; "Metropolitan," 35,000; "Scribner's Monthly," 47,500; "Wood's Household Magazine," 175,000; "Demorest's Illustrated Magazine," 50,000, etc.

Hotels.—There are 153 hotels in New York, about 60 of which are first-class houses, of large size, sumptuous appointments, and the most excellent accommodations. The following are the most famous: the Astor House, Metropolitan Hotel, St. Nicholas Hotel, St. Denis Hotel, Prescott House, Grand Central Hotel, New York Hotel, Fifth Avenue Hotel, Albemarle Hotel, Hoffman House, Westminster Hotel, Brevoort House, Clarendon Hotel, Everett House, St. James Hotel, Gilsey House, Grand Hotel and St. Cloud Hotel.

Nez Perces, co. in Idaho Ter., N. part. Pop., 1,607. It embraces a large part of the region between Clearwater and Salmon Rs., and is bounded on the W. by the Snake R. It contains several mountain chains, but also extensive prairies, which have a rich soil and are capable of sustaining a large population. Lewiston, the co. seat, is surrounded by a region rich in mineral wealth and possessing great advantages for agriculture or manufacturing. Agr. productions in 1870: Wheat, 1,970 bush.; oats, 6,050 bush.; Indian-corn, 325 bush.; Irish pot's, 3,780 bush.; butter, 18,900 lbs.; hay, 430 tons. Cash value of farms, $59,100. Total, estimated, value of all farm productions, including additions to stock, etc., $45,935. Value of manufactures, $27,400.

Niagara, co. in N. Y., N. W. part. Area about 500 sq. mls. Pop., 50,437; in 1860, 50,399. Lake Ontario forms the northern boundary, the Niagara R. the western and Tonawanda Cr. the southern. Tuscarora and Willinks Crs. drain it. The surface is generally undulating, except on the borders of the lake, where it is low and level. The soil is very productive and in a high state of cultivation. The New York Central R. R. passes through the co. Lockport is the co. seat. Agr. productions in 1870: Wheat, 961,303 bush.; rye, 38,399 bush.; Indian-corn, 396,642 bush.; oats, 790,243 bush.; Irish pot's, 236,026 bush.; wool, 296,458 lbs.; cheese, 57,596 lbs.; butter, 1,392,038 lbs.; hay, 52,916 tons. Cash value of farms, $25,621,272. Total, estimated, value of all farm productions, including additions to stock, etc., $4,871,319. Value of flour, $2,039,600. Total value of manufactures, $5,411,933.

R. and eastern terminus of Great Western R. R. of Canada, 1¾ mls. N. of Niagara Falls. The p. o. and R. R. station is Suspension Bridge. Pop., 2,276.

***Niagara Falls,** p. v. in Niagara co., N. Y., on the Lockport, Lewistown & Suspension

Bridge Division of the New York Central R. R., and the Buffalo and Suspension Bridge Division of the Erie R. R., at the Falls of Niagara, 20 mls. N. of Buffalo. Its importance is due to the wonderful natural attractions of the spot and vicinage, chief among which are the Falls of the river, 157 feet in perpendicular height, with a total width of 2,800 feet, and an estimated depth of 20 feet of water on the verge. They are 20 mls. below the exit of the R. from Lake Erie and 14 above its entrance into Lake Ontario. The rapids extend back ¾ of a mle. from the crest, and have a fall of 51 feet in that distance. Goat Island, ¼ of a mle. wide and ½ a mle. long, extends to the brow of the precipice and divides the falls into two portions, that on the American side (the American Falls) being 164 feet high and 900 feet wide, while that on the Canadian side (the Horseshoe Falls, from their curvilinear shape,) is 150 feet high and 1,900 feet across. The American Falls are again divided unequally near the precipice by Iris Island, leaving the greater quantity of water next the New York shore. The Falls are surrounded by objects of interest and surprise, as the many picturesque islands above, the weird chasms and caves beneath, the deep canon and mighty whirlpool below, and the fibrous bridges that span the writhing waters at giddy heights. The village contains several fine hotels and has a resident population of 3,005, and one newspaper.

Niagara River connects the E. end of Lake Erie with Lake Ontario, and separates the state of New York from the Canadian Province of Ontario. Its course is short (34 mls.), but it carries an immense amount of water, and as Lake Ontario is 334 feet lower than Lake Erie, it forms the world renowned Niagara Falls. (See preceding article.) Of the islands in it, the following belong to New York: Grand, Squaw, Strawberry, Rattlesnake, Towando, Beaver, Buckhorn, Cayuga and Goat Islands.

Northampton, tn. in Hampshire co., Mass. Pop., 10,160.

***Northampton,** p. v. in the above tn. and the co. seat, on Connecticut R., opposite Hadley, and on Connecticut River R. R. at its junction with the New Haven & Northampton R. R., 19 mls. N. of Springfield. The tn. is situated in the midst of picturesque scenery, has highly cultivated agricultural surroundings, contains numerous elegant private mansions and is largely engaged in manufacturing; cotton, woollen and silk goods, iron, paper, rifles, baskets, etc., being among the products. Two newspapers.

Northampton, co. in N. C., N. E. part. Area about 650 sq. mls. Pop., 14,749; in 1860, 13,372. The Roanoke R. forms the south-western boundary and the Meherrin R. intersects the N. E. corner. The surface is rolling and the soil productive, especially along the watercourses. The Petersburgh & Weldon R. R. passes through the co. from N. to S. Jackson is the co. seat. Agr. productions in 1870: Wheat, 13,681 bush.; Indian-corn, 320,924 bush.; oats, 36,860 bush.; Irish pot's, 11,861 bush.; sweet pot's, 45,435 bush.; cotton, 7,320 bales; butter, 24,039 lbs. Cash value of farms, $1,746,883. Total, estimated, value of all farm productions, including additions to stock, etc., $1,123,120. Value of manufactures, $114,316.

Northampton, tn. in Burlington co., N. J. Pop., 4,018.

Northampton, tn. in Fulton co., N. Y. Pop., 1,927.

Northampton, p. v. in the above tn., 18 mls. from Amsterdam.

Northampton, tn. in Summit co., Ohio. Pop., 982.

Northampton, co. in Pa., E. part. Area about 325 sq. mls. Pop., 61,432; in 1860, 47,904. The Delaware R. forms the eastern boundary, separating it from N. J., and the Lehigh R. forms part of the western. The latter stream also intersects the southern extremity. Martin's Cr., Bushkill Cr. and Hockendock Cr. drain the co. The Blue Mts. extend along the north-western boundary, and several ranges of the South Mt. occupy the part lying S. of the Lehigh R. The remainder has an undulating surface and a highly productive soil. The Lehigh & Susquehanna R. R., the Lehigh Valley R. R. and the Northern Pennsylvania R. R. intersect the co. Easton is the co. seat. Agr. productions in 1870: Wheat, 473,295 bush.; rye, 122,584 bush.; oats, 539,067 bush.; Indian-corn, 707,494 bush.; Irish pot's, 232,038 bush.; sweet pot's, 103 bush.; butter, 843,541 lbs., hay, 36,240 tons. Cash value of farms, $20,991,169. Total, estimated, value of all farm productions, including additions to stock, etc., $3,402,260. Principal products of industry: Flour, $755,076; forged and rolled iron, $1,367,994; pig iron, $2,789,125, and cordage and twine, $525,000. Total value of manufactures, $12,530,034.

Northampton, tn. in Somerset co., Pa. Pop., 1,137.

Northampton, tn. in Bucks co., Pa. Pop., 1,896.

Northampton, co. in Va., S. E. part. Area about 325 sq. mls. Pop., 8,046; in 1860, 7,832. It occupies the southern extremity of the peninsula lying between the Atlantic Ocean and Chesapeake B., and comprises numerous low and sandy islands. The surface is low and level; the soil mostly sandy and but moderately productive. The coasts are deeply indented by bays and lagoons. Eastville is the co. seat. Agr. productions in 1870: Wheat, 2,747 bush.; rye, 351 bush.; Indian-corn, 266,594 bush.; oats, 139,668 bush.; Irish pot's, 61,616 bush.; sweet pot's, 79,639 bush.; butter,

20,132 lbs. Cash value of farms, $1,609,493. Total, estimated, value of all farm productions, including additions to stock, etc., $553,348. Value of manufactures, $66,640.

NORTH CAROLINA, one of the 13 original states; lies between 33° 53′ and 36° 33′ N. lat., and 75° 25′ and 84° 30′ W. long. It is bounded on the N. by Va., on the W. by Tenn., on the S. by S. C. and Ga., and on the E. by the Atlantic Ocean. The greatest width from N. to S. is 180 mls.; the greatest length from E. to W. 480 mls., and the area 50,704 sq. mls. or 32,450,500 acres.

Surface.—N. C. may be divided into four distinct natural sections or belts, viz.: the Tide Water Country, the Middle Country, the Piedmont District, and the Blue Ridge Country. The Tide Water Country extends from the coast inland for from 60 to 80 mls., is low and level, and includes large areas of swamps, of which the Little Dismal Swamp (occupying the peninsula between Albemarle and Pamlico Sounds), the southern part of the Dismal Swamp (projecting into the state from Va.), the Holly Shelter Swamp, and Green Swamp, are the largest. The aggregate area of the swamps is estimated at 3,000,000 acres, and as they and their borders produce fine pine, oak and cypress timber, they possess unusual economic value. Albemarle and Pamlico Sounds are separated from the Ocean by a line of low sandy islands, extending from the Virginia state line in a southerly direction to Cape Hatteras, and thence in a southwesterly direction to Cape Lookout.

The Middle Country, which occupies the largest part of the state, is separated from the Tide Water Country by a line of rocky bluffs, from 100 to 200 feet above the latter, and consists of a gently undulating plain, rarely rising into hilly eminences.

The Piedmont District extends along the base of the Blue Ridge, and is from 20 to 30 mls. wide. It has a broken surface, rises from 1,000 to 2,000 feet above the sea-level, and is traversed by low ranges of mountains and hills, some of which are connected with the Blue Ridge.

The western part of the state forms the Blue Ridge Country, and is occupied by two lofty mountain ranges, with intermediate ridges and valleys belonging to the great Appalachian System. The Blue Ridge intersects the state in a general N. E. and S. W. direction, and nearly parallel with it trends the great Unaka Chain, separating the state from Tenn., and bearing the local names of Stone Mts., Iron Mts., Bald Mts., Great Smoky Mts., and Unaka Mts. A number of high transverse ranges branch off from the Blue Ridge, and, trending mostly N. W., connect with the Unaka Chain, dividing the belt of country between the two ranges into a series of basins, which are drained by the sources and head waters of rivers joining the Tennessee and Ohio. In the S. W. corner of the state is the basin of the Hiawassee R., hemmed in by the transverse ranges of the Stansbury Mts. in the S. W. and the Valley River Mts. and Long Ridge in the N. E. Then follows the basin of the Little Tennessee, which extends from the Valley River Mts. to the Balsam Mts., and is subdivided by the Nantahela and Cowee Mts. into the valleys of the upper course of the Little Tennessee and its tributaries, the Nantahela and Tuckaseegee Rs. The next basin is that of the Big Pigeon R., which lies between the Balsam Mts. and the long chain of the Pisgah and the Newfound Mts., and to the E. of it extends the large basin of the French Broad R., which is bounded on the S. and E. by the Blue Ridge, on the N. W. by the Great Smoky and Bald Mts., and on the W. by the Newfound and Pisgah Mts. The north-west branch of the Black Mts. and its continuation to the Bald Mts. separates the basin of the French Broad from the basin of the Nollechucky R., while the eastern branch of the Black Mts., crowned with the culminating peaks of the entire Appalachian System, projects into this basin from the S. The lofty transverse range of the Big Yellow Mts. extends from the Grandfather Mt. in the Blue Ridge to the Roan Mt. in the Iron Range, and separates the basins of the Nollechucky and the Watauga Rs. The last basin of the Blue Ridge Country is that of the New R. (the upper course of the Great Kanawha), which extends far into Va.

These basins have a mean elevation above the sea of from 2,000 feet to 2,700 feet. The Blue Ridge frequently changes its direction and is composed of many groups, some of which exceed 5,000 feet in elevation, while in the long intervals of depression between these groups are found gaps whose height ranges from 2,200 feet to 3,700 feet, often but little above the interior basins. The great Unaka Chain is more continuous than the Blue Ridge, more elevated and more regular in its direction, but it is broken by deep rents, through which burst the tributaries of the Tennessee above named. Its height varies from 5,000 feet to 6,700 feet, and of equal height are the transverse ranges, which separate the basins. The following are the principal peaks, with their elevation above the sea: In the Blue Ridge: Cæsar's Head, Table Mt., 4,000 feet; Sugarloaf Mt.; Gray Beard, 5,453 feet; Rocky Knobs, 5,311 feet; High Pinnacle, 5,701 feet; Grandfather, 5,897 feet, and Grandmother, 5,787 feet; and in the Unaka Range: Great Smoky Mt., 6,660 feet; Bald Spot, 5,550 feet; Roan Mt., 6,306 feet, and White Top, 5,530 feet.

Rivers.—The Blue Ridge forms the water-shed between the streams joining the Tennessee and the streams emptying into the Atlantic Ocean. The Pasquotank, Chowan and Roanoke Rs. enter the state from Va. and empty into Albemarle Sound. The Tar and Neuse Rs. empty into Pamlico Sound. Cape Fear R., whose branches, Haw and Deep Rs., intersect the Middle Country and join near Haywood, in Chatham co., empties through a wide estuary opposite Smith's Island. The Yadkin rises in the Blue Ridge, traverses the Middle Country and flows into S. C. The Catawba and Broad Rs., two branches of the Santee R., belong, with their upper courses, to this state.

Climate and Vegetation.—The climate of the south-eastern part of the state, embracing more than half its area, is very warm and has a mean

annual temperature of from 60 to 64 degrees. In the Piedmont District this temperature is 52 degrees, and in the higher part of the Blue Ridge Country 48 degrees.

The amount of rain which falls is from 42 to 44 inches in the Tide Water Country and the western parts of the state, and from 44 to 48 inches in the Middle Country.

N. C. belongs to the great forest region of the continent, but the vegetation differs considerably in the different belts above described. The Tide Water Country, with its sandy soil, is covered with extensive forests of the southern pines (Pinus Australis and Pinus Palustries), which yield large quantities of turpentine, the great staple article of the state. The forests of the elevated portions of N. C. consist chiefly of the deciduous trees of the more northern parts of the Union, and the highest crests of the mountain ranges are covered with the balsam firs, northern pines and other coniferous trees.

Population.—The population of N. C. was, in 1790, 393,751; in 1860, 478,103; in 1810, 555,500; in 1820, 638,829; in 1830, 737,987; in 1840, 753,419; in 1850, 869,039; in 1860, 992,622, and in 1870, 1,071,361, of whom 678,470 were white, 391,650 colored and 1,241 Indian.

The great majority of the inhabitants were natives of the state, viz.: 1,028,678. The natives of other states of the Union numbered 39,654, and of foreign countries only 3,029.

In all classes of occupations were engaged 351,290, viz.: In agriculture, 269,238; in professional and personal services, 51,290; in trade and transportation, 10,179, and in manufactures, mechanical and mining industries, 20,592.

Minerals and Mining.—The mineral resources of the state are considerable, but thus far have not been fully developed. Gold occurs in numerous localities of the Middle and Piedmont Countries, and has been mined for the last 30 years with increasing success. The Gold Hill mines, in Rowan co., have yielded about $2,000,000 since they were first opened, 20 years ago. In 1803 a piece of gold weighing 28 lbs. was found in the Red Mine of Cabarrus co. Far more important than the precious metals, however, are iron and coal, which abound in the valleys of the Deep and Dan Rs. Coal measures, exceeding 30 mls. in length, have been discovered in Chatham and Moore cos., and others in Stokes and Rockingham cos. The coal is bituminous and of good quality. Graphite is found in Wake co. Copper ore has been discovered in several localities, and is largely mined in Guilford co. Steatite or soapstone abounds in the central counties.

Agriculture.—N. C. is on the whole a fertile state. With the exception of the swamps and sand barrens of the E., and the high and broken mountains of the W., the soil is throughout productive and along the river bottoms exceedingly rich.

The 93,565 farms of N. C., in 1870, comprised a total area of 19,835,110 acres, of which 5,258,742 were improved, 12,026,894 acres woodland, and the remainder unimproved. The cash value of farms was $78,211,083; of farm implements, $4,082,111. The total amount of wages paid during the year was $8,342,855, and the value of farm productions, including additions to stock, etc., $57,845,940.

The principal products were spring wheat, 405,238 bush.; winter wheat, 2,454,641 bush.; rye, 352 006 bush.; Indian-corn, 18,454,215 bush.; oats, 3,220,105 bush.; Irish pot's, 738,803 bush.; sweet pot's, 3,071,840 bush.; cotton, 144,935 bales; rice, 2,059,281 lbs.; tobacco, 11,150,087 lbs.; wool, 799,667 lbs.; butter, 4,297,834 lbs., and hay, 83,540 tons.

The live stock of the state had a value of $21,993,967, and comprised 102,763 horses, 50,684 mules and asses, 196,731 milch cows, 45,408 working oxen, 279,023 other cattle, 463,435 sheep and 1,075,215 swine.

Manufactures.—The number of manufacturing establishments in 1870 was 3,642; which used 305 steam-engines of 6,941 horse-power, and 1,825 water-wheels of 26,211 horse-power; and employed 13,622 hands, of whom 11,339 were males. The capital invested was $8,140,473, and the wages paid amounted to $2,195.711. The raw materials consumed had a value of $12,824,693, and the products of $19,021,327.

The principal products of industry and their values were: cotton goods, $1,280.035; flour and meal, $7,583,133; sawed lumber, $2,000,243, and tar and turpentine, $2 338,309.

Commerce and Railroads.—N. C. has four customs districts: Albemarle, Beaufort, Pamlico and Wilmington, the last of which is by far the most important. The number of merchant vessels belonging to the state and their tonnage is as follows: Sailing vessels, 228, of 4,149 tons; steam vessels, 25, of 2,501 tons, and 7 unrigged vessels of 151 tons, making a total of 260 vessels of 6,801 tons. During the fiscal year ending June 30, 1872, N. C. imported goods from foreign countries of $131,666 in value, and exported domestic goods to foreign countries of $2,424,654 in value.

The railroads of the state had, in 1841, a length of 87 mls.; in 1851, of 283 mls.; in 1861, of 937 mls., and in 1872, of 1,250 mls. The most important lines were: The Atlantic & North Carolina R. R., from Morehead City to Goldsborough (95 mls.); the North Carolina R. R., from Goldsborough to Charlotte (223 mls.); the Raleigh & Augusta Air Line (41 mls.); the Raleigh & Gaston R. R. (97 mls.); the Western North Carolina R. R., from Salisbury to Ashville (143 mls., of which 117 mls. were in operation in 1872); the Wilmington, Charlotte & Rutherford R. R. (131 mls.); the Wilmington, Columbia & Augusta R. R. (180 mls.), and the Wilmington & Weldon R. R. (181 mls).

Wealth, Taxation, etc.—The total value of real and personal estate was assessed in 1870 at $130,378,222, while the estimated value amounted to $260,757,244. The total state debt January 1, 1872, was $34,887,466, of which more than $24,000,000 have been contracted since the termination of the civil war. The total indebtedness of the counties, cities and towns was, in 1870, $2,573,991. The state taxes for the financial year 1870 to 1871, amounted to $1,200,854, and the county, township and city taxes amounted to $1,151,955.

Education and Press.—The number of children of school age was, in 1872, 267,938, of whom 85,240 were colored. There were from March to October in the public schools 50,681 children, and in private schools, 7,055. The number of teachers examined and approved was 2,132, of public school-houses, 1,627; of private schools, 89, and of colleges and academies, 93. For the year ended September 30, the sum in the hands of county treasurers for the support of schools was $332,020, of which $155,393 were received from the state; $130,786 from poll tax and $15,840 from property tax, donations, etc.

The principal higher institutions are the North Carolina University, at Chapel Hill (founded in 1795); Wake Forest College, Davidson College, Trinity College, in Randolph co.; Olin College, in Iredell co.; North Carolina College, at Mount Pleasant; the Concord Female College, at Statesville; the Davenport Female College, at Lenoir; the Chowan Female Collegiate Institute at Murfreesborough, and the Raleigh Baptist College, at Raleigh.

In 1872 the state had the following charitable institutions: The Deaf and Dumb Asylum and the State Lunatic Asylum, both at Raleigh. The State Penitentiary is also located at Raleigh, and had, in 1871, 393 convicts, of whom 383 were natives of the state.

The press of N. C. consisted, in 1872, of 68 papers and periodicals, all in the English language, of which 10 were dailies, 3 tri-weeklies, 4 semi-weeklies, 44 weeklies, 2 semi-monthlies and 5

monthlies. The daily papers were published in Charlotte, Raleigh, New Berne and Wilmington.

Government.—N. C. was settled by emigrants from Va., in 1650, at Albemarle, and received a charter in May, 1663. It adopted a state constitution in December, 1776, and ratified the United States Constitution in November, 1789. The new state constitution was framed by a convention in 1868 and ratified by the people in April of the same year. The state was re-admitted into the Union by act of Congress, June 25, 1868.

The legislative authority is vested in a Senate and House of Representatives. The two branches of the "General Assembly" meet annually on the third Monday in November. The Senate consists of 50 Senators, chosen biennially by ballot. The House of Representatives is composed of 120 Representatives, elected biennially by the counties respectively. Each Senator must be not less than 25 years of age, must have resided as a citizen in the state two years, and must have resided in the district from which he is chosen, one year immediately preceding the election. Each member of the House must be a qualified elector and must have resided in the county for which he is chosen one year immediately preceding his election.

The executive department consists of a Governor, a Lieutenant-Governor, a Secretary of State, an Auditor, a Treasurer, a Superintendent of Public Works, a Superintendent of Public Instruction and an Attorney-General, who are elected by the qualified electors for a term of four years.

The Secretary of State, Auditor, Treasurer, Superintendent of Public Works and Superintendent of Public Instruction constitute ex-officio the Council of State, who advise the Governor in the execution of his office, and three of whom constitute a quorum.

The Senate is the Court for the trial of impeachments. The Supreme Court consists of a Chief Justice and four Associate Justices. The state is divided into twelve judicial districts, for each of which a judge is chosen, who holds a Superior Court in each county in said district at least twice a year. The judges of the Supreme Court and of the Superior Courts are elected for 8 years. The distinction between actions at law and suits in equity is abolished, and there is in the state but one form of action for the protection of private rights or the redress of private wrongs, which is denominated a civil action.

Every male citizen 21 years of age or upward, who has resided in the state for 12 months and in the county 30 days preceding an election, is entitled to vote.

N. C. is divided into the following 93 cos.: Alamance, Alexander, Alleghany, Anson, Ashe, Beaufort, Bertie, Bladin, Brunswick Buncombe, Burke, Cabarras, Caldwell, Camden, Carteret, Caswell, Catawba, Chatham, Cherokee, Chowan, Clay, Cleaveland, Columbus, Craven, Cumberland, Currituck, Dare, Davidson, Davie, Duplin, Edgecombe, Forsyth, Franklin, Gaston, Gates, Graham, Granville, Greene, Guilford, Halifax, Harnett, Haywood, Henderson, Hertford, Hyde, Iredell, Jackson, Johnston, Jones, Lenoir, Lincoln, Macon, Madison, Martin, McDowell, Mecklenburg, Mitchell, Montgomery, Moore, Nash, New Hanover, Northampton, Onslow, Orange, Pamlico, Pasquotank, Perquimons, Person, Pitt, Polk, Randolph, Richmond, Robeson, Rockingham, Rowan, Rutherford, Sampson, Stanley, Stokes, Surrey, Swain, Transylvania, Tyrrell, Union, Wake, Warren, Washington, Watauga, Wayne, Wilkes, Wilson, Yadkin, Yancey.

The capital is Raleigh. Pop., 7,790. The other principal places are: Wilmington, 13,446; New Berne, 5,849; Fayetteville 4,630; Charlotte, 4,473; Beaufort, 2,434; Washington, 2,094; Asheville, 1,400; Plymouth, 1,389; Tarboro, 1,340; Edenton, 1,243; Kinston, 1,103; Goldsboro, 1,134, and Wilson, 1,036.

Nottingham Square, v. in Mercer co., N. J.,

Nottoway, co. in Va., S. E. central part. Area, about 300 sq. mls. Pop., 9,291; in 1860, 8,836. It is bounded on the S. by the Nottoway R. and intersected by the Little Nottoway R., which rises in the western part. The surface is pleasantly diversified by hill and dale and the soil of the valleys productive. The South Side Division of the Atlantic & Ohio R. R. intersects the co. from E. to W., and the Richmond, Danville & Piedmont R. R. passes through the north-western corner. Nottoway Court House is the co. seat. Agr. productions in 1870: Wheat, 37,907 bush.; Indian-corn, 82,686 bush.; oats, 55,754 bush.; Irish pot's, 3,924 bush.; sweet pot's, 3,306 bush.; butter, 37,135 lbs.; tobacco, 653,296 lbs.; hay, 67 tons. Cash value of farms, $1,225,536. Total, estimated, value of all farm productions, including additions to stock, etc., $323,513. Value of manufactures, $63,150.

Nottoway, p. v. and the co. seat of Nottoway co., Va., on the South Side Division of the Atlantic, Mississippi & Ohio R. R., 43 mls. from Petersburg. Pop. about 300.

Nottoway Mills, p. o. in Southampton co., Va.

Nottoway River, a branch of the Chowan R.; rises in Va., on the boundary between Prince Edward and Lunenburgh cos., forms the boundary between the latter and Nottoway co., then separates Dinwiddie from Brunswick and Greenville cos., and intersects Sussex and Southampton cos. It joins the Meherrin R. in Hertford co., N. C., to form the Chowan R.

Nottsville, v. in Daviess co., Ky.

Nounirak Island belongs to Alaska, and lies in Behring Sea, south of the mouth of the Yukon R.

Novi, tn. in Oakland co., Mich. Pop., 1,351.
Novi, p. v. in the above tn., on the Flint & Pere Marquette R. R., 66 mls. from Toledo, Ohio. Pop. about 150.
Noxubee, co. in Miss., E. part. Area about 460 sq. mls. Pop., 20,905; in 1860, 20,667. It borders on Alabama and has a slightly rolling surface with a productive soil, which is well cultivated. Macon is the co. seat. Agr. productions in 1870: Wheat, 3,629 bush.; Indian-corn, 516,155 bush.; oats, 19,707 bush.; Irish pot's, 3,353 bush.; sweet pot's, 30,835 bush.; butter, 69,044 lbs.; cotton, 15,473 bales; hay, 464 tons. Cash value of farms, $2,383,491. Total, estimated, value of all farm productions, including additions to stock, etc., $2,-168,970. Value of manufactures, $210,959.
Noyo, p. o. in Mendocino co., Cal.
Nuckolls, co in Nebr., S. part. Area, 376 sq. mls. Pop., 8; in 1860, 22. The surface consists mainly of undulating, fertile prairies and has a general slope toward the S. E. The N. part of the co. is drained by the Little Blue R. and its tributaries, Moorehouse and Elk Crs.; the southern part is intersected by the Republican Fork of Kansas R.
Nuckollsville, p. o. in the v. of Grayson, in Grayson co., Va., 16 mls. from Independence Court House.
Nueces, co. in Tex., S. part. Area, 1,500 sq. mls. Pop., 3,975; in 1860, 2,906. The surface is flat; the soil mostly sandy, except in the N. part. Laguna de la Madre and Corpus Christi B. forms the eastern boundary, the Nueces R. the north-eastern, and Olmos Cr. the southern. The streams which drain and intersect the co. are unimportant crs. Corpus Christi is the co. seat. Agr. productions in 1870: Indian-corn, 3,600 bush.; Irish pot's, 120 bush.; sweet pot's, 925 bush.; butter, 3,388 lbs. Cash value of farms, $288,149. Total, estimated, value of all farm productions, including additions to stock, etc., $224,539. Value of manufactures, $205,068.

***Oberlin,** p. v. in Lorain co., Ohio, on the Lake Shore & Michigan Southern R. R., 34 mls. W. S. W. of Cleveland. A prosperous place with rapidly growing trade. Seat of Oberlin College and other flourishing educational institutions. Pop., 2,888. Three newspapers.
Obion, co. in Tenn., N. W. part. Area, 400 sq. mls. Pop., 15,584; in 1860, 12,817. The surface is level; the soil productive. It is bounded N. by Ky. and W. by the Mississippi R. It is drained by Obion and Redfoot Rs. Line Lake is on the N. border. The Mobile & Ohio R. R. traverses the E. part from N. to S., and the Nashville Northwestern R. R. intersects the N. E. corner. The two roads intersect each other at Union City. Troy is the co. seat. Agr. productions in 1870: Wheat, 91,139 bush.; rye, 216 bush.; Indian-corn, 917,445 bush.; oats, 21,919 bush.; Irish pot's, 26,501 bush.; sweet pot's, 33,607 bush.; cotton, 2,256 bales; tobacco, 645,937 lbs.; butter, 227,660 lbs.; hay, 1,112 tons. Cash value of farms, $2,437,755. Total, estimated, value of all farm productions, including additions to stock, etc., $1,564,292. Value of manufactures, $155,591.
Obion River, in north-western Tenn.; is formed by the confluence in Obion co. of the North, South and Rutherford forks. It then flows through Dyer co. in a S. W. direction and empties into the Mississippi R.
Oblong, tn. in Crawford co., Ill. Pop., 1,490.
Oblong, p. v. in the above tn., 10 mls. W. of Robinson, the co. seat.
O'Brien, co. in Iowa, N. W. part. Area, 585 sq. mls. Pop., 715; in 1860, 8. The surface consists of rolling prairies; the soil is fertile, but little cultivated. It is drained by branches and affluents of the Little Sioux R. There are two lakes in the E. part of the co. O'Brien is the co. seat. Agr. productions in 1870: Wheat, 4,648 bush.; Indian-corn, 500 bush.; oats, 8,909 bush. Cash value of farms, $82,070. Total, estimated, value of all farm productions, including additions to stock, etc., $27,600.
O'Brien, p. v. and the co. seat of the above co., on Little Sioux R. and on line of United States military road from Sioux City to St. Paul, 62 mls. N. E. of the former place and 15 mls. N. of Cherokee. Pop., 79. One newspaper.
Ocala, or **Marion Center,** p. v. and the co. seat of Marion co., Fla., 35 mls. S. by E. of Gainesville. Center of trade for a region producing sugar-cane. Pop., 600. One newspaper.
Ocate, p. o. in Mora co., New Mex. Ter.
Occoquan, tn. in Prince William co., Va. Pop., 891.
Occoquan, p. v. in the above tn., on Occoquan R., 16 mls. S. W. of Alexandria. Pop., 228.
Occoquan River, a tributary of the lower Potomac R. in Va.; separates Fairfax and Prince William cos. It is formed by the confluence of Bull Run and Broad Run. Bull Run rises E. of the Bull Run Mts., and marks the boundary between Loudoun and Fairfax cos. on the N., and Prince William co. on the S. Broad Run rises E. of Carter's Mts., flows through Thoroughfare Gap, between Pig Nut and Bull Run Mts., and joins Bull Run in Prince William co.
Occupacia, tn. in Essex co., Va. Pop., 3,270.
Ocean, co. in N. J., E. part. Area, 683 sq. mls. Pop., 13,628; in 1860, 11,176. It borders on the Atlantic Ocean, has a generally low and level surface and is drained by Metedeconk and Tom's Rs. Along the sea-coast extends a narrow sandy island, which is separated from the main land by lagoons, communicating with the ocean through Barnegat Inlet. Marl is abundant, and is much used as a fertilizer. Tom's River is the co. seat. Agr. productions in 1870: Wheat, 9,273 bush.; rye, 13,768 bush.; oats, 10,228 bush.; Indian-corn, 106,969 bush.; Irish pot's, 52,719 bush.; sweet pot's, 8,760 bush.; butter, 75,926 lbs.; hay, 7,348 tons. Cash value of farms, $3,218,500. Total, estimated, value of all farm productions, including additions to stock, etc., $563,770. Value of manufactures, $717,107.
Ocean, p. o. in the v. of Neffrun, in Alleghany co., Md., on the Cumberland & Pennsylvania R. R., 11½ mls. N. E. of Piedmont.
Ocean, tn. in Monmouth co., N. J. Pop., 6,189.
Oceana, co. in Mich., W. part. Area, 425 sq. mls. Pop., 7,222; in 1860, 1,816. The surface is undulating and the soil productive. The S. E. part is intersected by White R., the W. part by Pentwater R. Lake Michigan washes the western border of the co. The Chicago & Michigan Lake Shore R. R. passes through it from S. to N. Hart is the co. seat. Agr. productions in 1870: Wheat, 20,149 bush.; rye, 2,567 bush.; Indian-corn, 40,397 bush.; oats, 11,011 bush.; Irish pot's, 1,733 bush.; wool, 73,007 lbs.; butter, 4,200 lbs.; hay, 2,369 tons. Cash value of farms, $779,590. Total, estimated, value of all farm productions, including additions to stock, etc., $147,152. Value of manufactures, $304,100.
Oceana, tn. in Muskegon co., Mich. Pop., 919.

Oglethorpe, co. in Ga., N. E. part. Area about 480 sq. mls. Pop., 11,782; in 1860, 11,549. The northern boundary is formed partly by the Broad R. and partly by the South Branch of this stream, and the south-western boundary by the Oconee R. Long Cr., Diamond Cr. and other small streams drain the co. The surface is rolling and the soil productive. The Athens Branch of the Georgia R. R. intersects the co. Lexington is the co. seat. Agr. productions in 1870: Wheat, 28,958 bush.; rye, 128 bush.; Indian-corn, 181,368 bush.; oats, 22,880 bush.; Irish pot's, 6,760 bush.; sweet pot's, 21,532 bush.; cotton, 5,907 bales; butter, 106,249 lbs.; hay, 961 tons. Cash value of farms, $975,891. Total, estimated, value of all farm productions, including additions to stock, etc., $1,109,340. Value of manufactures, $169,584.

Oglethorpe, p. v. and the co. seat of Macon co., Ga., on the Flint R., near the Southwestern R. R., 5 mls. S. of Montezuma. Pop., 400.

Ogunquit, p. v. in York co., Me., 10 mls. S. E. of Well's Depot.

OHIO, one of the states of the Mississippi Valley; is bounded on the N. by Mich. and Lake Erie; on the W. by Ind. on the S. and S. E. by the Ohio R., which separates it from Ky. and W. Va., and on the E. by Pa. It extends from 38° 25′ to 42° N. lat. (a distance of about 210 mls.), and from 80° 28′ to 84° 42′ W. long. (a distance of about 220 mls.) The area is 39,964 sq. mls., or 25,576,960 acres.

Surface.—Ohio has no elevations that could be termed mountains, but it is far from being a level plain. With the exception of the north-western part, it is a table-land, having a mean elevation above the sea of 1,000 feet, the inequalities of which are the result of the erosion or excavation of valleys and ravines by streams of water. A ridge or rather a swell of the ground forms the divide between the waters flowing N. into Lake Erie and those flowing S. into the Ohio R. Near the 40th parallel extends a belt of hills from E. to W. through the middle of the state, abounding in highly picturesque scenery. Toward the S. the valleys cut out by the streams grow deeper and deeper, until they reach the valley of the Ohio R., which is several hundred feet below the general level of the state. The surface of that part of the state which lies N. of the water-shed is generally level, and has a gentle inclination toward the lake.

Rivers.—The principal stream of the state is the Ohio, which sweeps along its southern boundary in a wide meandering curve. Where it first touches the state it has a width of 360 yards; but increases to a width of 600 yards at Cincinnati. Its current is gentle, exceeding 3 mls. per hour only during the stages of high water. It drains with its tributaries the larger portion of the state. The following are the most important: the Mahoning R., which traverses Portage, Trumbull and Mahoning cos., and joins the Ohio in Pa.; the Muskingum, which is formed by the Walhonding and Tuscarawas Rs. and is navigable from its mouth at Marietta to Dresden; the Scioto, which rises in Hardin co., flows S. E. to Columbus, where it is joined by the Olentangy, or Whetstone R., and enters the Ohio at Portsmouth; the Little Miami R., and the Great Miami R., which rises in Hardin co., and flowing S. W. passes Troy, Dayton and Hamilton; it is navigable for about 75 mls.

Lake Erie forms three-fourths of the northern boundary and drains the portion of the state lying N. of a line drawn from the N. E. corner to the intersection of the 40th parallel with the western boundary. The chief rivers emptying into the Lake are the Maumee, Sandusky, Huron, Vermillion, Black, Rocky, Cuyahoga, Chagrin, Grand, Ashtabula and Conneaut Rs. The Maumee enters the state from Ind. and flows through the N. W. part for about 80 mls. It is navigable from Toledo to Perrysburg (18 mls.); but in high stages of water steamers ascend as far as Defiance, 60 mls. above Toledo.

Climate and Vegetation.—The climate of Ohio is mild and salubrious. The mean annual temperature is about 50° in the northern tier of counties; 51° in the central part of the state and 54° in the most southerly parts, along the banks of the Ohio R. The changes of temperature, however, are often abrupt and sudden, a climatic peculiarity which Ohio shares with the other states between the Alleghany and the Rocky Mts. The rain and snow-fall varies from 36 inches annually along the shore of Lake Erie to 42 inches in the middle districts, and to 48 inches in the southern corner, including Brown, Clermont and Hamilton cos.

Ohio was formerly covered with almost unbroken forest of deciduous trees, consisting of

oak, walnut, hickory, maple, elm, ash, chestnut ("buck-eye"), poplar and other trees; but they have been cleared to a great extent, and in many parts of the state timber is scarce.

Population.—The first permanent settlement in Ohio was made in 1788, at Marietta, by a company from New England. The second settlement was made in the same year at Columbia, near the mouth of the Little Miami R., and in the next year Cincinnati was founded. The "Virginia Military Reservation" between the Scioto and Little Miami Rs., was settled by revolutionary veterans and others from Va., and the "Connecticut Reserve," in the N. E. part of the state, attracted many citizens from Connecticut, who made their homes along the shore of Lake Erie. Before the close of 1798 eight counties had been organized, and the white male inhabitants numbered over 5,000.

In 1800 the population was 45,365; in 1810, 230,760; in 1820, 581,295; in 1830, 937,903; in 1840, 1,519,467; in 1850, 1,980,329: in 1860, 2,339,511, and in 1870, 2,665,260, of whom 2,292,767 were natives of the United States, including 1,813,069 natives of the state, and 372,493 natives of foreign countries. Of these 12,725 were born in British America, 3,699 in Austria proper, 12,778 in France, 182,889 in Germany 36,561 in England, 82,674 in Ireland, 7,819 in Scotland, 12,939 in Wales and 12,727 in Switzerland.

The population of 10 years of age and over was 1,953,374, of whom 840,889 were engaged in all classes of occupations, viz.: 397,024 in agriculture, 168,308 in professional and personal services, 78,547 in trade and transportation, and 197,010 in manufactures, mechanical and mining industries.

Minerals and Mining.—The mineral wealth of the state consists principally in the vast extent of its productive coal measures, being part of the great Appalachian coal-field; and in the inexhaustible deposits of excellent iron ores. Tuscarawas co. alone, it is estimated, possesses 80,000 millions of bushels of the best bituminous coal. The annual product of the state, since 1860, amounts to about 60,000,000 bush. The deposits of iron ores extend through an area of about 12,000 sq. mls. in the southern part of the state, and are mined chiefly in the cos. of Lawrence, Gallia, Jackson, Meigs, Vinton, Athens, Hocking, Perry and Licking. In 1870 the production in these counties amounted to 208,746 tons. Salt is also extensively mined, the annual product being about 2,000,000 bush. Petroleum is obtained in Washington, Athens, Morgan and Noble cos. The Cleveland refineries turned out in 1870 a million of barrels of pure coal oil. In various parts of the state occur deposits of excellent cement, building stones and grindstones, which were quarried in 1870 to the amount of 125,000 tons. Burr or mill stones of a very superior quality are obtained in Jackson and Muskingum cos.

Agriculture.—Ohio possesses a productive soil throughout its whole extent. The area of uncultivable land is very limited, while the river valleys, especially the bottoms of the Scioto and Miami, are unsurpassed in fertility by any portion of the Union.

The north-eastern part of the state, known as the "Western Reserve," including 12 counties and extending for 120 miles along the coast of Lake Erie, is the great dairy region, and produces large quantities of butter and cheese. Sheep-growing is the preeminent pursuit of the farmers in the S. E. part. The broad belt lying across the state from E. to W., to the N. of the center, is the principal wheat district, while the central portion, to the S. and W. of Columbus, is especially the region for beef cattle. The S. shore of Lake Erie is noted for fruit. Apples, peaches and especially grapes are here cultivated with great success; the great body of water equalizing the temperature and preventing late frosts in spring and early frosts in autumn.

In 1870 Ohio had 195,953 farms with a total area of 21,702,420 acres, of which 14,469,133 (or 56¼ per cent. of the area of the state) were under cultivation; 6,883,575 acres were woodland and the remainder of 259,712 acres were uncultivated. The total value of farms was $1,054,465,226; of the farm implements, $25,692,787, and of the productions, including additions to stock, etc., $198,256,907. The chief products were: Spring wheat, 256,400 bush.; winter wheat, 27,625,759 bush.; rye, 846,890 bush.; Indian-corn, 67,501,144 bush.; oats, 25,347,549 bush.; barley, 1,715,221 bush.; Irish pot's, 11,192,814 bush.; sweet pot's, 230,295 bush.; tobacco, 18,741,973 lbs.; wool, 20,539,643 lbs.; cheese, 8,169,486 lbs.; butter, 50,265,372 lbs.; flax, 17,880,624 lbs.; wine, 212,912 gals.; hay, 2,289,565 tons.

The live stock had a value of $120,300,528, and comprised 609,722 horses, 16,065 mules and asses, 654,390 milch cows, 23,606 working oxen, 758,221 other cattle, 4,928,635 sheep and 1,728,968 swine.

Manufactures.—The manufacturing industry of Ohio has more than doubled during the last census decade. In 1860 the number of establishments was 11,123; the capital invested, $57,295,303, and the value of products, $89,800,270. In 1870 the establishments numbered 22,773, using 4,586 steam-engines, of 129,577 horsepower, and 2,157 water-wheels, of 44,746 horsepower. There were employed 137,202 hands, and wages paid were $49,066,486. The capital invested was $141,923,964; the materials consumed had a value of $157,131,097, and the products a value of $269,713,610. The principal products were: Agricultural implements, $11,907,365; boots and shoes, $6,559,946; bread, crackers, etc., $2,202,818; carpentering and building, $6,805,653; carriages and wagons, $5,049,590; freight and passenger cars, $2,555,655; men's clothing, $12,367,440; rectified coal oil, $5,388,473; flour and meal, $21,692,210; furniture, $5,794,376; rolled and forged iron, $13,033,169; nails and spikes, $2,097,848; pig iron, $10,956,938; iron castings, $7,318,102; stoves and hollow ware, $3,221,298; leather, $7,236,332; distilled liquors, $7,022,656; malt liquors, $5,753,666; sawed lumber, $10,102,780; machinery (not specified), $4,198,942; steam-engines and boilers, $4,801,341; packed pork, $10,655,950; paper, $4,010,483; sadlery and harness, $2,074,268; sash, door and blind, $3,416,998; soap and candles, $2,976,544; tin, copper and iron ware, $3,214,285; tobacco, $2,380,583; cigars, $2,666,183; and woollen goods, $3,187,815.

Commerce and Railroads.—The commerce of Ohio is facilitated by a very complete net of railroads, several canals and the navigable waters. In the year ended June 30, 1871, there were imported into the four customs districts of the state (Cuyahoga or Cleveland, Sandusky, Toledo and Cincinnati), from foreign countries, goods to the value of $3,314,378, which yielded $209,737 duties. The direct exportation amounted to $1,743,843. The vessels owned within the state numbered 1,148, of 164,266 tons burden.

The mileage of railroads was, in 1872, 5,369 mls. against 4,598 in 1870; 2,598 in 1860; 1,240 in 1850, and 754 in 1841. The following are the principal lines: The Atlantic & Great Western R. R., from Salamanca, N. Y., to Dayton and thence to Cincinnati (447 mls.); the Central Ohio R. R., from Bellaire to Columbus (137 mls.); the Cincinnati & Indianapolis Junction R. R. (98 mls.); the Cincinnati & Muskingum Valley R. R. (148 mls.); the Cincinnati, Sandusky & Cleveland R. R. (215½ mls.); the Cleveland, Columbus, Cincinnati & Indianapolis R. R. (471 mls.); the Cleveland, Mt. Vernon & Delaware R. R. (114½ mls.); the Cleveland & Pittsburgh R. R. (225½ mls.); the Dayton & Michigan R. R. (142 mls.); the Little Miami R. R., from Cincinnati to Springfield, and several branches (196 mls.); the Marietta & Cincinnati R. R. (283 4-5 mls.); the Pittsburgh, Fort Wayne & Chicago R. R. (468 mls.); the Pittsburgh, Cincinnati & St. Louis R. R. (201 mls.) and the Sandusky, Mansfield & Newark R. R (160 4-5 mls.).

The canals were built at the expense of the state, and have a combined length of 736 mls. The Ohio & Erie Canal runs from Cleveland to the valley of the Muskingum, thence to Columbus and down the Scioto to Portsmouth. The Wabash & Erie Canal follows the valley of the Maumee to Fort Wayne, and thence extends to Terre Haute. The Miami Canal branches from the Wabash & Erie, 13 mls. above Defiance, and runs up the valley of the Auglaize R. In crossing the water-shed, it is supplied from a reservoir situated partly in Mercer and partly in Auglaize cos., which covers an area of 17,000 acres. From this point the canal passes down into the Miami valley to Hamilton, and thence to Cincinnati.

Education, Press, etc.—Ohio has a thoroughly organized system of public schools. Each township has a Board of Education, and each subdistrict a local board of trustees, which manages its school affairs, subject to the control of the township board. All public schools are required to be in session at least 24 weeks during the year. The probate judge of each county appoints a Board of School Examiners, which has power to grant certificates to teachers for a term not exceeding two years. In 1865 a State Board of Examiners was created with power to issue certificates for life to teachers eminent for learning, skill and experience.

Irreducible or special school funds were created by the sales of the lands appropriated by Congress for school purposes. The state pays annually six per cent. interest on these funds to the counties and towns.

In the school year ending August 31, 1872, the total receipts from the funds and the taxes amounted to $9,813,715, and the expenditures for school purposes to $7,383,856. The number of school-houses in townships was 10,686, and in separate districts 978, having an estimated value, including grounds, of $17,168,196. There were employed 22,061 teachers, and there were enrolled in the schools 708,800 pupils, while the daily average attendance was 408,538.

The Ohio University, a state institution, founded in 1804, is located at Athens ; the Miami University is at Oxford ; Oberlin College at Oberlin; the Baldwin University at Berea ; Kenyon College at Gambier; Denison University at Granville, etc. Ohio has no state normal schools. Of the nine normal schools but one, the "Southwestern," receives subvention from the state school fund. The number of colleges, universities and academies, in 1871, was 93; nor is there any lack of technical and professional schools.

The state charitable and correctional institutions are the State Penitentiary, at Columbus, which in 1871 had 955 convicts ; the Reform Farm School for Boys, at Lancaster ; the Reform and Industrial School for girls; the Longview Asylum for Lunatics, near Cincinnati, with 575 patients in 1871; the Central Ohio Lunatic Asylum, at Columbus; the Northern Ohio Lunatic Asylum, at Newburgh, near Cleveland; the Southern Ohio Lunatic Asylum, at Dayton ; the State Asylum for Idiots, the Asylum for the Blind, and the Asylum for the Deaf and Dumb, all at Columbus.

The press of Ohio comprised, in January, 1872, 411 publications, of which 25 were dailies, 9 triweeklies, 5 semi-weeklies, 306 weeklies, 9 semimonthlies, 53 monthlies, 2 bi-monthlies, and 1 quarterly. With the exception of 34 German and 1 Bohemian papers, they were published in the English language.

The principal libraries in the state are the following: Ohio State Library, at Columbus, 36,100 volumes ; Public Library, at Cincinnati, 33,958 vols.; Young Men's Merchantile Library, at Cincinnati, 33,175 vols.; Cleveland Library Association, 10,000 vol; Cincinnati Law Library, 6,000 vols., and Akron Library Association, 4,000 vols.

Wealth, Taxation and Debt.—The real and personal property of Ohio was, in 1871, assessed at $1,502,126,971, against $1,167,731,697 in the preceding year. The true value however was estimated, in 1870, at $2,235,430,300, against $1,193,893,422 in 1860.

The balance in the state treasury on November 15, 1871, was $748,176; the receipts for the fiscal year ended November 15, 1872, were $4,757,798, making the amount of funds in the treasury during the year, $5,505,974. The disbursements during said year amounted to $5,058,435, so that on November 15, 1872, there remained a balance in the treasury of $447,539.

The public funded debt of the state was, in November, 1871, $9,022,722; the redemptions amounted to $439,175; leaving the debt outstanding in November, 1872, $8,583,546.

The local indebtedness on September 1, 1872, was as follows: Debt of counties, $3,756,436; debt of townships, $447,238; debt of cities, $11,495,591; debt of incorporated villages, $816,560; special debt of school districts, $1,274,723; making an aggregate of local indebtedness of $17,590,548. The amount of reimbursable debt, state and local, therefore, is $26,174,094, to which add $4,023,475 irreducible debt, and we find the grand total of all debts of the state to reach $30,197,569.

Government.—Ohio was formed from the north-western territory ceded to the United States by Va. in 1783, and admitted into the Union as a state in April, 1802. The Governor, Lieutenant-Governor and Treasurer are elected by the people for 2 years, and for the same period the Secretary of State and Attorney General; but their elections take place in alternate years. The Comptroller of the Treasury and the State School Commissioner are elected for 3 years, and the Auditor of State for four years. The three members of the Board of Public Works are elected for 3 years, one going out of office each year.

The members of the Legislature—senators and representatives—are elected for 2 years. In 1872 the Senate consisted of 36 members, and the House of Representatives of 105 members.

The judicial power of the state is vested in a Supreme Court, Courts of Common Pleas, District Courts, Probate Courts and Justices of the Peace.

The Supreme Court consists of five judges, chosen by the people for a term of five years ; one judge retiring from office each year. The judge having the shortest time to serve is chief justice. This court holds at least one term each year at Columbus, and such other terms as may be provided by law.

The state is divided into 9 common pleas districts, one of which is formed by Hamilton co. The 8 other districts are each divided into 3 sub-districts, for each of which one judge is elected for a term of 5 years.

District Courts, composed of the judges of the Common Pleas Courts of the respective districts, and presided over by one of the judges of the Supreme Court, are held in each co. at least once in each year.

White male citizens of the United States, 21 years of age, who have resided in the state one year, are entitled to vote.

Ohio is divided into the following 88 counties: Adams, Allen, Ashland, Ashtabula, Athens, Auglaize, Belmont, Brown, Butler, Carroll, Champaign, Clark, Clermont, Clinton, Columbiana, Coshocton, Crawford, Cuyahoga, Darke, Defiance, Delaware, Erie, Fairfield, Fayette, Franklin, Fulton, Gallia, Geauga, Greene, Guernsey, Hamilton, Hancock, Hardin, Harrison, Henry, Highland, Hocking, Holmes, Huron, Jackson, Jefferson, Knox, Lake, Lawrence, Licking, Logan, Lorain, Lucas, Madison, Mahoning, Marion, Medina, Meigs, Mercer, Miami, Monroe, Montgomery, Morgan, Morrow, Muskingum, Noble, Ottawa, Paulding, Perry, Pick-

away, Pike, Portage, Preble, Putnam, Richland, Ross, Sandusky, Scioto, Seneca, Shelby, Stark, Summit, Trumbull, Tuscarawas, Union, Van Wert, Vinton, Warren, Washington, Wayne, Williams, Wood, Wyandot.

The state capital is Columbus. Pop., 31,274. The principal cities, with their populations in 1870, were: Cincinnati, 216,259; Cleveland, 92,829; Toledo, 31,584; Dayton, 30,473; Sandusky, 13,002; Springfield, 12,652; Hamilton, 11,081; Portsmouth, 10,592; Zanesville, 10,011 and Akron, 10,006. The following places had a population between 5,000 and 10,000: Chillicothe, Canton, Steubenville, Youngstown, Mansfield, Xenia, Newark, Piqua, Pomeroy, Ironton, Delaware, Tremont, Circleville, Wooster and Massillon. The following had from 3,000 to 5,000 inhabitants: Warren, Lima, Norwalk, Mt. Vernon, Bellaire, Middletown, Painesville, Bellefontaine, Urbana, Elyria, Bucyrus, Alliance, New Philadelphia, Galion, Gallipolis, Hillsborough, Findlay and Lancaster.

Ohio, co. in Ind., S. E. part. Area, 90 sq. mls. Pop., 5,837; in 1860, 5,462. It is bounded on the E. by the Ohio R., and on the N. by Loughery's Cr. The surface, with the exception of some broad fertile bottoms, is very hilly. The soil is generally productive. Rising Sun is the co. seat. Agr. productions in 1870: Wheat, 61,833 bush.; rye, 12,213 bush.; Indian-corn, 221,565 bush.; oats, 10,224 bush.; Irish pot's, 89,379 bush.; sweet pot's, 280 bush.; butter, 18,245 lbs.; hay, 6,489 tons. Cash value of farms, $2,732,000. Total, estimated, value of all farm productions, including additions to stock, etc., $439,790. Value of manufactures, $221,851.

Ohio, co. in Ky., W. central part. Area, 625 sq. mls. Pop., 15,561; in 1860, 12,209. The surface is rolling and the soil fertile. Iron and stone-coal are abundant. It is drained by a number of small affluents of Green R., which forms the southern boundary. Hartford is the co. seat. Agr. productions in 1870: Wheat, 40,321 bush.; rye, 449 bush.; Indian-corn, 577,371 bush.; oats, 96,268 bush.; Irish pot's, 28,033 bush.; sweet pot's, 16,870 bush.; tobacco, 3,392,633 lbs.; butter, 177,229 lbs.; hay, 3,564 tons. Cash value of farms, $2,185,083. Total, estimated, value of all farm productions, including additions to stock, etc., $1,250,008. Value of manufactures, $116,742.

Ohio, co. in W. Va., N. part. Area about 175 sq. mls. Pop., 28,831; in 1860, 22,422. It occupies a part of the tract of country known as the "Pan Handle," which lies between Pa. on the E. and the Ohio R. on the W. The surface is rolling and hilly; the soil of the valleys highly productive. The Baltimore & Ohio R. R. intersects the co. Wheeling is the co. seat. Agr. productions in 1870: Wheat, 42,276 bush.; rye, 3,795 bush.; Indian-corn, 225,465 bush.; oats, 97,372 bush.; Irish pot's, 46,748 bush.; sweet pot's, 1,454 bush.; butter, 120,135 lbs.; hay, 8,389 tons. Cash value of farms, $4,061,879. Total, estimated, value of all farm productions, including additions to stock, etc., $687,379. Value of manufactures, $10,765,859.

Ohio City, v. in Mississippi co., Mo., on the Mississippi R., opposite Cairo, Ill.

Ohio Grove, tn. in Mercer co., Ill. Pop., 1,125.

Ohio River, one of the principal tributaries of the Mississippi R.; is formed by the confluence of the Alleghany and Monongahela Rs., at Pittsburgh, Pa., flows in a general W. S. W. direction, forming the boundary between W. Va. and Ky. on the S., and Ohio, Ind. and Ill. on the N., and joins the Mississippi at Cairo, Ill. Throughout its whole length (975 mls.) the river flows with a gentle current, uninterrupted by rapids except near Louisville, Ky., where it descends 26 feet in three mls., forming the "Falls of the Ohio." It drains the N. E. portion of the Mississippi basin, a fertile and populous region of 214,000 sq. mls. in extent. At Pittsburgh the stream, during low water, is 699 feet above its mouth, indicating a mean fall of 0.72 feet per mile. The range between extreme low and extreme high water is about 45 feet, but the usual range does not exceed 25 feet. The mean width of the river between Pittsburgh and Point Pleasant is 1,000 feet at low water and 1,200 feet at high water, the corresponding areas of cross-section being about 5,000 and 50,000 sq. feet respectively. These dimensions gradually increase, until near the mouth of the river the widths become about 2,500 feet and 3,000 feet, and the areas 50,000 and 150,000 sq. feet respectively. The Ohio discharges annually about 5 trillions of cubic feet, or about one-quarter of the annual discharge of the Mississippi. The first rise in the river usually occurs in February, when the snows melt, and is about 25 feet at the mouth. The next rise occurs in May or June, and is due to the summer rains. In August and September the river is lowest, and then is only navigable for boats of 18 inches draught. Early in November it begins to rise and often continues to do so until the banks are full. It freezes generally about Christmas, and sometimes remains frozen for four weeks. The following are the principal tributaries: The Muskingum, Scioto and Miami Rs., in Ohio; the Wabash R., which joins the Ohio between Ind. and Ill.; the Little Kanawha, Great Kanawha and Guyandotte Rs., in W. Va., and the Sandy. Licking, Kentucky, Salt, Green, Cumberland and Tennessee Rs., in Kentucky.

OREGON, one of the western states; borders on the Pacific Ocean, and is bounded on the N. by Wash. Ter., from which it is partly separated by the Columbia R.; on the E. by Idaho Ter. and on the S. by Cal. and Nev. It extends from 42° to 46° 18′ N. lat. and from 116° 40′ to 124° 25′ W. long. The area is 95,274 sq. mls., or 60,975,360 acres.

Surface.—The prominent surface feature of the state is the lofty chain of the Cascade Mts., which intersects it from N. to S. parallel to and about 110 mls. from the sea-coast. It is the northern continuation of the Sierra Nevada of Cal., and, although less elevated than that famous range, it has the same geographical importance, being the barrier between regions widely differing in climate, vegetation and other natural characteristics.

The portion of Oreg. which lies E. of the Cascade Mts. is an arid table-land, gently sloping down from the S. to the N., and having a mean elevation of about 2,000 feet above the sea. It is diversified by mountains and hills, as the Blue Mts., Warner's Range, which enters the state from Cal., and others. The valleys of this region, though but of limited extent, are very fertile, and with the aid of irrigation produce excellent crops. In the N. E. part of the state there is the Grande Ronde Valley, a circular basin of some 30 mls. in diameter; S. of it is the Powder Valley, and in the S. E. part we find the Malheur and Owyhee Valleys, while the John Day and Des Chutes valleys extend along the eastern base of the Cascade Mts.

The portion of Oreg. which lies W. of the Cascade Mts., embracing about one-third of its area, is in every respect the most favored and attractive. Here, as in California, rise the coast ranges to an elevation of 3,000 to 4,000 feet, and inclose those beautiful and exceedingly fertile valleys, which contain the most densely inhabited and best cultivated parts of the state. The valley of the Williamette R. extends from the Columbia R. in a southerly direction to the 44th parallel, and contains about 5,000,000 acres of land. The Umpqua Valley comprises the whole of Douglas co., has an estimated area of 1,000,000 acres, and a very rich soil. The Rogue River Valley, S. of the Umpqua, is hilly, and in many places mountainous; but possesses many highly productive small valleys, and has an esti-

mated area of 800,000 acres. The Willamette Valley lies parallel to the coast line, while the two other valleys extend eastwardly from the ocean.

The coast of Oreg. has several good harbors, the most important of which is that at the mouth of the Columbia R. The others are Yaquina, Umpqua, Port Orford, Coquill and Tillamook.

Rivers and Lakes.—The largest stream of Oreg. is the Columbia, which washes the northern boundary from the 119th to the 124th meridian, a distance of about 230 mls. It is navigable, except at the Cascades, 160 mls. above its mouth, where it breaks through the Cascade Mts. and where a portage by rail, 6 mls. long, has been constructed, and at Dallas City, 50 mls. higher up, where a similar portage 11 mls. long has been constructed. The principal tributaries of the Columbia are Snake R., which traverses Idaho Ter. and then forms part of the eastern boundary of Oreg., receiving from this state the Owyhee R., Malheur R., Grande Ronde R., Umatilla R., John Day's R., and the Willamette R., which rises in the Cascade Mts., drains the beautiful valley which bears its name, is navigable as far as Eugene City, and joins the Columbia below Vancouver, Wash. Ter. The Umpqua and Rogue Rs. rise in the Coast Mts., and after a westward course empty into the Pacific, the former at Umpqua City, the latter at Ellensburgh.

In the southern part of Oreg., and E. of the Cascade Mts., are the Klamath Lakes, whose outlet is Klamath R., Albert Lake, Silver Lake, Lake Harney and the northern half of Goose Lake.

Climate and Vegetation.—The climate of western Oreg. resembles that of Cal., being remarkable for mildness and equability. The mean annual temperature of this belt of country, from the Columbia to the Cal. state line, varies from 44° near the Cascade Range to 50° at the sea-coast. The mean temperature of spring and fall is 54°, of summer, 70°, and of winter, 40°. The rain-fall is not exceeded in any portion of the United States, and amounts to 60 inches and more near the coast, whence to the mountains it gradually decreases to 44 inches. The vegetation here is rich and varied. Dense forests of immense growth cover the valleys and hill-slopes, consisting mostly of coniferous trees, as the red-wood (abies Douglassi), yellow pine (abies grandis), various firs (picea nobilis and p. grandis), sugar pine (pinus Lambertiana), Oregon cedar (thuya gigantea), white cedar (cupressus fragrans), and others of great height and thickness. Nor is there any lack of deciduous trees peculiar to the Pacific coast, as the oak, elm, ash, beach, lime, chestnut and walnut, and interspersed among them are numberless varieties of shrubs, with the most beautiful flowers and foliage. Along the banks of the streams are narrow belts of prairies, with nutritious grasses and herbs.

Widely different is that portion of the state which lies E. of the Cascade Mts. Here the climate is marked by great extremes, sudden changes, and that aridity which characterizes the whole interior plateau of the continent. The wild sage, or artemisia, covers the plains, and the bottom-lands of the water-courses produce bunch grass, willows and aspens. The growth of timber is restricted to the slopes and valleys of the higher mountain chains.

Wild animals are still numerous. Bears, wolves, lynxes, panthers, foxes, deer, Rocky mountain sheep, antelopes, raccoons, coyotes, etc., inhabit the more thinly settled portions of the state; beavers, martins and otters yield valuable furs; and the rivers and lakes abound in salmon and other fish.

Population.—The first American settlements in Oreg. were made in 1839. In 1850 the population was 13,294; in 1860, 52,465, and in 1870, 90,923, including 86,929 whites, 346 colored persons, 3,330 Chinese and 318 taxed Indians. The number of Indians sustaining tribal relations was estimated at 10,960, of whom 6,110 were settled on reservations and at the agencies, and 4,200 were embraced in the wandering tribes.

According to nativity the inhabitants were divided as follows: Born in the United States, 79,323, inclusive of 37,155 natives of the state; born in foreign countries, 11,600, inclusive of 1,168 natives of British America, 1,875 of Germany, 1,347 of England, 1,967 of Ireland, 394 of Scotland and 205 of Sweden.

In all classes of occupations were engaged 30,651 persons, viz.: 13,248 in agriculture, 6,090 in professional and personal services, 2,619 in trade and transportation, and 8,694 in manufactures, mechanical and mining industries.

Minerals and Mining.—The precious minerals are principally found in the southern and eastern sections of the state. Especially rich is the valley of Jackson's Cr., a tributary of Rogue R., where there are not only rich gold "placers," but also veins of gold and silver-bearing quartz. Coal of excellent quality is found along the sea-coast, chiefly, however, around Coose B., in the south-western part of the state. Extensive and almost inexhaustible deposits of iron ore occur in the north-western part. The iron mines near Oswego, 6 mls. above Portland, are successfully and profitably worked. The product is equal to the best Scottish iron. Copper ore has been discovered on some of the tributaries of the Rogue R., where one mine has lately been opened.

Agriculture.—In 1870 there were 7,587 farms in the state, which included 2,389,252 acres of land, of which amount 1,116,290 acres (or 1.8 per cent. of the state area) were under cultivation, 761,001 were woodland and the remainder uncultivated.

The cash value of farms was $22,352,989 and of farm productions, including additions to stock and improvements, $7,122,790. The principal products were: Spring wheat, 1,794,494 bush.; winter wheat, 546,252 bush.; rye, 3,890 bush.; Indian-corn, 72,138 bush.; oats, 2,029,909 bush.; Irish pot's, 481,710 bush.; tobacco, 3,847 lbs.; wool, 1,080,638 lbs.; butter, 1,418,373 lbs., and hay, 73,357 tons.

The live stock had a value of $6,828,675, and included 51,702 horses, 2,581 mules and asses, 48,325 milch cows, 2,441 working oxen, 69,431 other cattle, 318,123 sheep and 119,455 swine.

Manufactures.—Oreg. had, in 1870, 969 manufacturing establishments (against 309 in 1860), which used 88 steam-engines of 2,471 horse-power and 236 water-wheels of 5,806 horse-power, and employed 2,884 operatives. The capital invested amounted to $4,376,849, and the wages paid to $1,120,173. The materials consumed had a value of $3,419,756, and the products turned out of $6,877,387.

The principal products of industry, with their values, were: Flour and meal, $1,972,444; sawed lumber, $1,014,211; steam-engines and boilers, $146,400; packed pork, $101,750; saddlery and harness, $131,919; tin, copper and sheet-iron ware, $158,462, and woollen goods, $492,857.

Commerce and Railroads.—The direct imports into Oreg. from foreign countries for the year ended June 30, 1872, had a value of $618,882, and the exports to foreign countries of $699,026.

The commercial fleet owned in the state comprised 36 sailing vessels of 1,857 tons, 40 steam vessels of $10,209 tons, and 11 unrigged vessels of 945 tons.

The total mileage of the railroads in 1872 was 214. The principal line is the Oregon & California R. R., which is intended to extend from Portland to the Cal. state line. It has been completed from Portland to Roseburgh, a distance of about 200 mls.

Wealth, Taxation and Debt.—In 1871 the total property of Oreg., real and personal, was

assessed at $34,744,459, against $31,798,510 of the preceding year; but the true value was estimated, in 1870, at $51,558,932, an increase of over $23,000,000 since 1860.

The interest-bearing debt of the state was, in 1870, $106,583; of the counties, $105,903, and of the cities and towns, $6,000. The aggregate of the entire public indebtedness at the end of the fiscal year 1870 amounted to $218,468.

The total taxation (not national) during the same year was $580,956, against $199,056 in 1860. In the fiscal year ended September, 1872, the receipts of the treasury amounted to $942,570, and the disbursements to $769,972, leaving a balance on hand of $172,598.

Education, Press, etc.—Congress has donated to the state lands for educational and other purposes, as follows: 1. School-lands proper, i. e, the 16th and 36th sections, or their equivalent, where portions of such sections were held by donation claimants prior to the public surveys. 2. University lands, consisting of 72 sections, for the use and support of a state university. 3. Five hundred thousand acres of land for purposes of internal improvement, and which have been designated as state lands. 4. Ninety thousand acres of land for the support of an agricultural college.

The expenses for the public schools are defrayed from a tax of two per mills of the taxable property in the state, and amounted to nearly $60,000 in 1870. The total receipts of the school department amounted to $153,000. There were 636 school districts in the state. The number of persons of school age (from 4 to 20 years) was, in 1871, 34,055, of whom 21,000 were enrolled in the public schools.

The higher educational institutions were the following: the Pacific University, at Forest Grove (founded in 1848); the Willamette University (Methodist), at Salem; the Oregon College (Baptist), at Oregon City; the Holy Angels, College, at Vancouver; the Philomath College, at Philomath; the Corvallis College, at Corvallis; the Umpqua College; the St. Helen's Hall College, at Portland; the Oakland Academy and St. John's High School, at Eugene City; the Albany Collegiate Institute, at Albany; the St. Mary's Academy and Jacksonville Academy, at Jacksonville, and the Roseburgh Academy, at Wilbur. The State University has not yet been established, nor has the Agricultural College been organized.

There were 166, other than private libraries in Oregon, with 61,532 vols.

The press consisted, in January 1, 1872, of 30 newspapers and periodicals, of which 4 were dailies, 22 weeklies, 1 semi-monthly, 2 monthlies, and 1 quarterly.

The penal and charitable institutions are the State Penitentiary, near Salem; the State School for the Deaf and Dumb, at Salem, and the Oregon Hospital for the Insane, at East Portland.

Government.—Oreg. was organized as a territory in 1848; was divided in 1852, the northern portion being called Washington and the southern Oregon. A state constitution was adopted in 1857, and it was admitted into the Union in 1859.

The Governor, Secretary of State, Treasurer and State Printer are elected for 4 years. The general election for state and county officers is held biennially on the first Monday of June. The legislative assembly consists of a Senate and a House of Representatives. The former is composed of 16 senators, elected for 4 years; the latter of 34 members, elected for 2 years.

Every white male citizen of the United States, six months a resident of the state, may vote.

The judicial power is vested in a Supreme Court and five Circuit Courts. The Supreme Court consists of five justices, who are also judges of the District Courts in their respective districts. Their term of office is 6 years. The Supreme Court holds one term annually at the seat of government.

Oregon is divided into the following 22 cos.: Baker, Benton, Clackamas, Clatsop, Columbia, Coos, Curry, Douglas, Grant, Jackson, Josephine, Lane, Linn, Marion, Multnomah, Polk, Tillamook, Umatilla, Union, Wasco, Washington and Yam Hill.

The state capital is Salem. The other principal cities are Portland, Eugene City, Oregon City, Dallas City, Jacksonville and Albany.

PENNSYLVANIA, one of the thirteen original states of the Union, and with regard to population and wealth second to N. Y. only; extends from 39° 43′ to 42° 15′ N. latitude, and from 74° 40′ to 80° 40′ W. longitude. It is bounded on the N. by N. Y. and Lake Erie; on the W. by Ohio and W. Va.; on the S. by W. Va., Md. and Del., and on the E. by N. Y. and N. J. It has the shape of a rectangle, which is 303 mls. long from E. to W. and 176 mls. wide from S. to N., and includes an area of 46,000 sq. mls., or 29,440,000 acres. Its boundaries are straight lines, with the exception of the eastern, which is formed by the Delaware R., and the western extremity of the northern, which is formed by Lake Erie.

Surface.—Pa. is naturally divided into three parts: a south-eastern district of plains and scattered hills; a mountain belt of symmetrical and parallel ranges; and a western table-land of a rolling surface, deeply furrowed by valleys of erosion.

1. The South-eastern District is bounded on the N. W. by the Blue, or Kittatinny, Mts., and on the E. by the Delaware R., and corresponds to the "Middle Country" of Va. Along the banks of the Delaware, below Trenton, N. J., there extends a narrow plain of low land, rarely exceeding a few miles in width or a few feet in height above the sea level, and in which is situated the larger portion of the city of Philadelphia. From this plain the ground rises, gently in some parts, boldly and with hilly slopes in others, and gradually ascends to a thousand feet at the base of the Kittatinnies. The surface of the district is undulating of rolling, and along the borders of the water-courses often presents scenery of great boldness and picturesque beauty; for example, on the well known Wissahickon, near Philadelphia, on the Brandywine, the Schuylkill and elsewhere. The country lying along the Kittatinny Mts., known as the Cumberland Valley, is a part of the "Great Valley" which extends through the entire length of the Appalachian System from Canada to Alabama. But the mountain ranges that elsewhere cut off the Great Valley from the open country on the seaboard, sink in Pennsylvania beneath the plain for a distance of 60 mls., so that the Cumberland Valley is but partially bounded by the South Mt. of Adams, Franklin and Cumberland cos. (the continuation of the Virginian Blue Ridge); the Forest Hills, in Berks and Lebanon cos., and the South Mt. of Berks and Bucks cos. (the continuation of the Highland Belt of N. J.). The detached ridges which traverse the country to the S. of the Cumberland Valley are the Welsh Hills, between Lancaster, Berks and Chester cos., the Conewago Hills of York and Dauphin cos., and the Copper-mine Ridge, in Chester co., while isolated mountains of trap-rock, like the Haycock in Berks co. and the Round Top in York, add another feature to the scenery.

2. The Mountain Belt extends through the state, in a width of about 50 mls., between the Kittatinny Mts. on the one side and the Alleghany Mts. on the other. The latter range includes the culminating ground of the state, and has a mean elevation of 2,000 feet and summits of 2,500 feet above the sea level. Its northern extremity rises from the table-land of Wayne co. (which enters this state from N. Y., where it forms the base of the Catskill Mts.), runs for 40 mls. straight S. 63° W. (here known by the local name of Great North Mt.), and then setting N. for 10 mls., and giving issue to the waters of Muncy Cr., it takes a new departure S. 85° W. to the ravines of Loyalsock Cr. and Lycoming Cr. From this point the range makes a straight line S. 62° W. to the gorge at Lockhaven, where the West Branch of the Susquehanna R. breaks through it; and thence to Md., it forms a nearly unbroken wall of rock 1,000 feet above its eastern base, trending S. 50° W from Black Cr. to Altoona, and thence S. 29° W.

Between this great wall (the precipitous eastern slope of the Alleghany Mts.) and the Kittatinny Mts. there is a large number of ridges with uniform slopes, being in many cases unvaried by ravine or gully for many miles. The crests are for the most part sharp, and for long distances preserve the same height, being only here and there interrupted by notches, some of which descend to the valley levels, and give passages to the streams of the country. In many instances two parallel ridges unite at their extremities, and inclose a deep, narrow, oval valley, often resembling a long, sharply pointed canoe or skiff.

This mountain belt is intersected near the middle by the valley of the Susquehanna R., which is very irregular in width, now contracted by the jutting mountains on each side, now widening to 20 and 30 mls. by valleys running up between these mountains.

To the E. of the Susquehanna Valley lies the Anthracite Region, which includes the Pottsville and Mine Hill Basin, between the Sharp Mts. and the plateau-like Broad Mt.; the Shamokin and Mahanoy Basin, between the Lime Mt., the Mahanoy and Little Mts.; the Beaver Meadow Mountain Basin, extending to Bucks Mt. in the N., and intersected by numerous short ranges, and lastly the Wilkesbarre and Scranton Basin, also known as the Wyoming Valley, which is bordered on the S. E. by the range of the Wyoming and Moosic Mts., and on the N. W. by that of the Knob Mt., Shawney Range, Capon's Range and the Lackawanna Mts., and which is perhaps the most perfect of the canoe-shaped valleys of the state. The East Branch of the Susquehanna R. enters it near the middle of its northern rim, flows through a large portion of it in a south-westerly direction, and leaves it through a gap in the Wyoming Mts.

Between the last-named range, the Delaware R., the upper course of the Lehigh R. and the Kittatinny Mts., there extends the Pocono, or Poco Wilderness, which consists of the "Shades of Death," a region of swamps and laurel thickets, the haunt of the panther, the bear and other wild animals, and extensive beach-timbered plateaus, 2,000 feet above the sea. It chiefly includes Pike and Monroe cos.

That part of the mountain belt which lies W. of the Susquehanna Valley may be termed the Juniata country. The traveler who crosses it from the Blue to the Alleghany Mts. has to pass everywhere over narrow mountain ranges and through broad and fertile valleys. Leaving out the unimportant ones, they may be enumerated as follows: The first long chain that succeeds the Blue is that of the Tuscarora Mts., and W. of it lies the Tuscarora Valley, 50 mls. long and curving from the Susquehanna R. to Fulton co. Then follows the composite range of the Shade and Black Log Mts., beyond which is the long valley, commencing at Middleburgh, in Snyder co., and running to Lewistown, where it becomes the Juniata Valley proper. At Newton-Hamilton it becomes the Great Aughwick Valley, and enters Maryland at Wereford sburg. For a hundred miles it preserves a width of about 8 mls. Kishacoquillas Valley, back of Lewistown, is inclosed between Jack's Mt. and Stone Mt. at its southern end, and the Seven Mts. at its northern end. It is about 53 mls. long and nowhere exceeds 4 mls. in width. The Stone Valley is shut off from all connection with the Susquehanna country by the circus of the Seven Mts., and bounded by Stone Mt. in the E., and Tussey's Mt. in the W. Huntingdon stands in the center, and Warrior's Ridge occupies the middle of its floor. From the end of Terrace Mt., rising 1,200 feet above the Juniata R., the tourist may overlook the scene and enjoy one of the grandest landscape views in the state. Broad Top Mt., in Huntingdon and Bedford cos., reduces its width (elsewhere 12 or 16 mls.) to 4 mls.

West of Tussey's Mt. and Nittany Mt. lies the Nittany Valley, which is bounded on the W. by the Bald Eagle Range, and on the N. E. by the Buffalo Mt., and has a length within the state of 110 mls., but varies in width from 4 to 20 mls. It is everywhere fertile and well settled, and abounds in deposits of hematite iron ore. The Bald Eagle Valley is the last of the series and faces for 160 mls. the wall of the Alleghany Mts. from Muncy, on the North Branch of the Susquehanna, to the Md. state line. For 100 mls. it is bounded on the S. E. by the Bald Eagle Mts. For 35 mls. the Susquehanna flows through it; the next 40 mls. are traversed by Bald Eagle Cr., and then the drainage is reversed into the Juniata for 41 mls. Near the head waters of the Frankstown Branch the valley widens and forms a hatchet-shaped cove, in which are the fields, furnaces and iron mines of Hollidaysburg and Frankstown. The next 20 mls. are occupied by the head waters of the Raystown Branch, and here opens the Bedford Valley to the E.

3. The Western Table-land occupies one-half the area of the state and extends from the crest of the Alleghany Mts. toward N. Y., Lake Erie and Ohio. It includes the Mehoopany Mt., in Sullivan co., which extends beyond the Susquehanna at Tunkhannock, the Towanda Mt., in Bradford co., and the Blossburgh Mt. and the Crooked Creek Mt., both in Tioga co. This north-eastern part of the table-land is the region of white pine forests and the Susquehanna lumber trade. The south-eastern part is intersected by Negro Mt., Laurel Ridge and Chestnut Ridge. The last two ranges inclose the Ligonier Valley, and, where they are intersected by the Youghiogheny R., present scenery both grand and beautiful.

Rivers.—The principal rivers of Pa. empty either into the Atlantic Ocean through Delaware and Chesapeake Bs. or into the Ohio. The water-shed between these two drainage systems follows the southern extremity of the Alleghany Mts., turns N. W. in Somerset co., and then intersects the western table-land in Clarion, Elk, McKean and Potter cos. The part of the state lying W. of this line is drained by the Ohio R., except only the small areas which send their waters to the Genesee R. (90 sq. mls.) and directly into Lake Erie (352 sq. mls.). The Ohio R. is formed at Pittsburgh by the confluence of the Alleghany and Monongahela Rs. The former receives Conewango, Oil and French Crs. from the N. W., and Tionesta Cr. Clarion R., Red Bank Cr., Mahoning Cr., Crooked Cr. and Conemaugh R. from the E. Into the Monongahela R. empty the Youghiogheny and several small creeks in Greene and Washington cos., and the direct affluents of the Ohio R. are Chartiers Cr. and the Shenango R.

The Susquehanna R. drains nearly one-half of the area of the state. It is formed by the East and West Branches, which unite above Sunbury, in Northumberland co. From this point the stream flows S. to the mouth of the Juniata R., and turning S. E. passes by Harrisburgh and Columbia, and empties into the northern extremity of Chesapeake B. at Port Deposit, Md. Its width is very unequal and varies between a quarter of a mile and one mile and a half, and as the bed is interrupted by rocky ledges the stream is not navigable. The East Branch rises in Otsego Lake (Otsego co., N. Y.), flows S. W. to Susquehanna co., Pa., bends back into N. Y., and reëntering Pa. in Bradford co. flows S. E. into Wyoming Valley, whence it pursues a south-westerly course to its junction with the West Branch. Its course is tortuous and its fall great, so that it furnishes much water-power. Its principal tributaries are Meshoppen, Tunkhannock and Lackawanna Crs. The West Branch rises in Cambria co., and flows N. E. through Clearfield co., and then pursues a very tortuous easterly direction as far as

Muncy, where it bends sharply S. to its confluence with the East Branch. Its northern affluents are Sinnemahoning, Pine, Lycoming, Loyalsock and Muncy Crs., and its southern, Clearfield, Moshannon, Bald Eagle, White Deer and Buffalo Crs.

The principal tributary of the Susquehanna is the Juniata R., which is formed by the confluence, below Huntingdon, of the Frankstown and Raystown Branches, follows an easterly course across the mountain belt and empties above Petersburg. The Susquehanna also receives from the W. Penn's, Sherman's, Conedogwinit, Breeches, Conewago and Codorus Crs., and from the E. Shamokin, Mahanoy, Wiconisco, Powell's, Clark's, Stoney, Swatara and Conestoga Crs.

The Delaware R. rises on the western declivities of the Catskill Mts., N. Y., in two branches, the Main, or Coquago, Branch and the East, or Popacton, Branch, which unite near Hancock, Delaware co., N. Y. Thence the river flows S. E., separating N. Y. from Pa., to Port Jervis, where it turns S. W. and flows along the northern base of the Shawangunk Mts. of N. J. At the Delaware Water Gap it traverses the celebrated notch between the Shawangunk and Blue Mts., which rise nearly 1,200 feet above its banks, and thence follows a southerly course to the South Mt. a few miles below Easton. Here it turns again S. E. as far as Trenton, N. J., where it falls over a rocky ledge and meets tide-water, 132 mls. from the sea. Flowing once more in a south-westerly direction it passes by Philadelphia, and gradually expands into Delaware B., between the states of Del. and N. J. It is navigable to Philadelphia for the largest vessels, and for smaller boats to Trenton. The area drained by the Delaware is estimated at 11,250 sq. mls. The principal tributaries are Lackawaxen Cr., the Lehigh R., Schuylkill R. and Brandywine R.

The Climate of Pa. varies considerably with the elevation above the sea, and while the lower portions of the state have very hot summers, with the thermometer rising to 100 degrees, the higher portions have pleasant summers, but long and severe winters. The mean annual temperature is over 52° in the south-eastern cos., and decreases to 48° and 44° in the central and northern cos. respectively. The amount of rain and snow which falls varies from 36 to 40 inches. In the S. E. corner it is nearly 48 inches.

The Vegetation of Pa. is rich and varied. Extensive forests cover much of the mountain belt and the western table-land, consisting of pines and coniferous trees in the north-central parts of the state, and of deciduous trees in the rest of the state. Climbing plants, such as the wild grape, the trumpet flower, etc., are quite abundant, and greatly add to the attractive beauty of the forests. The undergrowth consists largely of flowering shrubs, as the "laurel," a species of Rhododendron, the azalea, and many others.

Population.—The pop. of Pa. in 1790 was 434,373; in 1800, 602,365; in 1810, 810,091; in 1820, 1,047,507; in 1830, 1,348,233; in 1840, 1,724,033; in 1850, 2,311,786; in 1860, 2,906,215, and in 1870, 3,521,951. Of these there were 3,456,609 white, 65,294 colored, 13 Chinese, 1 Japanese, and 34 Indians.

In regard to nativity the pop. is distributed as follows: Born in the United States, 2,976,642, including 2,726,712 natives of the state, 6,767 of Conn., 14,617 of Del., 2,283 of Ill., 1,440 of Ind., 952 of Iowa, 1,375 of Ky., 3,071 of Me., 28,910 of Md., 9,119 of Mass., 1,485 of Mich., 1,852 of N. H., 36,694 of N. J., 87,869 of N. Y., 1,002 of N. C., 19,295 of Ohio, 1,119 of S. C., 1,586 of R. I., 4,163 of Vt., 18,936 of Va. and W. Va., and 1,462 of the D. C. The foreign-born population numbered 545,309, including 1,536 natives of Austria, 10,022 of British America, 8,694 of France, 160,146 of Germany, 69,665 of England, 235,798 of Ireland, 16,846 of Scotland, 27,643 of Wales, 2,266 of Sweden, and 5,765 of Switzerland.

The population of 10 years of age and over numbered, in 1870, 2,597,809; and of these were engaged in all classes of occupations 1,020,544 persons, viz.: in agriculture, 260,051; in professional and personal services, 283,000; in trade and transportation, 121,253, and in manufactures and mechanical and mining industries, 356,240.

Minerals and Mining.—Although Pa. has no deposits of precious metals, its iron and coal treasures alone render it one of the richest mining states of the Union. The anthracite coal fields, in the mountain belt between the Susquehanna and Delaware Rs., have already been mentioned. The bituminous coal is nearly all produced in the five cos. of Greene, Fayette, Washington, Monroe and Alleghany; and the semi-bituminous coal, which is largely used for manufacturing purposes, is produced in the cos. of Tioga, Bradford, Centre, Cambria and Huntingdon. The coal product of the state, in 1870, was computed to have been 7,675,841 tons bituminous coal of all kinds, and 15,849,899 tons anthracite coal, making a grand total of 23,525,740 tons.

Petroleum was known to exist in Pa. at a very early day; but it had no commercial importance until 1859. Since then the oil regions on Oil Cr. and on the Shenango R. have yielded immense quantities of this useful substance, not only for home consumption, but also for export into foreign countries. In 1859 the petroleum product amounted to 82,009 barrels; in 1864 to 2,116,109 barrels, and in 1870 to 5,659,000 barrels, of which 3,279,951 barrels were exported.

Pa. is the first "iron" state in the Union, and produces more of this metal and articles manufactured from it than all the other states and territories together. The mines are scattered throughout the mountain belt, the south-eastern district, and to a more limited extent through the western table-land.

Salt springs occur chiefly in the valleys of the Monongahela, Kiskiminetas and Beaver Rs., which yield about 1,700,000 bushels annually. Limestone, marble, slate and superior building stones are very abundant. Marble is found chiefly in Chester and Montgomery cos.; the slate of York and Lehigh cos. is of superior quality; zinc mines are worked near Bethlehem and in Huntingdon co.; graphite is obtained in Bucks co., and nickel from the "Gap Nickel Mines," in Lancaster co., the only ones in the United States. Chromium occurs in great quantities in Chester and Lancaster cos., and saltpeter deposits have been discovered in the central parts of the state.

According to the census report the mining products of the state, in 1870, had a value of $76,208,390, of which $38,436,745 were for anthracite coal, $13,921,069 for bituminous coal, $18,045,967 for petroleum, $3,944,146 for iron, $518,229 for slate, $873,879 for stone, $235,555 for zinc, $101,000 for marble, $24,000 for nickel and $7,800 for copper.

Agriculture.—Pa. has a very large amount of the best farming soil in the country, and is preëminently an agricultural state. The richest lands are in the picturesque valleys intervening between the numerous mountain ranges of the interior, and in the S. E. portion of the state, embracing the cos. of Delaware, Bucks, Montgomery, Chester, Lancaster, Lebanon, Berks and Lehigh. The northern tier of cos., lying on the table-land N. and N. W. of the Alleghany Mts., is less productive, and as yet but thinly settled.

In 1870 there were 174,041 farms in Pa., of which 61,268 contained from 50 to 100 acres; 48,151 from 20 to 50 acres; 38,273 from 100 to 500 acres; 15,905 from 10 to 20 acres; 152 over 500 acres, and the remainder, 10,292, under 10 acres. The farms included 11,515,965 acres of improved

land (or 39.12 per cent. of the area of the state), 5,740,864 acres of woodland, and 737,371 of unimproved land. The cash value of farms amounted to $1,043,481,582, and of farming implements, $35,658,196. The estimated value of all farm productions, including additions to stock, etc., was $183,946,027; of orchard products, $4,208,094; of market gardens, $1,810,016, and of forest products, $2,670,370.

The farm productions were: Spring wheat, 322,328 bush.; winter wheat, 19,350,639 bush.; rye, 3,577,641 bush.; Indian-corn, 34,702,006 bush.; oats, 36,478,585 bush.; barley, 529,562 bush.; buckwheat, 2,532,173 bush.; Irish pot's, 12,889,337 bush.; sweet pot's, 131,572 bush.; tobacco, 3,467,539 lbs.; wool, 6,561,722 lbs.; butter, 60,834,644 lbs.; cheese, 1,145,209 lbs.; flax, 815,906 lbs.; maple sugar, 1,545,917 lbs., and sorghum molasses, 213,373 gals.; hay, 2,848,219 tons.

The live stock had a value of $115,647,075, and comprised 460,339 horses, 18,009 mules and asses, 706,437 milch cows, 30,048 working oxen, 608,066 other cattle, 1,794,301 sheep and 867,548 swine.

Manufactures.—No state in the Union has greater facilities for manufacturing than Pa., in its abundance of water-power, coal and iron. According to the census of 1870 there were 37,200 manufacturing establishments (the largest number of any state in the Union), against 22,363 in 1860, using 6,230 steam-engines, of 221,936 horse-power, and 7,603 water-wheels, of 141,982 horse-power. There were employed 319,487 hands, of whom 256,543 were males above 16 years of age, 43,712 above 15 years of age and 19,232 youths. The capital invested in manufacturing was $406,821,845, the wages paid amounted to $127,976,594; the materials consumed had a value of $421,197,673, and the goods and commodities produced of $711,894,344 (being second only to that of the state of N. Y.).

The following were the products of industry exceeding one million of dollars in value: Agricultural implements, $3,652,295; blacksmithing, $5,398,589; bleaching and dying, $7,285,114; bookbinding, $3,588,623; boots and shoes, $16,864,310; brass founding and finishing, $2,030,055; bread and bakery products, $5,597,291; brick, $6,071,209; carpentering and building, $27,336,490; carpets, $10,218,621; carriages and wagons, $6,682,302; passenger and freight cars, $9,288,041; men's clothing, $21,850,319; women's clothing, $1,158,237; rectified coal oil, $15,251,223; confectionery, $2,491,332; cooperage, $3,209,470; cordage and twine, $1,701,511; cotton goods, $16,626,101; drugs and chemicals, $8,451,991; fertilizers, $1,625,200; flour and meal, $49,476,245; furniture, $7,491,032; gas, $4,113,374; gas and lamp fixtures, $1,171,783; glassware, $7,407,135; hardware, $1,537,687; hats and caps, $2,813,766; heating apparatus, $1,197,066; hosiery, $5,306,738; iron blooms, $4,881,431; forged and rolled iron, $57,976,471; bolts, nuts and rivets, $3,112,307; nails and spikes, $6,783,699; wrought-iron pipe, $4,582,394; pig-iron, $32,636,410; iron castings, $15,089,415; stoves and hollow ware, $3,668,880; jewelry, $1,664,431; tanned leather, $19,828,323; curried leather, $5,429,833; morocco, $3,225,041; lime, $2,058,675; distilled liquors, $4,618,228; malt liquors, $7,056,400; picture and mirror frames, $1,140,973; planed lumber, $6,323,605; sawed lumber, $23,930,985; machinery, $13,102,370; steam-engines and boilers, $8,922,401; malt, $1,721,205; marble and stone work, $4,843,302; packed and cured meat, $6,810,692; refined sugar, $26,731,016; animal oil, $1,065,089; linseed oil, $1,043,534; lead and zinc paint, $3,776,360; paper (writing, printing and wrapping), $4,626,946; patent medicines and compounds, $6,344,796; printed cotton and woollen goods, $6,113,584; printing and publishing, $13,482,449; saddlery and harness, $3,051,771; sash, doors and blinds, $5,911,671; saws, $1,235,184; ship building, repairing and ship materials, $3,083,244; silk goods, $1,632,900; soap and candles, $3,149,481; Bessemer steel, $1,405,000; cast and forged steel and steel springs, $1,984,663; stone and earthen ware, $1,650,747; tin, copper and sheet-iron ware, $5,311,810; tobacco and cigars, $6,234,493; umbrellas and canes, $2,049,793; turned and carved wood, $1,105,470; woollen goods, $27,361,897, and worsted goods, $7,883,638.

Commerce, Railroads, etc.—Although Pa. is not a seaboard state, its great maritime port, Philadelphia, gives it easy access to and from the ocean and good facilities for foreign commerce. In extent of exportation and importation Philadelphia is the sixth port of entry in the Union. The only other ports of entry of the state are Pittsburgh and Erie. The commercial fleet of the state comprised, in 1872, 794 sailing vessels of 103,754 tons, 434 steam vessels of 101,294 tons and 1,975 unrigged vessels of 203,868 tons, making a grand total of 3,303 vessels of 408,916 tons. Of these Philadelphia had 2,786 vessels of 317,480 tons; Pittsburgh, 333 vessels of 76,444 tons, and Erie, 84 vessels of 14,972 tons. During the fiscal year ended June 30, 1872, the total value of imports from foreign countries was $20,515,353, of exports of domestic commodities to foreign countries, $21,031,399, and of re-exports of foreign commodities to foreign countries, $33,874.

Of far more importance than the foreign commerce is the domestic commerce of the state, owing to the vast amount of its home productions (coal, iron, agricultural products and manufactures). The natural highways of commerce are limited, and consist in the navigable waters of Lake Erie and the Delaware R., which only touch the borders of the state. The means of communication comprise very complete systems of railways and canals. On January 1, 1873, Pa. had 5,787 mls. of railways, against 5,369 in 1872, 3,006 in 1862, 1,372 in 1852, and 789 in 1842. The number of companies whose lines are wholly or partially within the state is 115. Their paid up capital, as far as reported, was $393,670,886; the funded debt, $256,726,707, and the floating debt, $25,038,026. The rolling stock consisted of 3,259 locomotives, 1,396 first-class passenger cars, 706 postal and express cars, 41,855 freight cars, and 48,993 coal cars and stone trucks. The various companies own 472 machine and workshops, 1,873 depots and station-buildings, 417 iron bridges, and 1,831 stone bridges. In 1871 there were moved on the railroads 31,548,996 passengers and 58,807,802 tons of freight, inclusive of over 31,000,000 tons of coal and nearly 7,000,000 tons of iron. The total expenditures of the companies amounted to $73,212,372, and the total receipts to $117,900,281.

The principal lines are the Pennsylvania R. R. (354 mls. in the state, from Philadelphia to Pittsburgh); the Erie R. R. (only 46 mls. in the state); the Atlantic & Great Western R. R. (127¾ mls.); the Lake Shore & Michigan Southern R. R. (44 mls.); the Philadelphia & Erie R. R. (287 mls.); the Alleghany Valley R. R. (140 mls.); the Cumberland Valley R. R. (201 mls.); the Delaware, Lackawanna & Western R. R. (115 mls.); the Lehigh Valley R. R. (230 mls.); the Northern Central R. R. (142 mls.); the Oil Creek & Alleghany River R. R. (120 mls.); the Pennsylvania & New York R. R. (144 mls.); the Philadelphia & Reading R. R. (708 mls.), and the Pittsburgh, Washington & Baltimore R. R. (147 mls.).

The canal system of Pa. is very complete, and comprises 12 distinct lines, with a total length of 920 mls., of which 507 are within the limits of the state. The Schuylkill Canal is 108 mls. long; the Pennsylvania Canal (360 mls.), has 169 locks, 536 bridges, and 68 aqueducts; of the Delaware & Hudson Canal (108 mls. long), but 25 mls. are in Pa., and the Erie & Pittsburgh Canal intersects the north-western tier of cos.

Wealth, Taxation and Debt.—The taxable property of Pa. was assessed in 1870 at $1,313,236,024, of which $1,071,680,934 were for real estate and $241,555,108 for personal property. The true value of real and personal property was

estimated at $3,803,340,112 against $1,416,501,818 in 1860. The public debt of the state was, on November 30, 1871, $29,779,820. During the fiscal year ended November 30, 1872, $2,476,326 were paid by the Commissioners of the Sinking Fund, leaving a debt of $27,303,494. From this sum should be deducted $9,300,000, being assets in the sinking fund, and $1,482,455, being cash balance in the treasury. This would make the amount of debt unprovided for, $16,521,039. The total debts of the cos. in 1870 amounted to $49,173,850, and those of cities and towns to $8,741,649.

The receipts of the State Treasury during the fiscal year ended November 30, 1872, were $8,625,446, of which $7,148,637 were ordinary receipts, the remainder being the cash balance on hand from the preceding year. The disbursements were $7,142,990, of which $2,960,631 were ordinary expenses, $2,476,326 were loans, etc., redeemed, and the balance, $1,706,032, was applied to the payment of interest on loans. The balance of cash remaining in the treasury on November 30, 1872, was $1,482,455.

Education, Press, etc.—The first permanent school fund was created in 1831, and therewith the first foundation laid for the public school system. In that year the state had but 93 school districts with 451 schools. In 1838 there were 840 districts with 5,269 schools. In 1857 the law for the establishment of twelve normal schools was passed.

In 1871 the state was divided into 2,023 school districts, in which there were 15,700 public schools, inclusive of 5,634 graded schools. The pop. of school age (from 6 to 21 years), numbered in 1870, 975,753, of whom 834,614 were enrolled. The number of teachers was 18,021, viz.: 7,720 male and 10,301 female. The total school property was estimated at $16,889,624, and the total expenditures for school purposes amounted to $8,580,918 (for the year ended June 8, 1871). Pa. has 5 normal schools, which are located at Millersville, Edinboro, Mansfield, Kutztown and Bloomsburgh. The receipts of the normal schools were $161,303, and the expenditures $149,819.

The number of private schools was 346, and of academies and high schools, 161. The pupils of these two classes of institutions numbered 19,394, and of teachers giving instruction therein, 720.

Of the 30 universities and colleges in the state the following are the most prominent: The University of Pennsylvania, founded in 1755, and located at Philadelphia; Dickinson College (Methodist), at Carlisle; Washington and Jefferson College, at Washington; the Moravian College, at Bethlehem; Allegheny College, at Meadville; the Western University, at Pittsburgh; La Fayette College (Presbyterian), at Easton; Lehigh University, at South Bethlehem; Pennsylvania College, at Gettysburgh; Haverford College (Quaker), at West Haverford; the Augustinian College of Villa Nova (Roman Catholic), in Delaware co.; Lewisburgh University, at Lewisburgh; St. Vincent's College (Roman Catholic), in Westmoreland co.; Muhlenburgh College (Lutheran), at Allentown, and Franklin and Marshall College, at Lancaster.

According to the census of 1870 the six universities of Pa. had 127 teachers, of whom 17 were females, and 1,391 male and 170 female students. There were 6 medical, 2 dental, 11 theological, 1 agricultural and 8 commercial schools in the state.

The earliest newspaper of Pa. was the "American Weekly Mercury," which was issued in 1719 by Wm. Brady. In 1776 there were published 9 papers; in 1810, 71; in 1850, 310; in 1860, 367, and in 1870, 540. Of these 55 were dailies, 3 tri-weeklies, 2 semi-weeklies, 385 weeklies, 11 semi-monthlies, 73 monthlies, 3 bi-monthlies and 8 quarterlies. The total circulation was 3,419,765, and the copies issued during the year reached the number of 241,170,540.

Penal and Charitable Institutions.—Pa. has two State Penitentiaries, one at Alleghany City and the other at Philadelphia. In both the convicts are subjected to solitary confinement. The three State Lunatic Hospitals are located at Harrisburgh, at Dixmont, near Pittsburgh, and at Danville, in Montour co. Among the many charitable institutions supported by private endowment, the Pennsylvania Hospital, with its insane department, and the Girard College for Orphans, both at Philadelphia, are the most conspicuous. The Asylum for the Relief of Persons Deprived of the Use of their Reason was founded at Philadelphia in 1813, by the Society of Friends, and the Woodbrook Insane Hospital in 1859, at Media. The Deaf and Dumb Asylum in Philadelphia was opened for the reception of patrons in 1825. The "Pennsylvania Institution for the Instruction of the Blind" is also located in Philadelphia, and was founded by an incorporated society. In 1853 the Pennsylvania Training School for Feeble-minded Children was organized at Germantown, but has since been removed to a farm near Media, in Delaware co.

In no state is there made more liberal provision than in Pa. for the orphan children of soldiers who fell during the civil war. In 1872 there were 39 orphan schools in the state, and the number of children therein was 3,720, while to November 1st, 1872, there had been expended for this purpose the sum of $3,467,543.

Government.—The territory embraced within the present limits of Pa. was granted by Charles II. to William Penn, and was settled by English Quakers under his direction in 1681. The State Constitution was adopted in 1776, and has since been amended in 1838, 1850, 1857 and 1871.

In December, 1873, a new constitution, to take effect January 1st, 1874, except in certain specified instances, was submitted to the people and ratified by nearly 150,000 majority. Under its provisions, the executive department consists of a Governor, elected for four years; a Lieutenant-Governor, elected for the same time; a Secretary of the Commonwealth, an Attorney General and Superintendent of Public Instruction, the two first nominated by the Governor and confirmed by the Senate during pleasure, the latter for a term of four years; a Secretary of Internal affairs, elected for four years; an Auditor General, elected for three years, and a State Treasurer, elected for two years.

The legislative power is vested in a General Assembly, consisting of a Senate and House of Representatives. Senators are elected for a term of fours years, and Representatives for two years. The number of Senators is fifty. The members of the House of Representatives are apportioned among the counties on a ratio obtained by dividing the population of the state by two hundred.

Any male citizen twenty-one years of age, who shall have been a citizen of the United States for one month, who shall have resided in the state one year (or six months, if a former elector therein), and in his election district two months, is entitled to vote.

The judicial power of the state is vested in a Supreme Court, composed of seven judges, elected for a term of 21 years; in Courts of Common Pleas, which shall have one judge for every district of 40,000 inhabitants, and who is to be elected for 10 years; in Courts of Oyer and Terminer, General Jail Delivery, Quarter Sessions and Orphans' Courts, which are to be presided over by the judge of the Common Pleas Court in the same district.

Pa. is divided into the following 66 cos.: Adams, Alleghany, Armstrong, Beaver, Bedford, Berks, Blair, Bradford, Bucks, Butler, Cambria, Cameron, Carbon, Centre, Chester, Clarion, Clearfield, Clinton, Columbia, Crawford, Cumberland, Dauphin, Delaware, Elk, Erie, Fayette, Forest, Franklin, Fulton, Greene,

Huntingdon, Indiana, Jefferson, Juniata, Lancaster, Lawrence, Lebanon, Lehigh, Luzerne, Lycoming, McKean, Mercer, Mifflin, Monroe, Montgomery, Montour, Northampton, Northumberland, Perry, Philadelphia, Pike, Potter, Schuylkill, Snyder, Somerset, Sullivan, Susquehanna, Tioga, Union, Venango, Warren, Washington, Wayne, Westmoreland, Wyoming, York.

The city of Harrisburgh, on the Susquehanna R., is the capital of the state, and has a pop. of 23,194. The other principal cities and boroughs are: Philadelphia, pop., 674,022; Pittsburgh, 86,076; Alleghany, 53,180; Scranton, 35,092; Reading, 33,930; Lancaster, 20,233; Erie, 19,646; Williamsport, 16,030; Allentown, 13,844; Pottsville, 12,484; York. 11,003, Easton, 10,987; Norristown, 10,753; Altoona, 10,610; Wilkesbarre, 10,174; Chester, 9,485; Titusville, 8,639; Birmingham, 8,603, and Danville, 8,436.

***Penn Yan,** p. v. and the co. seat of Yates co., N. Y., on the Northern Central R. R. and on the canal which connects Crooked and Seneca lakes, 43 mls. N. N. W. of Elmira. The canal affords extensive water-power, which is employed in manufacturing. Commands an extensive trade with agricultural and fruit-growing surroundings. Pop., 3,488. Three newspapers.

Peno, tn. in Pike co., Mo. Pop., 2,160.

Penobscot, co. in Me., E. central part. Area, 3,350 sq. mls. Pop., 75,150; in 1860, 72,731. The northern part of the co. is hilly and broken; the southern undulating. The river valleys contain much good farm land. The East Branch of the Penobscot R. flows through the co. from N. to S., and with the main stream drains it. The Mattawamkeag, Piscataquis, Passadumkeag and other rivers join the Penobscot. Lakes are numerous. The extensive forests in the northern part of the co. support an active lumbering business. Bangor is the co. seat. Agr. productions in 1870: Wheat, 39,475 bush.; rye, 2,144 bush.; Indian-corn, 73,944 bush.; oats, 361,355 bush.; Irish pot's, 1,201,558 bush.; sweet pot's, 104 bush.; butter, 1,363,921 lbs.; hay, 116,323 tons. Cash value of farms, $10,324,213, Total, estimated, value of all farm productions, including additions to stock, etc., $3,880,532. Principal products of industry: Sawed lumber, $4,417,305; tanned leather, $1,286,270; flour and meal, $538,190; and woollen goods, $495,153. Total value of manufactures, $10,556,944.

Penobscot, tn. in Hancock co., Me. Pop., 1,418.

Penobscot, p. v. in the above tn., 10 mls. from Castine.

Penobscot River, the largest stream of Me.; is formed by the confluence, in Penobscot co., of the East and West Branches. The West Branch rises in the mountains on the Canadian boundary of Somerset co.; has an easterly course and drains numerous lakes, of which Chesuncook and Pamedumcook are the largest. The East Branch rises in the northern part of Piscataquis co., has a southerly course, and receives Sebois R. From the junction of the two branches the Penobscot flows S. and empties into Belfast B. The tides ascend as far as Bangor, 60 mls. above the mouth, and to this city the river is navigable for the largest boats. Small boats ascend up to Oldtown. The Penobscot drains an area of 8,200 sq. mls. Its fall from the farthest sources to tide-water is about 2,000 feet. The amount of water which it discharges is estimated at 146,250 cubic feet per minute, and the horse-power at 55,600 horse-power, for 11 hours per day, a small portion of which only is thus far used. The tributaries are: the Kenduskeag, Pashaw, Piscataquis, Passadumkeag, Mattawamkeag and Mattagamon Rs.

Peoria, co. in Ill., central part. Area, 644 sq. mls. Pop., 47,450; in 1860, 36,601. The surface is rolling; the soil fertile. The Illinois R. and Peoria Lake form the E. boundary. It is drained also by Spoon R. and several creeks. It is intersected by the Peoria, Burlington & Quincy R. R., the Peoria & Rock Island R. R., and the Peoria Branch of the Chicago & Rock Island and Pacific R. R. Peoria is the co. seat. Agr. productions in 1870: Wheat, 124,104 bush.; rye, 99,592 bush.; Indian-corn, 969,224 bush.; oats, 334,892 bush.; Irish pot's, 108,039 bush.; sweet pot's, 3,939 bush.; butter, 254,482 lbs.; hay, 22,036 tons. Cash value of farms, $10,291,236. Total, estimated, value of all farm productions, including additions to stock, etc., $1,671,970. Value of manufactures, $8,844,493.

Peoria, tn. in Peoria co., Ill. Pop., 794.

***Peoria,** city and the co. seat of Peoria co., Ill., on W. bank of Illinois R., 192 mls. above its mouth, and on Toledo, Peoria & Warsaw R. R., at N. terminus of Peoria, Pekin & Jacksonville R. R., S. terminus of Peoria Branch of the Chicago, Rock Island & Pacific R. R., E. terminus of Peoria Branch of Chicago, Burlington & Quincy R. R., S. E. terminus of Peoria & Rock Island R. R. and W. terminus of Indianapolis, Bloomington & Western R. R.; as a railroad and commercial center it is unsurpassed in importance in the central part of the state. The river is navigable to this point, by which it is brought into water communication with the Mississippi and the gulf. It is also connected with Chicago by means of the Michigan Canal. Its manufacturing interests are very large, embracing foundries, machine shops, boiler works, agricultural implement factories, planing mills, wagon and carriage shops, distilleries, etc., etc. The site of the city is an elevated plateau

some two miles square, nearly surrounded by bluffs, easy of access and varying in form, whose summits are covered with magnificent private residences. The river here expands into Peoria Lake, which enhances the attractions of the vicinity. Pop., 22,849; in 1860, 13,935; in 1850, 5,011. Thirteen newspapers, the principal of which are the "Review," "Transcript" and "Democrat," all daily and weekly.

Philadelphia, co. in Pa., S. E. part. Area, 129½ sq. mls. Pop., 674,022; in 1860, 565,629. The Delaware R. forms the south-eastern boundary and Penn Park Cr., Tacony Cr., Wissahickon Cr. and the Schuylkill R. intersect the co. It is co-extensive with the city of Philadelphia. Agr. productions in 1870: Wheat, 53,975 bush.; rye, 19,886 bush.; oats, 63,884 bush.; Indian-corn, 189,325 bush.; Irish pot's, 350,139 bush.; sweet pot's, 75 bush.; butter, 132,566 lbs.; hay, 16,568 tons. Cash value of farms, $18,945,000. Total, estimated, value of all farm productions, including additions to stock, etc., $2,231,366. Value of manufactures, $322,004,517.

***Philadelphia,** city and commercial metropolis of Pa.; is situated between the Delaware and Schuylkill Rs., immediately above their confluence, and on the W. bank of the latter stream, in lat. 39° 57′ N., and long. 75° 10′ W., or 136 mls. N. E. of Washington, 96 mls. from the Ocean via the Delaware R., and 86 mls. S. W. of New York city. In territorial extent it is the largest city in the Union, being co-extensive with Philadelphia co., and having a total length of 23 mls., an average breadth of 5¼ mls., and an area of 129⅛ sq. mls. or 82,700 acres.

The site of the city is, in general, a level plain, extending from river to river, with sufficient elevation in the center to admit of easy drainage, but falling off in the southern part into monotonous alluvial flats, and rising in the northern part and W. of the Schuylkill into an undulating and sometimes broken table-land.

The city plan is rectangular, the direction of the streets corresponding with the cardinal points of the compass; but exceptions to this regularity are found in the presence of several ancient thoroughfares which were built up before the plan was fully elaborated, in many of the angles of the rivers, and in not a few of the suburban towns and districts which in the course of time have blended with the city proper.

Philadelphia was founded by William Penn in 1682, and laid out in the succeeding year by Thomas Holmes, but was not regularly incorporated until 1701, when its limits were the Delaware on the E., the Schuylkill on the W., Vine Street on the N. and South Street on the S., in all ten streets running E. and W. and twenty-five running N. and S.; the central streets, Market and Broad, 100 and 113 feet wide respectively, having extensive public grounds at their intersection, and each of the quadrangles into which they divided the plan having similar parks or public grounds near their centers. This area did not long suffice to contain either population or trade, but it became surrounded by thrifty districts, which in the aggregate were larger and more populous than the city itself. These were all consolidated in the year 1854, and became one municipality.

Most of these district names still survive in the localities they designated, and are used in a conventional way, when particularity of description is an object: thus, mention may be heard of Bridesburgh, on the Delaware, at the mouth of Frankford Cr., some 7 mls. N. N. E. of the State House, where a United States Arsenal is located, and which is the seat of many handsome private residences; of Frankford, on Tacony Cr., 6 mls. N. by E., with its Friends' Asylum for the Insane, and large manufacturing interests; of Holmesburgh, 10 mls. to the N. N. E., made up of pleasant coun-

try residences; of Byberry, still further to the N. N. eastward; of Nicetown, with its revolutionary memories; of Bustleton, with its print-works; of Kensington, nearly N., with its din of machinery and clouds of manufacturing smoke; of Richmond, N. E. on the Delaware, with its immense coal and ship yards; of Germantown, 6 mls. N. N. W., with its palatial country seats, spacious lawns, picturesque surroundings, select society and historic associations; of Chestnut Hill, still further to the N. N. W., delightfully situated on a commanding eminence; of Schuylkill Falls, to the N. W.; of Manayunk on the left bank of the Schuylkill, 7 mls. N. W., with its mammoth cotton and woollen mills, furnaces, foundries and paper mills, and its millions of invested capital and annual products; of Roxborough, in the same neighborhood; of West Philadelphia, the city's self in miniature, on the W. side of the Schuylkill, with its wealth, refinement and active growth; of Mantua, which is but West Philadelphia as it abuts on the park to the N.; of Hamilton and Haddington, pretty little bustling corners in the W. part of the great municipality, etc., etc..

The streets of Philadelphia running N. and S. are named W. from the Delaware "First," "Second," "Third," etc., and the dwellings and stores on the same are numbered N. and S. from Market Street. The numbers on the E. and W. streets begin at the Delaware and run W. The heavy commercial street is Market, running W. from the Delaware the entire width of the city. The fashionable business streets are Chestnut, Walnut and Arch, running parallel with Market, and Eighth Street, running N. and S. The other active business streets, for general retail and wholesale trade, are chiefly those running N. and S. Third Street, and Chestnut and Walnut in the vicinity of Third, are the monetary foci of the city. Locust, Walnut, Chestnut and Arch, W. of the business centers, are lined with fashionable residences. Broad Street, the central avenue running N. and S., carries its immense width (113 feet) throughout the entire length of the city, 23 mls. A great part of it is built up with stately mansions, presenting fine architectural effects, and as it is the design of the municipality to protect it against the inroads of business, to pave and otherwise care for it, it is destined to become a boulevard as renowned for splendor and fashion as it is now for its unprecedented length and majestic breadth.

Outside of the central business area of 10 sq. mls. Philadelphia, though laid out, is not densely built. It is preëminently the city of airy, comfortable, home-like residences. There are few abodes of squalor and want. The artisan finds a home as well as the millionaire. It numbers more dwellings than any city in the country, having, in 1870, 112,366, with an average of 6.01 persons in each, while New York had but 64,044 dwellings with 14.72 persons in each. For this reason, aided no little by police regulations and climatic causes, it is the healthiest city in the country, as proven by a comparison of health records.

From its position the city is intimately associated with the early history of the country. In no vague sense it has been the scene of most of those political departures which constituted the steps from Colonial severalty and dependency to Republican unity and independence. Her merchants were among the earliest to pledge themselves not to sell British goods until the Stamp Act was abolished. In 1774 the first Congress in America assembled in Carpenter Hall, S. of Chestnut and between Third and Fourth Streets. The convention that framed and promulgated the Constitution of the United States sat in this city in 1787. It was the recognized capital of the country from 1774 to 1797. Here was established the first United States Bank, in July, 1780, and here the first Mint for National Coinage, in 1792. But the event of greatest moment in the history of the city and country was the session of the convention that framed the Declaration of Independence, which nominally ended July 4th, 1776, with the public reading of the immortal instrument from a stand in the State House Square, by Capt. John Hopkins. The venerable building on Chestnut Street, between Fifth and Sixth, in which the convention sat, is a substantial two-story structure of unpretending proportions. It was built 1729-34. Its E. hall is the Hall of the Declaration. Its general appearance is the same as in 1776, and it has ever been a patriotic desire to preserve its interior arrangement and appointments so as to truthfully reflect the surroundings of the "Fathers of our Country" during their momentous session. The presence of this shrine, with its sacred associations, together with the accessibility and fitness of the city for the occasion, gave it early prominence as the proper site for the national ceremonies in honor of the hundredth year of the Republic.

Philadelphia has many massive and thoroughly appointed mercantile and manufacturing buildings. The banking and savings institutions, the insurance and commercial establishments, are built on a scale of extent and beauty, and with a completeness of adaptation scarcely found elsewhere. The county buildings, containing the halls of justice and offices of record and police, are, with one or two additions, identical with the Old State House above mentioned. The foundations of a new, costly and capacious structure, ample for every purpose, are being laid at the intersection of Broad and Market Streets. The national buildings in the city are substantial, but hardly in keeping with liberal taste nor commensurate with the wants of a populous and progressive metropolis. The Custom House, on Chestnut Street, is of coarse marble and was designed as a specimen of Doric architecture. It was finished in 1824, at a cost of $500.000. The Mint, on Chestnut Street, at the corner of Juniper, is of marble, after Ionic models. It was begun in 1829, and cost $200,000. The Navy Yard, on the Delaware, is a series of store-houses, machine shops and floating docks, well adapted for the building and equipping of war vessels. The Naval Asylum, on the Schuylkill, founded in 1835, 380 ft. long, and built of white marble, is a tasteful and comfortable home for the "soldiers of the sea." The Post-office, on Chestnut Street, is to be superseded by a new and magnificent building extending on the W. side of Ninth Street from Market to Chestnut, and fronting all three streets. Educational and charitable institutions are numerous in the city. Besides many and beautiful high school and grammar school buildings, connected with the municipal school system, there are colleges devoted to general culture and the learned professions. Of these, Girard College, founded by Stephen Girard, and built at an expense of $2,000,000, is a superb solid marble structure, or series of three distinct structures, of the Corinthian order, and constitutes the most liberal and unique charity in the country. The University of Pennsylvania, an outgrowth of the old Franklin Academy and Free School, has recently erected stately buildings W. of the Schuylkill, and entered upon a new era of usefulness. The Academy of Natural Sciences, on Broad Street, is a capacious but ill adapted building, which, having long since failed to accommodate the largest collection of

specimens and the completest library of its kind in the country, is about to be deserted for the new and commodious structure approaching completion on Race Street. The different schools of medicine sustain elaborately appointed colleges, giving to the city a world-wide reputation as a focus of medical and surgical culture.

In 1871 the city had 380 public schools, 55 grammar schools, 1 high school and 1 normal school. The number of male teachers was 80, and of female teachers, 1,459. The average attendance was 71,556. There was expended the large sum of $1,197,902 for school purposes; $327,249 were for teachers' salaries.

The public or circulating libraries of the city are over 20 in number. Of these, the oldest and largest is the Philadelphia Library, 125 South Fifth Street, founded in 1731, and containing nearly 100,000 volumes. The Mercantile Library occupies a fine structure on Tenth Street. It was founded in 1821, and numbers 90,000 volumes. The library of the Atheneum, on Sixth Street, contains 30,000 volumes; the Friends' Library, on Arch Street, 10,000 volumes; the Law Library Association, 8,000 volumes; the Library of the American Philosophical Association, 31,000 volumes; Library of the Franklin Institute, 11,000 volumes; the exhaustive Library of the Academy of Natural Sciences, 31,000 volumes, and the bound and unbound collections of the Pennsylvania Historical Society, 19,000 volumes. In accordance with a very liberal bequest by the late Dr. Rush, a new library building is about to be erected on Broad Street, which, as designed by its founder, will be surpassingly extensive and grand.

There are over 100 hospitals and asylums in the city, whose extent and munificence are unequaled. Nearly every denomination has endowed its hospital or home, nobly seconding the municipality and the state in the alleviation of suffering and care of the aged and unfortunate. The County Alms-house, a massive structure W. of the Schuylkill, is capable of accommodating 600 patients. The Pennsylvania Insane Hospital, also in West Philadelphia, is 430 feet long, surrounded by a park of 114 acres. The prison buildings, Eastern Penitentiary, on Coates Street, County (Moyamensing) Prison, on Passyunk Road, and House of Refuge, on Parish Street, are imposing punitive and reformatory structures, unsurpassed for adaptation. The beneficial and social life of the city is architecturally represented by many costly buildings and richly adorned halls. Among these the Masonic Temple, on Broad Street, built of solid granite at a cost of $3,000,000, and in a Norman composite style of architecture, is perhaps the most massive, imposing and adequate structure of the Order in the world. The Union League House, on South Broad Street, is a tasteful brown-stone structure, with rich external and internal finish, and of equal magnificence is the marble palace of the Reform Club, on Chestnut Street. There are nearly 400 churches in the city; and whether considered as to number, extent of accommodation or artistic effect, Philadelphia is unsurpassed by any other city in this respect. Each denomination is represented by a proportionate number of edifices, many of them monuments of the purest architecture on the continent, while the older and less pretentious often embalm the rarest histories and richest associations of proprietary and revolutionary times. The dramatic and fine arts are represented by several schools and places of amusement. The Academy of Music, on South Broad Street, is the noblest structure of its kind in the city, and in internal arrangement and seating capacity is not excelled by any building, similarly devoted, in the country. The leading hotels of the city are the Continental, Girard, La Pierre, Colonnade, Merchants, American, St. Cloud, Bingham House, etc. The two former stand opposite each other on Chestnut Street, and are commanding structures, with complete appointments and large capacity. The La Pierre, on South Broad, and the Colonnade, on Chestnut Street, though less capacious, are of even more effective architecture and equally suited for first-class accommodations.

For municipal and general political purposes the city is divided into 29 wards, 4 congressional, 4 state senatorial and 18 legislative districts. The government follows the usual formula of Republics, its executive power being represented by a Mayor, its legislative by Select and Common Council, its judicial by criminal, civil and appeal courts. The police force is necessarily very large, numbering nearly 1,000 men. Many of the graver municipal functions are performed by boards, commissions and trusts, so constructed as to be presumably beyond partisan influence. The responsibility of most of these agencies is stupendous, and their management on the whole liberal and satisfactory.

The city is bountifully supplied with pure water from the Delaware and Schuylkill; the works on the former river being located at Kensington, pumping in September, 1873, 4,747,193 gallons; on the latter river at Fairmount, pumping for the same month 26,642,541 gallons; at Spring Garden, pumping 4,196,200 gallons; at Belmont, pumping 6,073,920 gallons; and at Roxborough, pumping 2,587,667 gallons; a total for the month of 44,248,521 gallons, all of which is received in settling reservoirs and thence distributed to the city.

Philadelphia contains a large number of beautiful cemeteries, which occupy retired and picturesque spots and where nature has been lavishly adorned by art. Of these Laurel Hill, fronting on the E. bank of the Schuylkill, is one of the oldest and finest in the country. Its surface is highly undulating, and its adornments of monument, parterre, walk and evergreen, rich, classical and lovely. Scarcely inferior in sacred embellishment are the cemeteries of Glenwood, on Ridge Road; Mount Vernon, opposite Laurel Hill; Monument Cemetery, on North Broad Street; Odd Fellows Cemetery, on Islington Lane; Woodland's Cemetery, on Darby Road; Mt. Moriah Cemetery, near it; and the many church burying grounds interspersed through the city.

Beside the many attractive squares throughout the city, which the forethought of Penn made secure against commercial intrusion, Philadelphia boasts the largest park in the country. It is situated on both sides of the Schuylkill, and contains 3,000 acres. It is under the control of a commission, who have laid out and ornamented its eastern portion with great care, and so as to take every advantage of the topographic variety and wonderful natural attractions of the surface. The West Park, by far the largest portion, is not so profusely ornamented as yet, but its drives are more extensive and its natural scenery even more varied and picturesque. In its midst, contiguous to the line of two railroads, is the chosen scene of the centennial celebration, than which no spot could have been more wisely selected.

Owing to the immense distances to be traversed in the city by merchants and artisans, it has elaborated, in obedience to public need, an extensive system of street railway carriage, which has supplanted, almost entirely, the old methods of travel. These vehicles render contiguous the most remote parts of the city. The outward commercial connections of the city bring it into intimate com-

munication with the immense resources of the state, of whatever kind, with the business centers east, west and south, and with all the ports of this and foreign countries. It is the N. E. terminus of the Philadelphia, Wilmington & Baltimore R. R., and the Philadelphia & Baltimore Central R. R.; the E. terminus of the West Chester & Philadelphia R. R. and Pennsylvania R. R., with its ramifications N., W. and S.; S. E. terminus of the Philadelphia & Reading R. R., with its arms in the coal regions and its other branches centering in the city; S. terminus of the North Pennsylvania R. R.; S. W. and N. W. terminus of the Philadelphia & Trenton R. R., the Camden & Amboy Division of Pennsylvania R. R., the Camden & Atlantic R. R., the West Jersey R. R., and in general the entire E. and W. system of N. J. Of its rivers, the Schuylkill is spanned by many elegant bridges, and by the course of the stream, a commercial outlet is had to the ocean for medium-sized craft. The Delaware is crossed by numerous ferries, rendering the opposite and neighboring towns readily accessible, while its course, with sufficient depth to float the largest vessel and width to accommodate the commerce of the world, gives easy outlet to the sea and furnishes a safe and capacious home port. The foreign commerce of the city has at all times been valuable, and of late an exclusively American line of four splendid steamships, running to Liverpool, has been established. In 1872 the commercial fleet comprised 779 sailing vessels of 100,200 tons, 258 steam vessels of 52,334 tons, and 1,749 unrigged vessels of 164,946 tons. The total imports from foreign countries during the year ended June 30, 1872, had a value of $20,383,853; the domestic exports to foreign countries of $20,982,876, and the re-exports of foreign commodities of $33,874.

Though excelled by New York in the annual value of her manufactured products, as to the amount of power, number of establishments, hands employed, capital invested and material consumed, Philadelphia is the first manufacturing city in the country. It had, in 1870, 8,184 establishments, in which were used 1,611 steam-engines of 40,528 horse-power, and 59 water-wheels of 2,696 horse-power. The number of operatives employed was 137,496, of whom 95,421 were males, above 16 years of age. The capital invested was $174,016,674, and the wages paid amounted to $38,780,130. The materials consumed had a value of $180,325,713, and the commodities and goods produced of $322,004,517. The products which exceeded one million of dollars were the following: Bookbinding, $3,362,395; boots and shoes, $9,231,348; bread and bakery products, $3,781,184; brick, $3,112,906; carpets, $9,798,019; carriages and wagons, $2,281,361; freight and passenger cars, $2,385,469; men's clothing, $16,429,067; confectionery, $2,014,711; cotton goods, $8,272,698; drugs and chemicals, $7,023,711; fertilizers, $1,485,452; flour, $4,822,228; picture frames, $1,034,853; furniture, $4,773,301; gas, $3,004,375; gas fixtures, $1,171,783; glassware, $1,365,643; hats and caps, $1,688,306; heating apparatus, $1,197,066; hosiery, $5,161,405; forged and rolled iron, $2,970,492; bolts, nuts, etc., $1,392,132; wrought iron pipes, $3,305,760; iron castings, $5,225,659; stoves and heaters, $1,678,532; jewelry, $1,455,741; leather, morocco and dressed skins, $6,482,046; distilled liquors, $1,940,255; malt liquors, $3,330,613; lumber, $1,825,121; machinery, $7,278,335; locomotives, 3,490,279; engines and boilers, $2,450,224; marble and stone work, $3,071,709; cured and packed meat, $5,477,602; refined sugar and molasses, $25,949,876; lead and zinc paint, $2,479,408; paper and paper hangings, $2,372,411; patent medicines, $6,101,592; printing of cloths, $5,713,584; printing and publishing, $10,107,451; job printing, $1,041,714; saddlery and harness, $1,135,453; sash, doors and blinds, $1,656,438; saws, $1,037,700; ship-building and repairing, $1,085,177; silk, $1,332,900; soap and candles, $2,490,941; cast steel, $1,858,250; tin, copper and sheet-iron ware, $2,096,543; tobacco and cigars, $2,339,711; umbrellas and canes, $2,044,726; woollen goods, $17,943,826, and worsted goods, $7,762,369.

The growth of the city in population has been uniform. In the year after it was founded (1682) it had a population of 500; of 4,500 in 1700; of 9,750 in 1744; of 12,500 in 1749; of 14,653 in 1753; of 18,756 in 1760; of 23,734 in 1777; of 37,000 in 1783; of 44,996 in 1790; of 70,287 in 1800; of 95,660 in 1810; of 114,410 in 1820; of 167,811 in 1830; of 220,523 in 1840; of 350,305 in 1850; of 568,034 in 1860, and of 674,022 in 1870; being the second largest city in population in the country. The number of natives of the United States was 490,398, and of foreign-born persons 183,624, of whom 50,746 were born in Germany; 22,034 in England; 95,698 in Ireland; 4,175 in Scotland and 1,791 in Switzerland.

In all classes of occupations were engaged 217,685 persons, viz.: 3,690 in agriculture; 63,869 in professional and personal services (including 533 clergymen, 128 journalists, 982 lawyers, 2,023 teachers, 24,108 domestic servants and 20,994 laborers); 43,960 in trade and transportation and 106,166 in manufactures, etc. (including 2,054 bakers, 2,563 blacksmiths, 7,299 shoemakers, 3,753 masons and stone cutters, 1,908 butchers, 2,115 cabinet-makers, 7,072 carpenters and joiners, 955 coopers, 12,617 cotton and woollen mill operatives, 4,123 iron and steel workers, 2,524 machinists, 5,556 milliners and dress-makers, 2,950 painters and varnishers, 2,142 printers, 10,288 tailors and tailoresses, and 1,764 brick and tile-makers).

Philadelphia sustains a liberal and numerous press. The total number of papers issued is 146. Of these the leading morning dailies are "The Ledger," independent in politics, with a circulation of 87,000; editor and proprietor, George W. Childs. Its magnificent building, at the corner of Sixth and Chestnut, is regarded as one of the architectural ornaments of the city, and as the most thoroughly appointed newspaper office in the world. "The Record," independent, circulation, 50,000 estimated, in a handsome office at Third and Chestnut; Wm. J. Swain, proprietor and publisher. "The Press," Republican, circulation 15,000; tri-weekly, 2,000; weekly, 20,000; in a capacious structure at corner of Seventh and Chestnut; Hon. John W. Forney, editor and proprietor. "The Age," Democrat, daily, 14,500; weekly, 20 000; office, Seventh above Chestnut. "The Inquirer," office 304 Chestnut; W. H. Harding, editor and proprietor. "The North American," 132 South Third Street; Hon. Morton McMichael and Son, owners and editors. "The Demokrat," German, 612–614 Chestnut Street; circulation daily 17,500; weekly, 6,000; Hoffman & Morwitz, editors and publishers. "The Freie Presse"; circulation 6,000. The principal evening papers, all ably edited and largely patronized, are the "Bulletin," "Telegraph," "All Day Item," "Herald," "Star," "Day," and "Abend Post." The Sunday press is numerous, liberal and well supported. The commercial interests are represented by first-class periodicals, as are the religious, legal, insurance and medical interests, with agriculture, horticulture and the fine arts. The literary papers, as "Saturday Evening Post," "Saturday Night," etc., are enterprising and have attained immense circulations, while several of the monthlies, as "Lippincott," "The Lady's Book," "People's Journal," etc., have a wide reputation and proportionate influence.

***Pittsburgh,** city and the co. seat of Alleghany co., Pa., at the junction of the Monongahela and Alleghany Rs., which here unite to form the Ohio.; is the W. terminus of the Pennsylvania R. R.; the N. W. terminus of the Pittsburgh & Connellsville R. R.; the S. terminus of the Alleghany Valley R. R., the Erie & Pittsburgh R. R., and the Cleveland &

Pittsburgh R. R.: the N. terminus of the Bellaire & Pittsburgh R. R., and the E. terminus of the Pittsburgh, Fort Wayne & Chicago R. R., and of the Pittsburgh, Cincinnati & St. Louis R. R. It is 354 mls. W. of Philadelphia, 313 mls. E. of Cincinnati and 468 mls. E. of Chicago. The city occupies the triangular space between the two streams named above and the hills on the E., which rise from 400 to 500 feet above the level of the Ohio. It was laid out in 1765, on the site of Fort Du Quesne, and was incorporated as a city in 1816. Two bridges connect it with the W. bank of the Monongahela R., and five bridges with Allegheny City, on the N. bank of the Alleghany R. The population was, in 1850, 46,601; in 1860, 49,217; in 1870, 86,076, making it the 16th city in size in the Union. The natives of the United States numbered 58,254, and of foreign countries 27,822. The persons engaged in all classes of occupations numbered 29,854, of whom 444 were engaged in agriculture; 11,077 in personal and professional services (including 123 clergymen, 132 lawyers, 138 physicians, 248 teachers, 2,867 domestic servants and 5,533 laborers); 5,963 in trade and transportation, and 12,370 in manufactures and mining (including 2,542 iron and steel workers, 1,081 carpenters and joiners, 815 tailors and seamstresses, 435 blacksmiths, 442 shoemakers, 579 masons and stone-cutters, 235 machinists, 361 painters and varnishers, 323 printers, etc.).

The city is substantially and compactly built, and has many fine residences, especially in the eastern part. It is divided into 22 wards, and contains 175 church buildings, the most noteworthy of which are the Cathedral of St. Paul (Roman Catholic); the First and Third Presbyterian, and the First Baptist churches. Among the other prominent buildings are: The Court House, situated opposite the Cathedral; the City Hall, the United States Custom House, the Post-office, etc. The Western Penitentiary is an immense and massive structure in the Norman style, which was completed in 1827. The United States Arsenal is located within the limits of the city proper.

Pittsburgh is one of the chief commercial cities of the country. The Ohio R. is navigable to this point for light draft steamers, which run to all ports of the Ohio and Mississippi Rs. The coal trade amounts to over $10,000,000 annually, and the petroleum trade amounted, from 1863 to 1868, to $56,000,000. Iron and coal are extensively mined in the surrounding country, and support immense foundries and manufacturing establishments. These are located partly within the city limits and partly in the suburbs. It is estimated that the manufactories of iron, glass, steel, copper, oil, wood, cotton and brass alone, situated in the city and neighborhood, have a combined length of 35 mls. In iron and steel it is the great market of the country. There are over 30 rolling-mills in in the city, 60 iron foundries, 6 steel works, numerous nail works, bloomeries, etc. One of the chief establishments (the American Iron Works of Jones & Laughlin) covers 17 acres of ground, employs 2,500 hands, and contains 25 steam-engines of 2,750 horse-power.

The glass houses are also numerous and extensive, and employ several thousand hands. According to the census of 1870, Alleghany co. produced manufactured articles to the value of $88,789,414, and nearly all of this fell to the share of Pittsburgh and its immediate surroundings. The principal products of the co. were as follows: Agricultural implements, in 12 establishments, $487,770; brass founding, in 9 establishments, $849,991; rectified coal oil, in 20 establishments, $6,950,645; cast-steel, in 6 establishments, $3,485,413; iron blooms, in 7 establishments, $2,923,460; forged and rolled iron, in 33 establishments, $20,101,664; bolts, etc., in 5 establishments, $1,463,795; nails and spikes, in 10 establishments, $3,229,131; pig-iron, in 4 establishments, $2,324,009; castings, in 37 establishments, $3,802,911; stoves and heaters, in 9 establishments, $717,670, tin, copper and sheet-iron ware, in 80 establishments, $781,211; engines and boilers, in 31 establishments, $2,027,357; men's clothing, in 100 establishments, $1,191,213; cotton goods, in 4 establishments, $1,205,360; drugs and chemicals, in 4 establishments, $1,322,200; flour, in 26 mills, $913,723; glassware, in 32 establishments, $5,832,492; furniture, in 33 establishments, $743,401. The building of steamboats, flat-boats and other river craft is extensively carried on here.

The schools of the city bear a deservedly high reputation throughout the Union, and are liberally endowed. Among the higher institutions are to be mentioned the Western Theological Seminary of the Presbyterian Church, founded in 1825; the Theological Seminary of the United Presbyterian Church, established in 1826; the Alleghany Theological Institute, organized in 1840 by the Reformed Presbyterian Church. The public schools were attended, in 1870, by 14,905 children, of whom 13,833 were natives, and 1,022 foreign born. The number of school buildings was 33; of teachers, 204; and the sum expended for teachers' salaries amounted to $121,537. There are 43 papers published in the city, of which the following are the leading dailies: The "Pittsburgh Dispatch," the "Pittsburgh Commercial," the "Pittsburgh Gazette," the "Pittsburgh Leader," the "Pittsburgh Chronicle," the "Pittsburgh Freiheitsfreund" (German), the "Pittsburgh Post," the "Pittsburgh Mail," the "Pittsburgh Volksblatt" (German), the "Pittsburgh Republikaner" (German).

The western part includes the valley of the Sevier R., which is bounded by the lofty Wahsatch Mts. on the E., and another range on the W., beyond which is Beaver R., which empties into Preuss Lake, which lies partly in this co. and partly in Nev. Bullion is the co. seat.
Pixley, tn. in Clay co., Ill. Pop., 1,517.
Placer, co. in Cal., E. part. Pop., 11,357; in 1860, 13,270. The Bear R. forms the N. boundary, the Middle Fork of the American R. the S. boundary. The co. lies on the western slope of the Sierra Nevada and extends from the rugged summit of this lofty chain on the E., to the low plain of the Sacramento on the W. The North Fork of the American R. flows through the central part. The surface of the co. is deeply furrowed by the rivers, some flowing through cañons or gorges, which vary from 1,800 to 2,500 feet in depth. The co. is well timbered, except that portion which lies on the Sacramento plain. The amount of good arable land is considerable. Gold mining is the chief source of wealth. Extensive hydraulic mines are situated near Iowa Hill, Wisconsin Hill, Michigan Bluff and Forest Hill. The Central Pacific R. R. passes through the co. diagonally. Auburn is the co. seat. Agr. productions in 1870: Wheat, 102,402 bush.; rye, 1,301 bush.; Indian-corn, 1,000 bush.; oats, 2,510 bush.; Irish pot's, 2,208 bush.; sweet pot's, 3,345 bush.; wool, 169,033 lbs.; butter, 72,125 lbs.; hay, 6,665 tons. Cash value of farms, $994,200. Total, estimated, value of all farm productions, including additions to stock, etc., $1,203,275. Value of manufactures, $510,595.

Platte River, p. o. in Buchanan co., Mo.

Platte River, a tributary of the Missouri R.; rises in S. Iowa and flows S. through N. W. Mo., joining the Missouri 12 mls. above the mouth of the Kansas R.

Platte, or **Nebraska, River,** the largest tributary of the Missouri; is formed by the confluence of the North and South Platte Rs., in Lincoln co., Nebr. The North Platte rises in the North Park of Colo. Ter., near Long's Peak, and flows N. into Wyo. Ter., where it gradually turns eastward, emerging from the Rocky Mts. through a depression between the Black Hills and Rattlesnake Hills. Its principal tributaries are the Sweet Water and Laramie Rs. The South Platte rises in the South Park of Colo. Ter., flows N. N. E. to St. Vrain's Fort, and then turns E. through Weld co., Colo. Ter. It receives numerous tributaries from the Rocky Mts., the largest of which is Lodge Pole Cr. From the junction of these two branches, the Platte pursues an easterly course through Nebr., and empties into the Missouri at Plattsmouth. Its southern affluents are insignificant; but from the N. it receives the Loup Fork and the Elk Horn Rs., which drain a large portion of the state. The Platte is a wide and shallow stream, which is navigable during the highest stages of water, but during the dry season exhibits a series of shallow pools. Its total length from the source of the North Platte downward is estimated at over 900 mls.

Platte River, a tributary of the Mississippi, in Wis.; rises in the N. E. part of Grant co., and empties 10 mls. above Dubuque, Iowa.

Plumas, co. in Cal., N E. part. Pop., 4,489; in 1860, 4,363. It is bounded on the N. E. by the principal crest of the Sierra Nevada, whose spurs and ramifications occupy nearly the whole of its area. The principal stream is Feather R., and its branches, the Middle Fork, North Fork, Weaver Cr., etc., drain the co. Being deeply furrowed by these watercourses, the central and south-western parts of the co. are divided into narrow cañons, varying in depth from 500 to 3,000 feet. The mean elevation of Plumas co. is very great, and the surface extremely rugged; yet it

contains many fertile and well-sheltered valleys and mountain meadows, admirably suited for agricultural and grazing purposes. Such are Indian and Humbug valleys, Mountain Meadow, Big Meadow, Genesee, Mohawk, Beckworth, Sierra, Red Clover and Round valleys, nearly all lying on the upper tributaries of the Feather R. Placer mining is profitably carried on, though the amount of gold produced was formerly much larger than it is at present. Quartz veins are also an important source of wealth. There are nearly 30 quartz-mills in the co. Quincy is the co. seat. Agr. productions in 1870: Wheat, 15,212 bush.; Indian-corn, 190 bush.; oats, 63,474 bush.; Irish pot's, 14,848 bush.; butter, 234,725 lbs.; wool, 13,023 lbs.; hay, 15,705 tons. Cash value of farms, $441,510. Total, estimated, value of all farm productions, including additions to stock, etc., $380,051. Value of manufactures, $349,861.

Portland, p. o. in Cerro Gordo co., Iowa.

***Portland,** city, port of entry and co. seat of Cumberland co., Me., on a peninsula projecting from the W. shore of Casco B. at S. terminus of Main Line & Lewistown Division of Maine Central R. R., E. terminus of Portland & Rochester R. R., and N. E. terminus of Portland, Saco & Portsmouth Division of Eastern R. R. of Massachusetts. It entirely occupies the peninsula, which is irregular in

shape, about ¾ of a mile wide and 3 mls. long, and rises boldly at either extremity, giving to the city an attractive appearance as viewed from the sea approaches. It is regularly laid out and substantially built of marble and brick. Before the great fire of July 4, 1866, it was preëminently the city of shade trees, more than 3,500 lining its streets. Congress Street is the principal thoroughfare, extending the entire length of the peninsula, from Munjoy's Hill in the E. to Bramhall's Hill in the W. Its business houses are fine structures, neat, commodious and convenient. There are numerous public institutions, large hotels and elegant churches, while handsome private residences crown the promontories of the peninsula. Portland is the largest city in Me. and the commercial metropolis of the state. Its harbor is one of the largest, deepest, safest and most easily accessible on the Atlantic coast. The foreign goods imported during the year ended June 30, 1872, had a value of $2,473,153, and the domestic goods exported of $3,512,986, and the foreign goods reexported of $834,739. It is connected by regular steamers with all the principal Atlantic ports, and during the winter with Liverpool by the Allan Line of trans-Atlantic steamers. Pop., in 1850, 20,816; in 1860, 26,341; in 1870, 31,413, of which 24,401 were native born and 7,012 foreign born. Sixteen newspapers, three of which are dailies.

Potomac, p. o. in Vermillion co., Ill.

Potomac, p. o. in Prince William co., Va.

Potomac, p. o. in Ohio co., W. Va.

Potomac River is formed by the confluence of the North and South Branches, at the northern boundary of Hampshire co., W. Va.; flows in an easterly and then south-easterly direction forming numerous curves, and at last empties into Chesapeake B. through a wide estuary. It breaks successively through several ranges of the Appalachian System, and at Harper's Ferry through the gap between the Blue Ridge, of Va., and the South Mt. of Md. Throughout its whole length it separates these two states. About 12 mls. above Georgetown it forms a beautiful, though not high, cataract, and at this city it falls over a ledge of primitive rocks. Its whole length is about 400 mls. It is navigable as far as Georgetown, to which place the tide ascends, a distance of 120 mls. from its mouth.

Potosi, tn. in Linn co., Kans. Pop., 1,779.

Potosi, p. v. in Livingston co., Ill., 10 mls. S. of Fairbury.

***Potosi,** p. v. and the co. seat of Washington co., Mo., at W. terminus of Potosi Branch of the St. Louis & Iron Mountain R. R., 43¼ mls. W. of Mineral Point, and in the vicinity of rich iron and lead mines. Has large trade in lumber and supplies. Pop., 897. One newspaper.

Providence, co. in R. I., forming the northern extremity of the state. Area about 375 sq. mls. Pop., 149,190; in 1860, 107,799. It is bounded on the S. by the Pawtuxet R., and on the E. partly by the Blackstone R. The surface is uneven and in some parts quite rough. The soil is fertile and in a high state of cultivation. Manufacturing is the principal branch of industry of the inhabitants. The Boston, Hartford & Erie R. R. passes along the northern border of the co. The Providence & Worcester R. R. and the Boston & Providence R. R. intersect the co. Providence is the co. seat. Agr. productions in 1870: Wheat, 151 bush.; rye, 9,887 bush.; Indian-corn, 85,114 bush.; oats, 15,386 bush.; Irish pot's, 329,482 bush.; butter, 296,128 lbs.; hay, 38,606 tons. Cash value of farms, $9,245,105. Total, estimated, value of all farm productions, including additions to stock, etc., $2,140,477. Principal products of industry: Bleaching and dyeing, $13,368,723; men's clothing, $1,198,531; cotton goods, $14,532,002; flour, $1,050,983; hardware, $649,600; forged and rolled iron, $753,500; castings, stoves, etc., $1,317,605; jew-

elry, $2,978,146; leather (tanned and curried), $1,828,264; machinery (cotton and woollen), $4,056,376; plated ware, $1,212,240; printing cotton goods, $12,502,050; screws, $1,882,318; woollen goods, $8,295,867, and worsted goods, $2,-835,950. Total value of manufactures, $85,142,032.

***Providence,** the largest city in R. I., port of entry, co. seat of Providence co., and semi-capital of the state; is situated on both sides of Providence R. at the head of Providence B. and Narragansett B., 35 mls. from the ocean. The R. divides the city into two nearly equal parts, which are connected by numerous bridges. The site is hilly and the streets irregular, but the general appearance is picturesque and pleasing. Near the center of the city is a lake one mile in circumference, inclosed with drives, walks and shade trees, whose presence adds effect to the beauty of the surroundings. The private residences were formerly mostly of wood, but these are fast being replaced by substantial and beautiful structures of brick and granite. The public buildings are extensive and costly granite structures, beautiful in design and pleasantly situated. Here are numerous benevolent and disciplinarian institutions. Among these are Butler Hospital for the Insane, Dexter Asylum for the Poor, the State Prison, Home for Aged Women, and the Children's Friends' Society. The city has always been noted for the number and effectiveness of its schools and higher institutions of learning, among the latter of which is Brown University (Baptist), founded in Warren in 1764, and removed hither in 1770. It comprises five distinct, handsomely located and liberally supported buildings. From Providence railroads radiate to all parts of the state and into Mass. These are the Boston & Providence R. R., Providence & Worcester R. R., Providence, Warren & Bristol R. R., Hartford, Providence & Fishkill R. R., and Stonington & Providence R. R., all of which contribute materially to its importance as an industrial and trade center. Its situation at the head of a safe, easily accessible, though not deep, harbor, gives it good commercial facilities. Its principal exports are cloths and other manufactured articles; its imports molasses, sugar, coal, salt and iron. The manufactures of Providence are extensive and varied, annually absorbing a large amount of capital, consuming great quantities of raw material, and footing up over $80,000,000 worth of products. There are over 100 establishments for the manufacture of jewelry, many foundries and machine shops, and factories for producing wood-screws, muskets, cannon and cannon balls, cotton and woollen goods, locomotives, steam-engines, stoves, hinges, nails, axes, brass, copper and tinware, wire, cabinetware, carriages, boots and shoes, etc. There are twenty-four National Banks, with a capital of $15,000,000, numerous large and trustworthy insurance companies, several fine hotels, and other institutions incident to a wealthy and busy city.

In the year ended on June 30, 1872, Providence imported from foreign countries goods to the value of $567,314, and exported to foreign countries domestic goods to the value of $6,-448. The commercial fleet consisted of 64 sailing vessels of 9,151 tons, and 21 steam vessels of 9,965 tons.

There are fifteen newspapers, the principal of which are the "Bulletin" (daily), "Journal" (daily, semi-weekly, weekly), "Herald" (daily), "Press" (daily), and "Star" (daily). Providence was founded in 1636 by Roger Williams, and 1850 had a pop. of 40,014; in 1860, 49,129, and in 1870, 68,904.

Pulaski, co. in Ark., central part. Area about 1,100 sq. mls. Pop., 32,066; in 1860, 11,699. The Arkansas R. intersects the co. from N. W. to S. E., and flows through a wide and fertile valley, from which the surface rises toward the N. and W. Little Rock, the state capital, is the co. seat. Agr. productions in 1870: Wheat, 9,673 bush.; Indian-corn, 516,519 bush.; oats, 16,442 bush.; Irish pot's, 26,252 bush.; sweet pot's, 41,743 bush.; cotton, 14,891 lbs. Cash value of farms, $2,633,509. Total, estimated, value of all farm productions, including additions to stock, etc., $2,046,937. Value of manufactures, $688,003.

Pulaski, co. in Ga., central part. Area about 600 sq. mls. Pop., 11,940; in 1860, 8,744. The surface of the central part is hilly, and separates the tributaries of the Ocmulgee R., which traverses the western part, from those of the Gum Swamp Cr., which intersects the eastern. The Macon & Brunswick R. R. inter

sects the co. Hawkinsville is the co. seat. Agr. productions in 1870: Wheat, 393 bush.; Indian-corn, 215,375 bush.; oats, 13,646 bush.; Irish pot's, 3,344 bush.; sweet pot's, 20,432 bush.; cotton, 6,617 bales; butter, 17,320 lbs. Cash value of farms, $590,240. Total, estimated, value of all farm productions, including additions to stock, etc., $1,026,775. Value of manufactures, $324,216.

Pulaski, co. in Ill., S. part. Area about 185 sq. mls. Pop., 8,752; in 1860, 3,943. The Ohio R. forms the S. E. boundary and separates the co. from Ky. The Cache R. partly bounds it on the N. and W. The surface is rolling and deeply furrowed by the fertile valleys of small streams. The Illinois Central R. R. intersects the co. from S. to N. Mound City is the co. seat. Agr. productions in 1870: Wheat, 44,922 bush.; rye, 222 bush.; Indian-corn, 195,735 bush.; oats, 16,511 bush.; Irish pot's, 24,652 bush.; sweet pot's, 9,569 bush.; butter, 695 lbs.; hay, 988 tons. Cash value of farms, $810,661. Total, estimated, value of all farm productions, including additions to stock, etc., $330,712. Value of manufactures, $544,447.

Pulaski, p. o. in the above co.

Pulaski, co. in Ind., N. W. part. Area, 430 sq. mls. Pop., 7,822; in 1860, 5,711. The surface is mostly level. About one-half of the co. consists of prairies, the other half of oak openings. The Tippecanoe R. is the principal stream. The soil of the river bottoms is very fertile. The Louisville, New Albany & Chicago R. R. and the Pittsburgh, Cincinnati & St. Louis R. R. pass through the co. Winamac is the co seat. Agr. productions in 1870: Wheat, 87,640 bush.; rye, 12,035 bush.; Indian-corn, 60,512 bush.; oats, 25,186 bush.; Irish pot's, 50,102 bush.; sweet pot's, 270 bush.; butter, 147,015 lbs.; hay, 17,442 tons. Cash value of farms, $2,467,985. Total, estimated, value of all farm productions, including additions to stock, etc., $885,293. Total value of manufactures, $145,405.

Pulaski, p. o. in Pulaski co., Ind.

Pulaski, p. o. in Davis co., Iowa.

Pulaski, co. in Ky., S. central part. Area, 640 sq. mls. Pop., 17,670; in 1860, 17,201. The surface is undulating and hilly. Minerals are found. The Cumberland R. intersects the central part, and the co. is drained by Bushy and Big South Forks of the same river. Somerset is the co. seat. Agr. productions in 1870: Wheat, 43,918 bush.; rye, 1,848 bush.; Indian-corn, 4,666,379 bush.; oats, 176,016 bush.; Irish pot's, 34,790 bush.; sweet pot's, 21,709 bush.; butter, 279,716 lbs.; hay, 2,252 tons. Cash value of farms, $1,773,628. Total, estimated, value of all farm productions, including additions to stock, etc., $1,969,237. Total value of manufactures, $216,147.

Pulaski, tn. in Jackson co., Mich. Pop., 1,165.

Pulaski, p. v. in the above tn., 5 mls. S. of Concord.

Pulaski, co. in Mo., S. central part. Pop., 4,714; in 1860, 3,835. The Gasconade R. forms the S. W. boundary and then flows through the co., receiving the Big Piney R. and Robidoux Cr. The surface is broken and heavily timbered; the soil of the valleys exceedingly rich, while the uplands are but moderately productive. Iron ore and building stone are abundant. The Atlantic & Pacific R. R. passes through the northern part of the co. Waynesville is the co. seat. Agr. productions in 1870: Wheat, 28,037 bush.; rye, 765 bush.; Indian-corn, 201,019 bush.; oats, 20,873 bush.; Irish pot's, 9,353 bush.; sweet pot's, 231 bush.; butter, 78,580 lbs.; tobacco, 9,020 lbs.; hay, 346 tons. Cash value of farms, $551,385. Total, estimated, value of all farm productions, including additions to stock, etc., $245,341. Value of manufactures, $53,785.

***Pulaski,** p. v. and semi-co. seat of Oswego co., N. Y., on Salmon R. and on the Syracuse Northern R. R., and the Oswego & Rome R. R., 4 mls. E. of Lake Ontario and 24 E. N. E. of Oswego. A manufacturing village. Pop. about 800. One newspaper.

***Raleigh,** city, co. seat of Wake co. and capital of N. C., a few miles W. of Neuse R., 149 mls. N. by W. of Wilmington, and 48 N. W. of Goldsborough. Its site is elevated and healthy. It is regularly laid out, its four main streets (99 feet wide), radiating from a magnificent square of ten acres in the center. The State House is situated in this square. It is a beautiful and capacious structure, and is reckoned one of the finest in the country. The city is eligibly situated for inland commerce, upon the North Carolina Division of the Richmond & Danville R. R. at S. terminus of Raleigh & Gaston R. R. Its surroundings are agricultural, devoted to the raising of cotton, tobacco and the cereals. Pop., 7,790; in 1860, 4,780; in 1850, 4,528. Twelve newspapers are published here, the principal of which are the "News" (daily and weekly), "Sentinel" (daily, semi-weekly and weekly), and "Carolina Era" (tri-weekly).

Raleigh, p. o. in Shelby co., Tenn.

Raleigh, co. in W. Va., S. part. Area about 380 sq. mls. Pop., 3,673; in 1860, 3,367. New R. washes the eastern border, the Great Flat Top Mt. trends along the south-eastern, and the Great Cherry Pond Mt. along the south-western. White Oak Mt. rises in the eastern part. The East and West Forks of Coal R. have their sources near the center of the co., and drain the western portion of it. Raleigh Court House is the co. seat. Agr. productions in 1870: Wheat, 7,509 bush.; rye, 1,660 bush.; Indian-corn, 73,657 bush.; oats, 16,278 bush.; Irish pot's, 6,720 bush.; sweet pot's, 262 bush.; butter, 41,635 lbs.; hay, 951 tons. Cash value of farms, $422,896. Total, estimated, value of all farm productions, including additions to stock, etc., $147,916.

Raleigh Court House, or **Beckley,** p. v. and the co. seat of the above co., 58 mls. N. of Wytheville, Va.

Ralls, co. in Mo., N. E. part. Pop., 10,510; in 1860, 8,592. It borders on the Mississippi R., which drains it with Salt R., Lick Cr., Spencer Cr. and other small tributaries. The broken or undulating surface comprises prairies and timber lands in nearly equal proportions. The soil is very productive. The Hannibal & St. Joseph R. R. passes through the northern part of the co. New London is the co. seat. Agr. productions in 1870: Wheat, 158,728 bush.; rye, 1,386 bush.; Indian-corn, 292,534 bush.; oats, 125,677 bush.; Irish pot's, 15,740 bush.; sweet pot's, 693 bush.; butter, 127,793 lbs.; hay, 8,962 tons. Cash value of farms, $4,504,516. Total, estimated, value of all farm productions, including additions to stock, etc., $746,196. Value of manufactures, $85,420.

Randolph, co. in Ala., E. part. Area, 650 sq. mls. Pop., 12,006; in 1860, 20,059. It borders in the E. on the state of Ga. The surface is rolling and the soil generally productive. The Tallapoosa R. intersects the co. from N. to S. and receives, near the center, the Little Tallapoosa. Wedowee is the co. seat. Agr. productions in 1870: Wheat, 48,587 bush.; rye, 351 bush.; Indian-corn, 264,448 bush.; oats, 20,707

bush.; Irish pot's, 1,144 bush.; sweet pot's, 37,758 bush.; cotton 2,246 bales; butter, 125,066 lbs. Cash value of farms, $620,331. Total, estimated, value of all farm productions, including additions to stock, etc., $718,695. Value of manufactures, $199,154.

Randolph, p. v. in Bibb co., Ala., on the Selma, Rome & Dalton R. R., 157 mls. from Rome. Lies in a rich farming district and has about 700 inhabitants.

Randolph, co. in Ark., N. E. part. Area about 870 sq. mls. Pop., 7,466; in 1860, 6,261. The surface is generally undulating and the soil fertile, particularly in the river bottoms. The Big Black R. intersects the co. from the N. E. to the S. W. and receives the Current R., the Eleven Point R. and others from the N., while the Cache R. forms the S. E. boundary of the co. Pocahontas is the co. seat. Agr. productions in 1870: Wheat, 16,763 bush.; Indian-corn, 265,990 bush.; oats, 18,293 bush.; Irish pot's, 7,829 bush.; sweet pot's, 7,257 bush.; cotton, 686 bales; tobacco, 11,130 lbs. Cash value of farms, $448,530. Total, estimated, value of all farm productions, including additions to stock, etc., $430,669. Value of manufactures, $48,629.

Randolph, p. o. in La Fayette co., Ark.

Randolph, co. in Ga., S. W. part. Area about 400 sq. mls. Pop., 10,561; in 1860, 9,571. The surface is level and the soil fertile. Large tracts are covered with pine timber. The co. is drained by the Pachitla Cr. and the Pataula Cr. A railroad connects the co. seat, Cuthbert, with Georgetown on the Chattahoochee R. Agr. productions in 1870: Wheat, 1,715 bush.; rye, 16 bush.; Indian-corn, 184,940 bush.; oats, 3,584 bush.; Irish pot's, 557 bush.; sweet pot's, 25,457 bush.; cotton, 5,748 bales; butter, 34,465 lbs. Cash value of farms, $899,155. Total, estimated, value of all farm productions, including additions to stock, etc., $817,656. Value of manufactures, $52,550.

Randolph, co. in Ill., S. W. part. Area, 600 sq. mls. Pop., 20,859; in 1860, 17,202. The surface is hilly or undulating and the soil fertile. Marble of fine quality is found. It is bounded on the S. W. by the Mississippi R. and intersected from N. to S. by the Kaskaskia R. Chester is the co. seat. Agr. productions in 1870: Wheat, 1,031,472 bush.; rye, 3,235 bush.; Indian-corn, 510,080 bush.; oats, 414,487 bush.; Irish pot's, 107,049 bush.; sweet pot's, 11,362 bush.; butter, 109,184 lbs., hay, 11,097 tons. Cash value of farms, $8,127,306. Total, estimated, value of all farm productions, including additions to stock, etc., $2,270,199. Value of manufactures, $1,846,130.

Randolph, tn. in McLean co., Ill. Pop., 1,958.

Randolph, p. o. in the above tn.

Randolph, co. in Ind., E. part. Area, 440 sq. mls. Pop., 22,878; in 1860, 18,997. The surface is level, and is about the highest land in the state. The Mississinewa R. intersects the northern part of the co. The West Fork of White R. rises near the center and flows to the W. The soil is productive. Four railroad lines pass through the co. Winchester is the co. seat. Agr. productions in 1870: Wheat, 535,003 bush.; rye, 3,645 bush.; Indian-corn, 740,051 bush.; oats, 147,992 bush.; Irish pot's, 35,753 bush.; sweet pot's, 1,083 bush.; butter, 349,327 lbs.; hay, 9,208 tons. Cash value of farms, $10,111,013. Total, estimated, value of all farm productions, including additions to stock, etc., $1,734,541. Value of manufactures, $959,205.

Rappahannock, co. in Va.; N. part. Area about 250 sq. mls. Pop., 8,261; in 1860, 8,850. The Blue Ridge forms the N. W. boundary, and, with its slopes and spurs, occupies a considerable portion of the co. The North Fork of the Rappahannock R. washes the N. E. border, and Hazel R. the S. W. border. The surface is greatly diversified by hills and beautiful valleys, and the soil is productive. Washington is the co. seat. Agr. productions in 1870: Wheat, 103,112 bush.; rye, 10,755 bush.; Indian-corn, 304,040 bush.; oats, 44,297 bush.; Irish pot's, 13,144 bush.; sweet pot's, 1,069 bush.; tobacco, 23,918 lbs.; butter, 87,426 lbs.; hay, 2,058 tons. Cash value of farms, $1,847,386. Total, estimated, value of all farm productions, including additions to stock, etc., $577,985. Value of manufactures, $218,985.

Rappahannock, tn. in Essex co., Va. Pop., 3,208.

Rappahannock, tn. in Fauquier co., Va. Pop., 3,132.

Rappahannock Academy, p. o. in Caroline co., Va.

Rappahannock River, in Va.; is formed by the confluence of the North Fork, or Hedgeman's, R. with the Rapidan R. The North Fork rises in the Blue Ridge, near the N. extremity of Rappahannock co., and, flowing S., receives Hazel R. and other small tributaries. The main stream flows in an easterly direction, separating Spottsylvania and Caroline cos. on the S. from Stafford and King George's cos. on the N., and enters the tidewater section at Fredericksburg, below which point it is navigable. It thence flows S. E. and empties into Chesapeake B., through a wide estuary, between Windmill and Stingray Points.

Raritan, tn. in Middlesex co., N. J. Pop., 3,469.

Raritan, or **Rariton, River,** in N. J.; is formed by the North and South Branches, which unite about 5 mls. W. S. W. of Somerville, in Somerset co. It flows E. through Middlesex co., and empties into Raritan B. between Perth Amboy and South Amboy. It is about 35 mls. long and navigable as far as New Brunswick, 15 mls. above its mouth. The North Branch rises in Morris co., flows S. S. W. and forms the boundary between Somerset and Hunterdon cos. The South Branch rises in Morris co., flows S. into Hunterdon

co., which it intersects, and then courses to the E. and N. E. to its junction with the North Branch.

***Reading,** city and co. seat of Berks co., Pa., on left bank of Schuylkill R. and canal, on Philadelphia & Reading R. R., at intersection with East Pennsylvania & Lebanon Branch of same; at N. E. terminus of Reading & Columbia R. R., and at N. terminus of Wilmington & Reading R. R., 58 mls. N. W. of Philadelphia. The site of the city is a plain which gradually slopes back from the river, and is inclosed on the E. by Penn's Mount. It is rectangularly laid out and compactly and substantially built. The river is crossed by two bridges, one of which is over 600 feet long. Its surroundings are richly agricultural, and it is the center of a profitable trade in country products, iron, coal, etc. Its contiguity to the coal fields and to rich iron deposits gives it an importance in manufacturing shared by but few cities in the state, its principal products being iron, steam-engines and machinery of various kinds. It is well supplied with hotels and other public buildings. Pop., 33,930; in 1860, 23,162; in 1850, 15,743. It has 12 newspapers, the principal of which are the "Eagle," "Post" and "Times and Dispatch" (dailies), and "Adler," "Banner von Berks" and "Der Pilger" (weeklies).

The co. is also drained by numerous small creeks. The surface is generally level and the soil fertile. Clarksville is the co. seat. Agr. productions in 1870: Wheat, 1,524 bush.; Indian-corn, 385,840 bush.; oats, 13,441 bush; Irish pot's, 435 bush.; sweet pot's, 1,830 bush.; butter, 1,865 lbs. Cash value of farms, $909,268. Total, estimated, value of all farm productions, including additions to stock, etc., $763,358. Value of manufactures, $204,352.
Red River, tn. in Kewaunee co., Wis. Pop., 957.
Red River, p. o. in the above tn.
Red River, one of the principal tributaries of the Mississippi; rises upon the Llano Estacado, in northern Tex., flows E. along the boundary between Tex. and Ind. Ter., turns S. at Fulton, in Hempstead co., Ark., and after passing diagonally across La., empties in

lat. 31°. It passes by the Wichita Mts., and farther down the valley it intersects the "Cross Timbers," a forest belt consisting chiefly of black jack and post oak. About 18 mls. above Shreveport, La., the stream flows through the celebrated "raft," which is composed of an immense accumulation of drift logs, some floating and others so water-logged as to sink. The United States government has expended large sums of money to remove this obstruction to navigation, but without success. The lower end of the raft is now at Shreveport, but reached formerly as far down as Natchitoches. Below the raft, Red R. traverses a fertile and populous country, and is interrupted by two small rapids just above Alexandria, where the bluffs leave the river, and artificial embankments become necessary to protect the country from inundation during high floods. The entire length of the stream is about 1,200 mls. The source has an elevation above the sea of 2,450 feet, the mouth of 54 feet. The area drained is 97,000 sq. mls. The principal tributaries of the Red R. are the North Fork and the South Fork, both rising in the Llano Estacado; the Washita, or Black, R. of Ind. Ter., and the Washita R. of Ark. and La.

Red River, in Ky., a tributary of the Kentucky R.; rises in Morgan co., and flowing W. forms the boundary between Clark and Estill cos.

Red River, in Mich., a tributary of Clinton R.; rises in Oakland co. and empties 6 mls. above Mt. Clemens.

Red River, in Tenn., a tributary of the Cumberland R.; rises near the E. boundary of Robertson co., and flowing W. empties at Clarksville.

Rhineland, p. o. in Montgomery co., Mo.

RHODE ISLAND, one of the thirteen original states of the Union, and, as regards territorial extent, the smallest; lies between 41° 18′ and 42° 3′ N. lat., and 71° 8′ and 71° 53′ W. long., and has an extreme length from N. to S. of 47½ mls., and extreme width from E. to W. of 40 mls. It is bounded on the N. and E. by Mass., on the W. by Conn., and on the S. by the Atlantic Ocean. It has an area of 1,306 sq. mls., or 835,840 acres.

The eastern part of the state is deeply indented by Narraganset B., which extends 30 mls. inland, has a very irregular outline, and includes several islands, of which Canonicut, Prudence and Aquetneck, or Rhode Island proper, from which the state has received its name, are the largest. Block Island, which lies off the southern coast, about 10 mls. distant, also belongs to the state. A long peninsula extends into the northern part of Narraganset B., and divides it into two branches, the eastern of which is called Mount Hope B., and receives the estuary of the Taunton R.

Surface.—R. I. has a broken and hilly surface, but includes no elevations that might be termed mountains. The highest points are Mt. Hope, near Bristol, the Woonsocket Hills, in the northern part of the state, and Hopkins Hill, in the central part.

Rivers.—The largest stream of the state is the Pawtucket R., which empties into the western branch of Narraganset B., and is called above the falls, at the town of Pawtucket, the Blackstone R. The Pawcatuck R. is formed by the confluence of Wood and Charles Rs., which rise in the southern part of the state, forms part of the boundary between R. I. and Conn., and empties into Long Island Sound. The Pawtuxet R. rises in the northern part of the state, has a south-easterly course, and after forming the boundary between Kent and Providence cos. empties into Narraganset B. Although these rivers are not large or voluminous, they have considerable fall, and afford extensive water-power.

There are numerous small lakes and ponds in R. I., which greatly add to the picturesqueness of the scenery.

The Climate of R. I. resembles that of southern Mass. and eastern Conn. The mean annual temperature varies from 49° to 51°, and the amount of rain and snow-fall from 40 inches in the eastern part to 44 inches in the western.

Population.—R. I. was settled in 1636 at Providence, by Roger Williams, who had been banished from Mass. for his political and religious opinions. In 1638 a settlement at Newport was made by Wm. Coddington and others, and in 1642 at Warwick, by a party under Samuel Groton. These three settlements were united by a charter in 1643, under the name of the "Providence Plantations."

In 1790 R. I. had a population of 68,825; in 1800, 69,122; in 1810, 76,931; in 1820, 83,015; in 1830, 97,190; in 1840, 108,830; in 1850, 147,545; in 1860, 174,620 and in 1870, 217,353; of whom 212,219 were white, 4,980 colored, and 154 Indians. The number of persons born in the United States was 161,957, inclusive of 122,626 natives of the state; and of persons born in foreign countries, 55,396, inclusive of 10,242 natives of British America, 1,200 of Germany, 9,288 of England, 31,534 of Ireland and 1,947 of Scotland.

The pop. of 10 years of age and over numbered 173,751, of whom 82,824 were engaged in all classes of occupations, viz.: 11,780 in agriculture, 19,679 in professional and personal services, 10,108 in trade and transportation and 47,007 in manufactures and mechanical and mining industries.

Mining.—The mineral resources of R. I. are but of moderate importance. Anthracite coal of middling quality is found in Newport co., and about 10,000 tons of it are annually taken from the ground. Iron ore occurs in various parts of the state, and building materials, as limestone, sand-stone, marble and serpentine are quite abundant.

Agriculture.—The soil of R. I. is moderately productive, but in many parts too rough and difficult for cultivation. The most fertile sections are on the islands of Narraganset B. The total number of farms in 1870 was 5,368, which contained 289,030 acres of cultivated land (or 34.6 per cent. of the area of the state), 169,399 acres of woodland and 43,879 of uncultivated

land. The cash value of farms was $21,574,968, and of agricultural implements, $786,246. The total, estimated, value of farm productions, including additions to stock, etc., was $4,761,163. There were produced 784 bush. of wheat, 20,214 bush. of rye, 311,957 bush. of corn, 157,010 bush. of oats, 33,559 bush. of barley, 669,408 bush. of Irish pot's, 77,328 lbs. of wool, 941,199 lbs. of butter, 81,976 lbs. of cheese and 89,045 tons of hay.

The live stock had a value of $3,135,132, and consisted of 7,770 horses, 43 mules and asses, 18,806 milch cows, 5,821 working cattle, 9,748 other cattle, 23,938 sheep and 14,607 swine.

Manufactures.—In regard to the value of manufactures R. I. occupies the tenth place among the states of the Union; but in proportion to the number of inhabitants or area of territory it is unrivaled. The total value of manufactured products in 1870 was $111,418,354, or somewhat less than one-seventh of the value of those of N. Y. and Pa. But, if equally divided, every inhabitant of R. I. would receive $513, of N. Y. $179 and of Pa. $202.

There were, in 1870, 1,850 establishments in the state, which used 402 steam-engines of 23,546 horse-power, and 456 water-wheels of 18,481 horse-power. The number of hands employed was 49,417; the capital invested, $66,557,322. The wages paid amounted to $19,354,256, and the materials consumed had a value of $73,154,109.

The products of industry, exceeding in value one million of dollars per annum, were the following: Bleaching and dying, $15,138,723 (the raw materials costing $13,842,026); carpentering and building, $3,112,881; men's clothing, $1,353,641; cotton goods, $22,072,203; flour and meal, $1,728,704; India-rubber goods, $1,804,868; iron stoves, heaters and hollow ware, $1,416,105; jewelry, $3,043,846; leather, tanned and curried, $1,828,264; machinery (cotton and woollen), $4,316,376; plated ware, $1,212,240; printing of cotton and woollen goods, $17,842,480 (the goods before printing having a value of $14,604,962); screws, $1,882,318; woollen goods, $12,558,117, and worsted goods, $2,835,950.

Commerce.—R. I. has three ports of entry, Providence, Newport and Bristol. Their commercial fleet comprised, on June 30, 1872, 159 sailing vessels, of 15,150 tons; 33 steam-vessels, of 25,232 tons; and 54 unrigged vessels, of 431 tons, making an aggregate of 246 vessels of 40,813 tons.

The imports of the state for the fiscal year ended in June, 1872, amounted to $595,950, and the domestic exports to $54,022.

The mileage of the railroads was, in 1841, 50; in 1851, 68; in 1862, 108; and in 1872, 136. The principal lines are the New York, Providence & Boston R. R., of which 13 mls. are within the state, and the Providence, Warren & Bristol R. R.

Wealth, Taxation and Debt.—The assessed value of all property, according to the last census, was $244,278,854 ($132,876,581 for real estate and $111,402,273 for personal property). The true or estimated value, however, was $296,965,646, against $135,337,588 in 1860. The total public indebtedness amounted to $5,938,642, of which $2,913,500 represented the funded state debt, and $2,571,965 the funded debt of the cities, townships, etc. In 1872 (Jan. 1) the state debt had been reduced to $2,702,500. The total taxes (not national) amounted, in 1870, to $2,170,052, of which $489,253 were for state purposes. During the fiscal year ended in April, 1872, the receipts of the treasury amounted to $855,826, inclusive of a cash balance on hand of $730,828, and the expenditures amounted to $717,000, so as to leave a cash balance in the treasury of $138,828.

Education, Press, etc.—The state has a permanent school fund, the interest of which, together with the annual state appropriation, amounts to $90,000. The remainder of the sums required for school purposes is obtained from local taxation. The population of school age (from 5 to 16 years) numbered, in 1870, 28,702, of whom 26,912 were enrolled in the public schools. In the 412 school districts of the state instruction was given by 711 teachers. The total receipts for school purposes amounted to $463,041. A State Normal School was established in 1871 at Providence. The foremost of the higher educational institutions is Brown University (Baptist), which was founded in 1764 at Providence, and had, in 1873, 204 students and 13 instructors; Lapham Institute, a school of the Free Will Baptists, is at Scituate; the Friends School and the Providence Conference Seminary (Methodist) are at Providence.

The press comprised, in 1872, 25 newspapers and periodicals, 12 of which were published in Providence and 4 in Newport. Six of them were dailies, 15 weeklies and 5 monthlies.

The penal and charitable institutions are the State Penitentiary at Providence, which had, in 1872, 65 convicts; the Providence Reform School for youthful criminals; the "State Farm," with which are connected a house of correction and a lunatic asylum. The Rhode Island Hospital and the Butler Hospital for Lunatics, both at Providence, are liberally endowed private institutions.

Government.—The constitution of R. I. was framed in 1842, and amended in 1854 and 1864. According to it every male citizen of the United States, of the age of 21 years, who has had his residence and home in the state for one year, and in the town or city in which he may claim the right to vote, 6 months next preceding the time of voting, and who is possessed of real estate in such town or city of the value of $134 above all encumbrances, or which shall rent for $7 per annum over any rent reserved, has the right to vote.

The executive power is vested in a Governor, who together with the Lieutenant-Governor is annually elected by the people. The General Assembly consists of a Senate (one Senator from each town or city), and a House of Representatives of 72 members.

The Governor, Lieutenant-Governor, Senators, Representatives, Secretary of State, Attorney-General and General Treasurer are elected annually on the first Wednesday of April. The judicial power of the state is vested in one Supreme Court, the judges of which are elected by the two houses in Grand Committee and such inferior courts as the General Assembly may from time to time establish.

R. I. is divided into the following 5 counties: Bristol, Kent, Newport, Providence and Washington.

Providence, 65,904 inhabitants, and Newport, 12,521, are the two state capitals.

Rialto, p. o. in Chatham co., N. C.

Rice, co. in Kans., central part. Area, 720 sq. mls. Pop., 5. The surface consists of undulating prairies which possess a fertile soil. The bottom-lands of the streams are well timbered. The Arkansas R. intersects the S. W. part of the co. and receives several small tributaries. Brookdale is the co. seat. Agr. productions in 1870: Irish pot's, 20 bush.; hay, 125 tons. Cash value of farms, $2,600. Total, estimated, value of all farm productions, including additions to stock, etc., $1,340.

Rice, tn. in Jo Daviess co., Ill. Pop., 570.

Rice, co. in Minn., S. central part. Area, 504 sq. mls. Pop., 16,083; in 1860, 7,543. It is intersected by Cannon R., and includes numerous small lakes. The surface is uneven; the soil highly productive. Faribault is the co. seat. Agr. productions in 1870: Wheat, 531,206 bush.; rye, 1,489 bush.; Indian-corn, 227,931 bush.; oats, 348,543 bush.; Irish pot's, 57,862 bush.; sweet pot's, 10 bush.; butter, 364,260 lbs.; hay, 33,615 tons. Cash value of farms, $3,584,355. Total, estimated, value of all farm productions, including additions to stock, etc., $1,291,392. Value of manufactures, $1,447,685.

Richmond, co. in Va., E. part. Area about 150 sq. mls. Pop., 6,503; in 1860, 6,856. It borders in the S. W. on the Rappahannock R., and is drained by several small tributaries of this stream. The surface is undulating and the soil moderately productive. Warsaw is the co. seat. Agr. productions in 1870: Wheat, 29,769 bush.; rye, 2,286 bush.; Indian-corn, 121,680 bush.; oats, 9,781 bush.; Irish pot's, 5,059 bush.; sweet pot's, 4,433 bush.; tobacco, 1,736 lbs.; butter, 22,057 lbs.; hay, 166 tons. Cash value of farms, $1,000,685. Total, estimated, value of all farm productions, including additions to stock, etc., $321,724. Value of manufactures, $60,887.

***Richmond,** city, co. seat of Henrico co. and capital of Va., on the James R.; is the terminus of the Chesapeake & Ohio R. R., the Richmond, Fredericksburgh & Potomac R. R., the Richmond, Danville & Piedmont R. R., the Richmond & Petersburgh R. R., and the Richmond & Chesapeake R. R., 130 mls. S. of Washington. The city is built on several hills on the left bank of the river, where it enters the Tide-Water country. It was incorporated in 1742, and became the state capital in 1779. Being regularly laid out, picturesquely situated, and containing many fine private and public buildings, it is one of the most beautiful cities of the country. The State Capitol, the most prominent public structure, stands on the brow of Shockoe Hill, in an open square of eight acres, is built in the Grecian composite order of architecture, and from its portico, adorned with Ionic columns, affords a beautiful and extensive view. In the central hall is a fine statue of Washington, made in 1788 by Houdon, and a marble bust of La Fayette. Crawford's splendid equestrian statue of Washington stands on the esplanade leading from the Governor's house toward the western gate of Capitol Square. It consists of a bronze horse and rider rising from a pedestal of granite, and surrounded by the bronze figures of Patrick Henry, Thomas Jefferson, John Marshall, George Mason, Thomas Nelson, and Andrew Lewis; a life-size marble statue of Henry Clay completes the decorations of Capitol Square. Other public buildings are the City Hall and the Governor's House, standing near Capitol Square; the United States Custom House, on Main Street, the basement of which is occupied by the Post-office; the Penitentiary, situated in the western suburbs, and the State Armory, situated below Gamble's Hill, near the Tredegar Iron Works.

The population of Richmond was, in 1850, 27,570; in 1860, 37,907; and in 1870, 51,038, of whom 47,260 were natives of the United States (including 24,156 whites and 23,104 colored persons). The number of persons engaged in all classes of occupations was 18,545, viz.: 311 in agriculture, 8,327 in professional and personal services (including 53 clergymen, 19 journalists, 79 lawyers, 157 teachers, 3,854 domestic servants, and 2,366 laborers), 3,387 in trade and transportation, and 6,520 in manufactures and mechanical industries (including 2,191 segar-makers and tobacco workers, 565 carpenters and joiners, 496 tailors and tailoresses, 351 shoemakers, 317 iron and steel workers, 188 machinists, 45 millers, etc.).

Richmond is largely engaged in manufactures. The Gallego, City and Haxall mills are amongst the most extensive of their kind in the world, and supply a large amount of the flour exported to South America. The Tredegar Iron Works produce locomotives and engines.

Richmond is a port of entry, the river being navigable to this point, and in 1872 exported domestic goods to the value of $2,574,060, and imported foreign commodities to the value of $227,263. The exports consisted of 149,692 bbls. of wheat flour (value $1,121,106), and 11,646,717 lbs. of tobacco (value of $1,327,160). The commercial fleet comprised 6 sailing vessels of 249 tons, 15 steam vessels of 1,833 tons, and 58 unrigged vessels of 3,308 tons. The number of papers published in the city is 33, the principal dailies of which are the "Richmond Dispatch," the "Richmond Inquirer," the "Richmond News," the "Richmond State Journal," the "Richmond Staats Gazette" (German), and the "Richmond Anzeiger" (German).

***Rio Grande City,** p. v. and the co. seat of Starr co., Tex., on the Rio Grande, about 100 mls. above Brownsville.

Rio Grande del Norte, one of the largest rivers of the continent; rises in the San Juan Mts., in Colo. Ter., flows through the beautiful basin known as the San Luis Park, which is surrounded on all sides by lofty mountain ranges, traverses N. Mex. Ter., and forms the boundary between Tex. and Mexico. It empties into the Gulf of Mexico and has an estimated length of about 2,000 mls. It is not navigable, owing to shoals and sand bars, and receives but few tributaries, of which the Pecos R. and Rio San Pedro in Tex., and the Rio Conohos in Mexico are the largest.

Rio Hassyampa, rises in Yavapai co., Ariz. Ter.; has a southerly course and terminates in the desert N. of the Gila R., in Maricopa co.

Rio Mimbres, p. v. in Grant co., N. Mex. Ter. 35 mls. from Pinos Altos.

Rio Nutroso, a tributary of the Gila R.; rises in the Sierra Dalili of Socorro co., N. Mex. Ter., and flows through Maricopa co., Ariz. Ter.

Rio Pia Juana, in the south-west corner of Cal.; has a westerly course, which lies partly in Mexican Ter.

Rio Puerco of the West, a tributary of the San Juan, in Yavapai co., Ariz. Ter.; rises in Campbell's Pass of the Mesa de los Lobos, and empties near the Utah state line.

Rio Salado, a tributary of the Gila R.; rises in the Mogollon Mts. of Maricopa co., Ariz. Ter.; has a westerly course and passes through a deep gorge of the Pinal Mts.

Rio Salinas de Monterey, in Cal.; rises in the Coast Ranges, flows N. W. and empties into the B. of Monterey.

Rio San Benito, in Cal.; rises in the Coast Ranges and empties into the B. of Monterey.

Rio San Domingo, a tributary of the Gila R.; rises in Grant co., N. Mex. Ter., and flowing N. N. W. empties in Pima co., Ariz. Ter.

Rio San Francisco, a tributary of the Rio Salado, in Ariz. Ter.; rises E. of Bill Williams Mt., in Yavapai co., and flowing S. empties below Fort McDowell.

Rio San Pedro, a tributary of the Rio Grande in Tex.; rises in Bexar Ter., has a southerly course and forms the N. W. boundary of Kinney co.

Rio San Pedro, a tributary of the Gila R.; rises in northern Mexico, and flowing N. through Pima co., Ariz. Ter., traverses a wide valley between the Santa Catarina Mts. and the Sierra Calitra. Its principal tributary is the Aravaypa Cr., which flows through a deep canyon.

Rio Santa Cruz, a tributary of the Gila R., in Ariz. Ter.; rises near Santa Cruz, in Mexico, has a N. W. course through Pima co., and traverses the plains W. of the Santa Rita and Santa Catarina Mts.

Rio Seco, p. o. in Butte co., Cal.

Rio Virgin, formerly a co. in Utah Ter. Pop., 450. Since the census was taken it has been united with Washington co. Agr. productions in 1870: Wheat, 2,849 bush.; Indian-corn, 18 bush.; oats, 30 bush.; Irish pot's, 10 bush.; sweet pot's, 10 bush.; hay, 95 tons. Cash value of farms, $12,596. Total, estimated, value of all farm productions, including additions to stock, etc., $16,955. Value of manufactures, $15,096.

Roanoke, tn. in Charlotte co., Va. Pop., 4,830.
Roanoke, tn. in Halifax co., Va. Pop., 6,182.
Roanoke River is formed by the Staunton and Dan Rs., which unite at Clarksville, Mecklenburgh co., Va.; flows E. S. E. and enters into N. C. near the 78th meridian. Near Weldon it meets tide-water, and flowing thence S. E. it empties into the W. extremity of Albemarle Sound. The stream is about 250 mls. long, traverses a rich and picturesque country and is navigable as far as Weldon, 150 mls. above its mouth. The Dan R. rises in the Blue Ridge of Patrick co., Va., and has an easterly course. The Staunton R., which is the longest of the branches, rises among the mountains of Montgomery co., and flowing E. breaks through the Blue Ridge at the western boundary of Roanoke co.

Rochester, tn. in Lorain co., Ohio. Pop., 691.
***Rochester,** city and co. seat of Monroe co., N. Y.; is situated upon both sides of the Genesee R., at the Genesee Falls, and about 7 mls. from its mouth. It lies 250 mls. W. by N. of Albany and 68 mls. E. N. E. of Buffalo. Its site is nearly level, its corporate limits about 8 sq. mls., its streets broad and generally straight, and its buildings handsomely built of brick or limestone. The wide streets are well planted and shaded, and there are many open ornamental grounds, squares and parks. The leading public, educational and charitable buildings are the Court House and City Hall, a large granite structure on Buffalo Street; the Arcade, the Western House of Refuge, a brick structure 382 feet in length, the Rochester University (Baptist), the Theological Seminary (Baptist), the Athenæum, and St. Mary's Hospital. There are several capacious hotels, numerous imposing business structures, and a large proportion of handsome churches. The surroundings of

the city are picturesque, the most notable feature being the Genesee Falls, the first of which is a little N. of the center of the city limits. Here the river makes a perpendicular plunge of 95 feet, then glides off in a deep and rapid current through a slate-walled ravine more than 100 feet deep, studded with flouring mills. At the end of this ravine it takes its second plunge of 20 feet, and further on a third of 75 feet, the entire fall in a distance of 3 mls. being 226 feet. But the natural surroundings are not more beautiful and interesting than the artificial. The nursery trade of Rochester, which for variety and extent is unrivaled in the world, has made of the suburban districts a succession of beautiful nursery farms and gardens, clothed with every variety of fruit and ornamental tree, plant or shrub found in the latitude, while countless hot-houses, lawns, walks and parterres reflect a richness of verdure, a glory of bloom and a profusion of sweetness which resemble enchantment. The material value of this interest alone is estimated at $2,500,000 annually. The unlimited water-power of the river, whose existence has contributed so largely to the growth and prosperity of the city, has been very largely utilized by flouring mills and general manufactories. The former interest is simply immense—larger perhaps than that of any city in the Union, exceeding 1,000,000 of bbls. annually, and a consumption of over 5,000,000 bush. of grain. The other manufactures consist of boots and shoes, clothing, cabinet-ware, edge tools, iron castings, paper, machinery, leather, cotton and woollen goods, etc. The city is in water communication with Lake Ontario, via the Genesee R., up which boats ascend to Carthage, 2 mls. N., with the E. and W. part of the state by means of the Erie Canal, which here crosses the river on a noble stone aqueduct 800 feet long, and with the central and S. W. parts of the state and the Alleghany R. by means of the Genesee Valley Canal. Besides this it occupies the most conspicuous position between Albany and the lakes upon the line of the New York Central & Hudson River R. R., and is the S. terminus of Charlotte Branch of same, the W. terminus of Auburn & Suspension Bridge Division, E. terminus of Buffalo & Suspension Bridge Division, and N. terminus of Rochester Division of Erie R. R. Rochester was settled in 1812 by David Rochester and others, was incorporated in 1817, chartered as a city in 1834, and had in 1820 a population of 1,502; in 1830, 9,269; in 1840, 20,191; in 1850, 36,403; in 1860, 48,204, and in 1870, 62,386. It has 20 newspapers, five of which are daily, viz: "Democrat and Chronicle," "Beobachter" (German), "Express," "Union and Advertiser," and "Volksblatt" (German).

Rockingham, tn. in Pottawatomie co., Kans.
Rockingham, co. in N. H., forming the S. E. extremity of the state. Area about 800 sq. mls. Pop., 47,297; in 1860, 50,122. It borders on the Atlantic Ocean, and is bounded on the N. E. by the Salmon Falls R., whose tributaries, Lamprey R., Squawscot R. and others drain it. The surface is rolling and in some parts rocky and broken. The co. is intersected by the Boston & Maine Central R. R.; the Eastern R. R. and the Concord & Portsmouth R. R. Exeter and Portsmouth are the co. seats. Agr. productions in 1870: Wheat, 8,065 bush.; rye, 6,639 bush.; oats, 51,316 bush.; Indian-corn, 165,843 bush.; Irish pot's, 456,227 bush.; butter, 674,208 lbs.; hay, 65,604 tons. Cash value of farms, $13,418,030. Total, estimated, value of all farm productions, including additions to stock, etc., $2,833,228. Principal products of industry: Cotton goods $1,202,800; boots and shoes, $941,912; and sawed lumber, $516,588. Total value of manufactures, $5,484,238.
Rockingham, co. in N. C., N. part. Area, 532 sq. mls. Pop., 15,708; in 1860, 16,746. It borders on Va., and is intersected and drained by the Dan R. The surface is rolling and the soil productive. The Richmond & Danville R. R. intersects the co. Wentworth is the co. seat. Agr. productions in 1870: Wheat, 53,295 bush.; rye, 4,211 bush.; Indian-corn, 218,469 bush.; oats, 103,528 bush.; Irish pot's, 16,159 bush.; sweet pot's, 16,057 bush.; tobacco, 1,411,971 lbs.; butter, 92,523 lbs.; hay, 1,235 tons. Cash value of farms, $1,401,765. Total, estimated, value of all farm productions, including additions to stock, etc., $748,671. Value of manufactures, $207,451.
Rockingham, p. v. and the co. seat of the above co., on the Wilmington, Charlotte & Rutherford R. R., 117 mls. N. W. of Wilmington. Pop., 454. One newspaper.
Rockingham, tn. in Windham co., Vt. Pop., 2,854.
Rockingham, p. v. in the above tn., on the Rutland Division of the Vermont Central R. R., 6 mls. N. N. W. of Bellows Falls.
Rockingham, co. in Va., N. central part. Pop., 23,668; in 1860, 23,408. It extends from the Blue Ridge in the S. E. to the Shenandoah Mt. in the N. W.; forms part of the Great Valley of Va., and is traversed from S. W. to N. E. by Little North Mt. and other chains. It is drained by the Shenandoah R. The soil is very productive. Harrisonburgh is the co. seat. Agr. productions in 1870: Wheat, 375,688 bush.; rye, 36,251 bush.; Indian-corn, 251,754 bush.; oats, 140,896 bush.; Irish pot's, 20,542 bush.; sweet pot's, 4,347 bush.; tobacco, 232 lbs.; butter, 307,668 lbs.; hay, 16,459 tons. Cash value of farms, $9,218,089. Total, estimated, value of all farm productions, including additions to stock, etc., $1,557,971. Value of manufactures, $756,076.
Rock Island, co. in Ill., N. W. part. Area, 340 sq. mls. Pop., 29,783; in 1860, 21,005. The surface is rolling; the soil very fertile. Coal and limestone are found in large quantities. The co. extends on both sides of Rock R., which forms part of the S. E. boundary and affords abundant water-power, and borders in the N. W. on the Mississippi R. The railroads centering at Rock Island, the co. seat, intersect it. Agr. productions in 1870: Wheat, 245,820 bush.; rye, 20,003 bush.; oats, 276,575 bush.; Indian-corn, 1,459,653 bush.; oats, 276,575 bush.; Irish pot's, 192,531 bush.; sweet pot's, 966 bush.; butter, 563,122 lbs.; hay, 31,299 tons. Cash value of farms, $7,636,949. Total, estimated, value of all farm productions, including additions to stock, etc., $1,787,283. Value of manufactures, $5,602,443.
***Rock Island,** city, and the co. seat of the above co., on the E. bank of the Mississippi R., opposite Davenport, Iowa, 444 mls. below St. Paul and 347 above St. Louis. The island in the R., from which the city takes it name, is about three mls. long, and lies at the foot of the Upper Rapids. It presents a perpendicular front of limestone some 30 feet high; is partly covered with woods, affording fine summer retreats, and altogether is park-like and attractive. On its southern extremity are the United States Arsenal, Armory, etc. A wagon bridge connects it with the city. The natural water-power of the river has been largely strengthened by artificial appliances, and is turned to practical account by numerous general manufactories. The city has a large trade by way of the river, and an extensive railroad traffic, being located upon the lines of the Chicago, Rock Island & Pacific R. R. and the Rockford, Rock Island & St. Louis R. R., at S. W. terminus of the Western Union R. R. and N. W. terminus of Peoria & Rock Island R. R. The surroundings of the city are coal-producing, and its interest in mining large and growing. Pop., 7,890; in 1860, 5,130. Four newspapers.

Sabine, p. o. in Marion co., Ind.

Sabine, a parish in La., W. part. Pop., 6,456; in 1860, 5,828. It is bounded on the W. by Sabine R., and watered by San Miguel and Toreau bayous. The surface is level and consists principally of prairie land. Manny is the co. seat. Agr. productions in 1870: Indian-corn, 74,520 bush.; Irish pot's, 56 bush.; sweet pot's, 15,032 bush.; cotton, 2,300 bales. Cash value of farms, $223,805. Total, estimated, value of all farm productions, including additions to stock, etc., $264,270. Value of manufactures, $15,850.

Sabine, co. in Tex., E. part. Area about 500 sq. mls. Pop., 3,256; in 1860, 2,750. The surface is mostly level; the soil very fertile. It is separated from La. on the E. by Sabine R., and also watered by Patroon Bayou, Palo Gacho Cr. and Houston Cr. Hemphill is the co. seat. Agr. productions in 1870: Wheat, 161 bush.; rye, 15 bush.; Indian-corn, 86,839 bush.; oats, 183 bush.; Irish pot's, 235 bush.; sweet pot's, 19,680 bush.; cotton, 1,722 bales; butter, 13,802 lbs. Cash value of farms, $136,000. Total, estimated, value of all farm productions, including additions to stock, etc., $267,058. Value of manufactures, $31,518.

Sabine Bay, an extension of the Gulf of Mexico, between La. and Tex. Its outlet into the Gulf is called Sabine Pass.

Sabine Pass, p. v. in Jefferson co., Tex., on Sabine Bay and Pass, 28 mls. S. of Beaumont, the co. seat, and 75 mls. N. E. of Galveston. Pop., 475. One newspaper.

Sabine River, a tributary of the Ohio R. in Southern Ill.; is formed by the confluence of the North and South Forks, and intersects Gallatin co.

Sabine River rises in Hunt co., Tex.; flows S. E. through the state until it reaches the intersection of the 32d parallel with the 94th meridian, whence it flows S. and forms the boundary between La. and Tex. It empties into Sabine B. Its largest tributary is the Neches R.

Sabula, p. o. in Clearfield co., Pa.

Sac, co. in Iowa, W. part. Area, 575 sq. mls. Pop., 1,411; in 1860, 246. The surface is rolling and has a fertile soil. It is drained by Boyer R., an affluent of the Missouri, and Coon R., an affluent of the Des Moines. Sac City is the co. seat. Agr. productions in 1870: Wheat, 37,090 bush.; rye, 20 bush.; Indian-corn, 42,667 bush.; oats, 38,831 bush.; Irish pot's, 7,770 bush.; wool, 2,584 lbs.; butter, 30,120 lbs.; hay, 10 tons. Cash value of farms, $429,933. Total, estimated, value of all farm productions, including additions to stock, etc., $160,981. Value of manufactures, $31,256.

Sac, tn. in Sac co., Iowa. Pop., 584.

Sacaton, p. o. in Yuma co., Ariz. Ter.

Sackett, tn. in Sangamon co., Ill. Pop., 698.

Saccarappa, p. v. in Cumberland co., Me., on the Portland & Rochester R. R., 6 mls. N. W. of Portland. Pop. about 900.

Sac City, p. v. and the co. seat of Sac co., Iowa, on Coon R., 45 mls. W. by S. of Fort Dodge. Has fine water-power and good agricultural surroundings. Pop., 156. One newspaper.

***Sacket's Harbor,** p. v. in Jefferson co., N. Y., on Black River B. and Lake Ontario, 10 mls. from Watertown. Has the best harbor on the lake, and is an important commercial depot. Pop., 712.

Saco, tn. in York co., Me. Pop., 5,755.

***Saco,** p. v. in the above tn. and port of entry, on the Portland, Saco & Portsmouth R. R., 13 mls. S. W. of Portland, and on Saco R. (opposite Biddeford), 6 mls. from its mouth. There is a fall of 42 feet in the river, furnishing excellent water-power, which is extensively used both here and at Biddeford by saw mills, cotton mills and other manufactories. It has also large shipping interests and coast trade, and the locality is a favorite summer resort.

Sacondaga River, a tributary of the Hudson R., in N. Y.; rises in Hamilton co. and flows through Fulton and Saratoga cos.

Saco River rises in the White Mts. of Coos co., N. H., flows through Oxford co., Me., and empties into the ocean in York co. It is 95 mls. long, drains an area of 1,400 sq. mls., and as it has considerable slope and several falls, it affords much water-power. The principal falls are the Great Falls, 72 feet high, and Saco Falls, near the v. of Saco, 42 feet high. The principal tributaries are the Great and Little Ossipee Rs., which empty into it from the S., and the Upper Kezar and Great Cold Rs., which empty into it from the N.

Sacramento, co. in Cal., central part. Area, 1,080 sq. mls. Pop., 26,830; in 1860, 24,142. It derives its name from Sacramento R., which flows through it and forms part of the W. boundary. The surface is level, with the exception of a strip of 6 or 8 mls. in width on the eastern side, which rises into low ridges and rolling prairies. Stretching along the Sacramento R. is a belt of tule-land, and next to this a strip of rich alluvial soil. The growth of timber is confined to the flats and banks of the streams, and consists mostly of oak, sycamore and cottonwood. The co. is drained by the Sacramento and its tributaries, the Yuba, Cosumnes and Mokelumne Rs. Agriculture is the chief pursuit. Gold is mined along the eastern border. The Central Pacific R. R. passes through the co.

Sacramento is the co. seat. Agr. productions in 1870: Wheat, 126,135 bush.; rye, 2,100 bush.; Indian-corn, 62,280 bush.; oats, 10,910 bush.; Irish pot's, 72,055 bush.; sweet pot's, 148,920 bush.; wool, 515,213 lbs.; butter, 439,835 lbs.; hay, 21,827 tons. Cash value of farms, $5,052,160. Total, estimated, value of all farm productions, including additions to stock, etc., $2,674,169. Value of manufactures, $3,964,616.

***Sacramento,** city, co. seat of above co., and capital of the state; on Sacramento R. 1 mile. from its confluence with American R., and on the Central Pacific R. R. at the focus of several radiating roads, as the Sacramento Valley R. R., California & Oregon R. R. and California Pacific R. R. It is the second largest, and in many respects the most interesting, city in the state. Near it the first discovery of gold was made, and it was founded and built by miners with reference to their temporary convenience, but without any breadth of plan or view to health, beauty or comfort. Such, however, was its early importance as a base of supplies and commercial center, that it withstood several inundations occasioned by the river breaking through treacherous levees, and arose more than once from almost total destruction to new vigor. The whole site has been placed beyond danger by systematically raising it some ten feet above its former level. It is surrounded by a fine agricultural region, and railroad connections make it the center of a lively trade. It is also in water communication via the Sacramento R. with San Francisco and the ocean. The State House is an imposing building. The city has many beautiful private and public buildings, churches, schools, etc. Here are located the western shops of the Central Pacific R. R., employing over 1,000 operatives. Its manufacturing interests are large, embracing flour, woollen goods, cast-iron, blooms, wagons, beet-root sugar, etc. Pop., 16,283; in 1860, 12,772. Seven newspapers.

Sacramento, p. v. in White co., Ill., on the Springfield & Illinois Southeastern R. R.

Sacramento, p. v. in McLean co., Ky., 10 mls. from Calhoun. Pop., 195.

Sacramento, p. o. in Wright co., Mo.

Sacramento, p. o. in Schuylkill co., Pa.

Sacramento Range, a mountain chain in Humboldt co., Nev., S. of Humboldt R., containing numerous silver mines.

Sacramento River, in Cal.; is formed by two branches, the Sacramento R. proper and Pitt R. The former is the shortest of the two; rises S. of Mt. Shasta and has a southerly course. The latter rises on the western declivity of Warner's Range in Siskiyou co.; traverses an elevated volcanic plateau, and has a south-westerly course. Both branches unite in Shasta co. The main stream flows S. through the wide, fertile plains which separate the Sierra Nevada and Coast Ranges, and turning W., empties into the eastern extremity of Suisun B. The principal tributaries rise in the Sierra Nevada. They are the Feather R., which is formed by the North, Middle and South Branches, and receives the Yuba R.; the American R. and the Mokelumne R., with the Cosumnes R.

Sacred Heart, tn. in Renville co., Minn. Pop., 316.

Sac River, a tributary of the Osage R. in Mo.; rises in Lawrence co., and flowing N. through St. Clair co. empties above Osceola.

Sada, p. o. in Stephenson co., Ill.

Sadawga, p. v. in Windham co., Vt., 22 mls. from Brattleborough.

Saddle Mountain, a pk. in the Hoosac Mts. of Mass.; is situated in the N. W. corner of Berkshire co., and has an estimated height above the sea level of 3,500 feet.

Saddle River, a tributary of the Passaic R. in N. J.; intersects Hudson co.

Sageville, p. v. and the co. seat of Hamilton co., N. Y., on Round Lake, 51 mls. N. of Amsterdam.

***Sag Harbor,** p. v. in Suffolk co., N. Y., on S. side of Gardiner's B. and on Sag Harbor Branch of the Long Island R. R., 100 mls. E. of New York. Engaged in fisheries and coast commerce. Pop., 1,723. Two newspapers.

Saginaw, co. in Mich., E. part. Area 700 sq. mls. Pop., 39,097; in 1860, 12,693. The surface is level and the soil good. The co. is abundantly watered by a number of rivers, the principal of which are the Saginaw, Tittibawassee, Flint and Shiawassee. The Saginaw R. is navigable by large steamboats. There are extensive forests in the co., and lumbering is one of the chief branches of industry. The Jackson, Lansing & Saginaw R. R., and the Flint & Pere Marquette R. R. intersect the co. Saginaw is the co. seat. Agr. productions in 1870: Wheat, 37,255 bush.; rye, 3,090 bush.; Indian-corn, 43,349 bush.; oats, 52,295 bush.; Irish pot's, 86,999 bush.; wool, 16,086 lbs.; butter, 318,275 lbs.; hay, 14,926 lbs. Cash value of farms, $2,820,883. Total, estimated, value of all farm productions, including additions to stock, etc., $731,799. Value of manufactures, $8,084,799, chiefly lumber.

Saginaw, tn. in the above co. Pop., 8,464.

***Saginaw,** city and the co. seat of Saginaw

co., Mich., on the Saginaw R. at intersection of Jackson, Lansing & Saginaw R. R. and Flint & Pere Marquette R. R., 100 mls. N. W. of Detroit. The river is navigable to this point. Here are several large manufactories, as flour mills, planing mills, salt works, machine shops, etc. Its lumber trade is very large. Pop., 7,460. Two newspapers.

Saginaw River, in Mich.; is formed in Saginaw co. by the confluence of the Shiawassee & Flint Rs., and flowing N. empties into Saginaw B. of Lake Huron below Bay City. It is only 30 mls. long, but is wide and deep, so that the largest steamers ascend it 24 mls. to Saginaw City. Its branches and tributaries drain a large part of the lower peninsula of the state.

Saint Johnsbury East, p. v. in Caledonia co., Vt., 4 mls. from St. Johnsbury.

Saint John's River, in Fla.; rises in Brevard co. and flows N., not far distant and nearly parallel to the eastern coast, for about 400 mls., and turning sharply to the E. below St. Augustine empties into the Atlantic Ocean. As far up as Lake George it is from 2 to 3 mls. wide, and resembles more an arm of the sea than a river, and probably is the remains of an ancient lagoon. Its current is about 1 mle. per hour, and its bed, at the outlet of Lake Monroe, is but 3½ feet above the sea. The only tributary of importance it receives is the Oklawaha.

Saint Johnsville, tn. in Montgomery co., N. Y. Pop., 2,189.

Saint Johnsville, p. v. in the above tn., on Mohawk R. and on the New York Central R. R., 20 mls. W. by N. of Fonda. It is located amid fine scenery, has large trade and important manufacturing interests. Pop., 1,376.

Saint John the Baptist, parish in La., S. E. part. Pop., 6,762; in 1860, 7,930. This parish is intersected from E. to W. by the Mississippi R., and is situated between Lakes Pontchartrain, Maurepas and Des Allemands. The surface is level and the land arable and productive. Edgard is the co. seat. Agr. productions in 1870: Indian-corn, 106,884 bush.; Irish pot's, 1,792 bush.; sweet pot's, 252 bush.; rice, 632,670 lbs.; sugar, 4,962 hhds. Cash value of farms, $1,621,127. Total, estimated, value of all farm productions, including additions to stock, etc., $1,182,746. Value of manufactures, $748,490.

Saint Joseph, tn. in Champaign co., Ill. Pop., 1,222.

Saint Joseph, co. in Ind., N. part. Area, 478 sq. mls. Pop. 25,287; in 1860, 18,455. It borders on Mich. The Kankakee R. rises in the northern part, and the St. Joseph R. intersects the co. The surface is slightly undulating, and consists of oak openings, prairies and forests. The soil is mostly fertile. The Michigan Southern R. R. intersects the Peninsular R. R. at South Bend, the co. seat. Agr. productions in 1870: Wheat, 503,757 bush.; rye, 8,353 bush.; Indian-corn, 233,045 bush.; oats, 76,846 bush.; Irish pot's, 112,126 bush.; sweet pot's, 603 bush.; butter, 352,577 lbs.; hay, 19,910 tons. Cash value of farms, $10,867,848. Total, estimated, value of all farm productions, including additions to stock, etc., $1,467,265. Value of manufactures, $4,444,284.

Saint Joseph, tn. in Allen co., Ind. Pop., 1,373.

Saint Joseph, p. o. in Vanderburgh co., Ind.

Saint Joseph, co. in Mich., S. part. Area, 500 sq. mls. Pop., 26,275; in 1860, 21,262. The surface is level and the soil good. It is intersected by the St. Joseph's R., and also drained by many small creeks. The Lake Shore & Michigan Southern R. R., the Michigan Central R. R. and the Grand Rapids & Indiana R. R. pass through the co. Centerville is the co. seat. Agr. productions in 1870: Wheat, 756,428 bush.; rye, 3,655 bush.; Indian-corn, 654,712 bush.; oats, 91,184 bush.; Irish pot's, 400,201 bush.; wool, 203,223 lbs.; butter, 483,104 lbs.; hay, 31,227 tons. Cash value of farms, $14,803,721. Total, estimated, value of all farm productions, including additions to stock, etc., $2,288,868. Value of manufactures, $1,786,565.

Saint Joseph, tn. in Berrien co., Mich. Pop., 2,994.

Saint Joseph's, p. v. and the co. seat of Tensas parish, La., on W. bank of the Mississippi R., 50 mls. above Natches, Miss., by way of the river, and 327 mls. above New Orleans. Shipping point for the cotton of the neighborhood. Pop. about 150. One newspaper.

Saint Joseph's College, p. v. in Perry co., Ohio, 6 mls. from New Lexington.

Saint Joseph's Hill, p. o. in Clarke co., Ind.

Saint Joseph's River, one of the branches of the Maumee R.; rises in Hillsdale co., Mich.; flows S. W. through Williams co., Ohio, and De Kalb co., Ind., and joins the St. Mary's R. near Fort Wayne, Allen co., Ind.

Saint Joseph's River, an affluent of Lake Michigan; rises in Hillsdale co., Mich., flows through Calhoun and St. Joseph cos., then turns to the S. W., intersecting Elkhart and St. Joseph cos., Ind., and flowing N. intersects Berrien co., Mich., where it empties near the v. of St. Joseph. Its course is very tortuous and has a length of about 250 mls. Small steam boats ascend the stream to Constantine, St. Joseph co., Mich., about 125 mls. above its mouth. The largest tributaries are the Pigeon

and Elkhart Rs., which drain the northern part of Ind. The St. Joseph R. drains a highly productive region, and its mouth affords a good harbor of from 9 to 15 feet in depth.

Saint Landry, parish in La., S. W. part. Pop., 25,553; in 1860, 23,104. It is bounded on the E. by the Atchafalaya R.; on the W. by Bayou Nezpique, and is drained by the Cortableau and Teche bayous. The soil is undulating and exceedingly productive. The Atchafalaya and Cortableau are navigable by steamboats at high water. Opelousas is the co. seat. Agr. productions in 1870: Indian-corn, 368,897 bush.; Irish pot's, 719 bush.; sweet pot's, 58,811 bush.; cotton, 14,305 bales; rice, 33,375 lbs.; sugar, 1,988 hhds.; butter, 1,000 lbs. Cash value of farms, $2,258,502. Total, estimated, value of all farm productions, including additions to stock, etc., $1,556,290. Value of manufactures, $282,225.

Saint Laurenceburgh, p. o. in El Dorado co., Cal.

Saint Lawrence, tn. in Scott co., Minn. Pop., 315.

Saint Lawrence, p. v. in the above tn., on the St. Paul & Sioux City R. R.

Saint Lawrence, co in N. Y., N. N. W. part. Area about 2,900 sq. mls. Pop., 84,826; in 1860, 83,686. The St. Lawrence R. washes the northwest border and drains the co. with its affluents, the Oswegatchie, Grass, Racket and St. Regis Rs., which afford much water-power. The southern part of the co. is hilly, and includes the western extremity of the Adirondack region. Thence the surface gradually descends to the broad and highly productive valley of the St. Lawrence. The co. is intersected by the Ogdensburgh & Lake Champlain R. R. and Rome, Watertown & Ogdensburgh R. R. Canton is the co. seat. Agr. productions in 1870: Wheat, 269,701 bush.; rye, 35,295 bush.; Indian-corn, 174,840 bush.; oats, 1,077,345 bush.; Irish pot's, 1,217,809 bush.; sweet pot's, 85 bush.; maple sugar, 1,063,592 lbs.; cheese, 1,710,082 lbs.; wool, 281,962 lbs.; butter, 8,419,095 lbs.; hay, 269,250 tons. Cash value of farms, $37,661,214. Total, estimated, value of all farm productions, including additions to stock, etc., $9,598,071. Principal products of industry: Flour, $1,423,503; sawed lumber, $1,130,344, and tanned leather, $612,244. Total value of manufactures, $5,861,776, consisting chiefly of tanned leather, flour and meal, and sawed lumber.

Saint Lawrence, tn. in Waupaca co., Wis. Pop., 759.

Saint Lawrence River, one of the largest streams of the continent; issues from the N. E. extremity of Lake Ontario, flows N. W. between Canada and the state of N. Y., and from 45° N. lat. through Canada, emptying through a wide estuary into the Gulf of Saint Lawrence. The river is about 500 mls. long, from the lake to the gulf. But if the great lakes are viewed as expansions of the stream, the Saint Louis R. of Minn., which empties into Lake Superior, is the upper course of the Saint Lawrence. The Detroit, St. Clair and Niagara Rs. are parts of its course, and the length of the river may be estimated at 2,074 mls. The drainage area is over 5,860,000 sq. mls. The Saint Lawrence is navigable for the largest vessels to Quebec; for smaller craft to Montreal. Above this city navigation is impeded by rapids, to overcome which seven short canals have been constructed.

***Saint Louis,** p. v. in Gratiot co., Mich., on Pine R., 9 mls. N. of Ithaca and 30 mls. W. of Saginaw. Has an active lumber trade, and is the location of celebrated magnetic springs. Pop., 888. One newspaper.

Saint Louis, co. in Minn.; N. E. part. Area about 6,300 sq. mls. Pop., 4,561; in 1860, 406. This large co. borders on British America, from which it is separated by Rainy Lake and the chain of lakes which lie east of it. In the S. E. the boundary is formed by Lake Superior. The Saint Louis R. with its numerous affluents drains the southern half of the co. The Height of Land, the divide, or water-shed, between the rivers emptying into Hudson B. and those emptying into Lake Superior, passes through the center of the co. from W. to E. Duluth is the co. seat. Value of manufactures, $262,000.

Saint Louis, co. in Mo., E. part. Pop., 351,189; in 1860, 190,524. The co. occupies the tongue of land inclosed between the Missouri and Mississippi Rs., which unite at its north-eastern corner. The surface is low and level along the rivers, but somewhat broken in the interior. The soil is very productive. From Saint Louis, the co. seat, the principal R. Rs. of the state branch off, as the Saint Louis & Iron Mountain R. R. to the S., the Atlantic & Pacific R. R. to the S. W., the Saint Louis, Kansas City & Northern R. R. to the N. W., and the Pacific R. R. of Missouri to the W. Agr. productions in 1870: Wheat, 453,996 bush.; rye, 3,191 bush.; Indian-corn, 1,023,978 bush.; oats, 280,783 bush.; Irish pot's, 377,316 bush.; sweet pot's, 21,748 bush.; tobacco, 14,570 lbs.; butter, 286,615 lbs.; hay, 30,333 tons. Cash value of farms, $28,409,635. Total, estimated, value of all farm productions, including additions to stock, etc., $3,566,476. The principal products of industry are: Agricultural implements, $1,475,000; bags, $5,007,250; boots and shoes, $1,990,940; bread and bakery products, $2,936,085; brick, $2,763,372; carriages and wagons, $2,044,547; freight and passenger cars, $1,725,300; men's clothing, $6,665,617; women's clothing, $1,011,420; flour, $15,717,765; furniture, $2,863,659; forged and rolled iron, $1,455,000; pig iron, $1,945,000; stoves, $2,937,950; malt liquors, $6,105,500; sawed lumber, $1,910,370; engines and boilers, $3,750,280; marble and stone work, $1,076,355; packed pork, $11,443,845; refined sugar and molasses, $4,136,250; animal oil, $4,100,000; paints, $2,083,000; patent medicines, $2,036,450; printing of all kinds, $4,860,450; saddlery and harness, $4,326,276; sash, doors and blinds, $2,334,100; soap and candles, $1,676,500; tin, copper and sheet-iron ware, $2,079,147; tobacco, $7,620,940, and cigars, $1,765,593. Total value of manufactures, $158,761,013.

Saint Louis, tn. in the above co. Pop., 9,203.

***Saint Louis,** city, port of entry and co. seat of Saint Louis co., Mo.; is situated on the W. bank of the Mississippi R., 16 mls. below the mouth of the Missouri, 174 mls. above the mouth of the Ohio, and 1,194 mls. above New Orleans. It is the terminus of the following railroad lines: the Saint Louis & Iron Mountain R. R., the Atlantic & Pacific R. R., the Pacific R. R. of Missouri, the Saint Louis, Kansas City & Northern R. R. (formerly the North Missouri R. R.), and by way of the great bridge across the Mississippi, of the Rockford, Rock Island & Saint Louis R. R., the Toledo, Wabash & Western R. R., the Chicago & Alton R. R., the Indianapolis & Saint Louis R. R., the St. Louis, Vandalia,

Terre Haute & Indianapolis R. R.; the Ohio & Mississippi R. R.; the St. Louis & Southeastern R. R., and the Saint Louis, Alton & Terre Haute R. R.

St. Louis was founded in 1764 by Pierre Ligueste Laclede, a Frenchman, who established the Louisiana Fur Company under a charter of the French Governor-General of Louisiana, and was named in honor of Louis XV., then King of France. In 1780 the population was but 687; in 1799, 925; in 1810, 1,400; in 1823, 4,800; in 1830, 6,694; in 1840, 16,469; in 1850,74,439; in 1860, 160,773, and in 1870, 310,923. This number, according to the census, included 198,615 natives of the United States, and 112,249 natives of foreign countries, of whom 59,040 were born in Germany, 5,366 in England, 32,239 in Ireland, 1,202 in Scotland, and 2,788 in France.

In 1872 the population had increased to 428,123, and since the incorporation of the 13th ward exceeds 450,000. It is thus by far the largest city in the great "Mississippi Valley," and the third city in the Union, being surpassed only by New York and Philadelphia.

In all classes of occupations there were engaged 108,691 persons, viz.: in agriculture, 810; in personal and professional services, 41,418—including 198 clergymen, 92 journalists, 594 lawyers, 495 physicians and surgeons, 949 teachers, 19,504 laborers and 10,566 domestic servants; in trade and transportation, 28,219, and in manufactures and mining, 38,244—including 743 bakers, 1,342 blacksmiths, 1,673 boot and shoemakers, 2,680 masons and stone cutters, 1,025 butchers, 4,237 carpenters, 1,632 cigar makers and tobacco workers, 811 harness makers, 2,096 iron and steel workers, 511 machinists, 1,627 painters and varnishers, and 3,635 tailors and tailoresses.

The city extends 14 mls. along the river and 9 mls. inland, and covers an area of 3,274 acres, or somewhat over 5 sq. mls. The ground on which it stands rises in three successive terraces from the river bank, the last of which is about 200 feet above the water-level. The streets which run parallel to the river are Front, Main, Second, Third, etc., to Fortieth. The streets running E. and W. intersect the others at right angles.

St. Louis is one of the most beautiful cities in the Union, and with its busy wharves, wide streets, grand warehouses, factories, hotels, public buildings and sumptuous residences, presents a splendid and imposing appearance. The most prominent structures are the United States Arsenal, the City Hall, County Court House, the United States Custom House and Post-office, the Marine Hospital, Insane Asylum, Mercantile Library Hall, Merchant's Exchange, Polytechnic Institute, Saint Louis Life Insurance Company's building, and others. In 1872 there were erected 1,559 new buildings, of which 1,228 were dwelling houses. Lindell Hotel, the new United States Custom House and Post-office, and the new Exchange, are in progress of construction and will soon be completed.

The public parks cover a large area. La Fayette Park, about 30 acres large, forms a square which is surrounded on all sides by elegant residences. Shaw's Garden, the largest of the parks, is 330 acres in area, and includes an herb and flower garden of 10 acres, with several hot-houses for tropical plants, a fruit garden of 6 acres, where all fruits that will grow in this climate are cultivated, and an arboretum of 25 acres, with ornamental shrubs and trees in great variety. The Saint Louis "Fair-Grounds" embrace 85 acres, well set in grass and shaded with trees. Handsome buildings have been erected to accommodate visitors and spectators as well as exhibitors.

The new bridge which spans the Mississippi, and connects the city with East Saint Louis, in Ill., is one of the grandest engineering works of this or any other country. It is supported by two immense piers in the river, and two shore abutments, and consists of three arches, of which the central has a span of 525 feet, and the two others of 515 feet each. The arches are 50 feet above high water. The piers rest upon the solid rock, the one 60 and the other 90 feet below the sand-bed of the river, and have been built of Grafton limestone to the low-water level, and of granite above the same. The arches have been constructed of two tiers of hollow cast steel cylinders, supporting the two stories of the bridge. The upper story, for carriages and foot-passengers, is continued by a viaduct of 5 arches 1,049 feet W. of the river shore, and terminates in Washington avenue. The lower tier is continued by a double tunnel 4,800 feet long, which terminates at the Great Central Depot. The approaches to the bridge on the Ill. side have been constructed by the companies of the different railroads terminating there. The bridge is 2,230 feet long and 50 feet wide, and had cost $7,043,603 when the last report, previous to its completion, was published.

St. Louis is the most important manufacturing city W. of the Alleghany Mts. Its iron industry is very extensive and constantly increasing. In 1870 it had 11 furnaces and foundries; in 1873 four times as many. The iron production had, in 1872, a value of five and a half millions of dollars. Of lead there were produced, in 1871, 17,433,138 lbs., and of zinc, 27,000 lbs. The Collier White Lead Company manufactures over 5,000 tons of white lead and 250 tons of red lead and litharge. The 27 steam mills of the city produced, in 1871, 1,507,915 barrels of flour; the 25 breweries 411,000 barrels of beer, and in the pork-packing establishments over 500,000 hogs were killed and salted. The lumber yards had in store nearly 120,000,000 of feet in January, 1871, and during the preceding year nearly 440,000,000 of feet had been brought to the city. The production of wine is a prominent branch of industry of the city, and the "American Wine Company" alone turned out, in 1872, 100,000 gallons of wine and 1,000,000 bottles of champagne.

The manufactures of the co. of St. Louis (see preceding article) were nearly all produced in the city, and had, in 1870, a value of $158,761,031.

The geographical position of the city, in the midst of the Mississippi Valley, makes it the commercial center for the region extending from the Appalachian to the Rocky Mts. It commands water communications (by means of navigable rivers) of nearly 10,000 mls. in length. In 1872 the steamboat arrivals on its wharves were 2,768, against 2,574 in the preceding year. The commercial fleet comprised 138 steamers of 64,842 tons, and 81 unrigged vessels of 33,185 tons.

The commercial and industrial interests of the city are represented and furthered by the "Union Merchants' Exchange," organized in 1862; the "Board of Trade," and the "Merchants' and Manufacturers' Exchange."

The taxable property had a value in 1872 of $129,235,180 for real estate, and $33,454,390 for personal estate; together, of $162,689,570, against $116,582,140 in 1868. The bonded debt amounted, on April 7, 1873, to $14,080,500. The total expenditures of the city administration for the year ending on April 7, 1874, were estimated to be $3,549,450, and the receipts $3,666,000.

The educational interests are under the direction of the Board of Public Schools, consisting of 26 citizens. The school fund amounts to three and a half million of dollars.

In 58 school-houses, with 482 rooms, there were instructed, in 1872, 34,431 pupils by 603 teachers. The schools embrace one normal school, one central school, 4 branch high-schools, 48 district schools, 6 district schools for colored pupils, and 17 evening schools. The value of the school property was $2,235,803. Among the educational establishments (not public) the following merit especial mention: The O'Fallon Polytechnic Institute, the Washington University, the St. Louis University, the College of the Christian Brothers, the St. Patrick Academy (the three last Roman Catholic), the St. Louis Medical College, the Missouri Medical College and the St. Louis Law School. Scientific and literary associations are the Academy of Sciences, the Engineer Club, the Historical Society, the Institute of Architects, the Agricultural and Mechanical Society, the Medical Society, the Union Literary Association, the University Club and the Art Society.

The principal libraries are: The Mercantile Library, with nearly 50,000 volumes; the Public School Library, with 30,000 volumes; the St. Louis Library, with 25,000 volumes; the Court House Library, with 8,000 volumes, and the Library of the Washington University, with 7,000 volumes.

The press of St. Louis is represented by 73 newspapers and periodical publications, embracing the following 8 dailies: The "Missouri Republican," which is the successor to the "Missouri Democrat" (founded in 1808), and published in one of the most elegant establishments; the "St. Louis Democrat," published since 1852; the "St. Louis Times," the "St. Louis Globe," the "Evening Dispatch," and the "Journal of Commerce;" the "Westliche Post" (German), the "Anzeiger des Westens" (German). Scientific journals are the "Journal of Speculative Philosophy" (the only publication in the country representing abstract thought, and the best in the English language), the "Southern Review," the "Inland Monthly Magazine," the "Medical and Surgical Journal," "Medical Archives," etc.

Saint Paul, p. o. in Howard co., Kans.

***Saint Paul,** city, port of entry, co. seat of Ramsey co. and capital of Minn.; is situated on the N. bank of the Mississippi R., 6 mls. below the mouth of the Minnesota R., 9 mls. from the Falls of Saint Anthony, and practically at the head of navigation, 2,082 mls. from the Gulf of Mexico. It is the largest city in the state, and one of the oldest settlements of the N. W., the first recorded visit being that of Hennepin, a Jesuit missionary, in 1680. Eighty-six years afterward Jonathan Carver made a treaty there with the Indians near Carver's Cave. The claim upon which the present city is located was bought by Pierre Parent in 1837, and sold in 1839. In 1840 the first church was built (Saint Paul's), from which the city was named. The city is peculiarly situated on three plains, the first level with the river forming the levee; the second, upon which the main portion is erected, is a plateau whose edges toward the river are bluffs of white sand and limestone; the third is the prairie level above and beyond the hills, which surround the main portions of the city like an ampitheatre. Upon these hills and beyond are many fine private residences. Owing to the geological formation, abundance of building material is found on the spot. It consists of a soft limestone, which hardens on exposure. Though a young city, it has several fine churches, hotels, schools and places of amusement. The State Capitol occupies a fine position on high ground, but is a rather unattractive brick structure. There are two asylums in the city, a hospital, and near it is the State Reform School. In the neighborhood are pleasant drives, numerous lakes and places of resort and interest. The city is an important commercial center. Besides having its connections by the river, it is the N. W. terminus of the Saint Paul & Chicago R. R., the N. terminus of the Milwaukee & Saint Paul R. R., the N. E. terminus of the Saint Paul & Sioux City R. R., the E. terminus of the Saint Paul & Pacific R. R., the S. E. terminus of the Saint Paul Branch of the Northern Pacific R. R., the S. terminus of the Lake Superior & Mississippi R. R., and W. terminus of the West Wisconsin R. R. Its manufactories are extensive, and consist of planing mills, brass and iron foundries, flouring mills, boot and shoe factories, etc. In 1838 it contained only three white inhabitants; in 1848 about 50; in 1849, 500; in 1850, 1,112; in 1860, 10,401; in 1870, 20,030. There are 21 newspapers published in the city, the principal of which are the "Press," "Pioneer" and "Dispatch" (dailies and weeklies), and the "Northwestern Chronicle," "Volksblatt" (German), and "Monitorew" (Swedish), weeklies.

***Salem,** city, port of entry and semi-capital of Essex co., Mass.; is situated on a peninsula between Beverly and Salem Harbors, 16 mls. N. N. E. of Boston. The city is regularly laid out, contains many handsome residences, and its main streets are lined with stately elms. It extends from harbor to harbor, and, next to Plymouth, ranks as the oldest settlement in New England, being settled in 1626. It is noted for the number of its literary institutions, among which are the Essex Agricultural Society, Essex Institute, Salem Athenæum and East India Marine Society. It is a station on the Eastern R. R. of Mass., W. terminus of Marblehead Branch, S. E. terminus of Lawrence Branch and E. terminus of S. Reading Branch of same; also E. terminus of Salem & Lowell Division of Boston, Lowell & Nashua R. R. Its manufacturing interests are large and varied, and as a commercial point it has always occupied a prominent position among New England cities, its harbor being convenient and safe. During the year ended June 30, 1872, the imports had a value of $78,720, and the exports of $47,450. Pop. in 1850, 20,264; in 1860, 22,252; in 1870, 24,117. Seven newspapers.

Salem, co. in N. J., S. W. part. Area, 348 sq. mls. Pop., 23,940; in 1860, 22,458. It is bounded on the W. by the Delaware R., on the S. by Slow Cr. and on the N. by Oldman's Cr. Salem Cr. and Alloway's Cr. drain it, and afford valuable water-power. The surface is low and level and the soil along the Delaware and other streams productive, but in the eastern parts sandy and moderately fertile. Marl, which occurs in extensive beds, is very generally used as manure, and increases the productiveness even of the sandy portions of the co. The West Jersey R. R. and a branch to Salem afford good commercial facilities. Salem is the co. seat. Agr. productions in 1870: Wheat, 259,777 bush.; rye, 5,345 bush.; oats, 164,678 bush.; Indian-corn, 756,342 bush.; Irish pot's, 350,955 bush.; sweet pot's, 220,574 bush.; butter, 374,849 lbs.; hay, 39,454 tons. Cash value of farms, $13,661,904. Total, estimated, value

of all farm productions, including additions to stock, etc., $2,991,792. Value of flour and meal, $562,136. Total value of manufactures, $2,277,791.

Salt Lake, co. in Utah Ter., N. central part. Pop., 18,337; in 1860, 11,295. It borders in the N. W. on Great Salt Lake, and in the E. on the lofty range of the Wahsatch Mts. The Jordan R., a tributary of Great Salt Lake, intersects it from S. to N., and flows through a rich valley, which produces excellent crops of grain and fruit wherever it is irrigated. Salt Lake City is the co. seat. Agr. productions in 1870: Wheat, 26,838 bush.; rye, 40 bush.; Indian-corn, 6,838 bush.; oats, 4,584 bush.; Irish pot's, 16,216 bush.; butter, 16,207 lbs.; hay, 1,172 tons. Cash value of farms, $319,800. Total, estimated, value of all farm productions, including additions to stock, etc., $104,196. Value of manufactures, $192,254.
***Salt Lake City,** city, co. seat of the above co. and capital of the territory; is situated in Great Salt Lake Valley, on the Jordan R. and at the S. terminus of Utah Central R. R., 37 mls. S. of Ogden. It was founded in 1846 by Mormon pioneers under the leadership of Brigham Young. The site is a plain overlooking the valley and extending to the spurs of the Wahsatch Mts. The streets are laid out at right-angles, 132 feet wide, handsomely ornamented with shade trees, and having streams of water running through them. Here are many handsome private and public buildings, the most notable of the latter being the Tabernacle, capable of seating 10,000 persons. The city is an important trade center, and has large interests in manufactures, having foundries, machine shops, a woollen mill, etc. Pop., 12,854; in 1860, 8,190. There are nine newspapers published here, of which the "Deseret News" and "Salt Lake Herald" are dailies.

***San Antonio,** city and the co. seat of Bexar co., Tex., on San Antonio Cr., 80 mls. S. by W. of Austin. It is the center of a large trade with the interior, and is the cattle mart for an extensive region. It ranks as the oldest city of Tex., its foundation dating back two centuries before the settlement of the country by Americans. Many of the private residences are very fine. The United States Arsenal is one of the principal objects of interest. Pop., 12,256; in 1860, 8,235. Six newspapers.

San Antonio River, in Tex.; formed by confluence of Cibolo and San Antonio Crs. in Kansas co., flows south-easterly, forms the boundary between Victoria and Refugio cos. and joins the Guadaloupe just above San Antonio B.

San Antonio Bay, on the S. E. coast of Tex., between Refugio and Calhoun cos.

San Augustine, co. in Tex., E. part. Area, 500 sq. mls. Pop., 4,196; in 1860, 4,094. It is bounded W. by the Attoyac Cr. and Angelina R., and intersected by a tributary of the latter, Avish Bayou. The surface is mostly level, and known as the "red lands." The soil is remarkably rich. San Augustine is the co. seat. Agr. productions in 1870: Wheat, 55 bush.; Indian-corn, 110,007 bush.; oats, 537 bush.; Irish pot's, 180 bush.; sweet pot's, 10,082 bush.; cotton, 2,598 bales; butter, 1,050 lbs. Cash value of farms, $131,363. Total, estimated, value of all farm productions, including additions to stock, etc., $328,826. Value of manufactures, $26,032.

***San Augustine,** p. v. and the co. seat of the above co., 28 mls. N. W. of Sabinetown, and 35 mls. E. of Nacogdoches. Pop., 250.

San Bartolo, p. v. and the co. seat of Zapata co., Tex.

San Benito, tn. in Monterey co., Cal. Pop., 529.

San Benito, p. o. in Monterey co., Cal.

San Benito River, a tributary of the Pajaro R. in Cal.; flows through a fertile valley in Monterey co., lying between the Monte Diablo Range and the Gavilan Mts.

San Bernardino, co. in Cal., S. E. part. Area about 15,700 sq. mls. Pop., 3,988; in 1860, 5,551. It borders in the E. on the Colorado R. By far the larger portion is a dreary desert, with dry lakes, few small streams, losing themselves in the barren soil, and an exceedingly scanty vegetation of cacti and yuccas. Several ranges of lofty mountains enter into it from Inyo co., and traverse its northern extremity. Between the Pinament and Amargosa ranges lies the dismal Death Valley, whose surface is 150 feet lower than the level of the sea. This valley is 100 mls. long and 20 mls. wide, and in its center there is a salt marsh, with a thin layer of soil covering an unknown depth of soft gray mud, into which sinks the Amargosa R. The heat of the valley is fearful during the summer, and even in winter the thermometer rises to 90° Fahr. The Mojave R. flows through the center of the co., and is lost in a dry sink. The S. W. portion is traversed by some of the Coast Ranges and contains its finest agricultural lands. Here is the beautiful San Bernardino Valley, extending between the San Bernardi-

no and Temescal Mts., which ranges are covered with forests. Innumerable small streams flowing from these mountains, and joining the Santa Anna R., render the valley fertile. Willows, sycamores, and other trees grow along their banks and impart to this valley the appearance of a beautiful garden. Agriculture is the main pursuit of the inhabitants. San Bernardino is the co. seat. Agr. productions in 1870: Wheat, 10,356 bush.; rye, 45 bush.; Indian-corn, 12,250 bush.; oats, 50 bush.; Irish pot's, 1,542 bush.; sweet pot's, 785 bush.; wool, 71,075 lbs.; butter, 21,510 lbs.; hay, 1,808 tons. Cash value of farms, $191,242. Total, estimated, value of all farm productions, including additions to stock, etc., $133,140. Value of manufactures, $174,350.

San Bernardino, tn. in the above co. Pop., 3,064.

***San Bernardino,** p. v. in the above tn. and the co. seat, near Santa Anna R., 60 mls. E. of Los Angeles. The valley is here walled in by bold granite mountains. The climate is almost tropical, and fruits of all kinds grow in abundance. The surrounding mountains are heavily timbered with cedar. The town was originally a Mormon settlement. Pop. nearly 3,000. One newspaper.

San Bernardino Mountains, the most south-eastern of the Coast Ranges of Cal.; trend through San Diego and San Bernardino cos., and bound the desert plains of the Mojave and the Colorado Rs. in the S. W.

San Diego, co. in Cal.. S. part. Area, 13,280 sq. mls. Pop., 4,951; in 1860, 4,324. It extends from the Colorado R. on the E. to the Pacific Ocean on the W., and comprises the most southern part of Cal., bordering on the peninsula of the same name, which belongs to Mexico. In regard to surface the co. may be divided into three sections. The western is diversified by gentle undulations, low hills and level plains, contains much good farming land and has a warm, semi-tropical climate. The central section is mountainous, being traversed by the San Bernardino, San Jacinto and others of the Coast Ranges, which mostly have a S. E. and N. W. direction, and is the best agricultural district of the co. The vine, orange, wheat and barley are among its productions. The eastern section belongs to the great Colorado Desert, is sandy, destitute of water, and has an excessively hot climate. At Fort Yuma, on the Colorado R., opposite the mouth of the Gila R., the thermometer sometimes reaches 122° Fahr. in the shade. The streams are inconsiderable, rise in the Coast Ranges and mostly empty into the Pacific, as the Margarita R., San Luis Rey R., San Bernardo R. and San Diego R. Cattle, sheep, wool, hides and tallow are the principal products. San Diego is the co. seat. Agr. productions of 1870: Wheat, 32,947 bush.; Indian-corn, 9,330 bush.; oats, 260 bush.; Irish pot's, 3,572 bush.; sweet pot's, 85 bush.; wool, 9,250 lbs.; butter, 11,528 lbs.; hay, 1,433 tons. Cash value of farms, $782,662. Total, estimated, value of all farm productions, including additions to stock, etc., $160,920. Value of manufactures, $57,807.

***San Diego,** p. v. and the co. seat of the above co., on San Diego B., 131 mls. S. S. E. of Los Angeles and 500 mls. S. S. E. of San Francisco. Its harbor is, next to that of San Francisco, the best on the Pacific coast. The town was founded in 1769 by Catholic missionaries, but until lately never came into commercial importance. Within the past few years its growth in population and trade has been rapid, and it has lately been made a port of entry. Pop., 2,300. Four newspapers.

Sandusky, co. in Ohio, N. part. Area, 425 sq. mls. Pop., 25,503; in 1860, 21,429. The surface is level and the soil excellent. The Black Swamp occupies the western portion of the co. It is drained by several streams, which afford abundant water-power. The principal river is the Sandusky, which flows from S. to N. The co. is intersected by the Lake Shore & Michigan Southern R. R. and by the Lake Erie & Louisville R. R. Fremont is the co. seat. Agr. productions in 1870: Wheat, 482,663 bush.; rye, 5,856 bush.; Indian-corn, 341,002 bush.; oats, 389,233 bush.; Irish pot's, 186,491 bush.; sweet pot's, 1,513 bush.; butter, 549,482 lbs.; hay, 25,987 tons. Cash value of farms, $12,246,110. Total, estimated, value of all farm productions, including additions to stock, etc., $1,942,887. Value of manufactures, $1,582,532.
***Sandusky,** city, port of entry and co. seat of Erie co., Ohio, on Sandusky B. of Lake Erie. The bay forms an excellent harbor. The site of the city is a slope southward from the bay, of which a fine view is had. Inexhaustible beds of limestone underlie the city, affording cheap and durable material, of which most of the buildings are constructed. The city is in intimate commercial connection with the leading towns and ports of Lake Erie. Its inland commerce is also extensive, it being the N. terminus of the Cincinnati, Sandusky & Cleveland R. R., the Lake Erie Division of the Baltimore & Ohio R. R., and the Sandusky Line of the Lake Shore & Michigan Southern R. R. Its manufacturing interests are large, covering nearly every variety of products. Pop., 13,000; in 1860, 8,408. Seven newspapers.

San Francisco, co. in Cal., W. part. Area, 45 sq. mls. Pop., 149,473; in 1860, 56,592. The co. is co-extensive with the city of San Francisco. (See San Francisco.) Agr. productions in 1870: Irish pot's, 128,800 bush.; hay, 1,730 tons. Cash value of farms, $5,817,400. Total, estimated, value of all farm productions, including additions to stock, etc., $846,754. Value of manufactures, $37,410,829.

***San Francisco,** city, port of entry and co. seat of San Francisco co., Cal.; occupies the northern extremity of the peninsula which partly separates San Francisco B. from the ocean, and is washed on the N. by the strait known as the "Golden Gate." It lies in 37° 47′ 35″ N. lat., and 122° 20′ 15′ W. long., and includes an area of 37½ sq. mls., or 24,000 acres. The city is regularly laid out, with streets intersecting each other at right angles. Montgomery Street, running N. and S., is the principal business avenue; California Street contains the banking and insurance buildings; on Front Street are the wholesale and import houses, and Kearney, Washington, Sacramento, Second and Third streets are the retail business thoroughfares. The most elegant residences are in Stockton, Powell, Mason, Taylor, Folsom and Second streets, and the Chinese quarters are in Sacramento Street, between Kearney and Dupont streets. Telegraph Hill, in the north end of the city, about 290 feet high, affords a magnificent panorama over the bay, the opposite shore and the distant range which terminates with the conical peak of Mount Diablo. The great sea-wall, now in course of construction, will extend along the water front of the city on the bay (8,340 feet), and will be 100 feet wide at the bottom. The top will be on a level with the city grade.

The principal public buildings of San Francisco are the following: the United States Custom House, containing also the Post-office, on the corner of Battery and Washington streets; the United States Branch Mint, on Commercial Street, in which two-thirds of all the gold and silver coin made in the country is coined; the new Mint, now ready for the machinery, will be a far more imposing structure; the United States Treasury, on Montgomery Street; the City Hall, extending from Washington to Merchant streets, which will soon be superseded by a new building on Yerba Buena Park; the United States Marine Hospital, which has, on an average, about 106 patients, and receives over 1,000 in the course of the year, and the Merchants' Exchange Building, on Commercial Street, one of the largest and most impressive structures of the city. San Francisco has over 70 churches and chapels, many of which are fine buildings; as the St. Mary's Cathedral (Roman Catholic), St. Patrick's Church (Roman Catholic), Calvary Presbyterian Church, St. John's Presbyterian Church, Mariner's Church, etc.

San Francisco has as yet no large park, as some of our eastern cities; but several pleasant gardens and public squares. Woodward's Gardens, in the southern part of the city, cover 6 acres of ground, and contain collections of ornamental plants, oranges, a hot-house for tropical plants, an aquarium, a menagerie, a large hall for concerts and a skating rink. Portsmouth Square, commonly called the "Plaza," is on Kearney Street, between Washington and Clay streets. Among the cemeteries may be mentioned Laurel Hill Cemetery, 2½ mls. W. of Montgomery Street, near Lone Hill; Masonic Cemetery, near the same locality; Mount Calvary Cemetery, and the Hebrew Cemeteries "Gibboth Olom" and "Neval Shalome," both on Dolores Street.

The first settlement on the B. of San Francisco was made in 1776, by two Catholic missionaries of the Franciscan Order, 2 mls. S. of the present location of the city, and was named the Mission Dolores. Soon afterward a few houses were built where the city now stands, and received the name of "Yerba Buena," or "good herb," from a plant abundantly growing here, which was used as a substitute for Chinese tea. In 1845 this settlement had 150 inhabitants. The discovery of the gold placers, on Sacramento and American Rs., gave the first impulse to the marvelous growth of the city. In 1847 the name "Yerba Buena" was changed to San Francisco, and the city was laid out in streets and building lots; in the following year the population was 1,000; in 1850, 25,000; in 1860, 56,802: in 1870, 149,473, making it the 10th city in size in the Union. The last number includes 75,754 natives of the United States, and 73,719 natives of foreign countries, of whom 2,363 were born in British America, 3,543 in France, 13,602 in Germany, 5,166 in England, 25,864 in Ireland, 1,687 in Scotland and 1,622 in Italy. The number of Chinese was 12,022, and of colored persons, 1,330.

The number of persons engaged in all classes of occupations, in 1870, was 68,352, of whom 1,000 are engaged in agriculture, 27,760 in personal and professional services (including 110 clergymen, 114 journalists, 433 lawyers, 377 physicians and surgeons, 719 teachers, 6,800 domestic servants and 8,457 laborers); 17,558 in trade and transportation, and 22,034 in manufactures, mining and mechanical industries (including 497 bakers, 634 blacksmiths, 1,551 boot and shoemakers, 441 masons, 226 brewers, 705 butchers, 495 cabinetmakers, 2,419 carpenters and joiners, 1,811 cigarmakers and tobacco workers, 293 cotton and woollen mill operatives, 353 fishermen and oystermen, 386 iron and steel workers, 418 machinists, 1,075 milliners and dressmakers, 1,102 miners, 901 painters and varnishers, 260 plumbers and gas-fitters, 573 printers, 579 ship riggers, calkers, carpenters and smiths, 1,223 tailors and seamstresses and 606 tinners).

According to the last census there were, in 1870, in San Francisco, 1,223 manufacturing establishments, employing 207 steam-engines, of 5,784 horse-power and 12,377 hands. The

capital invested was $21,170,956, and the wages paid amounted to $7,238,528. The raw material consumed had a value of $20,046,321, and the products turned out of $37,410,829. The chief industrial productions were: boots and shoes, $1,398,271, (in 32 establishments); bread and bakery products, $990,486, (in 42 establishments); men's clothing, $964,750 (in 62 establishments); cordage and twine, $850,000 (in 2 establishments); flour and meal, $3,015,335 (in 11 mills); liquors, $1,036,748 (in 2 distilleries); malt liquors, $1,223,347 (in 23 breweries); engines and boilers, $2,061,700 (in 13 establishments); newspaper printing, $1,023,361 (in 34 establishments); soap and candles, $520,885 (in 16 establishments); cigars, $1,871,905 (in 77 establishments); woollen goods, $917,799 (in 2 establishments). During the first 9 months of 1872 San Francisco received gold and silver for refining to the amount of $30,000,000, inclusive of $3,500,000 from Japan, $2,500,000 from other foreign sources, $6,500,000 from the interior in coin, and $18,500,000 in dust and bars.

San Francisco is the commercial metropolis of the Pacific coast. The imports from foreign countries during the year ended June 30, 1872, had a value of $33,330,501; the exports of domestic goods to foreign countries of $26,243,061, and the foreign exports of $1,839,022. The commercial fleet of the city comprises 690 sailing vessels, of 74,450 tons, 141 steam vessels, of 44,973 tons, and 63 unrigged vessels of 8,247 tons. There arrived at the port 3,679 ships of 1,244,884 tons (against 3,533 ships of 1,067,950 tons, in the preceding year); there were cleared 988 ships of 739,884 tons, for foreign ports, and 288 ships of 172,031 tons, for domestic ports.

The city has regular steamboat communication with the principal ports of the Pacific coast, in China, Japan, the Sandwich Islands, Australia, Panama, Mexico and Central America. The Pacific Mail Steamship Company connects it, since 1849, with Panama. Daily steamboat communication exists to Alcatraz, Saucelito, Goat Island, Alvarado and Union City, Benicia, Suisun and Vallejo, Grayson, Napa, Suscol, Petaluma, Sonoma, Sacramento, Rio Vista, San Rafael, Stockton, Antioch, Centreville, Alviso, San Mateo, Redwood City and other points.

The exports of gold and silver amounted to $2,933,436. The estimated value of exports for 1872 was $39,015,275, of which $28,084,384 was for California goods, including $12,001,395 for wheat and flour, and $1,126,800 for wool. The total amount of goods shipped by railroad to the East amounted to 65,283,903 lbs.

The Union and Central Pacific R. Rs. connect this city with the cities on the Atlantic sea-board. The distance over these lines to Omaha is 1,914 mls. The Southern Pacific R. R. has been completed as far as Gilroy. Other lines, connecting San Francisco with the principal places of Oreg. and Wash. Ters., have been begun.

The city has excellent public and private schools. Of the former there were, in 1871, 77, with 357 classes and 45 male and 393 female teachers. The daily school attendance averaged 20,202. The census of 1870 states the number of children of school age at 28,630, of whom 18,807 attended the public schools and 4,874 the private schools. The City College, University School, Union College and the California Business University are well conducted establishments. The Roman Catholic institutions are St. Ignatius College and St. Mary's College. The city is well supplied with libraries, as the Mercantile Library, 27,000 volumes; Odd Fellows' Library Institution, 18,000 volumes; Mechanics' Institute Library, 18,000 volumes, and the San Francisco Law Library, over 5,000 volumes.

The literary and scientific institutions are the Society of California Pioneers, whose purpose it is to investigate the early history of the state and to collect antiquities; the Bay District Agricultural Association, the Bay District Horticultural Society of California, the California Academy of Sciences, which possesses fine collections; the California Historical Society, the Ignatian Literary Society, the Irish Literary and Social Club, the Justinian Literary Society, the Oriental Literary and Social Club, and the San Francisco Art Association.

Among the benevolent institutions are the Protestant Orphan Asylum, the Roman Catholic Orphan Asylum, the Magdalen Asylum, the Alameda Park Asylum (for idiotic patients), the California Institution for the Deaf, Dumb and Blind, the St. Mary's Hospital, and the County Hospital, erected in 1855.

The press of San Francisco comprises nearly 80 publications, of which 12 issue daily and weekly editions and 10 are monthlies. The leading daily papers are the "Alta California," the "Morning Call," the "San Francisco Chronicle," the "California Democrat" (German), the "Bulletin," the "Golden Era," the "Daily Examiner," the "Abend Post," the "Courier," and the "Evening Post."

San Francisco, tn. in Carver co., Minn. Pop., 754.

San Francisco Bay, the finest and largest bay on the Pacific coast of Cal.; lies between 37° 28′ and 37° 58′ N. lat., and is about 60 mls. long. The strait known as the Golden Gate connects it with the ocean. In the N. it joins San Pablo B., which is connected by Carquinas Strait with Suisun B. on the E. The latter receives the San Joaquin and Sacramento Rs. The largest islands situated in San Francisco B. are Angel, Alcatraz and Yerba Buena.

San Francisco Mountain, a high peak in N. Ariz. Ter.; rises N. of Bill Williams Mountain.

San Gabriel, tn. in Los Angeles co., Cal. Pop., 436.

San Jacinto, new co. in Tex., E. part. Area about 500 sq. mls. It is bounded on the N. E. by the Trinity R., and drained by small branches of the San Jacinto R. The surface is undulating and the soil very productive. Cold Spring is the co. seat.
San Jacinto, v. in Harris co., Tex., on Buffalo Bayou, 18 mls. E. of Houston, near its entrance into Galveston B.
San Jacinto River, a small stream in Tex.; rises in Walker co., has a southerly course and empties into Galveston B.
San Joaquin, co. in Cal., central part. Pop., 21,050; in 1860, 9 435. It lies chiefly in the low plains of the San Joaquin R., which traverses it from S. S. E. to N. N. W., and from which it derives its name. Near the S. W. boundary there are some spurs of the Coast Range. The Old R., a branch of the San Joaquin, forms part of the western boundary, the Stanislaus R. of the southern, and the Mokelumne R. of the northern. The Calaveras R. traverses the E. part. San Joaquin is almost exclusively an agricultural co., as the greater part of the area is very fertile. Along the San Joaquin R. extends a wide belt of "tule" or swamp land. Wheat, barley, oats, rye, corn, wool, hay and fruits are the staples. Stockton is the co. seat. Agr. productions in 1870: Wheat, 2,360,925 bush.; rye, 220 bush.; Indian-corn, 37,350 bush.; oats, 600 bush.; Irish pot's, 7,095 bush.; sweet pot's, 2,300 bush.; wool, 86,760 lbs.; butter, 292,060 lbs.; hay, 41,214 tons. Cash value of farms, $7,874,365. Total, estimated, value of all farm productions, including additions to stock, etc., $4,376,675. Value of manufactures, $1,074,897.
San Joaquin, tn. in Sacramento co., Cal. Pop., 1,073.
San Joaquin, tn. in Stanislaus co., Cal. Pop., 1,015.
San Joaquin River, in Cal.; rises in the Sierra Nevada of Fresno co., flows S. W. to its junction with the outlet of Tulare Lake, then turns N. W., traversing the low plain between the Sierra Nevada and the Coast Range, and at last empties into Suisun B. Its principal tributaries, which it receives from the Sierre Nevada, are Cottonwood Cr., Fresno R., Chowchillo R., Mariposa R., Merced R., Tuolumne R., Stanislaus R., and Calaveras R.
San Jose, tn. in Los Angeles co., Cal. Pop., 881.
San Jose, tn. in Santa Clara co., Cal. Pop., 12,509.
***San Jose,** city in the above tn. and co. seat., on right bank of Guadalupe R., 8 mls. S. of the head of San Francisco B. and 50 mls. S. of San Francisco, also on the Southern Pacific R. R. at S. terminus of San Jose Branch of Central Pacific R. R. The city is beautifully situated, and on account of its balmy atmosphere is quite a resort for residents of San Francisco. Its leading hotel and its Court House are models of architectural beauty and completeness. A State Normal School is located here. Its surroundings are noted for fruitful gardens and vineyards. Pop., 9,089. Six newspapers.

San Luis Obispo, co. in Cal., S. W. part. Area about 2,400 sq. mls. Pop., 4,772; in 1860, 1,782. The Santa Maria, or Cuyamas, R. forms the southern boundary, the Monte Diablo Mts. the eastern, and the Pacific Ocean the western. Four-fifths of the area are covered with mountains belonging, to the system of the Coast Ranges, the most important of which is the Santa Lucia Range. The Salinas R. is the largest stream. Its valley lies between the Santa Lucia and Monte Diablo Ranges. The San Luis Cr. and Arroyo Grande flow through fertile valleys into the ocean. The development of the agricultural resources is greatly retarded by the fact that nearly all of the arable land is held by a few individuals under old Mexican grants. San Luis Obispo is the co. seat. Agr. productions in 1870: Wheat, 38,864 bush.; Indian-corn, 25,982 bush.; oats, 780 bush.; Irish pot's, 5,741 bush.; sweet pot's, 550 bush.; wool, 903,863 lbs.; butter, 156,340 lbs.; hay, 5,714 tons. Cash value of farms, $1,869,673. Total, estimated, value of all farm productions, including additions to stock, etc., $767,715. Value of manufactures, $97,890.
San Luis Obispo, tn. in San Luis Obispo co., Cal. Pop., 1,579.
***San Luis Obispo,** p. v. in the above tn. and the co. seat, about 5 mls. from San Luis Obispo B. and on the stage route from San Juan to Los Angeles, some 250 mls. S. by E. of San Francisco. One newspaper.
San Luis Park, the largest and most southern of the parks in the Rocky Mts; lies partly in Colo. Ter. and partly in New Mex. Ter. It has an oval shape and is surrounded on all sides by lofty mountain ranges, the highest pks. and crests of which are covered with perpetual snow. The San Juan Mts. form the western barrier and the principal Rocky Mt. chain the eastern. The Rio Grande intersects the park and receives numerous small affluents from the surrounding mountains.

San Marino, p. o. in Dinwiddie co., Va.

San Mateo, co. in Cal., W. part. Area, 242 sq. mls. Pop., 6,635; in 1860, 3,214. It embraces nearly the whole of the peninsula which lies between the ocean and the southern part of the Bay of San Francisco. A branch of the Santa Cruz Mts., here called the Sierra Morena, traverses it from N. to S., attaining in some places an altitude of 3,000 feet. Along the coast there extend some narrow but very rich plains, and these, together with many charming valleys, constitute the arable lands of the co. They are highly cultivated and produce fruits, vegetables and grain. The railroad from San Francisco to San Jose, in Santa Clara co., passes through the co. Large quantities of lumber are exported. Redwood City is the co. seat. Agr. productions in 1870: Wheat, 107,049 bush.; rye, 520 bush.; Indian-corn, 278 bush.; oats, 294,318 bush.; Irish pot's, 329,875 bush.; wool, 12,625 lbs.; butter, 285,460 lbs.; hay, 19,065 tons. Cash value of farms, $3,397,701. Total, estimated, value of all farm productions, including additions to stock, etc., $1,190,793. Value of manufactures, $346,268.

Santa Anna, co. in N. Mex. Ter., W. N. W. part. Pop., 2,599; in 1860, 3,572. The eastern part of the co. is intersected by the Rio Grande, which here traverses a wide valley containing good farm lands, where it can be irrigated. The remainder of the co. is a lofty and arid plateau, intersected by the Rio Puerco of the West and the River Torrejon. Agr. productions in 1870: Wheat, 2,975 bush.; Indian-corn, 9,521 bush. Cash value of farms, $72,097. Total, estimated, value of all farm productions, including additions to stock, etc., $37,032. Value of manufactures, $1,100.

Santa Anna, tn. in De Witt co., Ill. Pop., 1,276.

Santa Barbara, co. in Cal., S. W. part. Area about 2,350 sq. mls. Pop., 7,784; 1860, 3,543. It borders on the Pacific Ocean in the W. and S., and on the Santa Maria R. in the N. The Sierra de San Rafael traverses the northern part, and the Santa Inez Mts. the southern. Both ranges trend E. and W. and belong to the system of the Coast Ranges. The Santa Inez R. is the principal stream traversing this co. There is but little timber within it. Some oak, sycamore and willow grow along the water-courses; the higher parts of the valleys and the mountains are covered with grass and wild oats, and furnish excellent pasturage the year round. A successful beginning has been made with the cultivation of mulberry trees and the raising of silk worms. Cattle, horse and wool growing are the chief pursuits. Santa Barbara is the co. seat. Agr. productions in 1870: Wheat, 20,200 bush.; Indian-corn, 158,374

bush.; oats, 514 bush.; Irish pot's, 26,539 bush.; sweet pot's, 3,359 bush.; wool, 996,200 lbs.; butter, 81,088 lbs.; hay, 8,655 tons. Cash value of farms, $5,323,963. Total, estimated, value of all farm productions, including additions to stock, etc., $847,902. Value of manufactures, $90,007.

Santa Barbara, tn. in the above co. Pop., 4,255.

***Santa Barbara,** p. v. in the above tn. and the co. seat, on the Pacific coast, 90 mls. N. W. of Los Angeles. It is an important trade center, though its harbor is open and unsafe; surrounded by a fruit-growing and stock-raising region. Pop., 2,672. Three newspapers.

Santa Barbara Islands, a group of islands belonging to Cal., comprising San Miguel, Santa Rosa, Santa Cruz, Ana Capa, Santa Barbara, Santa Catalina, San Nicolas and San Clemente. They are hilly and so far as known are not productive.

Santa Clara, co. in Cal., W. central part. Area over 1,050 sq. mls. Pop., 26,246; in 1860, 11,912. It is bounded on the E. by the Monte Diablo Range, and on the W. by the Santa Cruz Mts. The southern extremity of San Francsico B. belongs to this co. The principal streams are the Guadalupe R. and the Coyote Cr., which empty into the bay and traverse a wide valley extending between the two mountain chains just named. Much of the land in this valley is exceedingly rich, and produces as much as 75 bushels of wheat to the acre. The cultivation of the grape vine is an important branch of business in the hilly sections. Large quantities of flour and grain are exported. The famous New Almaden quicksilver mines are situated about 13 mls. S. of the co. seat, San Jose. Agr. productions in 1870: Wheat, 1,188,137 bush.; rye, 440 bush.; Indian-corn, 13,084 bush.; oats, 15,134 bush.; Irish pot's, 31,764 bush.; sweet pot's, 100 bush.; wool, 179,465 lbs.; butter, 179,675 lbs.; hay, 45,779 tons. Cash value of farms, $12,022,722. Total, estimated, value of all farm productions, including additions to stock, etc., $2,760,125. Value of manufactures, $2,332,809.

Santa Clara, tn. in the above co. Pop., 3,469.

***Santa Clara,** p. v. in the above tn., on Southern Pacific R. R., 3 mls N. W. of San Jose and 47 S. of San Francisco; has delightful surroundings, and is the center of important trade and manufactures; seat of University of the Pacific (Methodist) and Santa Clara College (Jesuit), with several other fine schools. It is connected by street railway with San Jose through the celebrated Alameda, a superb avenue lined with willows planted in 1777. Three newspapers.

Santa Clara River, in S. W. Cal.; rises in the San Bernardino Mts. of Los Angeles co., flows W. through Santa Barbara co., and empties into Santa Barbara Channel.

Santa Claus, p. o. in the v. of Santa Fe, in Spencer co., Ind., 10 mls. N. W. of Troy.

Santa Cruz, co. in Cal., W. part. Area about 500 sq. mls. Pop., 8,743; 1860, 4,944. It borders on the Pacific Ocean and Monterey B., and its eastern boundary is formed by the Santa Cruz Mts. The surface is much broken by mountains and hills belonging to the system of the Coast Ranges. The co. is watered by several small but never-failing streams, which run from the mountains to the ocean. The principal of these are the San Lorenzo, Aptos, Shoquel and the Pajaro, which forms the southern boundary. The population consists chiefly of emigrants from the New England states. The soil of the valleys is very fertile, and the cereals, leguminous plants and vegetables are extensively cultivated. Flour, lumber and shingles are the principal articles of export. Gunpowder and paper are manufactured. Santa Cruz, on the B. of Monterey, is the co. seat. Agr. productions in 1870: Wheat, 115,687 bush.; rye, 75 bush.; Indian-corn, 22,795 bush.; oats, 56,690 bush.; Irish pot's, 34,253 bush.; sweet pot's, 245 bush.; wool, 3,100 lbs.; butter, 120,955 lbs.; hay, 8,664 tons. Cash value of farms, $1,870,890. Total, estimated, value of all farm productions, including additions to stock, etc., $381,195. Value of manufactures, $1,646,149.

Santa Cruz, tn. in the above co. Pop., 4,436.

Santa Cruz, p. v. in the above tn. and the co. seat, on the N. side of the B. of Monterey, 60 mls. S. of San Francisco; has a growing trade, and is a favorite summer resort. Pop., 2,561. One newspaper.

***Savannah,** port of entry, co. seat of Chatham co. and the chief city of Ga.; is situated on the S. bank of the Savannah R., 18 mls. from its mouth. Its site is a sandy plateau some 40 feet above the river level. It was first settled in 1733 by Gen. Oglethorpe, and laid out in wide rectangular streets, running nearly E. and W. and N. and S., every other street passing on either side of handsomely laid out and planted parks or squares from 1½ to 3 acres in extent. The streets are closely shaded with Pride of India and other semi-tropical trees, which, with the rich foliage of the parks, render the aspect of the city truly novel and beautiful. The water front of the city is crescent shaped, about 2½ mls. in length. Many substantial commercial and manufacturing buildings occupy the quay between the bluffs and the river, their upper stories connecting with the summits by means of platforms. The depth of the city, on the plain above, is over 1½ mle. The private residences of Savannah, especially those fronting the 24 parks of the city, are mostly elegant structures. The most conspicuous public buildings are the Custom House, corner of Bull and Bay streets, the City Exchange, Court House, Theater,

Armory, Arsenal, Jail, St. Andrew's Hall and Chatham Academy. Here are numerous and liberally sustained benevolent institutions, the principal of which are the Union Society for the education of orphan boys, the Female Asylum, Abram's Home for Poor Widows, Savannah Poor House and Hospital, and the Marine Hospital. The most striking church structures are the St. John's, Christ's Church, the Independent Presbyterian Church, built of Quincy granite, and the Trinity Church. South of the city limits is a beautiful park containing some 30 acres, known as Forsyth Place. Bonaventure cemetery, some four miles from the center of the city, is renowned for its wonderful natural and artistic beauty.

Among the literary institutions are the Georgia Historical Society, with a fine library; the Georgia Medical Society, and the Young Men's Library Society. A liberal public school system has been inaugurated, embracing primary, grammar and high schools.

The inland commerce of the city is greatly facilitated by its important railroad connections. Savannah is the S. E. terminus of the Central Georgia R. R., connecting it with Augusta, Milledgeville and Macon; the N. E. terminus of the Atlantic & Gulf R. R., connecting it with Jacksonville, Tallahassee and the cities of Fla.; and the S. W. terminus of the Savannah & Charleston R. R. Besides these, the river is navigable as far as Augusta, a distance of 230 mls. Important as are these communications, the chief commercial advantage of the city is its accessible and safe harbor. The commerce has increased largely within the last decade. The foreign and coastwise exports for 1860 aggregated $17,798,922, while for 1870 they aggregated $58,000,000. During the year ended June 30, 1872, there were imported from foreign countries commodities of $627,410 in value, and there were exported domestic goods of $28,246,607 in value, viz.: 1,061 bales of sea-island cotton ($192,183), and 294,473 bales of other cotton ($27,637,634). The commercial fleet of Savannah comprised 26 sailing vessels of 1,105 tons, and 16 steam vessels of 5,173 tons.

The population of the city, in 1850, was: white, 8,395; colored, 6,917; total, 15,312; in 1860, white, 13,875; colored, 8,417; total, 22,292; in 1870, white, 15,166; colored, 13,068; total, 28,234; 24,564 of whom were native born and 3,671 foreign born.

There are 11 newspapers published in the city, of which the "Morning News," "Republican" and "Advertiser" are dailies and weeklies.

The principal hotels are the Pulaski House, Marshal House and Scriven House.

Scott, co. in Tenn., N. N. E. part. Area, 315 sq. mls. Pop., 4,054; in 1860, 3,519. The surface is mostly occupied by the Cumberland Mts.; the soil is stony and rather sterile. It is drained by the Big Fork of the Cumberland R. Huntsville is the co. seat. Agr. productions in 1870: Wheat, 750 bush.; rye, 1,001 bush.; Indian-corn, 88,311 bush.; oats, 17,793 bush.; Irish pot's, 10,975 bush.; sweet pot's, 4,200 bush.; butter, 71,810 lbs.; hay, 224 tons. Cash value of farms, $298,248. Total, estimated,

value of all farm productions, including additions to stock, etc., $181,869. Value of manufactures, $1,365.

Scott, co. in Va., S. W. part. Area about 625 sq. mls. Pop., 13,038; in 1860, 12,072. The co. is intersected by the Clinch R., a branch of the Tennessee, and by several mountain chains, as Stone Mts., Copper Ridge, Moccasin Ridge and Clinch Mts. These chains are parallel, and trend from the N. E. to the S. W. The soil of the valleys is very fertile. The "Natural Tunnel" is one of the most remarkable features of the state, and consists in a passage of the Clinch R., 80 feet high, through a lofty ridge. The stream, before approaching the tunnel, is confined between perpendicular walls of stratified limestone. Estillville is the co. seat. Agr. productions in 1870: Wheat, 53,583 bush.; rye, 4,403 bush.; Indian-corn, 222,254 bush.; oats, 68,730 bush.; Irish pot's, 8,544 bush.; sweet pot's, 4,361 bush.; tobacco, 16,557 lbs.; butter, 95,354 lbs.; hay, 1,150 tons. Cash value of farms, $1,181,395. Total, estimated, value of all farm productions, including additions to stock, etc., $344,562. Value of manufactures, $15,571.

***Scranton,** city in Luzerne co., Pa., on Lackawanna R. and on the Delaware, Lackawanna & Western R. R., the Lehigh Valley R. R. and the Lehigh & Susquehanna R. R.: also at S. W. terminus of Delaware & Hudson R. R. and E. terminus of Lackawanna & Bloomsburgh R. R., 147 mls. by rail W. of New York and 165 N. of Philadelphia. The former name of the place was Lackawanna. The city has had a rapid growth, having sprung from an unimportant village in 1850 to its present commanding proportions. Its importance is due to its railway facilities, its location amid the anthracite coal fields of N. E. Pa., and to the iron deposits in the neighborhood—a combination of resources seldom met with in other localities. The trade of the city in coal and mining supplies is immense, and its manufacturing interests are correspondingly large, embracing iron in its various forms, machinery and general products. The city was incorporated in 1866, is handsomely laid out with broad streets and contains many beautiful private residences and stores, with various public buildings, among which are 24 churches and 4 academies. Pop., in 1860, 9,209; in 1870, 35,092, of which 19,205 were native born and 15,887 foreign born. Here are published 8 newspapers, of which the "Republican," "Times," and "Democrat" are dailies.

Shasta Butte, or **Mount Shasta,** is one of the highest peaks in our country, and lies in Siskiyou co., Cal., at the junction of the Sierra Nevada and Cascade Mts. It reaches an altitude of 14,444 feet, and is at all seasons of the year covered with snow for 4,000 to 5,000 feet below its summit. Up to an altitude of 7,000 feet the flanks of this mountain are covered with heavy forests of sugar and pitch pine. At 8,000 feet forest trees disappear altogether, and a few stunted shrubs struggle for existence to the height of about 9,000 feet, above which and below the snow line there is a belt almost destitute of vegetation. At an elevation of 13,240 feet there is a rudely circular and nearly level space, evidently the bottom of an ancient crater, one side of which having been broken away, a portion of its rim still remains, forming the summit of the mountain. On this level area there are a number of orifices, from which steam and sulphurous gases constantly escape. The outline of Mt. Shasta, from whatever side viewed, presents a nearly regular cone, with slopes of from 28 to 31 degrees inclination.
Shasta, co. in Cal.; N. part. Area, 4,135 sq. mls. Pop., 4,173; in 1860, 4,360. The surface is greatly diversified by mountains, plains and valleys. The main range of the Sierra Nevada traverses the E. part, and numerous spurs branch from it in a westerly direction. The highest peaks are Lassen's, Crater, Magee and Burney's. A chain of the Coast Ranges forms the W. boundary of the co., and the central part includes the most northerly section of the low plain which is traversed by the Sacramento R. This stream flows from N. to S., and receives numerous tributaries, the largest of which are Pitt R., Cow Cr., Battle Cr., Clear Cr. and Cottonwood Cr. Many of the valleys contain extensive bottom-lands, while others are devoid of alluvial deposits. The climate of the valleys is very mild, and not only the hardier fruits of the North but the fig, pomegranate, almond, and other semi-tropical plants thrive in the open air. Tobacco, wheat, barley and oats are the principal products. Some gold is obtained by hydraulic mining. Shasta is the co. seat. Agr. productions in 1870: Wheat, 29,569 bush.; rye, 143 bush.; Indian-corn, 2,455 bush; oats, 2,227 bush.; Irish pot's, 9,748 bush.; sweet pot's, 1,735 bush.; wool, 15,820 lbs.; butter, 30,150 lbs.; hay, 5,034 tons. Cash value of farms, $324,973. Total, estimated, value of all farm productions, including additions to stock, etc., $299,628. Value of manufactures, $192,518.
***Shasta,** p. v. and the co. seat of the above co., on the Sacramento R., 180 mls. N. of Sacramento. A mining town and center of supplies for the rich mineral regions to the N. Pop. about 800. One newspaper.

Sierra, co. in Cal., E. part. Pop., 5,619; in 1860, 11,387. The greater part of this co. is occupied by the Sierra Nevada, hence it is elevated and its surface greatly broken by deep ravines and cañons. Table Mt., Saddle Mt. and the Downieville Buttes are among the loftiest peaks. The principal streams are the North and Middle Forks of the Yuba R., the former running through the center and the latter forming part of the southern boundary. The climate is rigorous in the winter, the cold being severe and the snow falling to a great depth and lying for several months on the higher ridges. The principal mode of traveling during the winter is on snow shoes. Nearly the whole of this co. is underlaid with auriferous slates, which are generally covered with volcanic accumulations. Sierra co. is rich in placer and vein mines, and has from the first held a foremost rank as a gold-producing section of the state. Among the forty quartz mills it contains are many large and costly establishments. Downieville is the co. seat. Agr. productions in 1870: Wheat, 7,794 bush.; rye, 220 bush.; oats, 8,250 bush.; Irish pot's, 8,451 bush.; butter, 39,200 lbs.; hay, 7,466 tons. Cash value of farms, $170,950. Total, estimated, value of all farm productions, including additions to stock, etc., $189,230. Value of manufactures, $574,875.
Sierra, tn. in the above co. Pop., 686.

Sierra de Caballo, a mountain chain in Socorro co., N. Mex. Ter.; rising on the left bank of the Rio Grande. The Jornada del Muerto, or Dead Man's Journey, a desert plain, extends along its eastern base.
Sierra de Datil, a mountain chain in Socorro co., N. Mex. Ter.; trends E. and W., N. of the 34th parallel. It bounds the Plains of San Augusta on the N.
Sierra de Gavilan, one of the coast ranges of Monterey co., Cal.; trends N. W. and S. E. and is inclosed by the valleys of the Rio San Benito and the Rio Salinas de Monterey.
Sierra de la Gila, a mountain range in Pima co., Ariz. Ter.; extends from N. Mex. Ter. to the lower course of the Gila R.
Sierra de la Santa Catarina, a mountain chain in Pima co., Ariz. Ter.; extends between the valleys of the Rio San Pedro and Rio Santa Cruz.
Sierra de San Rafael, a mountain chain in Santa Barbara co., Cal., trending E. and W. between the Santa Marta and Santa Inez Crs.
Sierra de la Santa Cruz, one of the Coast Ranges of Cal.; extends from the Bay of Monterey to San Francisco through Santa Cruz and Santa Clara cos.
Sierra del Monte Diablo, one of the principal Coast Ranges of Cal.; bounds the plain of the San Joaquin R. on the W., and trends from Contra Costa co., where it rises in the Monte Diablo 3,658 feet, in a south-easterly direction to the southern parts of San Luis Obispo and Kern cos.
Sierra Escalante, a range in Summit co., Colo. Ter., between the Yampah R. valley on the N., the Vermillion R. on the N. and the Green R. on the W.
Sierra de la Plata, a mountain range in Conejos co., Colo. Ter., trending E. and W. and parallel to the Uncompahgre Mts.
Sierra Hueca, a chain of mountains in Doña Ana co., N Mex. Ter., and El Paso co., Tex.; trends N. and S. near the 106th meridian. It is traversed by the Hueca Pass, through which extends the road from the Pecos R. to El Paso, on the Rio Grande.
Sierra Oscura, or **Oso,** a mountain chain in Socorro co., N. Mex. Ter., forming the northern continuation of the Sierra Soledad; trends N. and S. parallel to the valley of the Rio Grande.
Sierra San Mateo, in Santa Ana, Valencia and Bernalillo cos., N. Mex. Ter.; trends E. and W., and terminates W. of the valley of the Rio Grande.
Sierra Santa Lucia, in Monterey and San Luis Obispo cos., Cal.; trends along the seacoast, S. of the Bay of Monterey, and is bounded on the E. by the valley of the Rio Salinas.
Sierra Soledad, a chain of the Rocky Mt. system in Doña Ana co., N. Mex. Ter., extending N. from the Organ Mts., and bounding the Jornada del Muerto, or Dead Man's Journey, a sterile plain, on the E.
Sierra Sacramento, a mountain chain in Doña Ana co., N. Mex. Ter.; trends N. W. and S. E. between the 105th and 106th meridians. It joins the Guadalupe Mts. in the S., and falls off toward the Pecos River Valley on the E.

Siskiyou, co. in Cal., N. E. part. Area, 8,120 sq. mls. Pop., 6,848; in 1860, 7,629. The central part of the co. is traversed by the Sierra Nevada and Cascade Mts., and includes the lofty peak of Mt. Shasta. Warner's Range intersects the E. part. Along its eastern base extends the Surprise Valley, in which large alkali lakes are situated. The largest among the other lakes are Goose, Rhett and Wright. The principal rivers are the Klamath and its tributaries, Shasta, Scott and the Pitt, or Upper Sacramento, which issues from the southern extremity of Goose Lake. The agricultural lands are located in Scott, Shasta and Surprise Valleys. Owing to the elevation of this co., averaging nearly 3,000 feet above the sea, the climate is quite cool, frosts occurring during the spring and even in the summer. Grain ripens in August and September. The co. is thinly settled. Yreka is the co. seat. Agr. productions in 1870: Wheat, 116,007 bush.; rye, 821 bush.; Indian-corn, 3,167 bush.; oats, 131,383 bush.; Irish pot's, 17,066 bush.; wool, 43,858 lbs.; butter, 95,800 lbs.; hay, 12,392 tons. Cash value of farms, $724,755. Total, estimated, value of all farm productions, including additions to stock, etc., $567,573. Value of manufactures, $237,665.

Smyth, co. in Va., S. W. part. Area about 620 sq. mls. Pop., 8,898; in 1860, 8,952. It extends from the Clinch Mts., in the N. N. W., to the Iron Mts., in the S. S. E., and includes several other ranges and the valleys of the North, Middle and South Forks of the Holston R. The soil of these valleys is productive and well adapted to stock raising. The Atlantic, Mississippi & Ohio R. R. passes through the co., extending along the valley of the Middle Fork of the Holston. Marion is the co. seat. Agr. productions in 1870: Wheat, 44,681 bush.; rye, 9,756 bush.; Indian-corn, 96,829 bush.; oats, 66,323 bush.; Irish pot's, 6,049 bush.; sweet pot's, 26 bush.; butter, 64,910 lbs.; hay, 3,327 tons. Cash value of farms, $1,755,188. Total, estimated, value of all farm productions, including additions to stock, etc., $306,282. Value of manufactures, $134,577.
Snachwine, p. o. in the v. of Putnam, in Putnam co. Ill., on the Peoria Branch of the Chicago, Rock Island & Pacific R. R., 8 mls. S. of Bureau Junction.
Snake Prairie, p. o. in Bastrop co., Tex.
Snake River, or **Lewis Fork,** the largest tributary of the Columbia R., issues from a small lake in the National Park of the Yellow Stone (Uintah co., Wyo. Ter.), which was until lately supposed to be the source of the Madison R. It thence flows S. through a valley between the Rocky Mts. and the Teton Range, doubling the southern extremity of this, and turning N. W. as far as the 110th meridian. Here it turns S. W., skirting the extensive plain known as the Camas Prairie. It gradually again changes its direction to the N. W. and flows due N., nearly along the 117th meridian, forming the boundary between Idaho Ter. and Oreg. It then sweeps in a wide curve through S. E. Wash. Ter. and joins the Columbia about 10 mls. above the old fort Walla Walla. This noble stream is over 1,000 mls. long, and precipitates itself in South-

ern Idaho Ter. over rocky ledges, forming falls, one of which is said to surpass Niagara Falls in height, volume of water and grandeur of scenery. The tributaries are Henry's Fork, W. of the Teton Range; Porte Neuve R., in S. E. Idaho Ter.; Goose Cr., Malade R., Bruneau R., Owyhee R., Boise R., Payette R.; Salmon R., which drains Central Idaho; Grande Ronde R., in N. E. Oreg.; Clearwater R., and Palouse R.

Sodus Point, p. v. in Wayne co., N. Y., at N. terminus of the Sodus Point & Southern R. R., 14 mls. N. of Lyons on the New York Central & Hudson River R. R. It overlooks the entrance to Sodus B. and is a delightful summer resort.
Solano, co. in Cal., central part. Pop., 16,871; in 1860, 7,169. It is bounded on the S. by the delta of the Sacramento R., Suisun B., the Straits of Carquines and the B. of San Pablo, and on the N. by Putah Cr. The surface consists mostly of level plains and fertile valleys; there are no mountains within its limits. The Arroyo Alamo is the principal stream. Fully two-thirds of the co. is arable, and was formerly covered with wild oats and grasses; the balance is valuable for cattle and sheep raising. Timber is scarce. Wheat, barley, oats, corn, potatoes, hay, wool, fruits and grapes are the staples. The California Pacific R. R., from Vallejo to Sacramento, intersects the co. Suisun City is the co. seat. Agr. productions in 1870: Wheat, 1,949,418 bush.; rye, 20 bush.; Indian-corn, 3,750 bush.; oats, 5,442 bush.; Irish pot's, 1,950 bush.; sweet pot's, 960 bush.; wool, 306,817 lbs.; butter, 119,969 lbs.; hay, 37,469 tons. Cash value of farms, $10,170,758. Total, estimated, value of all farm productions, including additions to stock, etc., $3,170,535. Value of manufactures, $811,297.

Sonoma, co. in Cal., W. part. Area, 1,344 sq. mls. Pop., 19,819; in 1860, 11,867. It borders on the Pacific Ocean, and is traversed by several of the Coast Ranges, which are covered by fine forests of pitch, sugar and yellow pine, red fir, and the torreya, yielding large quantities of excellent timber. Pine Mt. and Sulphur Pk., the loftiest summits in the co., lie near the N. E. corner. The Geysers, a number of hot springs, are situated in a deep gorge near Sulphur Pk., about 50 mls. from Petaluma, and known as the Pluton Cañon. Their water contains iron, sulphur, salts of lime, ammonia, magnesia and potash, and is emitted from orifices in the ground, varying in width from an inch to several feet in diameter. The two most interesting of these springs are the Witches' Cauldron and Steamboat Spring. From the latter a column of steam is ejected to a height of 300 feet. The valleys of the principal rivers—the Russian, Petaluma, Sonoma and Santa Rosa—contain land of great fertility, and produce large crops of Indian-corn, wheat, potatoes, vegetables and fruits. The valley of the Sonoma Cr. opens upon the B. of San Pablo, and, being protected from the sea-winds by a range of mountains, is particularly adapted to gardening and vine-growing. Orchards, vineyards and gardens cover it throughout its whole extent. The finest varieties of grape are produced, and the wines compare favorably with those of France and Germany. Santa Rosa is the co. seat. Agr. productions in 1870: Wheat, 618,425 bush.; rye, 2,120 bush.; Indian-corn, 145,792 bush.; oats, 323,961 bush.; Irish pot's, 369,154 bush.; sweet pot's, 107 bush.; wool, 230,394 lbs.; butter, 1,060,266 lbs.; hay, 35,-571 tons. Cash value of farms, $10,079,183. Total, estimated, value of all farm productions, including additions to stock, etc., $2,509,718. Value of manufactures, $1,478,813.

SOUTH CAROLINA, one of the 13 original states of the Union; is bounded on the N. by N. C., on the S. W. by Ga., from which it is separated by the Savannah R., and on the S. E. by the Atlantic Ocean. It has the shape of a tri-

angle, is 240 mls. long from E. to W. and 210 mls. wide from N. to S., and extends from 32° to 35° N. lat., and 78° 35′ to 83° 30′ W. long. The area is 34,000 sq. mls., or 21,760,000 acres.

Surface.—The N. W. corner of the state is mountainous, being occupied by the spurs and the outlying ranges of the Blue Ridge, the main crest of which forms for a short distance the boundary. From the base of the mountains the surface gently slopes down toward the sea-shore. About one-half of the state is rolling and undulating, and corresponds to the Middle Country of Va. The S. E. half belongs to the Tide-water Region, is low, nearly level and diversified by extensive swamps, which extend along nearly all the water-courses. A line, drawn from Hamburgh on the Savannah R. to Athens on the Saluda R., above Columbia, and to Chesterfield near the northern boundary, roughly marks the limit between the Tide-water and Middle countries.

Rivers.—S. C. is well watered by a number of streams, which all flow more or less directly from the N. W. to the S. E. The largest river system lying chiefly within the limits of the state is that of the Santee. This stream is formed by the junction of the Wateree R., the upper course of which is called Catawba; with the Congaree, which is formed by Saluda and Broad Rs. The eastern part of the state is drained by the Waccamaw R., which is formed by the Great and Little Pedee Rs., and empties into Winyah B. The Cooper and Ashley Rs. empty into Charleston B., and incloso the peninsula on which the city of Charleston lies. The Edisto and Combahee Rs. empty into St. Helena Sound, and the Coosawhatchie R. into Port Royal Sound. The Savannah R., which is formed by the confluence of the Keowee and Tugaloo Rs., flows along the south-western boundary of the state, separating it from Ga. Between its mouth and St. Helena Sound a broad belt of low lagoon islands extends, comprising Hilton Head Island, Port Royal Island, Ladies' Island, St. Helena Island, Prentiss Island and Chaplin's Island.

The Climate, though warm, is greatly tempered in the eastern parts by the vicinity of the ocean, and in the western by the elevation above the sea. The isothermal line of 64° passes through the state from the northern end of its sea-coast to Hamburgh on the Savannah R. From this line to the S. the mean annual temperature increases to 67°, and decreases to the N. and N. W. to 60° in the hilly country, and attains the minimum of 56° in the mountainous district. The rain-fall is greatest in the central portions of the state, where it amounts to 44, and even 52, inches per annum. In the western part it is but little over 40 inches.

The Vegetation is sub-tropical. The palmetto, the smallest of the American palms, grows abundantly in the lower portions of the state—along the sea-coast and on the river bottoms. The yucca, with its long and sharply pointed leaves, the beautiful magnolia, the live oak and many other evergreen trees and shrubs are also here of frequent occurrence, and the woods are characterized by the long festoons of the gray Spanish moss (Tillandsia usnoides). In the central parts pine forests predominate and are estimated to cover about 6,000,000 acres.

Population.—S. C. had, in 1790, 249,073 inhabitants; in 1800, 345,591; in 1810, 415,115; in 1820, 502,741; in 1830, 581,185; in 1840, 594,398; in 1850, 668,507; in 1860, 703,708, and in 1870, 705,606. This number includes 289,667 whites, 391,650 colored persons, and 124 Indians.

In regard to nativity the population was, in 1870, distributed as follows: 697,532 persons were natives of the United States, including 678,708 natives of the state; 3,254 of Va., 8,282 of N. C. and 2,884 of Ga.; and only 8,074 persons were natives of foreign countries, including 2,754 natives of Germany, 617 of England, and 3,262 of Ireland.

In all classes of occupations were engaged 263,301 persons, viz.: 206,604 in agriculture, 34,383 in personal and professional services, 8,470 in trade and transportation, and 13,794 in manufactures, mechanical and mining industries.

Agriculture.—The soil of S. C. is throughout of great fertility. The swamps, covering an estimated area of about 1¼ millions of acres, when drained produce extraordinary crops. The pine lands are well adapted to the cultivation of fruits and vegetables, and the remainder of the state to the cultivation of cotton, tobacco, Indian-corn, etc. The low sandy islands along the coast are very productive, and yield the highly prized "long staple" or "sea-island cotton." Rice is extensively grown on the swamps.

In 1870 there were 3,010,539 acres of improved land, 6,443,851 woodland, and 2,650,890 other unimproved land in farms. The total number of farms was 51,889; the cash value of which was $44,808,763. The estimated value of all farm productions, including additions to stock and improvements, was $41,909,402. There were produced: spring wheat, 317,700 bush.; winter wheat, 465,910 bush.; rye, 36,165 bush.; Indian-corn, 7,614,207 bush.; oats, 613,593 bush.; Irish pot's, 83 252 bush.; sweet pot's, 1,342,165 bush.; peas and beans, 460,378 bush.; cotton, 224,500 bales; cane sugar, 1,055 hhds.; wine, 13, 179 gals.; molasses, 436,882 gals. and sorghum molasses, 183,585 gals.; rice, 32,304,825 lbs.; tobacco, 345,805 lbs.; wool, 156,314 lbs.; butter, 1,461,980 lbs.; hay, 10,665 tons. The mild climate renders easy the raising of horses, mules and cattle.

In 1870 the live stock had a value of $12,443,510, and comprised 44,105 horses, 41,327 mules and asses, 98,693 milch cows, 17,685 working oxen, 132,925 other cattle, 124,594 sheep, and 395,999 swine.

Minerals and Mining.—S. C. possesses in its mineral treasures a source of much wealth, but thus far they are not developed to any considerable extent. Gold is found in the silt of many of the rivers, and the Dorn Mines in Abbeville and Edgefield districts have, heretofore, yielded in some years over $200,000. Excellent iron ores in large deposits occur in Union, Spartanburgh, Greenville and Pickens districts. The other metals found in the state are copper, lead, manganese and bismuth. Limestone abounds in Lawrence and Spartanburgh districts, and granite of the finest grain, equal to gray marble, is frequent in the middle and upper districts. Materials for pottery, especially porcelain clay, are found in many portions of the state. The finest porcelain clays often lie in rich strata upon the surface, ready to the hand of the manufacturer. Between Aiken and Graniteville the beds are in many cases 60 feet thick. Phosphate marls, which furnish in a portable form an inexhaustible supply of mineral manures, are among the most important resources of the state. They are composed of the remains of marine animals, and occupy a large portion of the lower districts of the state, extending from the Santee to the Savannah Rs. When excavated they are treated with sulpuric acid, and may then be applied to the soil, whose fertility they increase from 100 to 200 per cent. Large quantities have already been used in the state with the most satisfactory results, and are shipped to Europe, where the demand for this valuable article is steadily increasing. Previous to July, 1872, 206,305 tons of phosphorites, representing a value of $1,450,000, had been exported, while the consumption in the state had amounted to 36,110 tons, of $250,000 in value.

Manufactures.— In 1870 the state had 1,584 manufacturing establishments, using 210 steam-engines of 4,537 horse-power, and 700 water-wheels of 10,395 horse-power. The number of hands employed was 8,141; the capital invested, $5,400,418, and the wages paid amounted to

$1,543,715. The materials used had a value of $5,855,736, and the commodities produced of $9,858,981. The latter included cotton goods of $1,529,937 in value; flour and meal, $3,180,247; sawed lumber, $1,197,005; tar and turpentine, $774,077, and fertilizers (phosphate marls), $425,000.

Commerce and Railroads.—S. C. has three ports of entry, viz.: Charleston, Beaufort and Georgetown. Their imports from foreign countries, during the year ended June 30, 1872, had a value of $742,820, and their domestic exports to foreign countries of $11,156,468, of which $10,183,350 were for raw cotton. The commercial fleet of the state comprised 146 sailing vessels of 3,935 tons, and 23 steam vessels of 2,671 tons.

The railroad net of the state had a total mileage in 1872 of 1,290, against 1,007 in 1866; 848 in 1856, and 204 in 1846. The principal lines are the Charlotte, Columbia & Augusta R. R. (195 mls.); the Greenville & Columbia R. R. (197¼ mls.); the Northeastern R. R., from Charleston to Florence (102 mls.); the Savannah & Charleston R. R. (104 mls.); the South Carolina R. R., from Charleston to Augusta, with branches from Branchville to Columbia, and from Kingsville to Camden (242 mls.); the Spartanburgh & Union R. R. (68 mls.), and the Cheraw & Darlington R. R. (40 mls.).

Wealth, Taxation and Indebtedness.—The total taxable property had an assessed value in 1870 of $183,913,337; ($64,418,662 for personal and $119,494,675 for real estate,) against $189,319,128 in 1860. The true, or estimated, value of the same, however, was $208,146,989 in 1870 against $548,137,754 in 1860. The state debt amounted to $7,665,909, but has since then very largely increased. The debts of the counties, cities and towns amounted to $5,409,320. The taxes, not national, were $2,767,675, of which $1,321,837 were for state, $575,005 for county, and $870,833 for township and other communal purposes.

Education.—According to the present school law, which was passed in 1872, the school age is from 6 to 16 years. The number of youths of this age in 1872 was 209,376, of whom but 76,322 attended the public schools of the state. The latter numbered 1,913 (286 more than in the preceding year), in which instruction was given by 2,185 teachers. The foremost of the higher educational institutions is the University of South Carolina, which was founded in 1801, and attended in 1872 by 88 students. The establishment of a State Normal School is provided for by the new constitution, but up to 1870 there existed only a "Normal Class" in the Avery Institute at Charleston. Other higher schools are the College of Charleston; the Furman University (Baptist), at Greenville; the Claflin University (Methodist), at Orangeburgh; the Woffard College (Methodist), at Spartanburgh; the Newberry College (Lutheran), at Walhalla; the Theological Seminary (Presbyterian), and the Lutheran Theological Seminary, both at Columbia, and the Southern Baptist Theological Seminary, at Greenville.

The state possesses several benevolent and penal institutions. The Penitentiary is at Columbia, and had, in 1872, 219 convicts. In the Lunatic Asylum, at Columbia, there were 284 patients, and in the Institution for the Deaf, Dumb and Blind, at Cedar Springs, 42 patients. The State Orphan Asylum is at Charleston, and received in 1872 a state appropriation of $15,000.

The Press, according to the census, comprised, in 1870, 55 publications, with a circulation of 80,900. Of these, 5 were dailies, 4 tri-weeklies, 42 weeklies, 3 monthlies and 1 quarterly.

Government.—The present constitution of S. C. was framed by a convention, sitting from January 14 to March 17, 1868, and was ratified by the people in April. It provides that every male citizen of the United States, of the age of 21 years and over, who was a resident of the state at the time of the adoption of the constitution, or who hereafter has resided in the state one year, and in the county in which he offers to vote 60 days next preceding an election, is entitled to vote.

The legislative power is vested in two distinct branches, the Senate and House of Representatives, and both together are styled the "General Assembly of the State of South Carolina." The House of Representatives is composed of 124 members, chosen by ballot every second year by the citizens of the state. The Senate is composed of one member for each county. The county of Charleston is represented by two senators.

The chief executive authority is vested in a Governor, who is elected for two years. The qualified voters of the state elect also a Comptroller General and Treasurer and a Secretary of State, who hold their offices for four years.

The judicial power is vested in a Supreme Court, in two Circuit Courts, viz.: a Court of Common Pleas, having civil jurisdiction, and a Court of General Sessions, with criminal jurisdiction only; in Probate Courts and in Justices of the Peace. The Supreme Court consists of a Chief Justice and two Associate Justices, any two of whom constitute a quorum. It has appellate jurisdiction only in cases of chancery, and constitutes a Court for the Correction of Errors of Law. It is held once in each year at the seat of government, and at such other places as the General Assembly may direct.

S. C. is divided into the following 32 cos., formerly called districts: Abbeville, Aiken, Anderson, Barnwell, Beaufort, Charleston, Chester, Chesterfield, Clarendon, Colleton, Darlington, Edgefield, Fairfield, Georgetown, Greenville, Horry, Kershaw, Lancaster, Laurens, Lexington, Marion, Marlborough, Newberry, Oconee, Orangeburgh, Pickens, Richland, Spartanburgh, Sumter, Union, Williamsburgh and York.

The state capital is Columbia, 9,228 inhabitants; the other principal cities are Charleston, 48,956 inhabitants, and Greenville, 2,756 inhabitants. The largest post-villages are Georgetown, Newberry, Beaufort, Pickensville and Spartanburgh.

Springfield, tn. in Sangamon co., Ill. Pop., 2,447.
***Springfield,** city, co. seat of Sangamon co. and capital of Ill.; is situated on the edge of a broad and fertile prairie, 3 mls. S. of Sangamon R., and in a direct line between Chicago and St. Louis, 185 mls. S. W. of the former place and 95 N. E. of the latter. Its surroundings are populous, and in geological structure belong to the coal-bearing regions of the state. The city is regularly laid out, with wide streets, mostly lined with substantial public and private buildings. It became the state capital in 1840. The capitol, which occupies a square near the center of the city, is a commanding building, justly regarded as a model of architectural beauty. Among the other notable structures are a Court House, State Arsenal, United States Court House and Custom House, and the High School, besides several beautiful churches and commodious hotels. The manufacturing interests of the city are important. Here are located the extensive shops of the Toledo, Wabash & Western Railroad Company, and near it are the buildings of the Springfield Watch Company. Its local trade is very large, and its railroad connections give it general commercial importance, being situated at the crossing of the Chicago & Alton R. R., the Toledo, Wabash & Western R. R. and the Springfield & Illinois Southeastern R. R.; and also at S. E. terminus of Springfield & Northwestern R. R. and S. W. terminus of Gilman & Clinton R. R. The city was laid out in 1822, and in 1840 had a population of 2,579; in 1850, 4,533; in 1860, 9,320; in 1870, 17,364. Ten newspapers are published here, of which the "Illinois State Journal" and the "Illinois State Register" are the leading dailies.

Springfield, p. v. and the co. seat of Washington co., Ky., 10 mls. N. of Lebanon. Pop., 502. One newspaper.
Springfield, p. v. and the co. seat of Livingston parish, La., 53 mls. E. of Baton Rouge. It lies on a tributary of the Tickfaw R., about 7 mls. from its entrance into Lake Maurepas.
Springfield, v. in De Soto parish, La., at the northern extremity of Bayou Pierre Lake, 27 mls. S. of Shreveport.
Springfield, tn. in Penobscot co., Me. Pop., 879.
Springfield, p. v. in the above tn., 20 mls. from Lincoln.
***Springfield,** city, and the co. seat of Hampden co., Mass., is situated on the E. bank of the Connecticut R., 96 mls. W. S. W. of Boston, 26 mls. N. of Hartford, Conn., and 138 N. E. of New York. Its site is partly a low, level plain and partly an elevated plateau, commanding a fine view of the surrounding country. Main Street is the principal avenue. It is some 3 mls. in length and is lined with handsome private residences, commodious business houses and imposing public structures. Court House Square is a beautiful inclosure near the center of the city, on one side of which is the City Hall, and S. of it is the Court House, a massive granite building in the Italian style of architecture. The City High School building and the City Free Library building are elegant structures. The latter contains a library of 32,000 volumes and a valuable museum. In beauty of its church architecture Springfield is unsurpassed by any city in the state. The finest of these structures are the Church of the Unity, the Cathedral of St. Michael, the First Congregational Church and the Memorial Church. But the most interesting buildings are those of the United States Arsenal and Armory, the largest in the country, located on Arsenal Hill. It was established in 1795, employs nearly 1,000 hands, and during the four years 1861–64 turned out arms to the value of $12,000,000.

The manufacturing interests of the city are varied and extensive, embracing fire-arms, jewelry, paper collars, books, railway cars,

saddles and harness, and cotton and woollen goods. They are represented by 300 separate establishments, employing in the aggregate 5,000 hands, and turning out products to the amount of many millions of dollars. The city is an important commercial center, being situated on the Boston & Albany R. R., 98 mls. W. of Boston, at N. terminus of New York, New Haven & Hartford R. R., 62 mls. N. of New Haven, and S. terminus of Connecticut River R. R. Springfield was settled in 1638 by a company under William Pynchon. It was then called Agawam. In 1640 this name was changed to Springfield. In 1646 it was incorporated as a tn., and in 1852 as a city. Its population in 1820 was 3,970; in 1830, 6,784; in 1840, 10,958; in 1850, 11,766; in 1860, 15,193; in 1870, 26,703; 19,773 of whom were native born and 6,930, foreign born; 26,136 white and 567 colored. Six newspapers are published here, of which the "Republican" and the "Union" are dailies.

Springfield, tn. in Clark co., Ohio. Pop., 2,888.

***Springfield,** city, and co. seat of Clark co., Ohio; is situated at the confluence of Mad R. and Lagonda Cr., 43 mls. W. by S. of Columbus. It is beautifully situated, elegantly built, and has the reputation of being one of the handsomest cities in the state. Wittenberg College (Lutheran) is located near it. Both the streams upon which it is situated furnish water-power, and greatly add to the manufacturing interests of the place, which embrace numerous flouring mills and factories for the production of farming implements, water-wheels and other machinery. It is also an important commercial center, being located on the Atlantic & Great Western R. R. and the Cincinnati, Sandusky & Cleveland R. R., at N. terminus of the Xenia & Springfield Branch of the Little Miami R. R., the E. terminus of the Columbus, Springfield & Cincinnati R. R., and S. W. terminus of the Springfield Branch of the Cleveland, Columbus, Cincinnati & Indianapolis R. R. Its surroundings are rich and populous. Pop. in 1840, 2,094; in 1850, 5,008; in 1860, 7,002; in 1870, 12,652, 10,483 of which were natives of the United States and 2,169 foreign born. Seven newspapers are published here, of which the "Springfield Republic" is daily, tri-weekly and weekly.

Stanislaus, co. in Cal., central part. Area, 1,248 sq. mls. Pop., 6,499; in 1860, 2,245. It lies on both sides of the San Joaquin R., which flows nearly through the center from S. E. to N. W. The S. W. boundary is formed by one of the Coast Ranges, and the N. E. boundary by the Stanislaus R. The greater part of the surface is level. With the exception of a few scattered oaks along the larger streams, it is destitute of timber. Within its limits the San Joaquin receives the Tuolumne R., the Arroyo del Puerto and the Orestimba Crs. Along these water-courses extend broad bottoms of exceedingly rich soil, upon which the crops hardly ever fail. Knights Ferry is the co. seat. Agr. productions in 1870: Wheat, 1,650,725 bush.; rye, 400 bush.; Indian-corn, 15,700 bush.; Irish pot's, 1,750 bush.; wool, 749,263 lbs.; butter, 52,625 lbs.; hay, 15,191 tons. Cash value of farms, $4,392,840. Total, estimated, value of all farm productions, including additions to stock, etc., $2,718,036. Value of manufactures, $218,234.

Stanislaus River, a tributary of the San Joaquin in Cal.; is formed by the confluence of three forks, the North, Middle and South, which rise in the Sierra Nevada. It separates Calaveras co. from Tuolumne co., and San Joaquin co. from Stanislaus co.

Stanley, new co. in Dak. Ter., S. central part, borders in the N. E. on the Missouri R., and is intersected by the Big Cheyenne R. and its tributary, Cherry Cr. The surface is rolling.

Storey, co. in Nevada, W. part. Pop., 11,359. The surface is a high plateau, intersected from N. to S. by several ranges of hills and mountains, as the Virginia Range and others. The western part is occupied by spurs and extensions of the Sierra Nevada. This co. produces more gold and silver bullion than any other in the state, and includes the famous Comstock lode; but it is without agricultural and milling advantages. The principal supply of water comes from tunnels, dug into the side of the mountain on which the Comstock lode is situated. A project is on foot to obtain pure water from a small lake, situated about 10 mls. W. of Virginia City, in the Sierra Nevada. Virginia City is the co. seat. Value of manufactures, $4,928,170.

***Superior,** p. v. in the above tn. and the co. seat, on Lake Superior, 7 mls. S. E. of Duluth, Minn. Has a good harbor and engaged in lake commerce. One newspaper.

Superior, Lake, the largest and most westerly of the chain of great lakes which are drained by the St. Lawrence R.; has an area of about 32,000 sq. mls., is 627 feet above the sea level or 49 feet above Lakes Huron and Michigan. Its greatest depth probably exceeds 1,000 feet. Its outlet into Lake Huron is called the St. Mary's R. The lake is bounded on the N. and E. by British America and on the W. and S. by Minn., Wis. and Mich. The northern shore is rocky and presents a succession of bluffs of from 300 to 1,500 feet. The southern shore is mostly low and sandy, though interrupted at various places by bold, rocky bluffs. The largest islands are Isle Royale, near the north-western shore, and the Apostle Islands, belonging to Wis. The largest affluent of the lake is the St. Louis R., of Minn., which may be considered as the true source-stream of the St. Lawrence.

***Susquehanna Depot,** p. borough in Susquehanna co., Pa., on the Erie R. R., at N. terminus of Jefferson Branch of same, 8 mls. E. of Great Bend; a manufacturing and shipping place, and location of railroad repair shops. Pop., 2,729. One newspaper.

Susquehanna River. (See Pennsylvania, page 699.)

Sussex, co. in Del., S. part. Area about 975 sq. mls. Pop., 31,696; in 1860, 29,615. It is bounded on the W. and S. by Maryland, and on the E. by Delaware B. and the Atlantic Ocean. The surface is level, and gently rises from E. to W.; the soil is good and well cultivated. The principal streams draining the co. are the Nanticoke R., Pocomoke R., Indian R., Cedar Cr., Depp Cr. and Mispillion Cr. Agricultural and lumbering are the chief occupations. Georgetown is the co. seat. Agr. productions in 1870: Wheat, 69,239 bush.; rye, 2,742 bush.; Indian-corn, 1,122,693 bush.; oats, 55,779 bush.; Irish pot's, 87,300 bush.; sweet pot's, 53,390 bush.; butter, 185,005 lbs.; hay, 3,161 tons. Cash value of farms, $8,972,031. Total, estimated, value of all farm productions, including additions to stock, etc., $1,844,752. Value of manufactures, $529,119.

Sussex, co. in N. J., forming the northern extremity of the state. Area, 500 sq. mls. Pop., 23,168; in 1860, 23,846. It borders in the W. on the Delaware R., and in the N. on N. Y., and is drained by Paulinskill, Pequest and Flatkill Rs., tributaries of the Delaware, and by the branches of the Wallkill R., a tributary of the Hudson. The Blue Mts. intersect the co. along the valley of the Delaware, and the Hamburg Mts. and other ranges of hills pass through the south-eastern part. Hopatcong Lake, at the south-eastern boundary, supplies the Morris Canal. The soil of the valleys is very productive. Newton is the co. seat. Agr. productions in 1870: Wheat, 64,532 bush.; rye, 105,306 bush.; Indian-corn, 432,776 bush.; oats, 268,477 bush.; Irish pot's, 81,006 bush.; butter, 1,455,788 lbs.; hay, 40,335 tons. Cash value of farms, $13,264,703. Total, estimated, value of all farm productions, including additions to stock, etc., $2,526,710. Value of manufactures, $1,455,104.

Sussex, co. in Va., S. S. E. part. Area about 385 sq. mls. Pop., 7,885; in 1860, 10,175. The Blackwater R. forms the north-eastern boundary; the Nottoway R. part of the western. The latter stream also intersects the co., and drains it with numerous small affluents. The surface is slightly rolling and the soil moderately productive. The Petersburgh & Weldon R. R. passes through the co. Sussex Court House is the co. seat. Agr. productions in 1870: Wheat, 3,113 bush.; rye, 66 bush.; Indian-corn, 118,305 bush.; oats, 21,357 bush.; Irish pot's, 7,223 bush.; sweet pot's, 9,818 bush.; tobacco, 16,100 lbs.; butter, 21,528 lbs.; hay, 486 tons. Cash value of farms, $772,499. Total, estimated, value of all farm productions, including additions to stock, etc., $300,131. Value of manufactures, $124,250.

Sutter, co. in Cal., central part. Pop., 5,030; in 1860, 3,309. This co. is named in honor of General John A. Sutter, one of the earliest American settlers in Cal. It is bounded on the W. by the Sacramento R., and on the E. partly by the Feather R. The surface is level, as it is formed chiefly by the rich alluvial bottom-lands of the two streams named. The only elevations of any magnitude are the Sutter Buttes, which rise near the shore of the Sacramento R., an isolated group of peaks near N. W. part of the co. They form a conspicuous object in the landscape. There is but little timber, except the narrow strips of cottonwood and sycamore along the water-

courses; but the land is very rich, and excellent crops are produced. Yuba City is the co. seat. Agr. productions in 1870: Wheat, 673,749 bush.; rye, 850 bush.; Indian-corn, 26,513 bush.; oats, 4,150 bush.; Irish pot's, 1,612 bush.; sweet pot's, 9,480 bush.; wool, 126,657 lbs.; butter, 117,875 lbs.; hay, 14,100 tons. Cash value of farms, $2,072,288. Total, estimated, value of all farm productions, including additions to stock, etc., $918,417.

Suwanee, p. o. in Gwinnett co., Ga.

Suwanee, co. in Fla., N. part. Area, 420 sq. mls. Pop., 3,556; in 1860, 2,303. The surface is undulating; the soil tolerably fertile. The Suwannee R. forms the entire boundary on the N. W. and S. W. The Santa Fe R., an affluent of the same, bounds the co. in the S. The Jackson, Pensacola & Mobile R. R. intersects the N. part from E. to W. Live Oak is the co. seat. Agr. productions in 1870: Rye, 163 bush.; oats, 19,404 bush.; Indian-corn, 50,934 bush.; Irish pot's, 873 bush.; sweet pot's, 17,670 bush.; cotton, 454 bales; rice, 1,905 lbs.; butter, 10,662 lbs. Cash value of farms, $134,955. Total, estimated, value of all farm productions, including additions to stock, etc., $161,318. Value of manufactures, $19,000.

Suwannee, p. o. in the above co.

Suwannee River issues from the Okefinokee Swamp, Charlton co., Ga.; flows S. into Fla., forming the E. and the S. boundary of Hamilton co., and then turning S. separates Madison and La Fayette cos. on the W. from Suwanee, Allachua and Levy cos. on the E. Its mouth is about 10 mls. N. of Cedar Keys. The Allapaha and Withlacoochee Rs. are its principal tributaries.

***Syracuse,** city, and co. seat of Onondaga co., N. Y., at the S. end of Onondaga Lake and on a creek of the same name, 74 mls. E. of Rochester and 148 mls. W. by N. of Albany. The site of the city is nearly level; its streets are wide, straight, and cross each other at right angles. The buildings, private and public, are substantially constructed of brick or stone, and several of the churches are noted for architectural beauty. The most notable industrial feature of the city is the production of salt from the saline springs and wells in the vicinity, whose annual yield approximates $1,000,000. The other manufacturing interests of the city are large and varied, embracing machinery, farming implements, hardware, woollen goods, paper, leather, flour, etc. Syracuse is admirably situated for inland commerce, having water communcation E., W. and N. by means of the Erie and Oswego canals, and being located on the New York Central & Hudson River R. R., at E. terminus of the Auburn Division of the same, at S. terminus of Oswego & Syracuse R. R., N. terminus of Syracuse, Binghamton & New York R. R. and W. terminus of Syracuse & Chenango Valley R. R., through which lines it is brought into intimate commercial connection with all parts of the state. Prior to 1820 Syracuse was known as Cossits Corners and Corinth, respectively. In 1825 it was incorporated as a village, with a population of 400. In 1840 its population was 6,500. In 1848 it was incorporated as a city. Pop. in 1850, 22,271; in 1860, 28,119; in 1870, 43,051, of whom 29,061 were natives of the United States, and 13,990 foreign born. Sixteen newspapers are published here, of which the "Courier," "Journal," and "Standard" are dailies and weeklies.

W., and is drained by the Great Ohoopee R. and numerous small creeks. The surface is low and level; the soil sandy. Reidsville is the co. seat. Agr. productions in 1870: Indian-corn, 74,684 bush.; oats, 28,117 bush.; Irish pot's, 325 bush.; sweet

pot's, 25,386 bush.; cotton, 314 bales; rice, 120,012 lbs.; butter, 13,978 lbs. Cash value of farms, $207,661. Total, estimated, value of all farm productions, including additions to stock, etc., $218,707.

***Taunton,** city and semi co. seat of Bristol co., Mass., on the Taunton R. at head of navigation, at intersection of Old Colony R. R. with New Bedford & Taunton R. R., the E. terminus of Attleborough Branch of same, and W. terminus of Middleborough & Taunton R. R.; a busy and beautiful city, in whose center is a handsome park. The private residences are noted for their elegance, and there are many tasteful public structures. The State Lunatic Asylum is a magnificent three-domed building. The City Hall and Public Library are fine structures. Here are 19 churches, the most conspicuous of which are the First Unitarian, on Church Green; the St. Thomas (Episcopal) and St. Mary's (Catholic). The manufactures of Taunton are extensive and varied. The tack companies make over 700 varieties of nails and tacks. The works of the copper company cover 15 acres and consume from 3,000,000 to 4,000,000 lbs. of copper annually. The locomotive works cover 10 acres of ground and employ 800 hands. Beside these, there are manufactories of cars, cotton and woollen goods, britannia ware, zinc, rakes, hoes, shovels, paper, etc. In receipt and shipment of the cereals, Taunton ranks as the third New England city. The city was founded by Elizabeth Pool, of Taunton, England, in 1639. In 1810 it had but 50 houses. Pop. in 1840, 7,645; in 1850, 10,441; in 1860, 15,376; in 1870, 18,629. Three newspapers are published here, of which the "Gazette" is daily.

Taunton River rises in Plymouth co., Mass., flows through Bristol co., and empties into Mount Hope B., in Providence co., R. I. The stream is navigable to Taunton, and having a rapid fall affords immense water-power.

Tavern, tn. in Pulaski co., Mo. Pop., 796.

Taycheedah, p. o. in the above tn., on the southern shore of Lake Winnebago and the Sheboygan & Fond du Lac R. R., 4 mls. N. E. of Fond du Lac.

Taylor, tn. in Columbia co., Ark. Pop., 830.

Taylor, co. in Fla., N. part. Area, 500 sq. mls. Pop., 1,453; in 1860, 1,384. The surface is level, partially covered with forests; the soil is fertile. Ocilla R. bounds it on the W. and flows into the Gulf of Mexico, which forms the S. W. and S. boundary. Rose Head is the co. seat. Agr. productions in 1870: Indian-corn, 20,625 bush.; oats, 290 bush.; sweet pot's, 9,535 bush.; cotton, 217 bales; butter, 437 lbs. Cash value of farms, $44,050. Total, estimated, value of all farm productions, including additions to stock, etc., $60,827. Value of manufactures, $14,400.

Taylor, co. in Ga., W. part. Area, 420 sq. mls. Pop., 7,143; in 1860, 5,998. It extends from the Flint R. in the N. E. to Cedar Cr. in the S., and is drained by Patsitiga and White Water Crs. The surface is generally level. Extensive tracts are covered with sandy pine barrens. The Muscogee R. R. passes through the co. Butler is the co. seat. Agr. productions in 1870: Wheat, 5,962 bush.; rye, 263 bush.; Indian-corn, 119,269 bush.; oats, 6,491 bush.; Irish pot's, 766 bush.; sweet pot's, 16,344 bush.; cotton, 3,559 bales; butter, 19,096 lbs. Cash value of farms, $618,965. Total, estimated, value of all farm productions, including additions to stock, etc., $815,703. Value of manufactures, $532,585.

Tehama, co. in Cal., N. part. Pop., 3,587; in 1860, 4,044. The eastern part of the co. includes a section of the Sierra Nevada, the western part a section of the Coast Ranges and the central belongs to the plain of the Sacramento R. The spurs of the Sierra are covered with spruce and pine forests, which yield excellent timber, while the Coast Ranges produce only an inferior species of oak. The low plain is devoid of woods, but consists of valuable farm lands. Tehama is almost exclusively an agricultural co. The cultivation of the grape-vine is extensively carried on. The Sacramento R., which flows through the center of the co. from N. to S., receives numerous tributaries, the water of which is in many localities utilized for irrigating gardens and fields. Red Bluff is the co.seat. Agr. productions in 1870: Wheat, 404,722 bush.; Indian-corn, 625 bush.; oats, 3,801 bush.; Irish pot's, 260 bush.; sweet pot's, 350 bush.; wool, 445,455 lbs.; butter, 68,105 lbs.; hay, 6,549 tons. Cash value of farms, $1,353,815. Total, estimated, value of all farm productions, including additions to stock, etc., $880,234. Value of manufactures, $817,004.

TENNESSEE, one of the central states of the Union; extends from one of the highest ranges of the Appalachian Mts. in the E. to the bank of the Mississippi in the W. It is bounded by Ky. and Va. on the N., by N. C. on the E., by Ga., Ala. and Miss. on the S., and by Ark. and Mo. on the W. It lies between 35° and 36° 41′ N. lat., and 81° 45′ and 90° 14′ W. long., and has an average length of 385 mls. and an average width of but little over 109 mls. The area is 45,600 sq. mls., or 29,184,000 acres.

Surface.—Tenn. has a general inclination from the E. to the W., but is considerably diversified by mountain chains, table-lands, valleys and low plains. Seven well-defined natural divisions may be distinguished: 1. The broad belt of the Unaka Chain in the E. 2. The Valley of East Tennessee. 3. The Cumberland Plateau. 4. The Highland Rim; and 5. The Central Basin, both in the middle portion of the state. 6. The Plateau of West Tennessee, and 7. The Mississippi Bottoms.

The Unaka Chain, the summit crest of which divides Tenn. from N. C., forms a belt of parallel ridges, trending N. E. and S. W. Though continuous lengthwise, it is intersected by the deep and rocky cuts of the tributaries of the Holston and Tennessee Rs., which divide it into links abutting end to end. The links or ridges of the great chain are known by different local names. The highest range in the N. is called the Stone Mt., and two lower ridges W. of this are called respectively the Iron Mt. and Holston Mt. Stone Mt. terminates abruptly near the S. E. corner of Carter co., with the massive Roan Mt., 6,306 feet above the sea level. In Washington co. the Unaka Range consists of the Bald Mts., supporting peaks of 5,550 feet in height, Buffalo Mt. and Rich Mt.; in Green co., of the Big Butte Range and Paint Mt., both terminating on the French Broad R.; in Cocke co., of the Great Smoky Mt., one of the most imposing ranges in the state, and the Chilhowee Range. The entire section between the Little Tennessee and Hiawassee Rs. is locally known as the Unaka Chain proper. In Polk co., S. of the Ocoee R., the range is called Frog Mt., and the outlying ridge in McMinn and Polk cos., Starr Mt.

The Unaka Range occupies about one-half of the most eastern tier of cos. in the state. It is covered with forests except on the most exposed summits, from 4,000 to 6,000 feet above the sea, which are destitute of trees and commonly called "Balds" or "Bald Spots." In ascending a mountain with a "Bald," the tourist soon leaves the heavy forests on the slope below; the oaks, beeches and other trees begin to diminish in size until he finds himself passing through low groves of old-looking dwarfs, often but a few inches high. On reaching the "Bald," the groves disappear and the treeless summit is spread out as a great rolling meadow, alive with stock of all kinds, feeding and fattening on the rich herbage.

The Valley of East Tennessee extends from the base of the Unaka Range to the steep escarpment of the Cumberland Plateau and occupies the entire width of the state from the N. E. to the S. W., joining the great valley of Va. in the N. and of Ga. and Ala. in the S. It is but a portion of the long trough which extends from the Hudson R. in N. Y. to the Coosa and Black Warrior Rs. in Ala., and within Tenn. occupies an area of 9,200 sq. mls. This valley is closely furrowed by parallel ridges and valleys trending from the N. E. to the S. W., as Powell's Mt. in Hancock and Claiborne cos., the Bays Mt. Group in Hawkins and Greene cos., the Clinch Mt. in Hawkins and Granger cos., etc. The valley gradually inclines to the S. W., as indicated by the course of the Tennessee, Holston and Clinch Rs. At Kingston on the Holston R. it is 1,218 feet, and at Calhoun on the Hiawassee R. 648 feet above tide-water.

The wide-spreading Cumberland Plateau extends across the state and borders the valley, just described, on the W. Its eastern border is a nearly direct line, while the western is irregularly scalloped and notched by deep coves, separated from each other by long spurs jutting to the W. The average width is about 70 mls. and its area 5,100 sq. mls. The top of this plateau, though comparatively flat, is diversified by low ridges and shallow valleys, while the margin consists everywhere of sandstone cliffs and precipices. The mean elevation above the sea is very nearly 2,000 feet, or about 900 feet above the East Tennessee Valley.

Middle Tenn., from the foot of the Cumberland Plateau in the E. to the Tennessee R. in the W., includes two natural divisions, the Highland Rim and the Basin. It may be compared to a shallow plate with a flat rim. The Basin, occupying the very center of the state, possesses in a high degree the elements of fertility and agricultural wealth. It has the form of an ellipse, and is on all sides surrounded by the Highland Rim, which attains an average elevation above the sea of more than 1,000 feet. Large portions of the rim consist of "barrens," with a thin soil, deficient in calcareous matter; while others are fertile, though not comparable to the rich alluvions of the Basin. A singular feature of the rim is the "sink-holes" with which the surface is indented. They are hopper-shaped cavities, from 10 to 100 yards in diameter. Their presence indicates underground streams and caverns.

Western Tenn., from the fertile valley of the lower course of the Tennessee R. to the bottom-lands of the Mississippi R., is a great table-land 8,850 sq. mls. large, and in the mean from 500 to 600 feet above the sea level. The western escarpment forms a line of "bluffs," which, at several points between Memphis and Fulton, abut on the bank of the Mississippi R., but generally rise at the distance of several miles from it, leaving a belt of rich alluvial bottom-lands, which is lower than the river at high-water, and hence subject to inundation.

Thus it will be seen that the state presents every variety of surface structure and scenery —mountains of imposing grandeur in the E., broad low plains of the greatest fertility in the Valley of East Tennessee and the Central Basin, undulating plateaus of varying height and but moderate productiveness in various parts, and lastly inexhaustible bottom-lands along the great water-courses.

Rivers.—The rivers of Tenn. are, without exception, direct or indirect tributaries of the Mississippi R. The Obion, Forked Deer, Hatchie and Loosahatchee Rs. drain the western table-land and join the part of the Mississippi R. which forms the boundary of the state. The Cumberland R. enters Jackson co. from Ky., flows through the Highland Rim and the Basin of Middle Tennessee, and leaves the state in Stewart co. Its largest branches are Caney Fork and Stone's R. The Tennessee R., which has given its name to the state, flows through the eastern part in a southerly direction, and after describing a great curve in Ala. traverses the western part from the S. to the N. It is formed by the confluence, near Kingston, of the Holston and the Clinch Rs. These large streams enter Tenn. from Va., like the Powells R., an affluent of the Clinch R. The Holston and the Tennessee Rs. receive a number of tributaries from the E., which rise in the Blue Ridge of N. C. and burst through deep cuts or gaps of the Unaka Range. They are the Watauga, the French Broad, with the Nollichucky, and Big Pigeon; the Little Tennessee and the Hiawassee, with the Ocoee. The Big Emery and Sequatchee Rs. enter the Tennessee R. from the Cumberland Plateau. The affluents of the lower course of the Tennessee R. are the Flint, Elk, Shoal and Duck Rs. The last named is the largest, has a westerly course and drains the Central Basin.

Climate.—Tenn. is not subject to great extremes of climate. The winter is usually so mild that herbage is green and cattle can graze with but little interruption from cold and snow during all the months. Many shrubs, which in the northern states lose their foliage, retain it here the year round. The mean annual temperature along the parallel passing through the

center of the state is not far from 57° in the Valley of East Tennessee, 58° in Middle and 59° 5′ or 60° in West Tennessee. This difference of temperature is partly due to the difference in elevation. The mean temperature of summer is in Knoxville, 73° 6′; in Lebanon, 75° 9′; in Nashville, 77° 3′, and in Memphis, 78° 1′. The temperature during winter rarely falls below zero. The lowest degree reported is 13° 8′ below zero in Lebanon, observed in January, 1852. The annual rain-fall in inches is at Knoxville, 44¼; at Lebanon, 43½; at Nashville, 55, and at Glenwood 44. This is less than the states farther south receive, but in general, the supply of moisture is amply sufficient for the purposes of farming. Temporary droughts are not infrequent during the summer season.

Population.—The earliest settlements within the limits of the state were made in 1768 by emigrants from N. C. In 1790 the population was 35,691; in 1800, 105,602; in 1810, 261,727; in 1820, 422,771; in 1830, 681,904; in 1840, 829,210; in 1850, 1,002,717; in 1860, 1,109,801, and in 1870, 1,258,520. This last number includes 936,119 whites, 322,331 colored persons, and 70 Indians.

According to nativity the population was distributed as follows: Born in the United States were 1,239,204, including 1,027,627 natives of the state; 43,397 of Va. and W. Va., 13,854 of S. C., 4,074 of Pa., 4,420 of Ohio, 42,110 of N. C., 3,002 of N. Y., 3,262 of Mo., 15,451 of Miss., 19,867 of Ky., 1,835 of Ind., 2,451 of Ill., 18,021 of Ga., 2,977 of Ark. and 20,217 of Ala. In foreign countries were born 19,316 persons, viz.: in British America, 587; in Germany, 4,539; in England, 2,085 and in Ireland, 8,048.

In all classes of occupations there were engaged 367,987 persons (out of 890,872 persons over 10 years of age) viz.: in agriculture, 267,020; in professional and personal services, 54,396; in trade and transportation, 17,510, and in manufactures and mechanical and mining industries, 29,061.

Mining and Minerals.—The most valuable mineral treasures of the state are coal and iron. The coal measures form the top of the Cumberland Plateau and are co-extensive with it in area. In fact, the two go together, and the plateau owes its existence and preservation to the hard, weather-resisting rocks of the coal measures. Almost everywhere seams of coal may be seen cropping out near the top of the escarpment of the plateau. The hard rocks of the coal-formation, when elevated and approximately horizontal, are plateau making. Had they been otherwise than hard, or had they been common limestones or shales, rocks that air, water and frost can with comparative ease disintegrate and dissolve, the table-land region would have been reduced long since to the general level of the valleys and plains around it. The coal of Tenn. is bituminous and varies considerably in quality and value; but the quantity is such that it may be said to be inexhaustible. The variety and the amount of iron ore in Tenn., its excellent quality, its favorable conditions for the economical manufacture of iron, make the state one of the best iron-producing regions in the country. Limonite, hematite and magnetite iron ores are found along the western ridges of the Unaka Mts.; while beds of dyestone ores skirt the eastern base of the Cumberland Plateau. The western iron region occupies a belt of the highlands along the lower Tennessee and a part of its valley. To this region belong the Cumberland Iron Works, in Stewart co., which embrace over 111 sq. mls. of territory, with numerous exposures of excellent ore, chiefly peroxyd. Copper is found only in the Ducktown District, forming the S. E. corner of the state. Ores of lead and zinc occur at numerous points in East and Middle Tenn., but most frequently in unimportant quantities. Small amounts of gold have been found in S. E. Tenn. The varieties of marble which are quarried in various parts of the state are famous for their beauty. Black and dark blue marble, sometimes having white reticulating veins, occurs in the extreme eastern cos.; reddish variegated marble in Henry co., and white fossiliferous marble near Knoxville. Other mineral productions are salt, nitre, barytes, mill stones and hydraulic limestones.

Mineral springs are very numerous. Sulphur springs abound in all parts of the state, for example near Nashville. The summer retreats of the Cumberland Plateau, like Beersheba and Bon Air, supply chalybeate waters. The Montvale Springs, in Blount co., contain epsom salts.

Agriculture.—The most productive portions of Tenn. are the basin, in the middle part of the state, the valleys of the eastern part and the bottom-lands along the Mississippi and other streams. Indian-corn, tobacco and cotton are the staple productions. According to the census report, there were, in 1870, 118,141 farms, of which 42,862 were from 20 to 50 acres, 27,778 from 50 to 100 acres, 19,987 from 10 to 20 acres, 18,806 from 100 to 500 acres, etc. The improved land amounted to 6,843,278 acres (or 23.45 per cent. of the area of the state), the woodland to 10,771,396 acres, and the other unimproved land in farms to 1,966,540. The cash value of farms was $218,743,747, and of farming implements, $8,199,487. The estimated value of all farm productions, including additions to stock and improvements, was $86,472,847. They comprised 374,400 bush. of spring wheat, 5,813,516 bush. winter wheat, 41,343,614 bush. Indian-corn, 4,513,315 bush. oats, 1,124,337 bush. Irish pot's, 1,205,683 bush. sweet pot's, 75,068 bush. barley, 181,842 bales cotton, 3,399 lbs. rice, 21,465,452 lbs. tobacco, 1,389,762 lbs. wool, 80,930 lbs. flax, 134,968 lbs. maple sugar, 9,571,069 lbs. butter, 3,629 gals. cane molasses, 1,254,701 gals. sorghum molasses and 116,582 tons of hay.

The live stock had a value of $55,084,075, and comprised 247,254 horses, 102,983 mules and asses, 243,197 milch cows, 63,970 working oxen, 336,529 other cattle, 826,783 sheep and 1,828,690 swine.

Manufactures.—Tenn. possesses all the advantages to make it a busy manufacturing state, such as abundant and cheap coal, immense water-power, especially in the eastern valleys, and the most varied natural resources. In 1870 it had 5,317 manufacturing establishments, (against 2,572 in 1860), using 732 steam-engines of 18,467 porse-power, and 1,340 water-wheels of 19,514 horse-power. There were employed 19,412 hands, who received wages to the amount of $5,390,630. The capital invested was $15,595,295, and the materials used had a value of $19,657,027, and the products turned out goods, of $34,362,636 in value, a sum which is exceeded by that of 19 other states. The principal products of industry, with their values, were as follows: boots and shoes, $665,522; carriages and wagons, $938,647; cotton goods, $906,570; flour and meal, $10,767,388; iron and iron manufactures, $2,089,932; tanned leather, $921,497; curried leather, $922,641; sawed lumber, $3,390,687; saddlery and harness, $650,071, etc.

Commerce and Railroads.—Tenn. has no sea coast, and hence its direct foreign commerce is inconsiderable. Memphis and Nashville, on the Mississippi R., are the only customs districts, and had, in the fiscal year ended June 30, 1872, 62 steam vessels of 12,700 tons burden. The railroads of the state had a length of 112 mls. in 1851, of 1,253 mls. in 1861 and of 1,520 mls. in 1871. The principal lines are the East Tennessee, Virginia & Georgia R. R., which intersects the valley of E. Tenn from N. E. to S. W., and is 200 mls. long; the Nashville & Chattanooga R. R. (173 mls.); the Nashville, Memphis & St. Louis R. R., from Nashville to Hickman, Ky. (172½ mls.); the Tennessee & Pacific R. R., from Nashville to Knoxville (180 mls., of which 31 mls. are in operation); the Winchester & Alabama R. R., from Decherd to Fayetteville (39 mls.); the McMinnville & Manchester R. R.,

from Tullahoma to McMinnville (34 mls.), and the Louisville & Nashville R. R., with branches (605 mls.).

Wealth, Taxation and Debt.—The assessed value of real estate was, in 1879, $223,055,375, of personal property; $30,746,786, or of both together, $253,782,161, against $382,495,200 in 1860. The estimated or true value of real and personal estate in 1870 was $498,237,724, against $493,903,892 in 1860 and $201,246,686 in 1850.

The taxation, not national, was $3,381,579, of which $1,056,261 was for state taxes, $1,302,836 for county taxes. During the fiscal year of 1872 the total receipts of the treasury had been $2,420,091 and the total disbursements, $2,432,858, exhibiting an excess of disbursements of $12,767.

The state debt in 1870 amounted to $38,539,802, for $31,892,144 of which bonds had been issued; the county debts amounted to $2,729,659 and the town, city, etc., debts to $7,357,730. The bonded debt of the state, with the unpaid coupons added, was, on Jan. 1, 1873, $30,632,201. This sum, however, was reduced to $21,362,654 by the state lien upon solvent roads and the proceeds of the sales of delinquent roads.

Education.—After the late war laws for the establishment and regulation of public schools were passed, and several times amended. Of the 94 cos. of the state but 23 had organized public schools, up to 1872, according to those laws; some of the others were moving in the right direction, but apathy prevailed in the majority of the cos. The census of 1870 reports 2,794 schools in the state, with 2,440 male teachers, 1,147 female teachers, 65,979 male pupils and 59,852 female pupils.

The principal higher institutions of education are the University of Nashville, organized in 1806 and having 270 students in 1871; the East Tennessee University, at Knoxville, organized in 1807; the Central Tennessee College, at Nashville, organized in 1866, and having, in 1871, 226 students; the Lookout Mountain Institution, organized in 1866; the Fisk University, at Nashville, for colored students, organized in 1867, and the East Tennessee Wesleyan University, at Athens, organized in 1867.

The Press of Tenn. comprised, in 1870, 91 newspapers and periodicals, which had a circulation of 225,925. The number of dailies was 13, of weeklies 65 and of monthlies 8.

The Principal Charitable Institutions are the Institution for the Deaf and Dumb, at Knoxville, the Institution for the Blind and the Hospital for the Insane, at Nashville. The State Penitentiary, at Nashville, went into operation in 1831.

Government.—Tenn. originally formed part of N. C., but was ceded to the United States in 1784. A constitution was adopted in 1796, and in June the same year the state was admitted into the Union. By an act passed Nov. 15, 1869, a convention was directed to be called for revising the constitution. It was duly elected, met at Nashville in January, 1870, and completed its labors in February. The new constitution then framed was ratified by a popular vote in March, 1870, and is now in force.

Every male person of the age of 21 years, being a citizen of the United States and a resident of the state for twelve months, and in the county wherein he may offer his vote for six months next preceding an election, shall be entitled to vote for members of the General Assembly and other civil officers for the co. or district in which he resides.

The supreme executive power is vested in a Governor, who is chosen by the electors of the members of the General Assembly for a term of two years. He must be at least 30 years of age, and must have been a citizen of the state for 7 years next before his election. A Secretary of State is appointed by joint vote of the General Assembly for four years; a Treasurer and a Comptroller of the Treasury are appointed in the same manner for a term of two years. The Governor appoints the Adjutant-General and his other staff officers.

The legislative authority is vested in a General Assembly, which consists of a Senate and House of Representatives, who hold their offices for two years from the day of the general election. No person shall be a representative unless he shall be a citizen of the United States, of the age of 21 years, and shall have been a citizen of the state for three years and a resident of the county he represents one year immediately preceding the election; and no person shall be a senator unless he shall be a citizen of the United States, of the age of 30 years, and shall have resided 3 years in the state and one year in the county or district immediately preceding the election.

The judical power is vested in one Supreme Court, Circuit Courts, Chancery Courts and Justices of the Peace. The Supreme Court consists of five judges, who designate one of their own number to preside as chief justice. The concurrence of three judges is necessary to a decision. The jurisdiction of the court is appellate only. Its sessions are held at Knoxville, Nashville and Jackson. The judges are elected by the legal voters for terms of 8 years.

The judges of the Circuit and Chancery courts are also elected for 8 years. The Attorney General and Reporter for the State are appointed by the judges of the Supreme Court for 8 years.

The judges, or justices of inferior courts of law and equity have power in civil cases to issue writs of certiorari to remove any cause, or the transcript of the record thereof, from any inferior jurisdiction into such court of law, on sufficient cause, supported by oath or affirmation.

Tenn. is divided into the following 94 counties: Anderson, Bedford, Bell, Benton, Bledsoe, Blount, Bradley, Campbell, Cannon, Carroll, Carter, Cheatham, Claiborne, Clay, Cocke, Coffee, Crockett, Cumberland, Davidson, Decatur, DeKalb, Dickson, Dyer, Fayette, Fentress, Franklin, Gibson, Giles, Granger, Greene, Grundy, Hamblen, Hamilton, Hancock, Hardeman, Hardin, Hawkins, Haywood, Henderson, Henry, Hickman, Houston, Humphreys, Jackson, James, Jefferson, Johnson, Knox, Lake, Lauderdale, Lawrence, Lewis, Lincoln, Loudon, McMinn, McNairy, Macon, Madison, Marion, Marshall, Maury, Meigs, Monroe, Montgomery, Moore, Morgan, Obion, Overton, Perry, Polk, Putnam, Rhea, Roane, Robertson, Rutherford, Scott, Sequatchie, Sevier, Shelby, Smith, Stewart, Sullivan, Sumner, Tipton, Trousdale, Union, Van Buren, Warren, Washington, Wayne, Weakley, White, Williamson and Wilson.

The state capital is Nashville, 25,865 inhabitants. The other cities, with their populations, are Chattanooga, 6,093; Knoxville, 8,682; and Memphis, 40,226.

Tennessee Ridge, p. o. in Houston co., Tenn.

Tennessee River, the largest tributary of the Ohio; is formed by the junction of the Holsten and Clinch Rs. at Kingston, Roane co., Tenn. These streams rise in S. W. Va., and flow in a S. W. direction between high chains of the Appalachian Mts. The Holston R. is formed by the junction of the North and South Branches, which unite near Kingsport, Tenn., and receives the Watauga R., French Broad R. and Little Tennessee R. From Kingston the Tennessee pursues a S. W. course to Chattanooga, where it changes its direction to the W., flowing transversely

through a picturesque valley of the Cumberland Plateau to the mouth of Sequatchie R. Here it resumes a S. W. course into Ala., traversing a valley between the Cumberland and Raccoon Mts. It then intersects Northern Ala., touches the N. E. corner of Miss., and flowing N. through Western Tenn. and Ky. empties above Paducah. The only serious obstruction to the passage of boats is formed by the Muscle Shoals in Ala., where the stream flows for 20 mls. over a ledge of flint and limestone rocks. Steamboats ascend the Tennessee up to Florence, at foot of the Muscle Shoals, and above the latter to Knoxville, on the Holston. The principal tributaries are the Hiawassee R., Flint R., Elk R., Big Bear Cr. and Duck R. The area drained by the Tennessee is estimated at 41,000 sq. mls.; the length from the mouth to the source of the Holston R. at 1,100 mls., and the length of the Tennessee proper at about 800 mls.

Tennessee River Station, v. in Houston co., Tenn., on the Louisville & Nashville R. R., 26 mls. N. E. of Paris. Pop. about 200.

Tennille, p. v. in Washington co., Ga., on the Central R. R. of Georgia, 134 mls. from Savannah. Pop. about 100.

Tensas, parish in La., N. E. part. Pop., 12,419; in 1860, 16,078. It is bounded on the E. by the Mississippi R. and on the W. by the Tensas R., which, together with Macon Bayou, drains the parish. The surface is level and the soil fertile. This parish is distinguished for its great production of cotton. The Tensas R. is navigable by steamboats throughout the parish. St. Joseph's is the co. seat. Agr. productions in 1870: Indian-corn, 94,500 bush.; Irish pot's, 1,834 bush; sweet pot's, 13,050 bush.; cotton, 25,371 bales; butter, 170 lbs. Cash value of farms, $3,223,840. Total, estimated, value of all farm productions, including additions to stock, etc., $2,493,250. Value of manufactures, $4,400.

Tensas, or **Tensaw, River,** a tributary of the Washita R. in La.; rises in Carroll parish, near the Mississippi R., flows parallel with this stream and empties near Trinity. It is about 250 mls. long and navigable for 150 mls.

Tensaw, p. v. in Baldwin co., Ala., on the E. bank of Alabama R. and on Mobile & Montgomery R. R., 22 mls. N. of Mobile.

Tenth Legion, p. o. in Rockingham co., Va.

Tentopolis, tn. in Effingham co., Ill. Pop., 1,033.

Tequamenon, or **Tequamenah, River,** in Chippewa co., Mich.; has an easterly course and empties into Tequamenon B. of Lake Superior.

Terrace, p. o. in Box Elder co., Utah Ter.

Terre Bonne, parish in La., S. E. part. Pop., 12,451; in 1860, 12,091. It is bounded on the S. by the Gulf of Mexico and is intersected and drained by the navigable Bayous Terre Bonne, Black and Caillou. The surface is low and liable to inundation, and consists in great part of marshy ground. The parish has many rich sugar-cane plantations, and contains tracts of valuable timber. The New Orleans & Opelousas R. R. passes through the N. portion of the parish. Houma is the co. seat. Agr. productions in 1870: Indian-corn, 209,050 bush.; Irish pot's, 246 bush.; sweet pot's, 9,947 bush.; cotton, 130 bales; sugar, 6,537 hhds.; rice, 233,000 lbs.; butter, 1,120 lbs. Cash value of farms, $2,742,325. Total, estimated, value of all farm productions, including additions to stock, etc., $1,317,410. Value of manufactures, $1,069,639.

Terre Bonne, p. v. in the above parish, on Morgan's Louisiana & Texas R. R., 56 mls. W. of New Orleans. Pop. about 100.

Terre Haute, tn. in Henderson co., Ill. Pop., 1,132.

Terre Haute, p. v. in the above tn., 6 mls. from La Harpe. Pop., 139.

***Terre Haute,** city, and the co. seat of Vigo co., Ind., on the E. bank of the Wabash R. and on the Wabash & Erie Canal, 73 mls. W. S. W. of Indianapolis and 102 mls. N. of Evansville. The site of the city is an elevation some 60 feet above the river. It is regularly laid out and finely built. An important shipping point by canal and railroad, being located at the S. terminus of Evansville, Terre Haute & Chicago R. R., at N. terminus of Evansville & Crawfordsville R. R., and on the Indianapolis & St. Louis R. R. and St. Louis, Vandalia, Terre Haute and Indianapolis R. R. Its manufacturing interests are large and rapidly growing. Immense quantities of coal are mined in the vicinity. Its surroundings are mainly agricultural. Pop. in 1850, 4,051; in 1860, 8,594; in 1870, 16,103, of whom 13,002 were natives of the United States and 3,101 foreign born. It has 9 newspapers, of which the "Express," "Gazette" and "Journal" are dailies and weeklies.

proposed International & Great Northern R. R., 142 mls. S. W. of Little Rock.

TEXAS, the largest state of the Union and one of the southern states; is bounded on the S. W. by Mexico, on the S. E. by the Gulf of Mexico, on the E. by Ark. and La., on the N. by Ind. Ter. and on the W. by New Mex. Ter. The Rio Grande separates it from Mexico, the Red River from Ind. Ter. and Ark., and the Sabine R. partly from La. It extends from 25° 51′ to 36° 30′ N. lat., and from 93° 31′ to 106° 43′ W. long., and has an area of 274,356 sq. mls. or 175,587,840 acres.

Surface.—Tex. includes every variety of surface: low plains, rolling prairies, fertile and picturesque valleys, arid table-lands and lofty mountain ranges. The surface gently rises from the low gulf coast toward the W., until it culminates in the mountains between the Rio Grande and Pecos Rs. The coast is everywhere low and sandy. It resembles that of the other southern states in being indented by numerous lagoon bays, which are cut off from the sea by elongated and narrow peninsulas and islands. Such are Galveston B., with Bolivar Peninsula and Galveston Island; Matagorda B., with the peninsula of the same name; Espiritu Santo B., with Matagorda Island; Aransas B., with its extension, Copano B. and St. Joseph Island; Corpus Christi B., with Mustang Island, and lastly the long Laguna de la Madre with Padre Island.

The low coast belt extends inland from 40 to 60 mls., and is but scantily covered with vegetation, which almost exclusively consists of impenetrable thickets, commonly called "chapparals," of opuntia cactuses and various thorny shrubs. For a 150 mls. farther inland there follows the prairie belt, which has a rolling surface, a highly productive soil, and is diversified by groves of live oak and deciduous trees, while the streams which traverse it are lined with well-timbered bottoms. Beyond the prairies the surface rises to a height of nearly 1,000 feet, generally with abrupt slopes and bluffs; and thence westward continues to ascend to the arid and treeless plateaus, which attain their greatest elevation in the Llano Estacado, or Staked Plain.

The region between the Rio Grande and the Pecos R. is occupied by the most southerly chains of the Rocky Mts. and the intervening desert valleys. Here are the Guadalupe Mts., which enter Tex. from N. Mex. Ter.; the broad range of the Apache Mts., itself consisting of several parallel chains and crests; the Hueco Mts., Eagle Mts., Sierra Blanca and others as yet but imperfectly explored. The elevation of the following places indicates the general slope of the country: Goliad, 50 feet; Gonzales, 150 feet; Bonham, 435 feet; Webberville, 394 feet; Austin, 650 feet; San Antonio, 600 feet; Sisterdale, 1,000 feet; Fort Inge, in Uvalde co., 845 feet; Fort Clark, in Kinney co., 1,000 feet; Fort Davis, in Presidio co., 4,700 feet, and Fort Bliss, on the Rio Grande in El Paso co., 3,830 feet.

Rivers.—Tex. is well watered by several large streams, which rise on or near the western table-lands and intersect the state in a general N. W. and S. E. direction. The Red R., which forms part of the northern boundary, rises in the Llano Estacado and receives in Tex. only small tributaries. The Sabine R. with its affluent, the Neches, drains the N. E. part of the state. Trinity R. rises in the N. part and empties into Galveston B. The Brazos rises with several forks on the Llano Estacado and empties into the Gulf of Mexico near the S. W. end of Galveston B. The Colorado R. intersects the center of the state and empties into Matagorda B. The Guadalupe and San Antonio Rs. drain a beautiful section of Southern Tex. and unite a short distance from San Antonio B. The Nueces R. rises in Bexar Territory and empties into Corpus Christi B. The Rio Grande flows along the south-western boundary and empties into the Gulf of Mexico S. of the Laguna de la Madre. It is a turbid stream and receives but few tributaries in Tex., of which the Pecos and the San Pedro or Devil's R. are the most important. None of the Texan rivers are navigable except during high water and then only for comparatively short distances.

Climate and Vegetation.—The climate, though warm, is free from extremes, being tempered in the eastern portions of the state by the vicinity of the ocean, and in the western by the elevation above the sea of the surface. The isothermal curve of 68° passes through the state from the mouth of the Sabine R. to that of the Pecos R. The mean annual temperature increases thence toward the S., reaching 75° near Brownsville; and decreases toward the N. until it falls to less than 56° in the Llano Estacado. During the summer season the prevailing winds blow from the Gulf of Mexico; but from November to February northerly winds are more frequent than all others, and occasionally culminate in the much-dreaded "Northers," which generally blow for three days with great force and searching keenness.

The amount of precipitation (rain and snow) is on the whole not abundant. Rarely does it exceed 40 inches per annum in the eastern part of the state, and decreases in a north-westerly direction to 20 inches in the Pecos Valley, and even to 12 inches and less in the upper valley of the Rio Grande and on the Llano Estacado. Summer droughts are of frequent occurrence, and in the interior often affect the crops unfavorably. But as streams of all sizes are abundant, it would be comparatively easy to supply the needed moisture by a judicious system of irrigation.

The vegetation of a region so vast in extent as Tex., and embracing so many widely different physical sections, necessarily presents great variety. The lower parts of the state consist of prairies, which during the summer droughts are scorched and repulsive, but during the spring covered with luxuriant grasses and brilliantly flowering herbs. Along the sea-coast belt they are interspersed with "chapparals," and further inland with coppices and groves of wood, so as to resemble vast natural parks with plantations of trees. The bottom-lands along the streams are generally well timbered with deciduous trees and evergreens, such as the live-oak, magnolia, palmetto and others. The northern part of the state is intersected by two belts of woodland, called the Cross Timbers, which are composed of post oak and black jack, standing so wide apart that wagons can pass between them in any direction. The Lower Cross Timbers extend from the Red R., in Grayson and Cooke cos., in a southerly direction to beyond the Brazos R. in McLennan co., while the Upper Cross Timbers, further W., occupy parts of Wise, Jack, Palo Pinto, Hood and Erath cos.

The arid table-lands and mountains of the western part of the state are covered with a scanty vegetation, which mostly consists of forms resembling those of northern Mexico, such as yuccas, mesquit shrubs and several species of cactus (the opuntia, the weird-looking cereus, the melocactus, the mammilaria, etc.). Texas abounds in wild animals. Buffalo herds roam in the N. W. parts of the state; wild horses, or mustangs, feed on the prairies; deer, wolves, black bears, foxes, peccaries, raccoons, hares and opossums, are met with everywhere in the less densely inhabited districts, and the cat species is represented by the puma, the jaguar, the wild cat and the lynx. Of birds are found the wild turkey, pheasant, quail, snipe, different kinds of ducks and geese, the pelican, heron, king-fisher and others. The streams abound in fish, and their lower courses in alli-

gators, turtles, etc. Rattlesnakes, moccasins, and other poisonous and venomous snakes, are still frequent.

Population.—Tex. was settled at San Antonio (then called Bexar) in 1694 by Spaniards; formed a part of Mexico until 1836, when it issued a declaration of independence and formed a separate commonwealth. It was admitted into the Union in 1845. In 1850 it had a population of 212,592; in 1860, of 604,215, and in 1870, of 818,579. This number includes 564,700 whites, 253,475 colored persons, 25 Chinese, and 379 Indians. There were beside 320 nomadic Indians in the state.

According to nativity the population was distributed as follows: Natives of the United States, 756,168, including 134,419 natives of Tex., 51,435 of Tenn., 22,165 of Va. and W. Va., 17,717 of S. C., 1,877 of Pa., 2,052 of Ohio, 18,655 of N. C., 2,873 of N. Y., 18,419 of Mo., 42,537 of Miss., 27,280 of La., 17,813 of Ky., 2,783 of Ind., 5,854 of Ill., 41,206 of Ga., 1,934 of Fla., 23,357 of Ark., and 62,224 of Ala.; natives of foreign countries, 62,411, including 597 natives of British America, 2,232 of France, 23,985 of Germany, 2,037 of England, 4,031 of Ireland, and 621 of Scotland.

The population of 10 years of age and over numbered 571,075, of whom 237,126 were engaged in all classes of occupations, viz.: 166,753 in agriculture, 40,882 in professional and personal services, 13,612 in trade and transportation, and 15,879 in manufactures and mechanical and mining industries.

Mining and Minerals.—Tex. is rich in mineral resources, which as yet, however, await development. The mountain chains in the western part of the state include rich veins of the precious metals. Coal exists on the Trinity R., 200 mls. above Galveston, near Nacogdoches on the Brazos R. and near Austin. Iron, salt, chalcedony, jasper and excellent building materials (sandstones and limestones) are found in various parts of the state, which also contain numerous mineral springs.

Agriculture—The eastern part of the state presents all the conditions of soil and climate favorable to farming, while the higher and more arid parts, with their nutritious grama and mesquit grass, are well adapted to grazing and stock growing. Immense herds of cattle roam over the extensive prairies, and the business of gathering and driving beeves into Kans. for fattening, and thence transporting them to the eastern markets, has long been very remunerative. It is estimated that in 1871 nearly 900,000 cattle were thus driven out of Tex. The chief agricultural staples are cotton and corn. The tobacco which is raised in the eastern sections is of a superior quality. Along the coast are large tracts of land well adapted to the cultivation of rice and sugar-cane. In 1870 there were in Tex. 61,125 farms, against 42,891 in 1860. Of these 72 exceeded 1,000 acres in area, 305 were from 500 to 1,000 acres, 6,268 from 100 to 500 acres, 10,890 from 50 to 100 acres, 24,620 from 20 to 50 acres, and the remainder measure under 20 acres. The farms included 2,964,836 acres of improved land, 7,662,294 of woodland and 7,769,393 of unimproved land. The cash value of farms was $60,149,950 and of farm implements, $3,396,793. The total, estimated, value of farm productions, including additions to stock and improvements, was $49,185,170. The products comprised 66,173 bush. of spring wheat, 348,939 bush. of winter wheat, 20,554,538 bush. of Indian-corn, 762,663 bush. of oats, 208,383 bush. of Irish pot's, 2,188,041 bush. of sweet pot's, 350,628 bales of cotton, 63,844 lbs. of rice, 59,706 lbs. of tobacco, 1,251,328 lbs. of wool, 3,712,747 lbs. of butter and 18,982 tons of hay.

The live stock had a value of $37,425,194, and consisted of 424,504 horses, 61,322 mules and asses, 428,048 milch cows, 132,407 working oxen, 2,933,588 other cattle, 714,351 sheep and 1,202,445 swine.

Manufactures.—There were, in 1870, 2,399 manufacturing establishments in the state, against 983 in 1860, using 540 steam-engines of 11,214 horse-power and 116 water-wheels of 1,830 horse-power, and employing 7,927 hands. The capital invested in manufacturing was $5,284,110, the wages paid amounted to $1,787,835, the materials consumed had a value of $6,273,193, and the commodities produced of $11,517,302. The most important of these and their values were as follows: Flour and meal, $2,421,047; sawed lumber, $1,960,851, and packed beef, $1,052,106.

Commerce and Railroads—The extensive seacoast of the state has numerous harbors, facilitating foreign commerce, which comprise the following customs districts: Brazos de Santiago, Corpus Christi, Saluria and Texas (including the port of Galveston). The merchant fleet comprised, on June 30, 1872, 238 sailing vessels of 4,976 tons, 41 steam vessels of 7,956 tons and 23 unrigged vessels of 2,883 tons. There were imported, from foreign countries, goods to the value of $4,189,134, and exported to foreign countries, goods to the value of $13,004,661, chiefly cotton. The overland commerce with Mexico is mostly transacted through the customs district of El Paso, on the Rio Grande R., and represents imports of $587,072 and exports of $161,159.

The development of the interior commerce of the state depends chiefly on the railroad system, as the rivers offer but temporary and uncertain channels of communication. The railroad lines had, in 1841, a length of 28 mls., in 1851 of 94 mls., in 1861 of 392 mls., and in 1872 of 1,078 mls. The principal lines are the Galveston, Harrisburgh & San Antonio R. R., running at present from Harrisburgh to Columbus, (85 mls.) and to be completed to San Antonio; the Galveston, Houston & Henderson R. R. from Galveston to Houston (50 mls.); the Houston & Texas Central R. R., from Houston to the Red R., where it connects with the Missouri, Kansas & Texas R. R. (387 mls.), with a branch from Hempsted to Austin (115 mls.); the Gulf, Western Texas & Pacific R. R., from Indianola to Gonzales (101 mls., of which 66 mls. are in operation), with branches to be constructed from Gonzales to San Antonio (65 mls.); from Sequin to New Braunfels (15 mls.), and from Gonzales to Austin (65 mls.), and the Texas & Pacific R. R., from Shreveport, La., to San Diego, Cal. (1,514 mls.), of which 66 mls. are in operation from Shreveport to Fort Worth.

Wealth, Taxation and Debt.—In 1870 the assessed value of real estate was $97,186,568, and of personal estate $52,546,361, making a total of $149,732,929, while the true or estimated value of the two kinds of property was $159,052,542, against $365,200,614 in 1860. The total (not national) taxation was $1,129,577, of which $589,363 were for the purposes of the state, $312,335 of the cos., and $227,879 of towns, cities, etc. The total public debt was $1,613,907. In 1872 (September 1) the total state debt amounted to $3,836,277. The legislature has authorized the creation of a debt for railroad purposes not to exceed $10,000,000 in amount.

Education.—The scholastic population (between 6 and 18 years of age) numbered in 1871 about 235,000. Until this year there was no organized school system of any kind in the state. By the law of August, 1870, each organized co. was constituted a school district, and the county courts were ex-officio school directors. They were empowered to divide their cos. into sub-districts, to locate school-houses, to levy an ad valorem tax on property, not exceeding 1 per cent., to appoint a board of school trustees for each co., to appoint examiners and give certificates to teachers. Under this law it is expected that in due course of time the state will enjoy the advantages of education for its youth. In several cos. promising beginnings in this direction have been made. The public schools of Travis co., for example, opened in 1871 with

35 teachers and 1,779 pupils, and in McLennan co. with 39 teachers and 1,768 pupils. For the scholastic year ending August 31, 1872, the legislature appropriated $504,000 for school purposes. The permanent school fund consists of $1,457,517 in railroad bonds, bearing 6 per cent. interest in gold, and several smaller sums derived from various sources. A large portion of the public lands of the state has also been surveyed and set apart for school purposes.

The Texas Institution for the Deaf and Dumb, located at Austin, was organized in 1856, and the Texas State Lunatic Asylum in 1861. The Penitentiary, at Austin, was erected in 1848, and the expenses paid by the state up to June 1, 1868, amounted to $294,989.

The press of Tex. comprised, in 1870, 112 newspapers and periodicals (against 89 in 1860), with a circulation of 55,250. There were 12 dailies, 5 tri-weeklies, 5 semi-weeklies, 89 weeklies and 1 semi-monthly.

Government.—Tex. was admitted as a state into the Union in 1845, and passed an ordinance of secession on February 5, 1861. After the close of the war a provisional governor took charge of the executive department in 1865, and called a state convention, which assembled at Austin in February, 1866. Under the reconstruction acts of Congress of 1867, Tex. was included in the fifth military division. The state constitutional convention having re-assembled in December, 1868, completed its labors, and the new constitution was ratified by a vote of the people at the election held in November, 1869. In March, 1870, Congress admitted Tex. to representation upon the conditions that no citizen or class of citizens should ever be deprived of the right to vote except as punishment for crimes, and that no citizen or class of citizens should be deprived of the school rights and privileges secured by the constitution of the state.

Every male citizen of the United States, of the age of 21 years and upward, without distinction of race, color or former condition of servitude, who shall have resided in the state for one year, and in the co. in which he offers to vote 60 days next preceding any election, is entitled to vote.

The legislative power of the state is vested in two branches; the one styled the Senate and the other the House of Representatives, and both together the Legislature of the state of Tex. The members of the House of Representatives, 90 in number, are chosen for a term of two years, and must have resided in the state two years and in the county or town from which they are chosen for one year next preceding their election. The Senators, 30 in number, are chosen for six years. Those elected at the first election were divided by lot into three classes. The seats of the Senators of the first class were vacated at the expiration of the first two years; those of the second class at the expiration of four years; and those of the third class at the expiration of six years, so that one-third thereof is chosen biennially. No person can be Senator unless he be a citizen of the United States and a citizen of the state three years next preceding the election, and the last year thereof a resident of the district for which he is chosen, and have attained the age of 25 years.

The executive department consists of a Governor, Lieutenant-Governor, Secretary of State, Comptroller of Public Accounts, Treasurer, Commissioner of the General Land Office, Attorney-General and Superintendent of Public Instruction. The Governor and Lieutenant-Governor are elected for four years. They must be 30 years of age, citizens of the United States, and must have been residents and citizens of the state for three years immediately preceding their election. The Secretary of State and the Attorney-General are appointed by the Governor, by and with the consent of the Senate, and continue in office during the term of service of the Governor elect. The Treasurer of the state and the Commissioner of the General Land Office are elected at the same time of the election of the Governor, having the same qualifications as the Governor.

The judicial power of the state is vested in one Supreme Court, in District Courts and such inferior courts and magistrates as may be created by the Constitution or by the Legislature under its authority. The Supreme Court consists of three judges, any two of whom constitute a quorum. They are appointed by the Governor, by and with the advice and consent of the Senate, for a term of nine years. The term of one of the judges expires every three years. The Supreme Court has appellate jurisdiction only. In criminal cases no appeal is allowed to the Supreme Court, unless some judge thereof, upon inspecting a transcript of the record, believes that some error of law has been committed by the judge before whom the case is tried. The Supreme Court holds its sessions annually at the capital of the state. The state is divided into judicial districts, for each of which one judge is appointed by the Governor, by and with the consent of the Senate, for a term of eight years. The District Court has original jurisdiction of all criminal cases, of all causes in behalf of the state to recover penalties, forfeitures and escheats; of all cases of divorce; of all suits to recover damages for slander; of all suits for the trial of title to land; of all suits, when the matter in controversy amounts to $100. The District Court has appellate jurisdiction in cases originating in inferior courts, and original and exclusive jurisdiction for the probate of wills; for the appointment of guardians; for the granting of letters of administration; for the settling of accounts of executors, administrators and guardians; and for the transaction of all business appertaining to the estate of deceased persons, minors, idiots and lunatics. Justices of the Peace have such criminal and civil jurisdiction as is provided by law. Each co. is divided into five justices' precincts.

Tex. is divided into the following 165 cos.: Anderson, Angelina, Aransas, Archer, Atascosa, Austin, Bandera, Bastrop, Baylor, Bee, Bell, Bexar, Blanco, Bosque, Bowie, Brazoria, Brazos, Brown, Buchanan, Burleson, Burnet, Caldwell, Calhoun, Callahan, Cameron, Cass, Chambers, Cherokee, Clay, Coleman, Collin, Colorado, Comal, Comanche, Concho, Cooke, Coryell, Dallas, Delta, Denton, Dewitt, Dimmit, Duval, Eastland, Edwards, Ellis, El Paso, Encinal, Erath, Falls, Fannin, Fayette, Fort Bend, Freestone, Freo, Galveston, Gillespie, Goliad, Gonzales, Grayson, Greer, Gregg, Grimes, Guadalupe, Hamilton, Hardeman, Hardin, Harris, Harrison, Haskill, Hays, Henderson, Hidalgo, Hill, Hood, Hopkins, Houston, Hunt, Jack, Jackson, Jasper, Jefferson, Johnson, Jones, Karnes, Kaufman, Kendall, Kimball, Kerr, Kinney, Knox, Lamar, Lampasas, La Salle, Lavacca, Leon, Liberty, Limestone, Live Oak, Llano, Madison, Marion, Mason, Matagorda, Maverick, McCulloch, McLennan, McMullen, Medina, Menard, Milam, Montgomery, Montague, Nacogdoches, Navarro, Newton, Nueces, Orange, Palo Pinto, Panola, Parker, Pecos, Polk, Presidio, Rains, Red River, Refugio, Robertson, Rockwall, Runnels, Rusk, Sabine, San Augustine, San Jacinto, San Patricio, San Saba, Shackleford, Shelby, Smith, Starr, Stephens, Tarrant, Taylor, Throckmorton, Titus, Travis, Trinity, Tyler, Upshur, Uvalde, Van Zandt, Victoria, Walker, Washington, Webb, Wharton, Wilbarger, Williamson, Wilson, Wichita, Wise, Wood, Young, Zapata and Zavalla.

The state capital is Austin. The other cities are Galveston, Houston, San Antonio, Brownsville, Jefferson and Waco.

Tisdale, p. v. in Cowley co., Kans.

Tishomingo, p. o. in Chickasaw Nation, Ind. Ter.

Tishomingo, co. in Miss., forming the N. E. extremity of the state. Area about 350 sq. mls. Pop., 7,350; in 1860, 24,149. The Tennessee R. forms the north-eastern boundary and Big Bear Cr. partly the eastern. The surface is rolling and the soil productive. The western parts of this co. were set off to Alcorn and Prentiss cos., hence the apparently great decrease of the population. Iuka is the co. seat. Agr. productions in 1870: Wheat, 4,329 bush.; rye, 71 bush.; Indian corn, 188,836 bush.; oats, 6,018 bush.; Irish pot's, 4,849 bush.; sweet pot's, 18,587 bush.; cotton, 1,397 bales; butter, 94,627 lbs. Cash value of farms, $486,172. Total, estimated, value of all farm productions, including additions to stock, etc., $524,188. Value of manufactures, $140,120.

Tiskilwa, p. v. in Bureau co., Ill., on the Chicago, Rock Island & Pacific R. R., 8 mls. W. of Bureau Junction. Pop., 761.

Tittibawassee, tn. in Saginaw co., Mich. Pop., 864.

Tittibawassee River, a tributary of the Saginaw R. in Mich.; rises in Ogemaw co., has a southerly course and joins the Saginaw above the city of Saginaw.

Titus, co. in Tex., N. E. part. Area, 520 sq. mls. Pop., 11,339; in 1860, 9,648. The surface consists of rich prairie land. The Sulphur Fork of Red R. forms the entire northern boundary and Big Cypress Cr. most of the southern. White Oak Cr. passes through the N. part, emptying into the Sulphur R. Mount Pleasant is the co. seat. Agr. productions in 1870: Wheat, 274 bush.; rye, 9 bush.; Indian-corn, 382,029 bush.; oats, 5,632 bush.; Irish pot's, 5,378 bush.; sweet pot's, 48,343 bush.; cotton, 7,039 bales; butter, 7,950 lbs. Cash value of farms, $1,133,072. Total, estimated, value of all farm productions, including additions to stock, etc., $899,135. Value of manufactures, $82,470.

Titusville, p. o. in Volusia co., Fla.

Titusville, p. o. in Ripley co., Ind.

Titusville, p. v. in Mercer co., N. J., on the Belvidere Division of Pennsylvania R. R., 5 mls. S. of Lambertville. Pop. about 800.

***Titusville,** city in Crawford co., Pa., on Oil Cr. and on Oil Creek & Alleghany River R. R., at S. W. terminus of Dunkirk, Alleghany Valley & Pittsburgh R. R., and S. terminus of Union & Titusville R. R., 18 mls. N. of Oil City. The city has had a remarkably rapid growth, owing to its situation in the heart of the oil regions of the state. Its interests in the production and refining of petroleum are very large, and it is one of the prominent centers of this industry. Pop. in 1850, 243; in 1860, 438; in 1870, 8,639. Six newspapers, of which the "Courier" and "Herald" are dailies.

Toledo, tn. in Chase co., Kans. Pop., 368.

Toledo, p. v. in the above tn., 10 mls. from Americus.

***Toledo,** city, port of entry and co. seat of Lucas co., Ohio, on the W. bank of Maumee R., opposite the mouth of Swan Cr., 4 mls. from Lake Erie, and on the Wabash & Erie Canal, 134 mls. N. N. W. of Columbus and 66 mls. S. S. W. of Detroit. The site of Toledo was originally two distinct settlements called Port Lawrence and Vistula, which afterward became two business centers, known as the upper and lower landings. The former is elevated, and from it a fine view of the bay and lake is had. The city is substantially built and contains many handsome residences, fine schools and churches and commodious public and business structures. The river is a wide estuary, affording one of the finest harbors on the lake. A low island above the city known as the "Middle Ground," and containing some 50 acres, has by judicious expenditure of immense sums of money been redeemed and covered with freight warehouses, grain elevators (there are 9 of these in the city, the least of which has a storage capacity of 125,000 bush.) and railroad depots. Toledo is the outlet of the most extensive canal system on the continent. The Toledo & Wabash Canal extends from this city down the Wabash and White River Valleys to the Ohio R. at Evansville, Ind. Intersecting this canal at Defiance, 50 mls. S. W. of Toledo, is the Miami Canal, which traverses the valley of the Great Miami R., and joins the Ohio at Cincinnati. Thus a system of over 700 mls. in extent and traversing the richest agricultural sections of two states pours its treasures into the city. This commerce is further aided by numerous lake steamers and craft which distribute the cereals to eastern ports and bring the city into trade connection with all the important lake shore cities and towns. Toledo is on the Lake Shore & Michigan Southern R. R., at the junction of the Michigan Southern & Northern Indiana Divisions, at E. terminus of Toledo, Wabash & Western R. R., at S. terminus of Toledo & Detroit R. R. and at N. terminus of Dayton & Michigan R. R. The manufacturing interests of the city are large and varied, embracing tobacco factories, manufactories of edge tools, saws, files, sash, doors and blinds, agricultural implements, steam boilers and engines, carriages, etc., etc. The money interests are represented by four national banks, three savings institutions and a number of private banks. The city was incorporated in 1836. Pop. in 1840, 1,322; in 1850, 3,829; in 1860, 13,768; in 1870, 31,584, of whom 20,485 were natives of the United States and 11,099 foreign born. Sixteen newspapers are published here, of which the "Blade," "Commercial," and "Express" are dailies and weeklies.

***Trenton,** city, co. seat of Mercer co., and capital of the state of N. J.; is situated on the E. bank of the Delaware R., at the head of navigation, 30 mls. N. N. E. of Philadelphia and 57 S. W. of New York. The site of the city is a moderately rolling ground; the plan is in the main regular; the built-up portion is compact and handsome. The street of fashionable residences is State Street, which runs parallel with the river. It is crossed at right angles by Main Street, which is the leading business thoroughfare, and is lined with substantial structures. The city has fine school buildings and churches, and the most notable public buildings are the State House on State Street, a modest stuccoed stone building, 100 by 60 feet, commanding a fine view of the river; the State Lunatic Asylum, founded in 1848; the State Penitentiary, State Arsenal, State Normal Schools and the county buildings in S. Trenton. The city is divided into two unequal portions (Trenton and S. Trenton) by the Assunpink Cr. Besides the commercial outlet afforded by the river, Trenton is on the line of the Delaware & Raritan Canal, which connects the Delaware with the Hudson, and is navigable for unrigged vessels of several hundred tons burden. It is intersected at this place by a navigable feeder running 23 mls. northward. The city is also on the line of the New York Division of the Pennsylvania R. R., at S. terminus of Belvidere Division of same and at N. terminus of Trenton Branch of Amboy Division of same. Two substantial bridges span the river here. Its commercial position is therefore commanding and its trade active. The falls in the river afford fine water-power, and the manufacturing interests of the city are large and varied, embracing paper mills, iron foundries, rolling mills, flour mills, axe and wire factories, manufactories of engines and steam boilers, saw mills and potteries, the latter including some of the largest manufactories of stone and delf ware in the country. Trenton was settled about 1680 by Phineas Pemberton and named (1720) in honor of Col. Wm. Trent. It became the capital of the state in 1790, and was incorporated in 1792. The city and vicinity abound in revolutionary associations. Pop. in 1840, 4,035; in 1850, 6,461; in 1860, 17,228; in 1870, 22,874, 17,855 of whom were natives of the United States and 5,019 foreign born. It is the location of a fine state and city library containing rare selections of books, and has ten newspapers, of which the "Emporium," "Evening Argus," "State Gazette," "State Sentinel and Capital," and "True American" are dailies and weeklies.

Trenton, tn. in Oneida co., N. Y. Pop., 3,156.

***Troy,** city, and co. seat of Rensselaer co., N. Y., on the E. bank of the Hudson R., 6 mls. N. of Albany and 148 N. of New York city. Its site at the head of navigation on the R. is a low alluvial plain, overlooked on the E. and N. by bold bluffs, two of which bear the classical names of Mt. Ida and Mt. Olympus. Except along the river front the streets are regular, and in the main are wide and compactly built. The river thoroughfares are mostly devoted to commerce, while those farther back are lined with fashionable dwellings. The length of the city exceeds 3 mls. and its width 1 mle. The architecture is as effective as that of much larger cities. The charitable institutions are represented by the commanding structures of the Troy Hospital, Marshall Infirmary, Orphan Asylum and Warren Free Institute; the scholastic institutions by the finely appointed Rensselaer Polytechnic Institute, the Troy Academy, the Female Seminary; St. Peter's College (Catholic), and other fine school structures. The church architecture finds its best types in St. Paul's and St. John's churches (Episcopal) and in the Old Presbyterian Church, in the Grecian style. The Court House is a beautiful marble building, of Doric architecture. The hotels are numerous, capacious and hospitable. Seminary and Washington parks ornament different parts of the city. The commercial facilities of the city are excellent. By way of the Hudson it is in connection with New York and other Atlantic ports, while by the Champlain and Erie Canals, which here first touch navigable waters, it is brought into contact with the lakes of the N. and N. W. Its railroad connections are of still greater importance. It is the virtual N. terminus of the Hudson River R. R., the S. terminus of the Troy & Boston R. R., the S. E. terminus of the Rensselaer & Saratoga R. R. and E. terminus of the Troy & Schenectady Branch of New York Central R. R. The city is possessed of ample water-power by means of the Hudson R. and Poestenkill and Wynantskill Crs. This power, amply supplemented by steam, capital and energy, has given to Troy a national, if not a world-wide, celebrity as a manufacturing center. This interest covers almost the whole domain of industry, but prominent is the production of flour, paper, cotton and woollen goods, leather, beer, raw and rolled iron, Bessemer steel, castings, machinery, engines, boilers, nails, stoves, cars, brushes, stoneware, carpets, etc., etc., representing an employed capital of nearly $12,000,000, with $15,000,000 of materials consumed and $28,000,000 of products. The city is connected with West Troy (which see), on the opposite side of the R., by means of a bridge and ferries. Troy was incorporated as a village in 1801, and as a city in 1816. Its population in 1820 was 5,264; in 1830, 11,405; in 1850, 28,785; in 1860, 39,232; in 1870, 46,465, of whom 30,246 were natives of the United States and 16,219 foreign born. Eight newspapers are published here, of which the "Press," "Times" and "Whig" are dailies.

Troy, p. v. and the co. seat of Montgomery co., N. C., 38 mls. N. N. W. of Rockingham.

***Troy,** p. v. and the co. seat of Miami co., Ohio, on Miami R. and Canal and on the Cincinnati, Hamilton & Dayton R. R., 28 mls. N. of Dayton. Has manufacturing interests and large local trade with a rich agricultural section. Pop., 3,005. One newspaper.

Tulare, co. in Cal., S. part. Area about 13,000 sq. mls. Pop., 4,533; in 1860, 4,638. The W. boundary is formed by the Diablo Mts., one of the highest Coast Ranges; the E. boundary by the main crest of the Sierra Nevada. It derives its name from the large Tulare Lake, which lies in the W. part of the co. The eastern part is occupied by the lofty spurs and lower foot-hills of the great Sierra, the western by the Tulare Valley, an extensive low plain, which forms the southern continuation of the San Joaquin Valley. The co. is drained by the rivers which empty into the Tulare Lake, as the lower course of Kings R., Kaweah Cr., Tulare R., Deer Cr., and the upper course of Kern R., which rises near the highest peaks of the Sierra and flows S. Majestic forests cover the mountains, while the low plain is destitute of timber and greatly suffers from drouth and excessive heat during the summer months. Stock-raising is the main pursuit. Visalia is the co. seat. Agr. productions in 1870: Wheat, 53,605 bush.; Indian-corn, 9,750 bush.; Irish pot's, 8,685 bush.; sweet pot's, 2,100 bush.; wool, 660,645 lbs.; butter, 37,490 lbs.; hay, 4,419 tons. Cash value of farms, $812,900. Total, estimated, value of all farm productions, including additions to stock, etc., $818,910. Value of manufactures, $125,200.
Tulare, p. o. in the above co.
Tulare, tn. in San Joaquin co., Cal. Pop., 1,269.
Tulare Lake, in Tulare co., Cal.; is situated in the southern part of the great central plain of the state, between the Sierra Nevada and the Coast Ranges. It is 30 mls. long and 20 mls. wide, and has an area of about 500 sq. mls. Kings R., Kern R., Tulare R. and some smaller creeks empty into it. Ordinarily it has no outlet into the sea, but during high water it discharges its surplus water into the San Joaquin R. through the Kern River Slough.

Tunstalls, p. v. in New Kent co., Va., on the Richmond & York River R. R., 20 mls. E. of Richmond.
Tuolumne, co. in Cal., E. central part. Area about 2,500 sq. mls. Pop., 8,150; in 1860, 16,229. It is bounded on the N. by the Stanislaus R., which separates it from Calaveras co. The principal crest of the Sierra Nevada forms the eastern boundary. Numerous spurs of the great Sierra traverse the co., which has a general slope from E. to W. and extends to the low plain of the San Joaquin R. The Tuolumne R., from which it derives its name, drains it and receives a large number of affluents which mostly flow through deep cañons or gorges with steep and often perpendicular sides. A striking feature in the topography is the Table Mt., a mass of basalt with a flat top and perpendicular sides. Castle Pk., Mt. Dana, Mt. Lyell, Cathedral Pk. and Mt. Hoffmann rise on the boundaries of Tuolumne. The leading pursuit is gold mining, and the placer diggings and hydraulic washings yield large quanti-

ties of the precious metal. Productive quartz lodes are also numerous. Sonora is the co. seat. Agr. productions in 1870: Wheat, 21,920 bush.; rye, 120 bush.; Indian-corn, 137 bush.; oats, 40 bush.; Irish pot's, 5,260 bush.; wool, 48,525 lbs.; butter, 26,760 lbs.; hay, 5,132 tons. Cash value of farms, $296,365. Total, estimated, value of all farm productions, including additions to stock, etc., $268,256. Value of manufactures, $267,085.

Tuolumne River, a tributary of the San Joaquin R. in Cal.; rises in the Sierra Nevada near Mt. Lyell, flows in a westerly direction through Tuolumne and Stanislaus cos. and empties into the San Joaquin near Tuolumne City. Sugar Pine and Curtis Crs. are its chief tributaries.

The Middle Fork of the Monongahela R. forms the eastern boundary, and the Buckhannon R. intersects it from S. to N. The surface is rolling and in some parts hilly. The soil of the valleys is excellent. Buckhannon is the co. seat. Agr. productions in 1870: Wheat, 29,958 bush.; rye, 6,055 bush.; Indian-corn, 108,494 bush.; oats, 21,422 bush.; Irish pot's, 11,448 bush.; sweet pot's, 971 bush.; butter 127,158 lbs.; hay, 7,233 tons. Cash value of farms, $2,341,054. Total, estimated, value of all farm productions, including additions to stock, etc., $510,337. Value of manufactures, $124,656.

Upson, co. in Ga., W. central part. Area about 290 sq. mls. Pop., 9,430; in 1860, 9,910. The co. is bounded on the S. W. by the Flint R. and is drained by Big Potato Cr. and other tributaries of this stream. The surface is undulating and the soil productive. Thomaston is the co. seat. Agr. productions in 1870: Wheat, 26,594 bush.; rye, 85 bush.; Indian-corn, 168,164 bush.; oats, 9,166 bush.; Irish pot's, 3,531 bush.; sweet pot's, 17,186 bush.; cotton, 4,835 bales; butter, 22,695 lbs. Cash value of farms, $883,429. Total, estimated, value of all farm productions, including additions to stock, etc., $925,791. Value of manufactures, $286,740.

UTAH, one of the western territories; is bounded on the E. by Colo. Ter., on the N. by Wyo. Ter. and Idaho Ter., on the W. by Nev. and on the S. by Ariz. Ter. It extends from 37° to 42° N. lat., and from 109° to 114° W. long., and has an area of 84,476 sq. mls., or 54,065,075 acres.

Surface.—Utah forms a part of the extensive plateau which lies between the Rocky Mts. and the Sierra Nevada, and is greatly diversified by lofty mountain chains belonging to the vast system of the North American Cordilleras. The most prominent of these in length, height and extent of area, is that of the Wahsatch Mts., which trend through the territory from N. to S. and in the southern part of it turn off toward the S. W. The part of Utah lying W. of the Wahsatch Mts. belongs to the "Great Basin," and resembles, in all its natural features, the neighboring state of Nev. From 4,250 feet in height above the sea around Great Salt Lake, it rises toward the S. and W. to over 6,000 feet; consists of arid plains, alkali flats, and artemisia or wild sage deserts, and is intersected by detached mountain chains and ridges, which, with few exceptions, are destitute of water and timber, and partake of the desert character of the intervening plains and valleys. The Raft River Mts. occupy the north-eastern corner of Utah, Promontory Mt. fills the long peninsula which projects into the northern part of Great Salt Lake; the Oquirrah Mt., Onaqui and Cedar Mts. are S. of this lake and trend parallel to the Wahsatch Mt., and further to the S. are the House Range, the Goshoot Mts., Thomas Range, Beaver River Range, Wah-Wah Mts., Pinyon Mts. and Needle Range.

The eastern part of Utah, extending from the Wahsatch Mts. to Colo. Ter., is higher than the western, but equally arid and mountainous. The Uintah Mts. trend from the Wahsatch Mts. to the Green R., and occupy a large area. The Roan, or Book, Mts. lie partly in Utah and partly in Colo. Ter., between Grand and Green Rs. The Little Mts. lie W. of Green R. and trend to the N. W. along the valley of the White R. The Sierra Le Sal, or Lasal, lies S. E. of Grand R. The Sierra Tucan and Sierra Panoche lie near the southern boundary, the former W., the latter E. of the Colorado R. The south-eastern part of the territory consists of extensive undulating plains, and supports a few short ridges, as the Sierra Abajo and the Orejos del Oso.

Rivers and Lakes.—The largest body of water in Utah is the Great Salt Lake, which lies near the W. base of the Wahsatch Mts., extends 100 mls. from N. W. to S. E. with an average width of 50 mls., and includes the following islands: Dolphin, Gunnison, Hat, Mud, Fremont, Carrington, Stansbury and Antelope. It is entered from the N. by the Bear R., which intersects the Cache Valley, and breaking through a mountain range flows through the Malade Valley, where it receives the Malade R. Weber R. rises in the Uintah Mts., breaks through the Wahsatch Mts. and enters the lake on the eastern shore. Its affluent, Ogden R., flows through a valley of the Wahsatch Mts. The R. Jordan is the outlet of Lake Utah, and flowing N. along the foothills of the Wahsatch Mts. empties into the S. E. part of Great Salt Lake. The water of the lake contains about 20 per cent. of common salt, while Lake Utah is a beautiful sheet of fresh water 30 mls. long and 10 mls.

wide. It is surrounded by mountains, with a broad, grassy valley sloping to the water edge, opening to the northward, and receives Spanish Fork, Provo, or Timpanogas, and Current Crs. Sevier Lake, in Millard co., lies about 100 mls. S. W. of Lake Utah and receives the Sevier R., which is nearly 200 mls. long and traverses the rich valley W. of the Wahsatch Mts. Preuss Lake, Little Salt Lake and Fish Lake are small sheets of water in the S. W. part of the territory.

The region lying E. of the Wahsatch Mt. is drained by the Green R., which in Pi Ute co. joins the Grand R. to form the Colorado of the West. Green R. intersects the N. E. corner of Utah, turns the Uintah Mts. and re-entering Utah flows through it from N. to S. Its affluents are the Uintah R., which receives the drainage of the southern slope of the Uintah Mts.; White R. in San Pete co., San Rafael R. and Dirty Devil R., both rising in the Wahsatch Mts. Grand R. enters Utah from Colo. Ter., and within the territory the Colorado passes a canyon whose vertical sides rise 1,200 feet above the bed, while the exterior banks rise in some places from 2,000 to 3,000 feet more.

Climate and Vegetation.—Like the other territories and states lying between the Rocky Mts. and the Sierra Nevada, Utah has a healthy, mild, but exceedingly dry, climate. The mean annual temperature E. of the Wahsatch Mts. is from 38° to 44°, and W. of that great range from 46° to 52°. The rain-fall averages about 16 inches, but around the Great Salt Lake approaches 20 inches. Rain is most abundant in the valleys from October to April; the remainder of the year is dry and hot. Spring opens in May and cold weather rarely sets in before November.

The vegetation is scanty. Timber is almost wholly confined to the higher mountains, and consists of quaking ash, cedar, spruce, pine and other coniferous trees, while copses of willow, box-elder, cottonwood and dwarf ash grow occasionally along the river bottoms. Buffalo and grama grass cover the valleys among the foothills and along the water-courses. Sand-grass prevails in some localities, and, bearing small black seeds which tenaciously cling to the plant when ripe, is highly nutritious. The plains are usually covered with wild sage (Artemisia), or with an efflorescence of alkili. An extensive alkali desert occupies the western parts of Box Elder and Tooele cos.

Population.—Utah was first settled by the Mormons in 1847. Three years later the population was 11,380; in 1860, 40,273, and in 1870, 86,786, of whom 86,044 were whites, 118 colored persons and 179 Indians out of tribal relations. The Indians sustaining tribal relations numbered 12,795, of whom 8,195 lived on reservations and at agencies and 4,000 were wandering nomads.

As to nativity the population was distributed as follows: Natives of the United States, 55,084, inclusive of 41,211 natives of the territory, and natives of foreign countries 30,702, including 445 Chinese, 16,073 Englishmen, 502 Irishmen, 2,391 Scotchmen, 1,783 Welshmen, 613 Norwegians, 1,790 Swedes, 509 Swiss and 358 Germans.

The population of 10 years of age and over numbered 56,515, of whom 21,517 were engaged in all classes of occupations, viz.: 10,428 in agriculture, 5,317 in professional and personal services, 1,665 in trade and transportation and 4,107 in manufactures, mechanical and mining industries.

Minerals and Mining.—The mineral resources of Utah are extraordinary in extent and diversity and embrace the ores of the principal metals and many of the rarer minerals. Gold is found in several districts, both in quartz veins or as gold dust in placer mines, and also associated with lead in the various galenas of the territory. Silver in the native state does not occur in large quantities, but associated with other ores it is found almost all over the territory, such as dark ruby silver (antimonial sulphuret) and light ruby silver (arsenial sulphuret), in the Black Jack and Butterfield Canyons, in the Oquirrah Mts., or as horn silver in the Star, Tintic, Sevier and other southern districts, or as argentiferous galena (in connection with lead) in the Cottonwood and Stockton districts and elsewhere. Lead is mostly found as galena in nearly all the mining districts. Ores of copper are also abundant, and in the native state copper occurs in Ophir, Tintic and southern Utah. The ore from the Mammoth Copperopolis mine at Tintic contains a considerable amount of gold. Iron ores are very plentiful and of excellent quality. Hematites are found in the S. and other rich ores in Weber and Cache Valleys and in Iron and Washington cos. A fine quality of micaceous iron ore is found in Cache co. Bismuth ore, in connection with cadmium, occurs in the Beaver district, in Black Jack Gulch and Bingham Canyon. It assays 43 per cent. bismuth and 35 per cent. silver. Cinnabar, realgar and orpiment, in a very pure form, occur in the Oquirrah Mts.

Common salt exists in enormous quantities, the great lake itself being an inexhaustible source of this indispensable substance. Coal of good quality is found in various parts of the territory, and has been worked for some years past in Weber Canyon. San Pete co. produces good bituminous coal, and from recent developments southern Utah appears to be well supplied with coal. Fire clay of a superior quality is obtained from large deposits N. of Salt Lake City. Clay for the manufacture of pottery and kaolin for chinaware are plentiful, while the very best building materials, sandstone and marble, of various colors, are everywhere easily obtained.

The following are the principal mining districts: Big and Little Cottonwood Dist., in the Wahsatch Mts., about 25 mls. S. W. of Salt Lake City; Parley's Park Dist., in the same range, about 33 mls. from the city; American Fork and Snake Creek Mining Dist., adjoining Little Cottonwood Dist.; the Bingham Cañon Dist., in the Oquirrah Mts., 25 mls. S. W. of Salt Lake City; Rush Valley Dist., on the western slope of the same range, about 40 mls. from the city; The Ophir Dist., formerly a part of the preceding, is famous for the richness of its veins; Camp Floyd Dist., S. of the Ophir Dist. and 60 mls. from the city; East Tintic Dist., in the Tintic Valley, 75 mls. S. W. of the city; Ohio or Sevier Dist., on the Sevier R. and about 200 mls. S. of the city; Lincoln Dist., formerly called the "Pioneer," 4 mls. N. of Minersville, Beaver co.; Star Dist., 230 mls. S. of Salt Lake City; Mineral Point Dist., 16 mls. from Bingham City, having immense deposits of iron of excellent quality, and granite Dist., 60 mls. W. of the Ophir Dist. Utah has numerous furnaces, smelting works, stamp mills, separating and refining works and ore sampling works.

Agriculture.—The proportion of land susceptible of cultivation is small. The best is situated at the base of the mountains and generally consists of gravelly loam, which is well adapted to the growth of wheat and other cereals. Vegetables grow to a very large size and are of excellent quality. In the southern part of the territory cotton, madder, indigo, figs and almonds are successfully cultivated. The dryness of the climate renders irrigation indispensable, and this entails a continuous expense and labor upon the agriculturist. Irrigating canals have been constructed in nearly all the productive valleys and districts. There were, in 1865, 277 such canals, from which 163,949 acres of land were irrigated; and since then others have been added.

According to the last census there were 4,908 farms in the territory, which embraced 118,755

acres of improved land, 215 acres of woodland and 29,391 acres of other unimproved land. The cash value of farms was $2,297,922, and the estimated value of productions, including improvements and additions to stock, $1,973,142. There were produced 543,487 bush. of spring wheat, 14,986 bush. of winter wheat, 95,557 bush. of Indian-corn, 65,650 bush. of oats, 49,117 bush. of barley, 323,645 bush. Irish pot's, 22 bales of cotton, 109,018 lbs. of wool, 310,335 lbs. of butter, 27,305 tons of hay, and 67,446 gals. of sorghum molasses.

The live stock had a value of $2,149,814, and comprised 11,068 horses, 2,879 mules and asses, 17,563 milch cows, 3,479 working oxen, 18,138 other cattle, 59,672 sheep and 3,150 swine.

The Manufactures of Utah, not connected with the reduction of ores, are of secondary importance. In 1870 there were 533 establishments, using 21 steam-engines of 331 horse-power and 192 water-wheels of 2,169 horse-power. They employed 1,534 hands, paid wages to the amount of $395,365 and consumed raw materials to the value of $1,218,252. The capital invested in manufacturing amounted to $1,391,898, and the commodities produced had a value of $2,343,019; flour and meal of $782,846 in value, sawed lumber of $661,431 in value, and woollen goods of $133,620 in value were the principal products of industry.

Commerce and Railroads.—The commerce of Utah consists in exporting the products of the mines, as ores and bullion, and importing coal, lumber, machinery, and the numerous articles of home consumption. In 1872 there were shipped by the Utah Central R. R. 20,693,692 lbs. of ore, $910,536; 11,066,853 lbs. of bullion, $1,328,022; 180,000 lbs. of lead, $9,000; 170,191 ounces of silver bars, $200,333; 5,556 ounces of gold bars and dust, $100 000; 388,693 lbs. of wool, 6,258 hides, 37,400 tons of coal, lumber of $1,441,566 in value, and general merchandise of over $10,500,000 in value.

The Union Pacific and Central Pacific R. Rs. intersect the northern part of the territory from E. to W. and have within its limits a length of 257 mls. Local lines have since been constructed to the extent of 97 mls., so as to make the total railroad mileage 349. The Utah Northern R. R. branches off from the Central Pacific and will run to Soda Springs, Oneida co., Idaho Ter., a distance of 125 mls., 40 of which were in running order in 1873. The Utah Central R. R. connects Ogden with Salt Lake City (37 mls.). The Utah Southern R. R. is in running order for 40 mls. S. of Salt Lake City, and will soon be completed to Payson, Utah co. It will eventually be extended to the Colorado R. Other railroads have been incorporated to afford commercial facilities to the thriving settlements in various parts of the territory.

Education, etc.—The present school system has been organized by the territorial legislature and is liberally sustained by the people. The Chancellor and Regents of the Deseret University exercise a general supervision over the educational interests of the territory. This university includes a classical, scientific and normal course. It was opened in 1850 and reorganized in 1867 and again in 1869. In 1871 it had 286 male and 294 female students.

Utah in the same year had 277 schools, in which 190 male and 185 female teachers gave instruction. The number of children enrolled was 15,924, and the average daily attendance 11,398.

The Press, according to the census, comprised 10 newspapers and periodicals, 3 of which were dailies, which had a circulation of 14,250.

Wealth and Taxation.—The assessed value of real estate in 1870 was $7,047,881, and of personal estate $5,517,961. The estimated or true value of both kinds of property was $16,159,995, against $5,596,118 in 1860. The total (not national) taxation was $167,355, of which $39,402 were for territorial, $80,419 for co. and $47,534 for town and city purposes.

Government.—Utah, originally a part of Upper California, was ceded to the United States by treaty with Mexico, in 1848, and erected into a territory in September, 1850. It was first settled by the Mormons, a peculiar religious sect, calling themselves Latter Day Saints, in 1847, after their expulsion from Ill., where they had founded the settlement of Nauvoo.

The Governor and Secretary are appointed by the President of the United States for 4 years. The Legislative Assembly is composed of a Council and a House of Representatives. The 13 members of the Council are elected for two years and the 26 members of the House for one year.

The judicial power of the territory is vested in a Supreme Court, District Courts, Probate Courts and Justices of the Peace. The Supreme Court consists of one Chief Justice and two Associate Justices. The territory is divided into three judicial districts, in each of which a regular term of the Supreme Court is held every year.

Utah is divided into the following 20 counties: Beaver, Box Elder, Cache, Davis, Iron, Juab, Kane, Millard, Morgan, Pi Ute, Rich, Salt Lake, San Pete, Sevier, Summit, Tooele, Utah, Wahsatch, Washington, Weber.

The territorial capital is Salt Lake City, with a pop. of 12,854. The other principal cities with their pop. are Ogden, 3,127; Logan, 1,757; Ephraim City, 1,167; Manti, 1,239; Mount Pleasant, 1,346 and Provo, 2,384.

Utah, p. o. in Indiana co., Pa.

Utah, co. in Utah Ter., central part. Pop., 12,203; in 1860, 8,248. The Wahsatch Mts. form the eastern boundary, the Oquirrah Mts. the western. Utah Lake, from which the co. received its name, lies in the center, and its outlet, the Jordan R., flows through the northern part. Numerous small streams rising in the mountains intersect the southern portion and empty into Utah Lake. With the aid of irrigation excellent crops of fruit and grain are raised. Provo City is the co. seat. Agr. productions in 1870: Wheat, 128,909 bush.; rye, 38 bush.; Indian-corn, 31,123 bush.; oats, 18,824 bush.; Irish pot's, 75,069 bush.; butter, 63,624 lbs.; hay, 7,051 tons. Cash value of farms, $465,627. Total, estimated, value of all farm productions, including additions to stock, etc., $436,264. Value of manufactures, $337,319.

Utah Lake, in Utah co., Utah Ter.; it is the source of the Jordan R. Length about 30 mls.; the water is said to be fresh.

***Utica,** city, and semi co. seat of Oneida co., N. Y., on the S. bank of the Mohawk R. and on Erie Canal, at terminus of Chenango Canal, 95 mls. W. by N. of Albany and 14 mls. E. S. E. of Rome. The site of the city is that of old Fort Schuyler, and is nearly level. It is regularly laid out and compactly built, containing many handsome private and public buildings; among the latter of which are numerous churches, the City Hall and the State Lunatic Asylum. The business houses, mostly located on Genesee street, are commodious and well-appointed structures. The city is admirably situated for the large inland commerce which it commands. Beside the canal facilities, before enumerated, it is located on the New York Central & Hudson River R. R., at S. terminus of Utica & Black River R. R., at N. terminus of Utica, Chenango & Susquehanna Valley Division of Delaware, Lackawanna & Western R. R., at N. E. terminus of Utica & Clinton Line of New York & Oswego Midland R. R. Its surroundings are populous and largely devoted to agriculture. As a manufacturing center it takes high rank, its leading interests being in the production of cotton and woollen goods, rolled iron, locks, blooms, leather and cars. Utica was incorporated as a village in 1817, and as a city in 1830. Pop. in 1820, 2,972; in 1830, 8,323; in 1840, 12,782; in 1850, 17,565; in 1860, 22,592; in 1870, 28,804; 18,955 of whom were natives of the United States and 9,849 foreign born. Eight newspapers are published here, of which the "Morning Herald" and "Observer" are dailies and weeklies, and the "Deutsche-Zeitung (German) tri-weekly.

VERMONT, one of the New England states; is bounded on the W. by N. Y., on the E. by N. H., on the S. by Mass., and on the N. by the Dominion of Canada. It extends from 42° to 45° N. lat. and from 71° 25′ to 73° 26′ W. long., and has an area of 10,212 sq. mls. or 6,535,680 acres.

Surface.—Vt. is intersected by the broad belt of the Green Mts., the French name of which, "Verts Monts," has given the name to the state. Their highest range trends from N. to S. nearly parallel to the western boundary, and consists of several detached ridges which, standing end to end, are separated from each other by the valleys of the streams emptying into Lake Champlain. The highest peaks are the Equinox Mt., 3,872 feet, Mount Anthony, 2 mls. from Bennington; Mt. Holly, Shrewsbury Pk., 3,345 feet, Killington Pk., 4,221 feet, Mt. Mooseehillock, 4,790 feet, Camel's Hump, 4,088 feet, Mt. Mansfield, 4,430 feet and Jay's Pk. A second range, lower but more continuous than the first, branches off near Killington Pk. and trends through the state in a N. N. E. direction. It forms the watershed between the Connecticut R., which washes the eastern border of the state, and Lake Champlain, which washes the western. Some detached mountains rise near the Connecticut R., the most famous of which is Mt. Ascutney, 3,320 feet, which affords magnificent views over the adjacent country. The Green Mts. are almost everywhere covered with forests of hemlock, spruce and other coniferous trees, and abound in grand and picturesque scenery. Along the shore of Lake Champlain extends a narrow belt of low plain.

Rivers and Lakes.—The entire eastern part of the state is drained by the Connecticut R., which separates it from N. H. and receives the following tributaries: Nulhegan R., in Essex co.; Passumpsic R., which receives Moose R. in Caledonia co.; Wells R., which issues from Long Pond; Wails R., in Orange co., White R., Otta Quechee R. and Black R., in Windsor co., Williams R., Saxtons R., and West R., in Windham co., and the upper course of Deerfield R. The northern part of the state, between the two ranges of the Green Mts. is drained by Lake Memphremagog, which receives Barton and Black Rs. in Orleans co. Lake Champlain extends for 105 mls. along the western border of the state, and receives the Missisquoi R. and Lamoille R., both intersecting Franklin co., Winooski or Onion R. and Laplot R., in Chittenden co., Otter Cr., which drains Addison co., and Poultney R., which bounds Rutland co. on the S. and empties into the southern extremity of Lake Champlain. The S. W. corner of the state, embracing the larger part of Bennington co., is drained by small affluents of the Hudson R., as Battenkill and Hoosic Rs.

Climate.—The climate of Vt. is cold and marked by great extremes of temperature. The winters are long and severe, the summers short and hot. Frost usually sets in in September and continues steadily to the beginning of April. The isothermal curve of 44° mean annual temperature intersects the state from the N. W. corner in a south-easterly direction. S. and W. of this line the mean annual temperature rises to 46°, and N. and E. of it it falls to 40°. At Montpelier, nearly in the center of the state, the mean temperature of July has been found to be about 73° and of December about 19°.

The rain-fall is greatest in the southern part of the state and along the valley of the Connecticut, where it averages 44 inches. From here it gradually decreases in a north-westerly direction, where it averages but 36 inches.

Population.—Vt. was first settled by emigrants from Mass. in 1724, at Fort Dummer, near the present site of Brattleborough, but the real colonization of the state did not begin until after the conquest of Canada, 1760, being checked by the ferocity of the Indians who were until then quite numerous. In 1790 the population was 85,425; in 1800, 154,465; in 1810, 217,895; in 1820, 235,-966; in 1830, 280,652; in 1840, 291,948; in 1850, 314,120; in 1860, 315,098 and in 1870, 330,551. Of this number 329,613 were whites, 924 were colored and 14 were Indians. The natives of the United States numbered 283,396, of whom 243,814 were born in the state, 13,540 in N. H., 9,202 in Mass., 1,251 in Me., 1,613 in Conn. The foreign born population numbered 47,155, of whom 28,544 were born in British America, 370 in Germany, 1,946 in England, 14,080 in Ireland, 1,240 in Scotland and 565 in Wales.

The population of 10 years of age and over numbered 258,750, of whom 108,763 were engaged in all classes of occupations, viz: 57,983 in agriculture, 21,032 in professional and personal services, 7,132 in trade and transportation and 22,616 in manufactures and mechanical and mining industries.

Minerals and Mining.—Traces of gold have been found, but not in sufficient quantities to warrant mining. Iron of good quality is abundant. Excellent ores occur along the western base of the Green Mts. and bog ore in various parts of the state. Building stones are, however, the chief mineral productions; particularly granite and fine marble. A black variety of marble is quarried at Swanton, on Lake Champlain. Slate is quarried on the Connecticut R. and near Rutland. Porcelain-clay or kaolin, limestone, steatite and manganese are also found abundantly.

Agriculture is the principal pursuit of the inhabitants. There are large areas of highly productive soil along the water-courses and in the valleys, while the mountain meadows afford great inducements to the stock raiser and breeder. It produces the finest wool in the United States, and nowhere else in the country is so much attention paid to the raising of the highest grade of merino sheep as in this state.

In 1870 there were in Vt. 33,827 farms of all sizes; 1,807 of which had less than 10 acres, 1,998 from 10 to 20 acres, 6,210 from 20 to 50 acres, 10,761 from 50 to 100 acres, 12,935 from 100 to 500 acres, 102 from 500 to 1,000 acres, and 15 over 1,000 acres. The farms included 3,073,257 acres of improved land (46.9 per cent. of the area of the state), 1,386,934 of woodland and 68,613 of unimproved land. Their cash value was $139,367,075, and the value of farming implements, $5,250,279. The estimated value of all farm productions, including improvements and additions to stock, was $34,647,027. There were produced 438,155 bush. of spring wheat, 16,548 bush. of winter wheat, 73,346 bush. of rye, 1,690,882 bush. of Indian-corn, 3,602,430 bush. of oats, 117,333 bush. of barley, 415,096 bush. of buckwheat, 5,157,428 bush. of Irish pot's, 72,672 lbs. of tobacco, 3,102,137 lbs. of wool, 17,844,396 lbs. of butter, 4,830,700 lbs. of cheese, 525,927 lbs. of hops, 8,894,302 lbs. of maple sugar and 1,020,669 tons of hay.

The live stock had a value of $23,888,835 and comprised 65,015 horses, 252 mules and asses, 180,285 milch cows, 27,809 working oxen, 112,741 other cattle, 580,347 sheep and 46,345 swine.

Manufactures.—Although the rivers afford an immense amount of water-power, Vt. has fewer manufactories than any of the other New England states. In 1870 there were 3,270 establishments, against 1,883 in 1860, which used 186 steam-engines of 6,425 horse-power, and 1,984 water-wheels of 44,897 horse-power. The number of hands employed was 18,686. The capital invested amounted to $20,329,637, and the wages paid to $6,264,581. The raw materials used had a value of $17,007,769, and the commodities produced of $32,184,606. The chief products of industry, with their values, were flour and meal, $3,895,058, tanned leather, $1,249,942, curried leather, $762,571, planed lumber, $2,544,603, sawed lumber, $3,525,122, machinery, $756,080, scales and balances, $1,629,000, tin, copper and sheet-iron ware, $505,005 and woollen goods, $3,550,962.

Commerce and Railroads.—Canada is the only foreign country with which Vt. has direct commercial intercourse, which is carried on by way of Lake Champlain. In 1875 the commercial fleet of the state comprised 13 sailing vessels of 768 tons, 6 steam vessels of 4,761 tons and 10 unrigged vessels of 684 tons. The imports had a value of $9,082,829; consisting of fish, furs and skins, gold coin, hair, rags, books, living animals, malt, oats, wheat, flour, chemicals, copper ore, fruits, glass, iron and steel, leather, etc. The exports of domestic commodities had a value of $3,702,720; consisting of books, drugs and chemicals, fruits, glass, gold coin, hair, hides, machinery, nails, leather, oil, types, gunpowder, oysters, quicksilver, clothing, woollen goods, etc., and the exports of foreign commodities of $28,725.

The railroad mileage was 103 in 1848, 529 in 1858, 605 in 1868 and 710 in 1872. The principal lines are the Connecticut and Passumpsic Rivers R. R., which extends from White River Junction to Derby on the Canada Line 110¼ mls.; the Rutland R. R., from Burlington to Bellow's Falls (120 mls.), with branches from Bellow's Falls to Brattleborough and from Brattleborough to Grout's Corners; and the Vermont Central R. R., from Windsor to Burlington (118 mls.), with branches from St. Albans to Richford, from Bellows Falls to Windsor, from Bellows Falls to Burlington, and from Brattleborough to Miller's Falls, Mass.

Wealth, Taxation and Debt.—The assessed valuation of real and personal estate in 1870 was $102,548,528, of which $80,993,100 was for real estate and $21,555,428 for personal property. The true or estimated valuation of both kinds of property was $235,349,553 against $122,477,170 in 1860 and $92,205,049 in 1850.

The amount of state taxes assessed and collected in 1869 was $541,076, and in 1870, $588,866. The current liabilities for 1871 were $98,905, and the current resources $184,900, so that the former exceeded the latter by $85,995.

The funded debt of the state on August 1, 1872, was $237,500, having been reduced during the year by $150,000. The financial affairs of the state are in a highly encouraging condition, and the time is not far distant when the public debt will be wholly paid and extinguished without any severe burden upon the people.

The census reports the county taxes for 1870 at $40,329; the bonded debt of the counties at $8,042; the town and city taxation at $918,007 and the bonded debt of towns and cities at $1,470,094.

Education, etc.—The public schools of Vt. are in a flourishing condition, and have ever been liberally supported by the people. In most of the large villages they are graded. The number of children of school age (from 4 to 18 years) in 1870 was 78,843, of whom 64,149 attended school, while the aggregate average attendance was 44,559. Select schools were attended by 6,640 children. There were 2,750 district schools in the state and 229 select schools, and the number of teachers was 4,239. The total expenditures for school purposes for the year were $486,407.

Three normal schools have been established, one in each congressional district, under the direction of the State Board of Education. They are the Randolph, Johnson and Castleton normal schools. The University of Vermont is located at Burlington. The State Agricultural College has been incorported with the University, and has received the avails of the 150,000 acres of land donated by the general government. There are two other colleges and several academies in the state.

The State Board of Education consists of six persons besides the Governor, who is an ex-officio member thereof. The board appoints its secretary, who has the general superintendence of the schools of the state. Each town elects a town superintendent, who is required to visit each common school at least once a year. Towns are divided into school districts, each of which has a prudential committee of one or three voters, who appoint teachers, provide suitable school-rooms and make arrangements for the schools of the district.

The charitable and penal institutions are the following: The Vermont Asylum for the Insane, at Brattleborough, established in 1834; it has a large farm and extensive workshops and other buildings; the Reform School, at Water-

bury, established in 1865, and the State Prison, established in 1807, at Windsor. It is under the government of a board of three directors and a superintendent, elected annually by the Legislature.

The Press of Vt. comprises 47 papers, which have a circulation of 71,390. Of these 3 are dailies, 43 weeklies, 1 monthly and 1 semi-weekly.

Government.—Jurisdiction over the territory within the present limits of Vt. was claimed by Mass., N. H. and N. Y. In January, 1771, a convention met at Westminster declaring the state an independent jurisdiction, to be forever known as "New Connecticut," alias "Vermont." The same convention met again in July, and appointed a committee to frame a constitution. The Legislature, in February, 1779, passed an act declaring that the constitution, as established by general convention at Windsor in 1777, together with such alterations and additions as should be made in pursuance of its provisions, should be forever held and maintained as part of the laws of the state. After the controversy with N. Y. was amicably settled, the Legislature of Vt. called a convention to ascertain the wishes of the people with regard to admission into the Union. The convention met, and in January, 1791, resolved to make application. An act was accordingly passed, to take effect March 4, 1791, by which Vt. was admitted with the rights and privileges of an independent state, and by another act, approved in March, 1791, the laws of the United States were extended over Vt. There have been held, under the constitution of the state, 13 "Councils of Censors," at intervals of 7 years, to propose changes to the constitution, and the changes thus proposed were adopted by the conventions called by them. The first Council of Censors met in 1785; the thirteenth in 1869.

Every man of 21 years of age, who is a native born citizen of some one of the United States, or has been naturalized and has resided in the state one year next before the time of election, and who will take the oath prescribed by the constitution, is entitled to the privileges of a freeman.

The supreme executive power of the state is exercised by the Governor, or in case of his absence, by the Lieutenant-Governor. They are elected by ballot, hold their offices for two years, and must have resided in the state four years next preceding the day of election. The Treasurer is elected in the same manner and for the same time. The Secretary of State, the Auditor and all other officers whose election is not otherwise provided for, are elected by the Senate and the House of Representatives in joint assembly.

The supreme legislative power of the state is exercised by the Senate and the House of Representatives, which are styled the "General Assembly of the State of Vermont." The Senate is composed of 30 members, who have attained the age of 30 years, and the House is composed of 241 members. Senators and representatives are elected biennially for two years.

The judicial powers of the state are vested in a Supreme Court, a Court of Chancery, a County Court in each county, Justices of the Peace in the several towns and a Probate Court in each probate district. The judges of the Supreme Court are elected biennially by the Legislature, and all other judicial officers by the people. Since 1870 the number of judges of the Supreme Court is seven. This court has no original jurisdiction, but is a court of errors. It holds annually a general term and also a term in each county. Each judge of the same is a chancellor, and holds his court at the same time as the County Court. The County Courts have original jurisdiction in divorce, in all civil actions for over $200 and in relation to real estate. Two terms of the County Court are held in each county, annually, over which one of the judges of the Supreme Court presides, assisted by the two county judges. All actions out of the original jurisdiction of the County and Chancery Courts, except for divorce, must be brought before a Justice of the Peace.

Vt. is divided into the following 14 counties: Addison, Bennington, Caledonia, Chittenden, Essex, Franklin, Grand Isle, Lamoille, Orange, Orleans, Rutland, Washington, Windham and Windsor.

The state capital is Montpelier. Pop., 3,023, inclusive of tn. The other principal places with their population are the following: Burlington, 14,387; Bennington, 2,501; Vergennes, 1,570; Springfield, 1,337, and Bellows Falls, 697.

***Vicksburgh,** city and co. seat of Warren co., Miss., on E. bank of Mississippi R., at mouth of Yazoo R. and at W. terminus of Vicksburgh & Meridian R. R., 400 mls. above New Orleans, 140 mls. W. of Meridian and about 400 mls. S. of Memphis. It is picturesquely situated on a succession of bold bluffs, has irregular streets, and enjoys an active river commerce. As a shipping point for cotton it is one of the most important on the Mississippi N. of New Orleans. The city suffered a protracted siege and very nearly total destruction during the rebellion, but has been mostly rebuilt, with a change of its business quarters to positions higher up on the bluffs. It was founded about 45 years ago by a family of Vicks, many of whose descendants still remain. Pop. in 1840, 3,104; in 1850, 3,678; in 1860, 4,591; in 1870, 12,443; 11,027 of whom were natives of the United States and 1,416 foreign born. Five newspapers.

***Virgil City,** p. v. in Cedar co., Mo., 15 mls. N. W. of Stockton.
Virgin City, p. v. in Kane co., Utah Ter., 8 mls. from Toquerville. Pop., 224.

VIRGINIA, one of the 13 original states of the Union; is bounded on the N. by Md. and W. Va., on the E. by Chesapeake B. and the Atlantic Ocean, on the S. by N. C. and Tenn., and on the W. by Ky. and W. Va. It extends from 36° 30′ to 39° 27′ N. lat., and from 75° 10′ to 83° 30′ W. long., and has an area of 38,348 sq. mls., or 24,542,720 acres.

Surface.—Va. is naturally divided into 7 sections or belts, extending through it from N. E. to S. W., parallel with the general trend of the Atlantic coast.

1. The Tide-water Country embraces the large peninsulas that have their outline washed by the tidal waters of the Chesapeake B. or by the Atlantic Ocean. It is about 100 mls. in width and over 120 mls. in length, making an area of nearly 12,000 sq. mls. The tidal creeks penetrate far into each separate peninsula, are mostly wide and deep, and in some of the broad estuaries, as Hampton Roads, Elizabeth R., York R., and elsewhere, the largest vessels afloat can easily reach the wharves. The water-sheds rarely exceed 100 feet in height above the sea. In some of the peninsulas are large swamps—like the Great Dismal—valuable for the fine cypress, pine, oak and other timber in and around them. The rank cane vegetation of their borders furnishes a vast supply of material for the manufacture of paper. Large forests of pine still abound, and the lumber ships run to the vicinity of the steam saw mills for their cargoes.

2. The Middle Country has very nearly the shape of a right-angled triangle, its base of 130 mls. resting on the N. C. state line; the right angle is on the E. and the perpendicular extends northward, past the heads of the tidal creeks to the Potomac, while the hypothenuse of 220 mls. runs with the broken ranges of the South West Mts. at the border of the Piedmont Country. Its area is about 12,000 sq. mls., divided into 21 cos. The great variety of composition in the basis rocks has given a corresponding variety to the soils of this region, and they are found possessed of all degrees of fertility, from the poor gray ridges forming the water-sheds of the principal streams to the rich dark bottom-lands along the streams themselves. The tobacco of this section is noted for its fine quality, and the wheat for the perfection of its ripeness, making it desirable to grind into flour for exportation to warm climates. Large portions of the country are covered with forests of oak and pine.

3. The Piedmont Country is composed of the tier of 13 cos. lying adjacent to and E. of the Blue Ridge, and is about 250 mls. long and 25 mls. wide. Its eastern limit is about 500 feet above tide-water, and the irregular mountains which rise on it are from 500 to 800 feet higher; but they are of easy access and generally fertile to their summits. The country between these mountains and the Blue Ridge is made up of numberless valleys surrounded by hills and ridges having an endless variety of forms. The principal of these ridges are Bull Mt., in Patrick co.; Turkey Cock Mt. and Chestnut Mt., in Franklin co.; Buffalo Ridge, in Amherst co., Green, Carter and South West Mts., in Albemarle co.; Pig Nut Mt. and Bull Run Mt., in Fairfax co., and Catoctin Mt. in Loudoun co. Nothing can exceed the beauty of the round and inclosed valleys, locally known as "coves." The soil is of exuberant fertility and the crops heavy and of excellent quality.

4. The Blue Ridge extends for more than 300 mls. diagonally across the state, varying in width from 3 mls. at the gorge, through which the Potomac R. bursts at Harper's Ferry, to more than 20 mls., near the Tenn. state line, where it expands into a broken concave plateau drained by New R. The general elevation of the Blue Ridge above the sea level is 1,800 feet near the Potomac, whence it increases toward the S. W. until at White Top, on the Tenn. border, it reaches 5,000 feet. It is generally 2,000 feet above the great Atlantic plain, and from 1,000 to 1,500 above the Virginia Valley in the W. The Blue Ridge occupies about 3,000 sq. mls. of Va., most of which is covered with a fine growth of oak, hickory, chestnut and tulip-poplar forests. The soil is especially adapted to the requirements of the grape-vine, and the topography is such, that almost any aspect can be chosen for a vineyard. Numerous vineyards are now in successful operation. At Belmont, near Front Royal, is one, covering 75 acres, and producing 20,000 gals. of wine and 10,000 gals. of brandy. Apples, pears, peaches, and other fruits of a temperate climate, here attain a flavor and perfection rarely attained elsewhere. The passes which lead across the Blue Ridge and thus connect the Piedmont with the great valley, are numerous and commodious, as Snicker's Gap, Ashby's Gap, Manassas Gap, Chester Gap, Thornton's Gap, Swift Run Gap, Brown's Gap, Rockfish Gap, White's Gap, Petit's Gap, Buford's Gap, Kennedy's Gap, Mowbray's Gap, Flower Gap and others. The principal peaks are Thunder Hill, Flat Top, Peaks of Otter, 3,995 feet; Weaver's Knob, Buffalo Knob, etc.

5. The Valley of Virginia lies W. of the Blue Ridge; is about 320 mls. in length and averages 25 mls. in width. It is the central portion of what is known as the great Appalachian Valley, a belt of limestone land extending for 1,500 mls., from the St. Lawrence R. to the Alabama R., famous for its fertility and the surpassing beauty of its scenery. The Virginia Valley is better known by the names of its subdivisions, as the Shenandoah, James, Roanoke, New River and Holston Valleys, which succeed each other in the order given, from the Potomac R. to the Tenn. state line. Ranges of remarkably long, straight, narrow and steep mountains, parallel and standing in echelon, form the western boundary of the valley, having various local names, as the Little North, Walker's, Clinch, etc., but known by the collective term of Kittatinny, the Indian name, meaning the "Endless." The valley is composed of a series of ascending and descending planes, rising from levels of from 600 to 1,000 feet to those of 2,000 or 2,500 feet. These slopes are either N. E. or S. W.; but the whole valley has a very decided inclination, beside, to the S. E., the western edge being generally 500 or 600 feet higher than the eastern. It follows from these data that the streams flow eastwardly and their united waters find a channel at the very western base of the mountains, until they can find a passage through them. These streams are very winding, and in some cases five times the length of the air-line distance from source to mouth. The valley contains over 5,000,000 of acres of land, barely one-third of which is under any kind of cultivation. The forests are great park-like groves of many kinds of oak, hickory, locust, walnut and yellow pine, with little or no undergrowth. The timber of these trees is of superior quality for manufacturing purposes. The valley is an extremely rich farming and grazing region covered with natural grasses, especially the blue grass that forms perennial pastures, famed for their fattening qualities. The climate is a happy medium between the extremes of N. and S., and may be characterized as the mild-temperate.

6. The Appalachian Country succeeds the valley on the W. It is a belt over 360 mls. long, varying in width from 20 to 50 mls. and having

an area in this state of over 6,000 sq. mls. In general terms it may be described as a series of comparatively narrow and long parallel valleys, separated by ranges of mountains equally parallel, long and narrow and of considerable elevation. The heads of the valleys are some 2,500 feet in elevation, and they descend to from 800 to 1,500. The mountains are from 3,000 to 4,000 feet in altitude. The soil of the valleys is very productive and the grass, corn and root crops are famous for abundance and quality. As a beef producing region, the Appalachian Country surpasses any other in the eastern portion of the United States. The following are the principal ranges: the Great and Little North Mt., the Cow Pasture, or Shenandoah, Mt., Warm Spring Mt., Alleghany Mts., forming the western boundary of Highland, Bath and Alleghany cos.; Rich Patch Mt., Peters Mt., Flat Top Mt., Clinch Mt., Powell's Mt. and Cumberland Mts., the latter separating Lee and Wise cos., the western extremity of the state, from Ky.

7. The Trans-Appalachian Country is the last section of the state, and embraces mainly the cos. of Wise and Buchanan. It is about 2,500 feet high, and forms a plane inclined to westward at a low angle, from which the streams have eroded channels to a great depth (in many places 1,000 feet deep). Along the rivers are alluvial bottoms of great fertility. The rolling uplands are well timbered with forests of birch, walnut, maple, tulip-poplar, oak and pine.

Rivers.—The largest part of Va. belongs to the drainage system of Chesapeake B., the southern part of which belongs to it, while the northern extends into Md. The Potomac R., which forms the northern boundary of the state, rises in two branches in the Appalachian Country, receives the Shenandoah R., breaks, at Harpers Ferry, through a gap in the Blue Ridge, and empties through a wide estuary into Chesapeake B. It is navigable for the largest vessels to Alexandria and for smaller boats to Georgetown. The Rappahannock R. rises in the Blue Ridge, receives the Rapidan R. and is navigable to Fredericksburgh. York R. is formed by the confluence of the Matapony and Pamunkey Rs., and is navigable to Yorktown. The James R. is formed by several branches rising in the Appalachian Country, intersects the Viriginia Valley, and after breaking through the Blue Ridge flows in an easterly direction through the Piedmont, the Middle and the Tide-water countries. It is navigable as far as Richmond. Nottoway and Meherrin Rs., the branches of the Chowan R., which empties into Albemarle Sound, drain the S. E. part of the state, while the Roanoke R., with its branches, drains the southern part of the Middle Country.

The southern portion of the Blue Ridge is drained by the New R., the lower course of which is called the Great Kanawha R., while the Appalachian Country includes the sources of Powells Cr., Clinch R. and Holston R. and other small branches of the Tennessee R. Buchanan co., and the greater part of Wise co., are drained by the branches of the West Fork of the Big Sandy R.

The Climate of Va. is on the whole mild and salubrious. The Tide-water Country has long and hot summers, mild winters, and is not altogether free from malarious diseases. Its mean annual temperature varies from 56 to 60 degrees. From here westward the mean annual temperature decreases, until it sinks down in the higher parts of the Blue Ridge to 48 degrees. In the Appalachian Country it rises to over 52 degrees. The rain-fall is abundant for the support of a luxuriant vegetation, and averages, in the larger part of the state, from 40 to 44 inches.

Population.—In 1607 Capt. John Smith founded the settlement at Jamestown, on the James R., which was the first, not only in the state, but on the continent, made by Englishmen. The settlement gradually extended inland, along the James R., and increased in population and prosperity. In 1716 Gov. Alexander Spottswood, leading a party of friends, crossed the Blue Ridge and discovered the Shenandoah Valley, which was subsequently settled by "Scotch-Irish" and Germans from Pa.

In 1790 the population was 747,610; in 1800, 880,200; in 1810, 974,600; in 1820, 1,065,116; in 1830, 1,211,405; in 1840, 1,239,797; in 1850, 1,421,661; in 1860, 1,596,318, and (after the erection of W. Va. into a separate state) in 1870, 1,225,163. Of these there were 712,089 white, 512,841 colored and 229 Indian.

In regard to nativity the pop. was distributed as follows: The natives of the United States numbered 1,211,409, inclusive of 1,162,822 natives of Va. and W. Va., and the natives of foreign countries 13,754, of whom 327 were born in British America, 369 in France, 4,050 in Germany, 1,909 in England, 5,191 in Ireland, and 705 in Scotland.

The population of 10 years of age and over numbered 890,056, of whom 412,665 were engaged in all classes of occupations, viz.: 244,550 in agriculture, 98,521 in professional and personal services, 20,181 in trade and transportation, and 49,413 in manufactures and mechanical and mining industries.

Minerals and Mining.—Va. is as rich in mineral treasures as any of the states E. of the Rocky Mts.

Midway in the Middle Country is a strip of land from 15 to 20 mls. in width, and running for 200 mls. through the state, that has long been known as the "gold belt." Large amounts of gold have been taken from it, especially near the Rappahannock and James Rs., and small quantities are constantly being obtained from surface washings.

Iron is very abundant throughout the state. Magnetic, micaceous and specular ores are found interstratified with the other formations in the Piedmont. Brown hematite iron ores occur in very extensive deposits in the ranges of foot hills lying along the western base of the Blue Ridge. They yield from 60 to 65 per cent. of metallic iron. The western flank of the table-land in the S. W. is known as the "Iron Mountain," from the quantity of ore there exposed, and where the New R. leaves the Ridge, at Radford Furnace, the stratum of ore is over 30 feet in thickness. Large beds of manganese of excellent quality are found in the same ranges of hills near these hematite ores.

The Appalachian Country also abounds in iron ores of a superior quality, and favorably situated for mining. A stratum of brown hematite ore of from 30 to 50 feet in thickness underlies the sand-stone strata of the mountain ranges bordering the Virginia Valley on the W. Some of the ranges further W. bear these valuable ores on their crests—for example, the Iron Knobs at Elizabeth Furnace, near the line of the Chesapeake & Ohio R. R. A very persistent stratum of hematite ore, known locally as dye-stone, because sometimes used for coloring purposes, runs through the Poor Valley Ridge, the Great Flat Top Mt. and other western ranges. This stratum extends from Ala. to N. Y., where it is known as the highly-prized "Clinton ore." Sulphurets of iron and copper occur in the gold belt.

Copper ores are less abundant than iron ores, but occur in sufficient quantities to promise great results when properly developed. The primary rocks of the Blue Ridge inclose considerable deposits of good quality. The sulphurets of copper found at various localities along the Chesapeake & Ohio R. R. are mined to some extent and sent to market, but will yield larger profits with the introduction of cheap coal, which has just begun.

Mines of lead and barytes have been opened at various places in the Piedmont, which also abounds in manganese, plumbago and fire-clay. Several coal fields, extending in detached oval masses from near Richmond to the S. W., occupy depressions in the underlying granite. On the N. side of the James R. five seams of coal have been opened in this field, varying in thickness from 2½ to 8 feet, giving an aggregate of more than 20 feet, as at Carbon Hill.

In the Appalachian Country beds of anthracite coal have been found.

In Wythe co., beyond New R., the outlying western ranges of the Blue Ridge contain extensive deposits of lead and zinc ores, pronounced by competent authority to be of the best quality. Lead mines have there been worked to some extent and with fair profits for more than 100 years. Fire-clay is also a prominent product of the Blue Ridge. At one place in Augusta co. it is used in the manufacture of Rockingham ware.

In Washington and Smyth cos., on the North Fork of the Holston R., are extensive beds of gypsum, or plaster-of-paris, which is extensively used as a fertilizer, especially upon the grass lands.

In the same region are deposits of rock salt, that have been penetrated more than a hundred feet in sinking wells to supply brine to the extensive works at Saltville. The annual production there is very large.

In Mercer and Scott cos. salt wells have been bored, which also yield a good article.

Mineral springs in great variety, as sulphur, chalybeate and others are found in numerous localities in the great valley, and in the narrow valleys of the Appalachian ranges. The mineral wealth of the Tide-water Country consists in its green sand and other marls that abound in all parts of it and are highly valued fertilizers.

Agriculture.—Va. abounds in lands of the greatest fertility, and has but few and comparatively small sections that are unfit for cultivation. The great valley, the bottom-lands along the streams of the Middle Country, the valleys of the Appalachian, and the Tide-water Country, have all a soil of unsurpassed productiveness. Even the Blue Ridge is almost everywhere cultivable to the crest, and many well cultivated farms may be seen in the highest parts of it. Only the crests of the Appalachian ranges, the sandy water-sheds of the Middle Country and the swamps in the Tide-water Country are not adapted to the purposes of the farmer. The character of the soil, the early opening of spring, and their accessibility, have made the sea-board cos. the market garden for the large cities on the Atlantic coast, and already the products of a small portion of the country around Norfolk bring an annual return of over $20,000,000. Especially is this region noted for the production of peaches, pears and strawberries, and the fig thrives also and bears abundantly..

In 1870 there were in the state 73,849 farms, of which 26,696 had from 100 to 500 acres; 17,208 from 50 to 100 acres, and 16,891 from 20 to 50 acres. The farms included 8,165,040 acres (or 33.23 per cent. of the area of the state) of improved land; 8,294,734 acres of woodland, and 1,686,137 acres of unimproved land. The farms had a cash value of $213,020,845, and the agricultural implements of $4,924,036. The total amount of wages paid was $9,753,041, and the estimated value of all farm productions, including improvements and additions to stock, was $51,944,801.

The products were 7,389 bush. of spring wheat, 7,391,398 bush. of winter wheat, 582,264 bush. of rye, 17,619,304 bush. of Indian-corn, 6,857,555 bush. of oats, 7,259 bush. of barley, 45,075 bush. of buckwheat, 1,293,853 bush. of Irish pot's, 865,882 bush. of sweet pot's, 183 bales of cotton, 37,036,364 lbs. of tobacco, 877,110 lbs. of wool, 6,979,269 lbs. of butter, 71,743 lbs. of cheese, 130,750 lbs. of flax, 245,093 lbs. of maple sugar, 505,239 lbs. of honey, 329,155 gals. of sorghum molasses, and 199,883 tons of hay.

The live stock had a value of $28,187,669, and comprised 152,899 horses, 26,903 mules and asses, 188,471 milch cows, 45,987 working oxen, 277,285 other cattle, 370,145 sheep, and 674,670 swine.

Manufactures.—The manufacturing interests of Va. are second to its agriculture, and consist chiefly in fitting for use its farm productions. In 1870 the state had 5,933 manufacturing establishments (against 5,385 in 1860), which used 396 steam-engines of 8,410 horse-power, and 2,229 water-wheels of 41,202 horse-power. The number of hands employed was 26,974. The wages paid amounted to $5,343,099 and the capital invested to $18,455,400. The raw materials consumed in manufacturing had a value of $23,832,384, and the commodities produced of $38,364,322.

The principal products of industry, with their respective values, were flour and meal, $12,649,276; chewing, smoking and snuffing tobacco, $6,935,249; sawed lumber, $2,111,055; forged and rolled iron, $1,994,146; iron blooms, $222,700; nails and spikes, $350,000; iron pigs, $619,820; iron castings (not specified), $755,794; cotton goods, $1,435,800; carpenterng and building, $1,020,930; boots and shoes, $538,534; and agricultural implements, $405,457.

Commerce and Railroads.—Although Va. has in her commodious harbors and deep estuaries great facilities for commerce and shipping, its direct trade with foreign countries is not great. It has seven custom-house districts or ports of entry, as Alexandria, Cherrystone, Norfolk and Portsmouth, Petersburgh, Richmond, Tappahannock and Yorktown. Their commercial fleet comprised, in 1872, 900 sailing vessels of 17,538 tons, 67 steam vessels of 5,812 tons and 159 unrigged vessels of 9,951 tons. The goods imported from foreign countries had a total value of $532,701, and the domestic goods exported to foreign countries of $3,521,137.

The railroads of the state in 1841 had a length of 223 mls.; in 1851, 520 mls.; in 1861, 1,379 mls., and in 1872, 1,537 mls. The principal lines are the Atlantic, Mississippi & Ohio R. R., organized in 1870 by the consolidation of the Norfolk & Petersburgh R. R. (81 mls.); the South Side R. R., from Petersburgh to Lynchburgh (123 mls.), and the Virginia & Tennessee R. R., from Lynchburgh to Bristol (204 mls.); the Chesapeake & Ohio R. R., from Richmond, Va., to Huntington, W. Va., on the Ohio R. (427½ mls., of which 315 mls. were in operation in 1873); the Orange, Alexandria & Manassas R. R., from Alexandria to Lynchburgh, from Manassas to Harrisonburgh, with branches to Warrenton and to Front Royal (292½ mls.); the Petersburgh R. R., from Petersburgh to Weldon, N. C., and from Hicksford to Gaston, N. C. (82 mls.); the Richmond & Danville R. R. (154¾ mls.); the Richmond, Fredericksburgh & Potomac R. R. (86 mls.); the Richmond & Petersburgh R. R. (25 mls.); the Seaboard & Roanoke R. R., from Portsmouth to Weldon, N. C. (80 mls.), and the Washington & Ohio R. R., from Alexandria to Hamilton (44 mls.).

The James River and Kanawha Canal is the oldest internal improvement in the state, and is at present completed from Richmond to Buchanan, beyond Lynchburgh. When completed to the Ohio R., as it will be at no distant day, this canal must become one of the great commercial highways of the country, as it will bring the magnificent harbor of Norfolk 293 mls. nearer to all places on the Mississippi R., above its junction with the Illinois R., than New York is by the present routes, thus giving the N. W. a water route through Va. to the sea-board much shorter than the one by the lakes and the Erie Canal to New York.

Wealth, Taxation and Debt.—The total assessed value of taxable property in Va. was, in 1870, $365,439,917, of which $279,116,017 were for real estate and $86,323,900 for personal estate. The true, or estimated, value, however, was $409,588,133, against $793,249,681 in 1860 and $430,701,082 in 1850, which last two sums include the value of property in W. Va.

The total, not national, taxation in 1870 was $4,613,798. Of this sum $2,847,635 were for the state, $842,069 for the counties, and $924,094 for towns and cities.

The public debt in 1870 amounted to $55,921,255, including $39,298,225 bonded state debt, $8,092,614 other state debt, $1,365,766 county debts, and $7,163,650 town and city debts. The amount of state debt on September 30, 1872, was $45,718,112.

Education, etc.—Va. had, until recently, no system of public free schools. In March, 1870, the first State Superintendent of Public Instruction was appointed, and the new school bill became a law in July the same year. Before the end of the first scholastic year, 1871, the number of schools had increased to 2,900, with about 130,469 pupils and 3,000 teachers. There is now every prospect that Va. will steadily progess on the road begun, and at no distant day will offer to her growing population a system of thorough instruction.

Before 1860 the state had 23 colleges with 2,824 students, which were mostly closed during the war, a part of the buildings being burned and others used as hospitals or barracks. The College of William and Mary, at Williamsburgh, was chartered in 1693. The buildings were destroyed during the war; but in the fall of 1865 the college was re-opened, and in 1871 it had 12 professors and 76 students. Washington and Lee University, at Lexington, was founded in 1782, and had, in 1871, 22 professors and 305 students. The University of Virginia, in Albemarle co., founded in 1825, was a flourishing institution in 1860, when it had 609 students. This number had diminished to less than 50 in 1863, but in 1871 it had 317 students and 19 teachers. Provision has been made by the Legislature for the admission of one student from each senatorial district, without payment of fees and rents.

The Press of the state consisted, in 1870, of 114 papers with an annual circulation of 143,804, of which 16 were dailies, 7 tri-weeklies, 8 semi-weeklies, 69 weeklies, 4 semi-monthlies and 10 monthlies.

Government.—Va. framed a state constitution in July, 1776, and ratified the United States constitution in June, 1788. In 1861 the state of W. Va. was formed and set off from the old commonwealth. A new state government was instituted in 1863 at Alexandria. A convention which met in February, 1864, abolished slavery. In May, 1865, a provisional Governor was appointed by the President of the United States. In December, 1868, a convention met at Richmond and framed a constitution which was adopted in July, 1869. The state was admitted to representation in Congress January 26, 1870.

Every male citizen of the United States 21 years of age, who shall have been a resident of the state for twelve months and of the co., city or tn. in which he shall offer to vote, three months next preceding any election, shall be entitled to vote.

The chief executive power of the commonwealth is vested in a Governor, who holds the office for the term of four years, to commence on the first day of January next succeeding his election. The Governor is elected by the voters of the state at the times and places of choosing members of the General Assembly; must be a citizen of the United States, and, if of foreign birth, must have been a citizen of the United States for ten years next preceding his election. He must have attained the age of thirty years, and must have resided in the state three years next preceding his election. A Lieutenant-Governor is elected at the same time and for the same term as the Governor, and his qualification and the manner of his election must be the same. The Secretary of the Commonwealth, Treasurer and Auditor of Public Accounts are elected by the joint vote of the two houses of the General Assembly, and continue in office for the term of two years. There is a Board of Public Works, consisting of the Governor, Auditor and Treasurer.

The legislative power is vested in the General Assembly, which consists of a Senate and House of Delegates. The House of Delegates is elected biennially by the voters of the several cities and cos., and consists of 138 members. The Senate is elected for the term of four years, and consists of 43 Senators, representing the 40 districts into which the state is divided. The General Assembly meets annually, and no session continues longer than 90 days without the concurrence of three-fifths of the members elected to each House, in which case the session may be extended for not more than 30 days longer.

The judicial power is vested in a Supreme Court of Appeals, Circuit Courts and County Courts. The Court of Appeals consists of five judges, any three of whom may hold a court. It has appellate jurisdiction only, except in cases of habeas corpus, mandamus and prohibition. It has no jurisdiction in civil cases where the matter in controversy is less than $500, except in controversies concerning the title and boundaries of land, etc. The judges are chosen by the joint vote of the two houses of the General Assembly and hold their office for a term of twelve years. The state is divided into sixteen judicial circuits, for each of which a judge is chosen by the joint vote of the two houses of the General Assembly for a term of eight years. A Circuit Court is held at least twice a year by the judges of each circuit in every co. and corporation thereof. In each co. of the commonwealth there is a County Court, which is held monthly by a judge learned in the law of the state and chosen for a term of six years. In each city or tn. containing a population of 5,000 there is elected by the joint vote of the two houses of the General Assembly one City Judge, who holds a Corporation or Hustings Court of said city or tn.

Va. is divided into the following 100 counties: Accomack, Albemarle, Alexandria, Alleghany, Amelia, Amherst, Appomattox, Augusta, Bath, Bedford, Bland, Botetourt, Brunswick, Buchanan, Buckingham, Campbell, Caroline, Carroll, Charles City, Charlotte, Chesterfield, Clarke, Craig, Culpepper, Cumberland, Dinwiddie, Elizabeth City, Essex, Fairfax, Fauquier, Floyd, Fluvanna, Franklin, Frederick, Giles, Gloucester, Goochland, Grayson, Greene, Greenville, Halifax, Hanover, Henrico, Henry, Highland, Isle of Wight, James City, King and Queen, King George, King William, Lancaster, Lee, Loudoun, Louisa, Lunenburgh, Madison, Mathews, Mecklenburgh, Middlesex, Montgomery, Nansemond, Nelson, New Kent, Norfolk, Northampton, Northumberland, Nottoway, Orange, Page, Patrick, Pittsylvania, Powhatan, Prince Edward, Prince George, Princess Ann, Prince William, Pulaski, Rappahannock, Richmond, Roanoke, Rockbridge, Rockingham, Russell, Scott, Shenandoah, Smyth, Southampton, Spottsylvania, Stafford, Surry, Sussex, Tazewell, Warren, Warwick, Washington, Westmoreland, Wise, Wythe and York.

Richmond is the state capital, and has 51,038 inhabitants. The other cities with their population are the following: Alexandria, 13,570; Lynchburgh, 6,825; Petersburgh, 18,950; Norfolk, 19,229; Portsmouth, 10,492 and Fredericksburgh, 4,046.

Virginia, p. o. in Dallas co., Tex.

***Virginia City,** p. v., co seat of Madison co., and territorial capital of Mont., on Alder Cr., 120 mls. S. of Helena, with which it is connected by stages. First settled in 1862. Surrounded by a mining region. Pop., 857. One newspaper.

***Virginia City,** city and the co. seat of Storey co., Nev., 20 mls. S. E. of Reno on the Central Pacific R. R., and 15 mls. N. E. of Carson City. Its site is in the midst of the most prolific and thoroughly worked mining district of the state, whose yield in gold and silver for ten years has exceeded $100,000,000. Though of new birth it is not inelegantly or unsubstantially built, but contains many fine private residences and costly public buildings. Its manufactures of mining machinery and similar articles are rapidly growing. It may be regarded as the commercial emporium of the State, for here both center and radiate the influences that give life and energy to the surrounding mineral districts. Pop., 7,048; in 1860, 2,345. Three newspapers.

Virginia Mines, p. o. in Franklin co., Mo.

Virgin River, a tributary of the Colorado R.; rises in the Wahsatch Mts. of Iron co., Utah Ter., and empties into the Colorado R. near Callville, Ariz. Ter. It has a S. W. course.

Virginville, p. o. in Berks co., Pa.

Viroqua, tn. in Vernon co., Wis. Pop., 1,988.

***Viroqua,** p. v. in the above tn. and the co. seat, on Kiskopee R., 34 mls. S. E. of La Crosse. Has fine agricultural surroundings and is center of a thriving lumber trade. Two newspapers.

Visalia, tn. in Tulare co., Cal. Pop., 1,626.

***Visalia,** p. v. in the above tn. and the co. seat, on the Visalia Cr., a few mls. E. S. E. of Goshen on the San Joaquin Valley Division of the Central Pacific R. R. Pop., 913. Two newspapers.

Visalia, p. v. in Kenton co., Ky., on Licking R. and on the Kentucky Central R. R., 14 mls. S. of Covington. Pop., 50.

Wabash, tn. in Parke co., Ind. Pop., 781.

Wabash, tn. in Fountain co., Ind. Pop., 1,284.

***Wabash,** p. v. and the co. seat of Wabash co., Ill., on the Wabash R., the Wabash & Erie Canal and Toledo, Wabash & Western R. R., at S. terminus of Cincinnati, Wabash & Michigan R. R., 14 mls. E. by N. of Peru. A place of rapid growth, with important trade and manufacturing interests. Seat of Wabash Female Seminary. Pop., 2,881. Two newspapers.

Wabash, tn. in Gibson co., Ind. Pop., 442.

Wabash, tn. in Tippecanoe co., Ind. Pop., 2,129.

Wabash, tn. in Darke co., Ohio. Pop., 824.

Wabashaw, co. in Minn., S. E. part. Area, 540 sq. mls. Pop., 15,859; in 1860, 7,228. The Mississippi R. and Lake Pepin form the N. E. boundary of the co., which is drained by the Zumbrota R. and other small tributaries of the Mississippi. The surface is rolling and the soil very productive. The Chicago & St. Paul R. R. passes through the co., following the shore of the Mississippi R. Wabashaw is the co. seat. Agr. productions in 1870: Wheat, 1,480,293 bush.; rye, 994 bush.; Indian-corn, 312,697 bush.; oats, 669,410 bush.; Irish pot's, 97,700 bush.; sweet pot's, 130 bush.; butter, 376,729 lbs.; hay, 11,618 tons. Cash value of farms, $5,997,080. Total, estimated, value of all farm productions, including additions to stock, etc., $2,139,397. Value of manufactures, $652,810.

Wabashaw, tn. in the above co. Pop., 1,739.

***Wabashaw,** p. v. in the above tn. and the co. seat, on the Mississippi R., 3 mls. below Lake Pepin and on the Chicago, Milwaukee & St. Paul R. R., 33 mls. N. W. of Winona. An important grain mart. One newspaper.

Wabash City, v. in Mercer co., Ohio, on Wabash R., a few mls. W. of Celina. The p. o. is Price.

Wabash River, one of the principal tributaries of the Ohio R.; has its source in Reservoir Lake, Mercer co., Ohio, and flowing N. W. to Huntington co., Ind., takes a W. by S. course to Cass co., where it deflects to the S. W. and S. by W. to Vigo co.; thence it forms the boundary between Ill. and Ind., emptying between Gallatin and Posey cos. It is over 500 mls. long, and navigable during high water as far as Covington, but during low water not farther than the mouth of White R. Its principal tributaries on the W. and N. are Little Wabash R., Embarras R., Vermillion R., Tippecanoe R. and Eel R., and on the E. and S., White R., Big Raccoon R., Wild Cat R., Mississinewa R. and Salamonie R.

Wabaunsee, co. in Kans., E. central part. Area, 890 sq. mls. Pop., 3,362; in 1860, 1,023. The surface is diversified by rolling prairies and well timbered bottom-lands; the soil is rich. The Kansas R. forms the N. boundary. The co. is also watered by Mill Cr. and other small affluents of the Kansas R. Alma is the co. seat. Agr. productions in 1870: Wheat, 63,451 bush.; rye, 641 bush.; Indian-corn, 220,365 bush.; oats, 38,243 bush.; Irish pot's, 35,669 bush.; sweet pot's, 1,655 bush.; butter, 69,685 lbs.; hay, 11,640 tons. Cash value of farms, $973,080. Total, estimated, value of all farm productions, including additions to stock, etc., $64,681. Value of manufactures, $28,320.

Wascata, v. in Otter Tail co., Minn.

Wasco, co. in Oreg., central part. Pop., 2,509; in 1860, 1,689. This large co. extends from N. to S. through the state, and is bounded on the E. by the 43d meridian W. of Washington, and on the W. by the crest of the Cascade Mts. The Blue Mts. extend into the north-eastern portion of it. The Des Chutes, or Falls, R. traverses an extensive valley E. of the Cascades and empties into the Columbia. The southern part of the co. belongs to the region known as the Great Basin, and includes the Klamath L., Silver L., Summer L., Albert L. and a portion of Goose L. The Dalles is the co. seat. Agr. productions in 1870: Wheat, 10,599 bush.; rye, 266 bush.; Indian-corn, 9,045 bush.; oats, 26,593 bush.; Irish pot's, 12,962 bush.; wool, 38,106 lbs.; butter, 43,901 lbs.; hay, 2,230 tons. Cash value of farms, $302,075. Total, estimated, value of all farm productions, including additions to stock, etc., $287,762. Value of manufactures, $30,617.

Wasecata, p. o. in Otter Tail co., Minn.

Waseca, co. in Minn., S. part. Area, 432 sq. mls. Pop., 7,854; in 1860, 2,601. It has an undulating surface and is diversified by numerous lakes. The drainage is effected by small affluents of the Minnesota R. The soil is productive and well cultivated. The Winona & St. Peter R. R. passes through the co. from E. to W. Wilton is the co. seat. Agr. productions in 1870: Wheat, 400,288 bush.; rye, 130 bush.; Indian-corn, 98,478 bush.; oats, 208,243 bush.; Irish pot's, 30,092 bush.; butter, 224,227 lbs.; hay, 20,445 tons. Cash value of farms, $1,995,036. Total, estimated, value of all farm productions, including additions to stock, etc., $648,297. Value of manufactures, $82,167.

Washburne, tn. Fort Smith Reserve co., Ark. Pop., 478.

WASHINGTON, one of the western territories; is bounded on the N. by British America, on the E. by Idaho Ter., on the S. by Oreg., on the W. by the Pacific Ocean, on the N. W. by the Strait of Juan de Fuca, the Canal de Haro and the Gulf of Georgia, which waters separate it from Vancouver's Island. It extends from 45° 33′ to 49° N. lat., and from 117° to 124° 41′ W. long., and has an area of 69,994 sq. mls., or 44,796,160 acres.

Surface.—The Cascade Mts. intersect the territory from N. to S. and divide it into an eastern and western portion. This lofty range forms an unbroken mountain belt of from 5,000 to 8,000 feet in height above the sea, and bears a number of lofty peaks, as Mt. Baker in Whatcom co. (10,719 feet), Mt. Rainier in Pierce co. (14,444 feet), Mt. Adams in Klikitat co. (about 9,000 feet), and Mt. St. Helens in Skamania co. (about 9,750 feet). The portion of the territory which lies W. of the Cascade Mts. consists of the basin of Puget Sound, a very fertile plain, which is the northern continuation of the Willamette Valley of Oreg., having the same width and the same natural barriers; the Cascade Mts. in the E. and the Coast Ranges in the W. The latter extend along the coast of the Pacific Ocean from the Columbia R. to the Strait of Juan de Fuca, and attain their highest elevation in Mt. Olympus, Jefferson co., which is estimated to be 8,150 feet above the sea. Puget Sound extends for 280 mls. from N. to S. and has a very irregular outline. The main entrance into it from the Strait of Juan de Fuca is the Admiralty Inlet, between Jefferson co. and Whidby's Island. Between the Canal de Haro and the Rosario Strait lie the San Juan or Haro Islands, which were long claimed by Great Britain, but have recently been adjudged to belong to the United States by the Emperor of Germany, who had been invited by both governments to arbitrate their respective claims. The group includes the following islands: San Juan or Haro or Bellevue, Orcas, Lopez, Patos, Stuart, Waldron, John's, Speidens, Shaws, Blakeley and Decatur, besides some smaller ones.

The portion of the territory which lies E. of the Cascade Mts. is mountainous in the N., but in the S. consists of the "Great Plains" of the Columbia R., lying between this stream and its tributary the Snake R. These plains extend

from the Bitter Root Mts. in the E. to the Cascade Mts. in the W., cover an area of more than 25,000 sq. mls. and constitute an immense grazing ground. The soil consists uniformly of light loam, mixed with more or less alkali.

Rivers.—Wash. is drained chiefly by the Columbia R., which enters the N. E. extremity of the territory, flows S. S. W. to its junction with the Spokane R., which rises in the Bitter Root Mts., and then turns westward to its junction with the Okinakane R., which issues from Okinakane L. in British America. From this point it flows in a southerly direction, skirting the eastern foot-hills of the Cascade Mts., and receives its largest tributary, the Snake R. From the mouth of Walla Walla R., near the 46th parallel, the Columbia flows W., breaking through the Cascade Mts. Below Fort Vancouver it receives the Willamette R. of Oregon, and turns N. as far as the mouth of the Cowlitz R., whence it flows again W., emptying through a wide estuary between Cape Disappointment and Point Adams. The tributaries it receives from the Cascade Mts. are the outlet of Lake Chelan, the Pisquause R., the Yakima R., which joins it a short distance above the mouth of Snake R., the Klikitat R.; the Lewis R., which is formed by the North and South branches; the Cowlitz R., which receives Toutle and Tilton Rs., Strongs R. and Gray's R.

The north-western part of Wash. is drained by numerous small streams, which empty into bays and inlets of the Pacific Ocean. The Willopah R. empties into the large Shoalwater B., N. of the mouth of the Columbia. The Chehalis R. rises 40 mls. N. E. of the mouth of the Columbia, in the Coast Ranges, runs E. for 15 mls., receives the Newaukum R. and thence flows N. and N. W., emptying into Gray's Harbor. The Nisqually R. rises S. of Mt. Rainier, in the Cascade Mts., flows in a W. N. W. direction and empties into the southern extremity of Puget Sound, 11 mls. from Olympia. The Puyallup R. rises on the western slope of Mt. Rainier, and flowing parallel to the Nisqually R., through Pierce co., empties into Commencement B. of Puget Sound. The next river to the N. is the White, which empties into Elliott B. of Admiralty Inlet, and receives the Cedar R., which drains Samamish and Washington lakes. The Snohomish R. joins the waters of the Sound opposite Whidby's Island. Its upper course is called the Snoqualmie R., which rises in a pass of the Cascade Mts., of 3,000 feet elevation. A small river, the Stalukwamish, intersects the northern part of Snohomish co. and empties into Port Susan. The Skagitt R. drains a large portion of the Cascade Mts., has in the main W. S. W. course through Whatcom co. and joins the Sound by two separate channels, 7 mls. apart. The most northerly of these sound rivers is the Nooksahk, or Lummi, which rises N. of Mt. Baker and empties into Bellingham and Lummi Bs. by separate channels.

Climate and Vegetation.—Wash. has a much milder climate than the region in the same latitudes E. of the Rocky Mts. The mean annual temperature of the coast, the Puget Sound basin and the valleys of the Columbia and Snake Rs., is over 52°, and decreases to less than 44° toward the N. Meteorological observations made for several years at Fort Steilacum, in lat. 47° 7′ gave the following mean monthly temperatures: January, 38°; February, 40.12°; March, 41.12°; April, 48.12°; May, 56.10°; June, 61°; July, 61.14°; August, 64°; September, 56.14; October, 52.10°; November, 46°; December, 38°. Thus the difference between the coldest and hottest months of the year was but 26 degrees, and this equability characterizes the climate of the whole territory. The precipitation of moisture (rain and snow) is very unequally distributed. While the region W. of the Cascade Mts. receives from 36 inches, near that range, to 80 inches along the coast, an amount as great as that precipitated on the Mississippi Delta and southern Fla., the region E. of the Cascade Mts. ranks among the most arid in the United States, where the rain-fall ranges from 12 inches, on the plains, to about 20 and 24 inches in the more elevated districts. With regard to health, the territory compares favorably with any portion of the country, being free from malarious diseases and in every way conducive to vigor and longevity.

The Coast Ranges, the basin of Puget Sound and the western declivities of the Cascade Mts., including a few small prairie districts, are covered with dense forests of pines, firs and cedars. Maple, elm, ash and alder grow exclusively along the streams. The arid region E. of the Cascade Mts. is but moderately timbered, forests growing only among the mountains, while the extensive plains are covered with grasses and herbs.

Population.—Wash. was settled by emigrants from the northern and western states. In 1860, the population was 11,594, and in 1870, 23,955, of whom 22,195 were whites, 207 colored, 234 Chinese and 1,319 Indians. The Indians sustaining tribal relations numbered 13,477.

The natives of the United States numbered 18,931, including 6,982 natives of the territory; those of foreign countries numbered 5,024, of whom 1,121 were born in British America, 645 in Germany, 791 in England, 1,047 in Ireland and 309 in Scotland.

In all classes of occupations there were engaged 9,760 persons, viz.: in agriculture, 3,771; in professional and personal services, 2,207; in trade and transportation, 1,129; in manufactures and mechanical and mining industries, 2,653.

Minerals.—Gold is found on the Columbia R., especially in the N. E. corner of the territory. Coal of good quality has been discovered in various localities among the Coast Ranges, on the tributaries of the Columbia and on the small streams which empty into the Pacific Ocean. Very extensive coal fields occur near Bellingham B. and back of Seattle, on Lake Washington.

Agriculture.—The cultivable lands of Wash., though comprising but a small part of the total area, are sufficiently extensive to make agriculture the most important source of wealth. They are in the river bottoms and valleys and along the sea-coast, and consist chiefly of a sandy clay loam, which has been formed by the wash from the mountain sides. The average temperature of the three summer months (63 degrees) is sufficient to mature the earliest kinds of corn, to produce excellent potatoes and all kinds of root crops. The cool nights preclude the raising of the grape and the peach, but the apple, pear, plum and cherry bear regular and heavy crops of the best quality. Small fruit of every description is also produced in the greatest abundance.

East of the Cascade Mts. the country is mostly unoccupied, the settlements being confined to the Walla Walla, Columbia, Yakima and Palouse valleys, which contain large areas of good farm lands.

In 1870 there were 3,127 farms in the territory, of which 889 had from 3 to 10 acres; 415 from 10 to 20 acres; 772 from 20 to 50 acres; 424 from 50 to 100 acres; 575 from 100 to 500 acres; 40 from 500 to 1,000 acres, and 12 over 1,000 acres. The farms included 192,016 acres of improved land, 291,206 acres of woodland and 165,917 acres of unimproved land, and their cash value was $3,978,341. The estimated value of all farm productions, including improvements and additions to stock, was $2,111,902. There were produced 186,180 bush. of spring wheat, 30,863 bush. of winter wheat, 4,453 bush of rye, 21,781 bush. of Indian-corn, 255,169 bush. of oats, 55,787 bush. of barley, 280,719 bush. of Irish pot's, 1,682 lbs. of tobacco, 162,713 lbs. of wool, 407,306 lbs. of butter, 6,162 lbs. of hops and 30,233 tons of hay.

The live stock had a value of $2,103,343, and comprised 11,138 horses, 943 mules and asses, 16,938 milch cows, 2,181 working oxen, 28,135 other cattle, 44,063 sheep and 17,491 swine.

Manufactures.—The chief products of industry of the territory are lumber and flour. In 1870 it had 7 planing mills, producing planed lumber to the value of $616,100, and 46 saw mills producing sawed lumber to the value of $1,307,585. The yellow fir, which often grows 250 to 300 feet high and from 6 to 7 feet thick, is most used for lumber, as it is strong and durable and highly valued for ship-building. Masts for ships may readily be obtained straight and free from knots, more than 100 feet long. The mills stand mostly on Puget Sound, within easy reach of the ships, which take the prepared lumber to San Francisco, the Sandwich Islands, Japan, China and Europe.

There were, in 1870, 20 flouring and grist mills, turning out flour and meal to the value of $321,103. The total number of manufacturing establishments was 269, using 38 steam-engines, of 1,411 horse-power and 52 water-wheels of 1,412 horse-power. The hands employed numbered 1,026, the capital invested in manufacturing amounted to $1,893,674, and the wages paid to $574,936. The materials consumed had a value of $1,435,128, and the commodities produced of $2,851,052.

Commerce and Railroads.—The foreign commerce of Wash., consisting chiefly in the exportation of lumber, spars, piles, living animals and flour, is extensive and is carried on through the ports of Puget Sound, which constitutes the only customs district of the territory. In 1871 the imports from foreign countries had a value of $32,914; the exports of domestic commodities to foreign countries of $487,081, and of foreign commodities of $1,588. The commercial fleet owned in the territory consisted of 64 sailing vessels of 17,858 tons, 24 steamers of 3,032 tons and 8 unrigged vessels of 167 tons, making a total of 96 vessels of 21,058 tons.

The branch of the Northern Pacific R. R., from Puget Sound to Portland, Oreg., on the Columbia R., is the only railway of Wash. It runs from N. to S. through the Puget Sound basin, and is completed for a distance of 106 mls.

The Fisheries are destined to hold a prominent place among the business pursuits of the territory. Puget Sound, with its numerous inlets, bays and straits, is the center of this interest. It abounds in salmon of large size and the finest quality. Halibut is next in importance. Cod-fish are caught in various localities of the Pacific coast by vessels owned on the sound. For a distance of 50 mls. from its mouth, the Columbia R. offers great facilities for salmon fishing. The variety of salmon known as the "Chinook" comes in countless numbers, and is taken but a few hours removed from salt water. Five establishments on the river have canned nearly 2,000,000 pounds during the season of 1870. Shoalwater B. furnishes large quantities of oysters for the Pacific coast trade.

Wealth and Taxation.—The assessed value of real estate was, in 1870, $5,146,776, and of personal estate $5,496,087. The true or estimated value of both kinds of property was $13,562,164 in 1870, against $5,601,466 in 1860. The total, not national, taxation amounted to $163,992, of which $33,743 were territorial taxes, $119,291 county taxes and $10,955 city and town taxes. Wash. has no territorial debt.

Education.—By an amendatory act, approved July, 1854, there were reserved to the territories of Wash. and Oreg. two townships of land, of 36 sections each, to be selected for university purposes under the direction of the legislatures of said territories respectively. At the session of 1860-61, the Legislative Assembly of Wash. located the university at Seattle, and created a board of commissioners to locate lands, sell the same and contract for clearing and improving of the university site.

According to the census, there were, in 1870, 170 schools in Wash., with 85 male and 112 female teachers and 5,499 pupils, of whom 3,537 attended school. The number of public common schools was 154. The university had 1 male professor and 3 female teachers; 80 male and 59 female students.

Government.—Wash., formerly a part of Oreg., was organized as a territory in March, 1853. The Governor and Secretary are appointed by the President of the United States, and the Auditor and Treasurer are chosen under territorial authority. The Legislative Assembly consists of a Council and House of Representatives, and convenes annually on the first Monday in December. The Council is composed of nine members, elected for three years, and the House of Representatives is composed of thirty members, elected for one year.

The judicial power of the territory is vested in a Supreme Court, District Courts and Justices of the Peace. The Supreme Court consists of a Chief Justice and two Associate Justices, who hold their offices during a term of 4 years. One term of the Supreme Court is held annually at the seat of government. For District Court purposes, the territory is divided into three judicial districts, in each of which the Justices of the Supreme Court hold the sessions. For each of these districts a territorial Prosecuting Attorney is elected by the people for a term of two years.

The territory is divided into the following 22 counties: Chehalis, Clallam, Clarke, Cowlitz, Island, Jefferson, King, Kitsap, Klikitat, Lewis, Mason, Pacific, Pierce, Skamania, Snohomish, Stevens, Thurston, Wahkiakum, Walla Walla, Whatcom, Whitman, Yakima.

Olympia is the territorial capital, and has a population of 1,203. The other places of importance are Seattle, Steilacoom City and Port Townsend.

Washington, co. in Ala., S. W. part. Area about 1,000 sq. mls. Pop., 3,912; in 1860, 4,669. It borders in the W. on the state of Miss., and in the E. on the Tombigbee R. The surface is slightly undulating and the soil but moderately fertile. The N. W. corner is drained by small affluents of the Chickasawha R., the W. part by the Escatawba R. and the remainder by Sinta Bogue Cr., Bassett's Cr., Bilbos Cr. and Bates Cr. The Mobile & Ohio R. R. passes through the S. W. part of the co. Mt. Vernon is the co. seat. Agr. productions in 1870: Indian-corn, 57,034 bush.; Irish pot's, 363 bush.; sweet pot's, 14,260 bush.; cotton, 1,803 bales; butter, 315 lbs. Cash value of farms, $155,620. Total, estimated, value of all farm productions, including additions to stock, etc., $160,312. Value of manufactures, $21,750.

Washington, v. in Autauga co., Ala., 10 mls. N. W. of Montgomery.

Washington, co. in Ark., N. W. part; bordering on Ind. Ter. Area about 1,000 sq. mls. Pop., 17,266; in 1860, 14,673. The surface is hilly and in some parts mountainous. The central part of the co. is the highest, and forms the water-shed between numerous small streams. White R. intersects the N. E. corner. Fayetteville is the co. seat. Agr. productions in 1870: Wheat, 156,621 bush.; Indian-corn, 580,687 bush.; oats, 71,938 bush.; Irish pot's, 40,229 bush.; sweet pot's, 18,562 bush.; cotton, 81 bales; tobacco, 116,176 lbs. Cash value of farms, $2,037,060. Total, estimated, value of all farm productions, including additions to stock, etc., $762,535. Value of manufactures, $275,742.

Washington, the only co. of the D. C., with which it is co-extensive. Washington is the co. seat. Agr. productions in 1870: Wheat, 3,782 bush.; rye, 3,724 bush.; Indian-corn, 28,020 bush.; oats, 8,500 bush.; Irish pot's, 27,367 bush.; sweet pot's, 5,790 bush.; butter, 4,495 lbs.; hay, 2,019 tons. Cash value of farms, $3,800,230. Total, estimated, value of all farm productions, including additions to stock, etc., $319,517.

***Washington,** city, capital of the United States, territorial capital of the District of Columbia and co. seat of Washington co.; is situated on the N. bank of the Potomac R., between two tributaries of this stream known as Rock Cr. and the East Branch. It is the southern terminus of the Washington Branch of the Baltimore & Ohio R. R., 40 mls. S. of Baltimore, and the northern terminus of the Alexandria & Washington R. R., 7 mls. N. of Alexandria and 116 mls. N. of Richmond, Va. The distance from Washington to Philadelphia is 136 mls., to New York 226 mls. and to Boston 432 mls.

The site of the city was chosen in 1790, prior to which date there was here neither settlement nor village. In 1793 George Washington laid the corner-stone of the Capitol; in 1800 the seat of government was removed hither from Philadelphia, and two years later Washington was incorporated as a city. The area within the city limits is about 4½ mls. long by 2½ mls. wide, and includes over 11 sq. mls.

The plan of the city was made under the direction of George Washington and laid out by Andrew Ellicott. The whole site is traversed by streets running E. and W. and by streets running N. and S., so as to divide it into rectangular blocks. The streets running N. and S. are numbered; those running E. and W. are named alphabetically, A, B, C, etc., street. This general plot is again traversed by fifteen wide avenues, running diagonally from the N. W. to S. E. and from the N. E. to S. W. They are named from the fifteen states existing when the site of the city was chosen. Four of these avenues and North, South, East and West Capitol streets, converge at the Capitol, and four other avenues converge at the President's Mansion. Pennsylvania Avenue, which connects the latter with the Capitol, is the most important thoroughfare of the city.

There is perhaps no city in the Union that has a more beautiful situation than Washington. The portion of the city fronting the river forms a level plain about 40 feet above tide-water, while the inland or N. E. part includes rolling ground and picturesque hills, on the brow of one of which the National Capitol rears its proud and magnificent dome. Though situated at the head of navigation of a large stream, and having good railroad connections, Washington is not a commercial city, nor has it important manufacturing interests. It derives its prominent position solely from being the seat of the National Government, the residence of the Chief Magistrate and of the numerous officials and legislators who are entrusted by the American people with the administration and management of their public concerns.

Public Buildings.—The principal and by far the largest of the public buildings is the Capitol. It was destroyed by the British army in 1814, and rebuilt during the next ten years. Two immense wings have been added, the corner-stone of which was laid by President Fillmore in 1851. The whole structure now is 751 feet long from N. to S., and 325 feet wide. The dome, rising in the center, is 241 feet above the top of the building, and 396 feet 4 inches above the ground. The central portion of it (the old Capitol) is constructed of white sandstone, in the Renaissance style; the two wings are built of white marble, in the Corinthian style. In the center is a rotunda 96 feet in diameter, the walls of which are ornamented with historical paintings and sculptures. The dome is surmounted by a tholus, upon which stands a colossal statue of Freedom, in bronze, 18 feet high. On the first floor is the Law Library, the Folding Room of the House, the rooms for the Agricultural Committee, the Naval Affairs Committee, the Military Affairs Committee, the heating apparatus, the restaurants, etc. The second is the main floor, and contains the rotunda, the Library of Congress (with 250,000 volumes), the old Hall of Representatives and Senate Chamber, now the room for the Supreme Court, and in the wings the new Hall of Representatives and Senate Chamber, besides committee rooms, reception rooms and numerous offices. Notable among the many works of art which adorn the Capitol are the picture of "Western Emigration," by Leutze; the bronze door, by Crawford, at the eastern entrance to the Senate wing; the statue of Franklin, by Powers; the statue of Hancock, by Stone, and the picture of the "Battle of Chapultapec," by Walker.

The Post-office Department was erected in 1836 but has been greatly enlarged of late. It is a palatial Renaissance building with Corinthian columns, balustrades and other details. It covers an entire square between Seventh and Eighth streets and F and E streets, and is 300 feet long and 204 feet wide.

The Patent Office stands opposite the preceding, between Seventh and Ninth streets and F and G streets, and is 410 feet long and 275 feet wide, inclosing a quadrangle of 265 by 135 feet. It is built in the severe Doric style, and though quite plain is an imposing structure. The lower stories are divided into offices, while the third story forms one saloon, running entirely around the quadrangle, measuring 1,350 feet in length, and contains the collection of the models illustrative of the patents granted by the office.

The President's Mansion, often called the White House, is situated nearly midway between the Capitol and Georgetown, 1¼ mile from the former. It is 170 feet long and 86 feet wide, and is constructed of sandstone, paint-

ed white, in the Ionic order of architecture. The building stands in a beautifully laid out park or garden, and commands fine views down the Potomac R. to Alexandria and Fort Washington. A statue of Jefferson stands on the lawn N. of the building.

The War and Navy Departments are W. of the President's Mansion and inclosed within the same grounds. The former fronts on Pennsylvania Avenue and Seventeenth Street, and S. of it stands the latter. Both are plain but commodious, and will doubtless be replaced by more imposing structures.

The Treasury Department stands on Fifteenth Street, between Pennsylvania Avenue and G Street. It was commenced in 1836. It is built on the Ionic style, is 466 feet long, exclusive of the portico, and 266 feet wide, and is, next to the Capitol, the largest and most elegant structure in the Union. The building incloses three courts, each 130 feet square. The interior arrangements are admirable and the ornamentation impressive, and throughout in the most refined taste. The Cash Room, or Banking House, is especially worthy of mention, as being two stories high, entirely incased in rich marble and ornamented with columns, those of the lower story of white Tennessee marble and those of the upper story of Carrara marble.

The City Hall stands at the junction of Louisiana and Indiana avenues and at the head of Four-and-a-half Street. It is but partially completed and measures 200 feet in length. A fine marble statue of Abraham Lincoln stands in front of the building.

The Army Medical Museum is located on Tenth Street West, between E and F streets North. It was formerly Ford's Theater, ever memorable as the scene of the assassination of President Lincoln.

The State Department is temporarily located in a large brick structure on Fourteenth Street, and was formerly the Protestant Orphan Asylum. The new State Department is being erected S. of the Navy Department and will form the S. wing of the contemplated building for the State, War and Navy departments.

The National Observatory was founded in 1842, and is located on a high hill near the Potomac, between the President's Mansion and Georgetown. It is furnished with a fine telescope and all the necessary instruments and appliances of a first-class institution of this kind.

The Smithsonian Institution is situated on the Mall, and consists of a fine brown-stone structure, in the Norman or Romanesque style, with nine towers. It stands in an inclosure of about 50 acres, which is ornamented with trees and shrubbery. The entire length of the building, with wings, is 450 feet. The building contains valuable collections, illustrating the various branches of natural history, a fine library room and lecture room. This noble institution was endowed by James Smithson, an Englishman of liberal education, for the purpose of increasing and diffusing knowledge among men.

The Bureau of Agriculture stands directly W., and the National Armory E., of the Smithsonian Institution. Of the latter only the central part has been completed, which is 103 feet long and 57 feet wide.

At the southern end of the Mall, and near the river, stands the incompleted Washington Monument, which is designed to consist of a temple or Parthenon, with an obelisk of 600 feet in height. Thus far only 170 feet of the obelisk have been completed at a cost of $320,000.

The Arsenal grounds occupy Greenleaf's Point, the peninsula between the Potomac R. and the East Branch, and include the workshops and store-houses, with vast quantities of ammunition and ordnance, the commandant's residence and the quarters of the officers and men.

The Navy Yard, situated on the East Branch, occupies an inclosed ground of 27 acres. There are two large ship-houses, a copper-rolling mill, a naval store-house, foundries, and manufacturing shops, turning out guns, shot and shell, and nearly all articles needed to fit out a man-of-war. Two squares N. of the Navy Yard are the Marine Barracks, the headquarters of the United States Marine Corps; in the immediate neighborhood of the same is the Marine Hospital.

The Hospital for the Insane of the Army and Navy and District of Columbia is on the E. bank of the Potomac, nearly opposite the Navy Yard, and occupies one of the highest hills in the vicinity, affording the finest view of the city and the surrounding country.

The Military Asylum, or Soldiers' Home, stands on a plateau three miles N. of the capitol, is built in the Norman style, and when completed will be 593 feet long and 58 feet wide. At the center of the S. front rises a tower 82 feet high, from which a view is had of a panorama of country thirty miles in diameter.

The Botanical Gardens occupy the square immediately W. of the capitol grounds, between Pennsylvania and Maryland avenues. The hot and green-houses belonging to them are quite extensive, and are filled with numerous tropical trees, shrubs and flowers.

The Congressional Cemetery is about one mile E. of the Capitol, in a high and commanding situation, and contains many interesting monuments of prominent persons, as well as cenotaphs of all members of Congress who died while in office.

One of the most famous scientific institutions of the country is the United States Coast Survey, which occupies several large, but plain, brick structures at the corner of New Jersey Avenue, two blocks S. of the capitol grounds. Here are the maps of the harbors and coasts of the United States, reduced from original surveys, and beautifully engraved on copper. An able corps of military and naval officers and of civil engineers, draftsmen and scientific men perform the various labors. The present superintendent is the renowned mathematician, B. F. Pierce, who succeeded Professor A. D. Bache.

The Corcoran Gallery of Art is situated at the corner of Pennsylvania Avenue and Seventeenth Street, and contains on the second floor a fine collection of paintings. The building and the art treasures are the gift of the wealthy banker, W. H. Corcoran.

The equestrian statues of Jackson and of Washington, by the sculptor Clark Mills, are worthy of mention. The former stands on La Fayette Square, opposite the President's house, the latter at the intersection of Pennsylvania and New Hampshire avenues.

The Population of Washington was, in 1850, 40,001; in 1860, 61,122, and in 1870, 109,199, of whom 95,442 were natives of the United States, and 13,757 of foreign countries.

In all classes of occupations were engaged 41,188 persons, viz.: 284 in agriculture, 26,109 in professional and personal services (including 5,331 officials and employees of the civil government, 134 clergymen, 84 journalists, 370 lawyers, 288 physicians and surgeons, 357 teachers, 7,691 domestic servants, 6,656 laborers and 2,381 launderers and laundresses), 5,296 in trade and transportation, and 9,499 in manufactures and mechanical occupations.

Washington has an excellent system of public schools, which were attended, according to the last census, by 19,941 pupils. The higher educational institutions are the Co-

lumbian College (established at Philadelphia in 1814 and removed to Washington in 1821, and comprising a preparatory school, the college proper, the law school and the medical school), and the Howard University, which is intended for the training of teachers and for imparting education of the highest grade (specially to colored men, though not exclusively). Eight buildings are now in use. The Gonzaga College, formerly the Washington Seminary, was reöpened in 1848 under the direction of the Fathers of the Society of Jesus (Roman Catholic). It was incorporated by Congress in 1858. The Wayland Seminary was organized in 1865, having for its object the education of preachers and teachers for the colored people.

The Press of Washington comprises 26 papers, of which the following are dailies: "Washington Chronicle," "Washington Critic," "Washington National Republican," and "Washington Star."

Washington, co. in Fla., N. W. part. Area, 650 sq. mls. Pop., 2,302; in 1860, 2,154. The surface is uneven and the soil moderately productive. It is bordered on the S. by the Gulf of Mexico and indented by St. Andrew's B. The W. boundary is formed by the Choctawatchee R. and B. Vernon is the co. seat. Agr. productions in 1870: Oats, 100 bush.; Indian-corn, 34,900 bush.; sweet pot's, 13,061 bush.; cotton, 95 bales; rice, 475 lbs. Cash value of farms, $67,390. Total, estimated, value of all farm productions, including additions to stock, etc., $77,470. Value of manufactures, $50,700.

Washington, co. in Ga., E. part. Area, 510 sq. mls. Pop., 15,842; in 1860, 12,698. It extends from the Ogeechee R. in the N. E. to the Oconee R. in the S. W., and is drained by Buffalo Cr., Ohoopee Cr., Williamson's Swamp Cr. and other small streams. The surface is low and level, and the soil moderately productive. Sandersville is the co. seat. Agr. productions in 1870: Wheat, 11,557 bush.; rye, 15,822 bush.; Indian-corn, 313,487 bush.; oats, 3,877 bush.; Irish pot's, 303 bush.; sweet pot's, 43,590 bush.; cotton, 11,338 bales; butter, 36,152 lbs.; hay, 602 tons. Cash value of farms, $1,042,836. Total, estimated, value of all farm productions, including additions to stock, etc., $1,664,902. Value of manufactures, $218,846.

***Washington,** p. v. and the co. seat of Wilkes co., Ga., on a branch of the Georgia R. R., a few mls. N. of the intersection at Barnett. Center of a cotton and grain-growing region. Pop., 1,506. One newspaper.

In the E. it borders on Narragansett B.; in the S. on the Atlantic Ocean, and in the W. on the state of Conn. The Pawcatuck R., which forms part of the western boundary, is the largest stream. The surface is uneven and in the western part hilly; the soil is productive. The Stonington & Providence R. R. intersects the co. Kingston is the co. seat. Agr. productions in 1870: Wheat, 473 bush.; rye, 2,059 bush.; Indian-corn, 88,640 bush.; oats, 53,755 bush.; Irish pot's, 118,017 bush.; butter, 248,354 lbs.; hay, 20,425 tons. Cash value of farms, $3,590,767. Total, estimated, value of all farm productions, including additions to stock, etc., $828,864. Principal products of industry: Cotton goods, $1,417,806, and woollen goods, $3,906,643. Total value of manufactures, $6,083,320.

Washington, v. in Kent co., R. I., on Hartford, Providence & Fishkill R. R., 3 mls. S. of River Point. Pop. about 250.

Washington, co. in Tenn., N. E. part. Area, 510 sq. mls. Pop., 16,317; in 1860, 14,829. It borders in the S. E. on N. C., from which it is separated by the crest of the Unaka Chain, here called the Bald Mt. A large part of the co. is broken and mountainous. The Nolichucky R. flows through the southern part, while the Watauga R. washes the N. E. border. The Tennessee, Virginia & Georgia R. R. intersects the co. from N. E. to S. W. Jonesborough is the co. seat. Agr. productions in 1870: Wheat, 170,934 bush.; rye, 6,439 bush.; Indian-corn, 290,388 bush.; oats, 148,383 bush.; Irish pot's, 8,488 bush.; sweet pot's, 3,655 bush.; tobacco, 22,806 lbs.; butter, 167,677 lbs.; hay, 5,669 tons. Cash value of farms, $3,228,291. Total, estimated, value of all farm productions, including additions to stock, etc., $882,804. Value of manufactures, $234,354.

Washington, p. v. and the co. seat of Rhea co., Tenn., on the Tennessee R., 19 mls. N. W. of Athens on the East Tennessee & Virginia R. R. Pop., 223.

Washington, co. in Tex., central part. Area, 475 sq. mls. Pop., 23,104; in 1860, 15,215. The surface is undulating; the soil rich. The Brazos R. forms the E. boundary and Tegua Cr. the N. boundary. Brenham is the co. seat. Agr. productions in 1870: Indian-corn, 663,252 bush.; oats, 80 bush.; Irish pots, 11,814 bush.; sweet pot's, 59,092 bush.; cotton, 22,452 bales; butter, 157,237 lbs.; hay, 1,023 tons. Cash value of farms, $3,765,786. Total, estimated, value of all farm productions, including additions to stock, etc., $1,872,244. Value of manufactures, $121,150.

Washington, p. v. in the above co., on the Brazos R., 6 mls. S. of Navasota. Pop., inclusive of tn., 4,354.

Washington, co. in Utah Ter., forming the S. W. extremity of the territory. Pop., 3,064; in 1860, 691. It is occupied by the Wahsatch Mts. and intersected by the Virgin R. St. George is the co. seat. Agr. productions in 1870: Wheat, 5,444 bush.; Indian-corn, 5,769 bush.; oats, 835 bush.; Irish pot's, 10,209 bush.; sweet pot's, 153 bush.; butter, 5,060 lbs.; hay, 196 tons. Cash value of farms, $84,815. Total, estimated, value of all farm productions, including additions to stock, etc., $84,355. Value of manufactures, $160,113.

Washington, p. v. in the above co., 5 mls. N. E. of St. George. Pop., inclusive of tn., 463.

Washington, co. in Vt., N. central part. Area about 580 sq. mls. Pop., 26,508; in 1860, 27,612. The W. boundary is formed by the Green Mts. It is drained by the head waters and affluents of the Winooski, or Onion, R. The surface is uneven. The Green Mts. occupy the E. and W. parts. The Vermont Central R. R. passes through the co. Montpelier is the co. seat. Agr. productions in 1870: Wheat, 29,520 bush.; rye, 3,651 bush.; Indian-corn, 127,480 bush.; oats, 395,424 bush.; Irish pot's, 393,841 bush.; wool, 121,195 lbs.; butter, 2,218,224 lbs.; hay, 83,961 tons. Cash value of farms, $11,305,586. Total, estimated, value of all farm productions, including additions to stock, etc., $3,666,376. Value of manufactures, $1,876,585.

Washington, tn. in Orange co., Vt. Pop., 1,113.

Washington, p. v. in the above tn., 14 mls. S. S. E. of Montpelier.

Washington, co. in Va., S. S. W. part. Area about 485 sq. mls. Pop., 16,816; in 1860, 16,892. It borders in the S. on Tenn. Clinch Mt. trends along the north-western border and Iron Mountain along the south-eastern. Walker's Mt. extends through the co. from S. W. to N. E., and divides it into two picturesque valleys which possess an excellent soil. The western valley is traversed by the North Fork and the eastern by the Middle and South Forks of the Holston R. The co. abounds in valuable minerals, and is equally well adapted to farming and stock raising. Abingdon is the co. seat. Agr. productions in 1870: Wheat, 106,521 bush.; rye, 10,863 bush.; Indian-corn, 351,732 bush.; oats, 183,147 bush.; Irish pot's, 11,383 bush.; sweet pot's, 2,486 bush.; tobacco, 27,864 lbs.; butter, 187,010 lbs.; hay, 5,008 tons. Cash value of farms, $3,435,203. Total, estimated, value of all farm productions, including additions to stock, etc., $942,725. Value of manufactures, $763,771.

Washington, tn. in Alexandria co., Va. Pop., 555.

Washington, tn. in Norfolk co., Va. Pop., 2,124.

Washingtonville, p. borough in Montour co., Pa., on Chillisquaque Cr., 8 mls. N. N. W. of Danville. Pop., 172.

Washita, a tributary of the Red R.; rises in Polk co., Ark., flows E. to Hot Springs co., where it assumes a south-easterly course to the La. state line. Thence it flows S. and empties into the Red R. between Concordia and Catahoula parishes. It is about 600 mls. long and navigable as far as Camden, Ark., 300 mls. above its mouth. Its chief tributaries are Brushy Fork, Caddo Cr., Bayou d'Arbonne, Bayou Moro, Saline R., Bayou Boeuf, Bayou Bartholomew and Tensas R.

Washoe, co. in Nev., W. part. Pop., 3,091. Lies N. of Ormsby co. along the base of the foothills of the Sierra Nevada, and is one of the most important agricultural cos. of the state. Several mining districts have been located, and coal and galena have been found. Extensive forests of pine cover the E. range of the Sierra Nevada, which crosses this co., and yield valuable lumber. Hot springs are abundant in several localities. This co. includes the famous Comstock Vein, the most valuable deposit of silver ores thus far found in our country. It runs nearly in the direction of the magnetic meridian along the eastern slope of the Mt. Davidson Range. The co. seat is Washoe City. Agr. productions in 1870: Wheat, 2,874 bush.; rye, 175 bush.; Indian-corn, 820 bush.; oats, 8,825 bush.; Irish pot's, 17,570 bush.; butter, 9,690 lbs.; hay, 5,399 tons. Cash value of farms, $221,800. Total, estimated, value of all farm productions, including additions to stock, etc., $152,173. Value of manufactures, $828,630.

Washoe City, p. v. and the co. seat of Washoe co., Nev., 15 mls. S. of Reno. Pop., 552.

Washta, p. o. in Cherokee co., Iowa.

Washtenaw, co. in Mich., S. E. part. Area, 720 sq. mls. Pop., 41,434; in 1860, 35,686. The surface is level; the soil is deep and fertile. It is intersected by Huron R., the North Branch of the Raisin R., and the East Branch of the Grand R., which afford abundant water-power. There are many small lakes in the N. part. The Michigan Central R. R. passes through the co. Ann Arbor is the co. seat. Agr. productions in 1870: Wheat, 1,050,311 bush.; rye, 5,859 bush.; Indian-corn, 874,822 bush.; oats, 418,138 bush.; Irish pot's, 350,409 bush.; wool, 906,011 lbs.; butter, 1,248,586 lbs.; hay, 76,678 tons. Cash value of farms, $22,156,160. Total, estimated, value of all farm productions, including additions to stock, etc., $4,912,618. Value of manufactures, $3,668,462.

Waterbury, tn. in New Haven co., Conn. Pop., 13,105.

***Waterbury,** city in New Haven co., Conn., in Naugatuck Valley, at the junction of Great Brook, Mad R. and Naugatuck R., and on the Naugatuck R. R., at S. E. terminus of branch to Watertown and at present W. terminus of Hartford, Providence & Fishkill R. R., 32 mls. N. of Bridgeport and nearly the same distance N. by W. of New Haven. The site of the city

is an elevated plateau between the Mad and Naugatuck Rs., the residences extending up the slopes to the E. and N. The streets diverge from a central green or park, and great neatness is secured by almost perfect separation of the manufacturing and residential portions. Here are some fine school buildings and churches, a beautiful city hall and the Bronson Library, with 30,000 volumes. The city is in the midst of fine water-power, and owes its prominence to its manufacturing interests, involving a capital of nearly $10,000,000. They embrace wire-works, button factories, clock factories, and such products as traps, hooks and eyes, hoop-skirts, kerosene fixtures, German-silver ware, steel rolls, pins, suspenders, flasks, caps, etc. Pop. in 1830, 3,071; in 1840, 3,678; in 1860, 10,004; in 1870, 10,826, of whom 6,933 were natives of the United States and 3,893 foreign born. Three newspapers.

***Watertown,** city, and co. seat of Jefferson co., N. Y., on the S. side of Black R., a few mls. from its entrance into Black River B. of Lake Ontario and on the Rome, Watertown & Ogdensburgh R. R., at S. E. terminus of branch to Cape Vincent and at N. terminus of Utica & Black River R. R., 72 mls. N. by W. of Rome and 70 mls. S. by W. of Ogdensburgh. The river, which is here sixty yards wide, is crossed by a fine wire and several other bridges. In passing the city it falls twenty-four feet and continues in rapids for mls. below, affording practically inexhaustible water-power, which is largely employed by manufactories of woollen goods, paper, flour, machinery, iron utensils, farming implements, leather and lumber. The city contains three national banks, a fine court house, a United States arsenal, and several fine churches. It was laid out in 1805, and had, in 1840, a population of 5,027; in 1850, 7,201; in 1860, 7,557. In 1869 it was separated from the districts of Pamelia & Watertown, and in 1870 had a population of 9,336, of whom 6,707 were natives of the United States and 2,969 foreign born. Five newspapers.

WEST VIRGINIA, one of the middle states; is bounded on the N. by Pa. and Md., on the E. and S. by Va. and on the W. by Ohio and Ky. It extends from 37° 6′ to 39° 37′ N. lat., and from 77° 43′ to 82° 33′ W. long. Its area is estimated to be 23,000 sq. mls., or 14,720,000 acres. The Ohio R. separates it from Ohio, the Potomac R. from Md., the Big Sandy R. from Ky. and several ranges of the Appalachian Mts. from Va.

Surface.—W. Va. is elevated throughout and mostly mountainous. The south-eastern part of the state is traversed by mountain ranges, trending from the N. E. to S. W., and corresponds to the "Appalachian Country" of Va. Great Flat Top Mt. extends to the S. E. boundary of McDowell, Wyoming and Raleigh cos., and terminates on the western bank of the Great Kanawha R. It gives rise to the Big Sandy R. and projects several spurs in a northwesterly direction, as Cagey's Ridge, Barker's Ridge, Great Cherry Pond Mt. and others. The Great Peters Mt. separates Mercer and Monroe cos. from Va. The principal range of the Alleghany Mts. trends along the S. W. border of Greenbrier and Pocahontas cos., and then continues its N. E. trend to the banks of the upper course of the Potomac R. The part of the state lying E. of this range is intersected by a series of parallel mountains, inclosing narrow and exceedingly fertile valleys, which are drained by affluents of the Potomac. The most important of these ranges are the New Creek Mt., Patterson Creek Mt., the Middle Ridge, bounding the valley of the South Branch of the Potomac R. on the W., and the Great North Mt., forming the eastern boundary of Hardy and Hampshire cos. The cos. of Berkeley and Jefferson include the most northern section of the Shenandoah Valley and form the eastern extremity of the state. West of the principal range of the Alleghany Mts. are the Greenbrier Mt., Rich Mt. and the several ridges which separate the source streams of the Cheat R., as the Middle Mt., Shavers Mt. and others.

The western part of the state is a rolling tableland, gently sloping down from 2,500 feet in the E. to 900 feet on the banks of the Ohio R., and may be termed the Trans-Appalachian Country. It is intersected by tributaries of the Ohio R., which have eroded deep valleys, in many places a thousand feet below the general plateau level, so that navigable waters deeply penetrate into it. The bottom-lands of these valleys are of wonderful fertility, while the uplands are either well timbered or covered with beautiful meadow lands, well adapted to grazing and dairying. The Trans-Appalachian Country is traversed by several broad-topped ranges, as Gauley Mt., Kanawha Ridge, Guyandotte Mt. and Alum Mt.

Rivers.—The two principal streams of W. Va. are the Ohio and Potomac. Both flow along its borders and drain the state with numerous affluents. The South Branch of the Potomac traverses a highly picturesque and fertile valley between the Patterson Creek Mt. and Branch Mt. The tributaries of the Potomac are New Cr., Patterson Cr., the Little and Great Cacapon Rs., Rock Cr., Opequan Cr. and the Shenandoah R. The Monongahela and Cheat Rs. drain the northern cos. of the state and unite in Pa. The other tributaries of the Ohio are Fishing Cr., Middle Island Cr., the Little Kanawha R., which empties near Parkersburgh, the Great Kanawha R., which empties near Mt. Pleasant, and the Guyandotte R. The Big Sandy R. and its eastern branch, the Tug Fork, form the western boundary of W. Va.

The Climate of W. Va. is similar to that of the Piedmont Country of Va., and the mean annual temperature varies between 52 and 54 degrees. Rain falls in all seasons of the year and in sufficient quantity to support a luxuriant vegetation. It amounts to from 40 to 45 inches per annum.

Population.—W. Va. was, until 1861, a part of Va. In 1870 it had 442,014 inhabitants, of whom 424,033 were white and 17,980 colored. The natives of the United States numbered 442,014, of whom 381,296 were born in the state, 15,497 in Pa., 12,154 in Ohio, 1,359 in N. Y., 7,323 in Md. and

2,288 in Ky. The foreign born population amounted to 17,091, of whom 207 were natives of British America, 6,232 of Germany, 1,811 of England, 6,832 of Ireland, 746 of Scotland and 321 of Wales.

The population of 10 years of age and over numbered 308,424, and in all classes of occupations were engaged 115,229 persons, viz: 73,900 in agriculture, 16,699 in professional and personal services, 6,897 in trade and transportation and 17,673 in manufactures and mechanical and mining industries.

Minerals and Mining.—W. Va. is especially rich in cannel, splint and bituminous coal, one or more of these varieties being found underlying over 15,000 sq. mls. of territory, which belong to the great Appalachian coal field, an irregular oval area, extending from northern Pa. to northern Ala.—in the gorge of New R.—on the line of the Chesapeake & Ohio R. R., a canyon from 1,200 to 1,500 feet below the general level of the country. The lower coal measures have an exposed thickness of some 50 feet, and include a seam of good coal of 6 feet. At many other localities seams of coal appear exposed in the bluffs and hill slopes, clearly showing the vast amount of this indispensable mineral underlying the state. Moreover, the coal beds are so accessible as to require no special skill in mining nor expenditure for drainage and ventilation. On the Little Kanawha R. are some of the most productive oil wells in the country, and millions of gallons are annually exported from them. In the same region is mined a solidified petroleum, highly valued for the manufacture of lubricating oils.

This region is also underlaid by salt-bearing rocks; and artesian wells, which have been sunk at various points, especially on the navigable streams, produce a brine from which large quantities of salt are manufactured. On the Great Kanawha above Charleston, from 2,000,000 to 3,000,000 bushels of the very best salt are annually turned out. One establishment, the Snow Hill, producing half a million bushels, that gives a bushel of salt to forty-five gallons from nine wells between 800 and 900 feet deep, and mines the coal to evaporate it from the hills that overlook the works. Bromine is made from the waste at the same point. Iron ores, fire clay, valuable building materials, especially sandstones, as well as good glass-making sands, abound in many parts of the state.

Agriculture.—W. Va. has an abundance of the most fertile lands, especially in the numerous river valleys, and agriculture has heretofore been and still is the most important pursuit of the inhabitants. In 1870 it had 39,778 farms, of which 3,734 measured between 3 and 10 acres, 5,591 between 10 and 20 acres, 13,158 between 20 and 50 acres, 9,077 between 50 and 100 acres, 7,813 between 100 and 500 acres, and 242 between 500 and 1,000 acres. The farms included 2,580,254 acres of improved land (17.53 per cent. of the area of the state), 4,364,405 acres of woodland and 1,583,735 acres of unimproved land.

The cash value of farms was $101,604,381 and of farming implements $2,112,937. The amount of wages paid was $1,903,788, and the estimated value of farm productions, including improvements and additions to stock, was $23,379,692. The products consisted of 3,395 bush. of spring wheat, 2,480,148 bush. of winter wheat, 8,197,865 bush. of Indian-corn, 50,363 bush. of barley, 82,916 bush. of buckwheat, 1,053,507 bush. of Irish potatoes, 46,984 bush. of sweet potatoes, 2,046,452 lbs. of tobacco, 1,593,541 lbs. of wool, 5,044,475 lbs. of butter, 82,276 lbs. of flax, 490,606 lbs. of maple sugar, 780,829 gallons of sorghum molasses and 224,164 tons of hay.

The live stock had a value of $17,175,420, and comprised 90,469 horses, 2,139 mules and asses, 104,434 milch cows, 18,937 working oxen, 178,309 other cattle, 552,327 sheep and 268,031 swine.

Manufactures.—W. Va. had in 1870 2,444 manufacturing establishments, using 509 steam engines of 17,136 horse-power and 683 water-wheels of 10,195 horse-power. They employed 11,672 hands, who received $4,322,164 in wages. The capital invested amounted to $11,084,520, the raw materials used had a value of $14,593,701, and the commodities produced a value of $24,102,201. The principal products of industry, with their respective values, were as follows: Forged and rolled iron, $4,025,620; nails and spikes of cut and wrought iron, $4,665,000; pig iron, $577,200; flour and meal, $3,933,902; salt, $1,507,605; sawed lumber, $1,379,899; woollen goods, $370,191; boots and shoes, $349,018, and rectified coal oil, $432,650.

Commerce and Railroads.—The commerce of W. Va. consists in the importation of articles of consumption and the exportation of flour, iron, salt, coal and coal oil and other products. The principal railroad lines of the state are the Baltimore & Ohio R. R., the main line of which intersects it from the Md. line to Wheeling (159 mls.), and from which the Parkersburgh Branch turns off at Grafton (99 mls.); the Chesapeake & Ohio R. R., from the Va. state line to Huntington, on the Ohio R. (200 mls.); the Pittsburgh, Cincinnati & St. Louis R. R. and the Hempfield R. R. intersect the so-called "Panhandle," the northern extremity of the state, which lies between the Ohio R. and the Pa. state line. The total railroad mileage in 1873 was 480 mls.

Wealth, Taxation and Debt.—According to the census for 1870 the real estate had an assessed value of $95,924,774, and the personal estate of $44,613,499, or both kinds of property of $140,538,273. The true or estimated value of the same was $190,651,491. The taxation, not national, amounts to $1,722,158, of which sum $734,722 were state taxes, $555,885 county taxes and $431,551 town and city taxes.

During the fiscal year ended on September 30, 1872, the treasury receipts were $870,234, of which $128,678 was the unexpended balance on hand in the treasury from the preceding year. The total disbursements were $586,781, so as to leave a balance on hand of $283,452. The estimated receipts at the treasury for the year ending September 30, 1873, were $549,398, and for the year ending September 1874, $669,998, while the disbursements for the same two years were estimated at $502,144 and $466,696 respectively.

W. Va. has no state debt. It is, however, probable that it will assume one-third of the debt of Va., as it stood before the separation of the old state. The county debts amounted, in 1870, to $329,833, and the town and city debts to $231,934.

Education, Press, etc.—In pursuance of a requirement of the new constitution, a system of public schools has been inaugurated, which has already made good progress, and promises to provide educational facilities for all the children of the state. A permanently invested school fund has been created, which, in 1872, amounted to $250,300. This fund will be increased from certain sources set apart by act of the legislature, and the interest derived from it will lighten the state and local tax levies for school purposes. A State Superintendent of Free Schools is elected biennially by the Legislature, and in each county there is a county superintendent, who examines teachers, visits schools within his county and reports annually to the State Superintendent. There were, in 1872, 2,479 schools and 2,216 schoolhouses, which had cost $1,236,194. The number of children of school age (from 6 to 20 years) was 170,035, but of these only 85,765, or about one half, attended school.

The three normal schools (at Huntington, Fairmount and West Liberty) are in successful operation. The normal school at Huntington, called "Marshall College," was attended in

1872 by 195 pupils, 78 female and 117 male. The West Virginia University, at Morgantown, was organized in 1867 and is doing good work. A military department is connected with it.

The Press comprised, in 1870, 59 papers and periodicals, which had a circulation of 54,432. There were 4 dailies, 2 tri-weeklies, 48 weeklies, 2 semi-monthlies and 2 monthlies.

The charitable and penal institutions are the Hospital for the Insane at Weston, founded in 1857, and the West Virginia Penitentiary at Moundsville.

Government.—W. Va. formed part of the commonwealth of Va. until the latter seceded from the Union. In June, 1861, delegates from 39 cos. assembled at Wheeling to protest against the act of secession, and to organize a provisional government. Another convention met in August, 1861, and passed an ordinance providing for an election to be held in October to decide upon the question of organizing a new state to be called the "State of Kanawha," embracing 39 of the western cos. of Va. The constitution of the new state was ratified by the people in May, 1862. Congress passed an act, admitting the state on condition of the adoption of certain amendments to the constitution. These changes were made and ratified by the people, and on April 20, 1863, the President of United States declared, by proclamation, that the new constitution should take effect in 60 days from that date. In March, 1866, the cos. of Jefferson and Berkeley were recognized by Congress as annexed to the state of W. Va. Another convention was held, and the new constitution agreed upon in April 1872 was ratified in August.

The male citizens of the state are entitled to vote at all elections held within the counties in which they reside, except persons who have not resided in the state for one year, and in the county in which they offer to vote, for 60 days next preceding an election.

The legislative power is vested in a Senate and House of Delegates, which are styled, "the Legislature of W. Va." The Senate is composed of 24 members, one-half of whom are elected biennially for the term of 4 years. The House is composed of 65 Delegates, who are elected for two years.

The Executive Department consists of a Governor, Secretary of State, State Superintendent of Free Schools, Auditor, Treasurer and Attorney General, who is ex-officio Reporter of the Court of Appeals. These officers are elected by the legal voters of the state for a term of four years, commencing on March 4th next after their election.

The judicial power is vested in a Supreme Court of Appeals and in Circuit Courts and the judges thereof; in County and Corporation Courts and in Justices of the Peace. The Supreme Court is composed of four judges, who are elected by the voters of the state for the term of twelve years. It has original jurisdiction in cases of habeas corpus, mandamus and prohibition, and appellate jurisdiction in civil cases where the matter in controversy exceeds $100 in value, exclusive of costs; in controversies concerning the title or boundaries of land, probate of wills, the appointment or qualification of a personal representative, guardian, committee or curator, or concerning a mill, roadway, ferry or landing, or the right of a corporation or county to levy taxes. It has appellate jurisdiction in criminal cases where there has been a conviction for felony or misdemeanor in a Circuit Court, and where a conviction has been had in any inferior court and been affirmed in a Circuit Court. The state is divided into nine circuits, for each of which a judge is elected by the voters thereof, who holds his office for a term of eight years. A circuit court is held in every county twice a year. The Circuit Courts have the supervision of all proceedings before the County Courts and other inferior tribunals, and with certain exceptions have original and general jurisdiction of all matters at law where the amount in controversy exceeds $50. They have appellate jurisdiction in all cases of judgments, decrees and final orders rendered by the County Court where the matter in controversy exceeds $20 in value.

In each county there is a County Court, which is composed of a President and two Justices of the Peace. It holds six sessions during the year. The President is elected by the voters of the county for four years. Each county is laid off into districts, not less than three nor more than ten in number, in each of which one or two Justices of the Peace are elected by the voters thereof for four years.

W. Va. is divided into the following fifty-four counties: Barbour, Berkeley, Boone, Braxton, Brooke, Cabell, Calhoun, Clay, Doddridge, Fayette, Gilmer, Grant, Greenbrier, Hampshire, Hancock, Hardy, Harrison, Jackson, Jefferson, Kanawha, Lewis, Lincoln, Logan, Marion, Marshall, Mason, McDowell, Mercer, Mineral, Monongalia, Monroe, Morgan, Nicholas, Ohio, Pendleton, Pleasants, Pocohontas, Preston, Putnam, Raleigh, Randolph, Ritchie, Roane, Summers, Taylor, Tucker, Tyler, Upshur, Wayne, Webster, Wetzel, Wirt, Wood and Wyoming.

The state capital is Charleston, which has a population of 3,162. The other cities are Wheeling, pop., 19,280; Parkersburgh, pop., 5,546.

***Wheeling,** city, and co. seat of Ohio co., W. Va.; is situated on the E. bank of the Ohio R. and on both sides of Wheeling Cr., 92 mls. be-

low Pittsburgh and 379 mls. by rail W. by N. of Baltimore. The city occupies an alluvial plain extending some three miles along the R. and shut in on the east by hills. It is substantially built, but not prepossessing in appearance owing to the large use of bituminous coal in its manufactories. It is advantageously situated for river commerce, and in 1872 its commercial fleet numbered 136 vessels with a capacity of 14,000 tons. Its situation for inland commerce is equally eligible, being at the N. W. terminus of the Wheeling Division of the Baltimore & Ohio R. R., at W. terminus of Wheeling & Pittsburgh (Hempfield) R. R., and connected by a beautiful wire suspension bridge over the Ohio with Bridgeport, a station on the River Division of the Cleveland & Pittsburgh R. R. The surroundings are rich in coal-bearing and petroleum formations, and mining is an important interest. The contiguity of the coal-fields adapts the city for a manufacturing center, and in industries of this class it occupies a prominent position. The total number of manufacturing establishments in 1870 approximated 270, employing 7,000 horse-power, nearly 4,000 hands and a capital of $4,000,000, paying $2,000,000 in wages, using material to the extent of $3,500,000, and turning out an annual product of $10,500,000. The range of manufactured articles is wide, covering iron in all its varieties, nails, glassware, cotton goods, wire, flour, woollen goods, machinery, silk goods, white lead, etc. Wheeling became the co. seat in 1797. It was the capital of the state for a short period after separation of W. Va. from Va. In 1802 it contained 70 houses. Pop., in 1820, 1,567; in 1830, 5,221; in 1840, 7,885; in 1850, 11,391; in 1860, 14,083; in 1870, 19,280, 15,127 of whom were natives of the United States and 4,153 foreign born. Nine newspapers are published here, of which the "Intelligencer" and "Register" are dailies.

White Pine, co. in Nev., E. part. Pop., 7,189. It borders on Utah Ter., and is intersected from N. to S. by the following mountain ranges: Goshoot Mts., Towano Mts., Ungoweah Mts., Egan Mts., Pancake Mts. and the northern extremity of the Hot Creek Range. Gold and silver mining is the principal occupation of the inhabitants, but has of late not proved so successful as in former years. The once populous towns of Hamilton and Treasure Hill are fast approaching abandonment. The agricultural resources are good, and several of the valleys, as Steptoe, Spring and White River, have rich, arable lands, which with irrigation produce excellent crops. In the Pancake Range, 22 mls. due E. from Eureka, have been found some coal veins of a superior quality. Hamilton is the co. seat. Agr. productions in 1870: Irish pot's, 23,875 bush.; butter, 8,900 lbs.; hay, 6,318 tons. Cash value of farms, $120,400. Total, estimated, value of all farm productions, including additions to stock, etc., $226,129. Value of manufactures, $3,089,200.

***Williamsport,** city, and co. seat of Lycoming co., Pa., on N. bank of West Branch of Susquehanna R. and on West Branch Canal, 200 mls. by rail N. W. of Philadelphia and 96 N. of Harrisburgh. The city is beautifully situated amid picturesque surroundings, is handsomely laid out and contains many fine private and public buildings, among which are Dickinson Seminary, several large churches and first-class hotels. Its commercial facilities by canal and river are largely amplified by its railroad connections, it being on the Philadelphia & Erie R. R., the Northern Central R. R. and at N. W. terminus of Catawissa & Williamsport Branch of Philadelphia & Reading R. R. Its surroundings are productive of coal and iron, but the leading interest is that of lumber. Here are over fifty saw mills, with an annual capacity of 300,000,000 feet. The boom in the river at this point has a capacity of 300,000,000 feet of lumber at one time. Its other manufactures are extensive and varied. Pop. in 1850, 1,615; in 1860, 5,664; in 1870, 16,030. 13,404 of whom were natives of the United States and 2,626 were foreign born. Ten newspapers are published here, of which the "Gazette and Bulletin"

and "Register" are dailies and weeklies, and the "Standard," "National Democrat," "Sun," "Beobachter" and "Susquehanna Zeitung" are weeklies.

***Wilmington,** p. v. in the above tn., on San Pedro B.; is the S. terminus of the Los Angeles & San Pedro R. R.
***Wilmington,** city in New Castle co., Del., on Christiana Cr. above its junction with Brandywine R. and 2 mls. from the Delaware R.; is the N. terminus of the Delaware R. R., 48 mls. N. of Dover, the S. E. terminus of the Wilmington & Western R. R., and lies on the Philadelphia, Wilmington & Baltimore R. R., 28 mls. S. W. of Philadelphia and 70 mls. N. E. of Baltimore. It is the most populous city of the state; has regularly laid out wide streets and is surrounded by a rich agricultural district. The upper portion of the city is situated on a hill 110 feet above tide-water; contains many elegant residences and affords extensive views of the river and lower part, which contains the business houses and manufactories.

It was originally chartered as the "Borough of Wilmington" in 1739, and incorporated as a city in 1832. The population was 13,979 in 1850, 21,258 in 1860, and 30,841 in 1870, of whom 25,689 were natives of the United States and 5,152 of foreign countries. The number of whites was 27,630, and of colored persons 3,211. In all classes of occupations were engaged 12,908 persons, viz.: 1,268 in agriculture, 4,820 in professional and personal services, 1,506 in trade and transportation, and 5,314 in manufactures and mechanical industries. Manufacturing is the most important business of the inhabitants. On the Brandywine R. are some of the finest flouring mills in the country, to which vessels drawing not more than 8 feet can easily ascend. The city contains also yards for the construction of ships and steamboats, machine shops, cotton and woollen and other factories. In the neighborhood are Dupont's famous powder mills. Wilmington is the seat of the Academy of Visitation, a Catholic College, and of several excellent academies and private schools. Twelve newspapers are published here, of which the "Commercial," "Delaware Gazette," and "Every Evening," are dailies.

Wilmington, tn. in Will co., Ill. Pop., 2,766.
***Wilmington,** p. v. in the above tn., on the Kankakee R. and the Chicago & Alton R. R., 53 mls. from Chicago. It has a woollen and other factories, and is surrounded by a highly productive farming district. Pop., 1,828. One newspaper.

***Wilmington,** city and port of entry and co. seat of New Hanover co., N. C., on the E. bank of Cape Fear R., below its junction with Northeast Branch of same, and 34 mls. from the ocean; is the S. terminus of Wilmington & Weldon R. R., 162 mls. from Weldon, the E.

terminus of the Wilmington, Columbia & Augusta R. R. and the S E. terminus of Wilmington, Charlotte & Rutherford R. R. It is the largest city of the state, and has several manufactories, as saw mills, planing mills, rice mills, turpentine refineries, etc., but is chiefly important for its commercial activity. In 1871 the imports had a value of $121,476, and the exports of $2,409,245. The latter included rosin and turpentine, $573,036; tar and pitch, $13,955; spirits of turpentine, $1,658,530; boards and planks, $133,983, and some cotton and cotton manufactures. The commercial fleet consisted of 23 sailing vessels of 573 tons, and 18 steam vessels of 1,755 tons. The population was 7,264 in 1850, 9,552 in 1860, and 13,446 in 1870, of whom 12,876 were native of the United States and 570 of foreign countries. The number of whites was 5,526 and of colored persons 7,920. Six papers are published in this city, of which the following are dailies: the "Wilmington Journal," "Wilmington Post," and "Wilmington Star."

***Wilmington,** p. v. and the co. seat of Clinton co., Ohio, on Todd's Fork of the Little Miami R. and the Cincinnati & Muskingum Valley R. R., 56 mls. E. of Cincinnati; is the seat of a Quaker college, has several manufactories, and is surrounded by a fine agricultural district. Pop., 2,023. Two newspapers.

Winnebago Valley, p. v. in Houston co., Minn., 10 mls. S. of Hokah.

Winneconne, tn. in Winnebago co., Wis. Pop., 1,989.

Winneconne, p. v. in the above tn., on the Horicon Division of the Chicago, Milwaukee & St. Paul R. R., 21 mls. N. of Ripon. Is surrounded by a rich agricultural district, and largely engaged in the lumber trade and in manufacturing. Pop., 1,159. One newspaper.

Winnegance, p. v. in Sagadahoc co., Me., on the Kennebec R., 3 mls. from Bath.

Winnemucca, p. v. in Humboldt co., Nev., on the Humboldt R. and the Central Pacific R. R., 462 mls. E. of San Francisco, Cal., and 144 mls. W. of Elko. The vicinity contains some good farm lands. Pop., 290. One newspaper.

Winnemucca Lake, a long, narrow lake lying in Humboldt co., Nev., between the Lake Range and the Nightingale Mts.

Winnepiseogee Lake, in N. H., between Carroll and Belknap cos. The greatest length is nearly 25 mls., the greatest width 10 mls., and the area about 175 sq. mls. Its shape is very irregular and it includes many islands. It is deep, and has remarkably clear water. Its surroundings are mountainous and present magnificent scenery. It is drained by the Winnepiseogee R.

Winnepiseogee River, a branch of the Merrimac R. in N. H.; issues from Winnepiseogee Lake and unites with the Pemigewasset R. to form the Merrimac. Having considerable fall it affords excellent mill-sites.

Winneshiek, co. in Iowa, N. E. part. Area, 720 sq. mls. Pop., 23,570; in 1860, 13,942. The surface is undulating and the soil good, being adapted particularly to grazing. The co. is drained by Turkey R., Canoe Cr. and other small affluents of the Mississippi R. It borders in the N. on the Minn., and is intersected by the Iowa Division and Iowa & Dakota Division of the Chicago, Milwaukee & St. Paul R. R. Decorah is the co. seat. Agr. productions in 1870: Wheat, 1,479,331 bush.; rye, 1,030 bush.; Indian-corn, 700,191 bush.; oats, 822,400 bush.; Irish pot's, 77,525 bush.; wool, 42,233 lbs.; butter, 810,126 lbs.; hay, 42,246 tons. Cash value of farms, $8,119,041. Total, estimated, value of all farm productions, including additions to stock, etc., $2,888,244. Value of manufactures, $939,509.

Winnetka, p. v. in Cook co., Ill., on Lake Michigan and the Milwaukee Division of the Chicago & Northwestern R. R., 16 mls. N. of Chicago. Pop. about 30.

***Winnipauk,** p. v. in Fairfield co., Conn., on the Danbury & Norwalk R. R., 3 mls. from Norwalk. Pop. about 150.

Winnsborough, p. v. and the co. seat of Franklin parish, La., on Turkey Cr., 20 mls. S. of Rayville and 55 mls. W. of Vicksburgh, Miss. Pop. about 500. One newspaper.

Winnsborough, p. v. and the co. seat of Fairfield district, S. C., on the Charlotte, Columbia & Augusta R. R., 34 mls. from Columbia. It is the seat of Furman Theological Seminary, a Baptist institution, and has rich agricultural surroundings. Pop., 1,124. Two newspapers.

Winton, p. o. in Gonzales co., Tex.

Winona, p. o. in Henry co., Iowa.

Winona, p. o. in Trimble co., Ky.

Winona, co. in Minn., S. E. part. Area, 630 sq. mls. Pop., 22,319; in 1860, 3,729. The Mississippi R. washes the N. E. border of the co., and drains it with numerous small affluents. The surface is undulating and the soil very productive. The Chicago & St. Paul R. R. and the Winona & St. Peter R. R. intersect the co. Winona is the co. seat. Agr. productions in 1870: Wheat, 1,357,954 bush.; rye, 1,613 bush.; Indian-corn, 273,477 bush.; oats, 598,871 bush.; Irish pots, 79,074 bush.; butter, 478,425 lbs.; hay, 16,944 tons. Cash value of farms, $5,893,010. Total, estimated, value of all farm productions, including additions to stock, etc., $1,883,873. Value of manufactures, $1,811,-064.

Winona, tn. in Winona co., Minn. Pop., 7,679.

***Winona,** city in the above tn. and the co. seat, on the Mississippi R. and the Chicago & St. Paul R. R., 103 mls. S. E. of St. Paul and 307 mls. W. of Chicago. It is also the W. terminus of the La Crosse, Trempealeau & Prescott R. R., the E. terminus of the Winona & St. Peter R. R. It is the largest wheat market of the state, and has numerous manufacturing establishments, as carriage works, iron works, plow factories, planing mills and saw mills. The State Normal School and an excellent High School are located here. Pop., 7,192; in 1860, 2,464. Three newspapers.

***Winona,** p. v. and the co. seat of Montgomery co., Miss., on the Mississippi Central R. R., 23 mls. S. of Grenada. Pop. about 450. One newspaper.

Wiscasset, tn. in Lincoln co., Me. Pop., 1,977.

***Wiscasset,** p. v. in the above tn. and the co. seat, on the Knox & Lincoln R. R., 10 mls. E. of Bath and 50 mls. from Portland. It is a port of entry on the Sheepscot R., has a fine harbor, and is engaged in the lumber and coast trade, farming and manufacturing. One newspaper.

WISCONSIN is bounded on the W. by Minn. and Iowa, on the S. by Ill. and on the N. W. by the northern peninsula of Mich. With the exception of the southern border, which follows nearly the 43d parallel of N. lat., the limits are mostly determined by rivers and lakes, Lake Superior bordering it on the N., the Montreal and Menomonee Rs. (with a line connecting their sources) on the N. E., Lake Michigan on the E. and the Mississippi and St. Croix Rs. on the W. The greatest length from N. to S. is 302 mls.; the width varies from 146 mls. to 258 mls. The area is 53,924 sq. mls., or 34,511,360 acres.

Surface.—Wis. has no lofty mountain ranges, but its surface is considerably diversified. The northern section of the state is the highest, and from thence the surface gradually descends toward the S. E. and S. W. Lake Superior is 627 feet, and Lake Michigan 578 feet above the sea-level. The Mississippi R., as far as it skirts Wis., is but little higher than Lake Michigan, viz.: 24½ feet at Prairie du Chien, 55 feet at La Crosse and 99 feet at the mouth of the St. Croix R. A line crossing the state from Lake Michigan to the Mississippi, near the southern boundary, is but little more than 1,000 feet above the sea-level, or 500 feet above the lake, while the highest ground in the northern part of the state nowhere reaches 1,800 feet. The

Trap Range, which extends westward from Kewenaw Point, rises in the Porcupine Mts. to a height of 1,380 feet. Thus the greatest elevations near Lake Superior are less than 1,000 feet above the surface near the southern border of the state. This comparatively great height, attained so near the lake, gives a gentle inclination of the country to the southward, which will be more evident on observing the course of the principal rivers. Receding from the hilly country bordering Lake Superior, the whole of this northern central region is a vast plain, with here and there an isolated hill rising 200 or 300 feet above the general surface of the country. It is everywhere wooded, excepting the small areas which are occupied by swamps.

On the S. and W. of this great plateau, and limited by the Wisconsin R. on the S. and the St. Croix on the N., is a broad belt of country occupied by the lower sandstone formation. Its varieties of surface are mainly due to the denuding action of the streams, which have cut their channels deeply into the underlying rocks. The highest points of this belt are about 500 or 600 feet above Lake Michigan. On approaching the Mississippi and Wisconsin Rs., where the sandstone rises in steep slopes or abrupt cliffs, the plains are very productive, and the slopes may be converted into vineyards.

To the E. and S. E. of the northern central region the surface is covered by the drift materials of the N. The eastern side of the state presents a remarkable feature in the great valley, parallel to Lake Michigan, and in part occupied by Green B., the Fox R. as far as Lake Winnebago, and thence by Lake Horicon and Rock R. Eastward of this valley extends a narrow peninsula, beginning at Port de Morte, at the junction of Green B. and Lake Michigan, and widening toward the lake.

From the valley of the Wisconsin R. toward the S. the country rises in cliffs and precipitous slopes for 200 or 300 feet, and above this with a more gentle slope for as much more, the usual height being 600 or 700 feet above the river.

The eastern and southern sections of the state are by far the most valuable, having a fertile soil, and being well adapted to the raising of cereals and fruits. As long as agriculture shall be the chief pursuit of the inhabitants, the interior portion of the state which lies N. of the parallel of Portage City will be but slowly settled.

Rivers and Lakes.—Wis. enjoys extraordinary facilities for water transportation. Its coast-line on Lake Michigan is about 200 mls., on Lake Superior 120 mls. and on the Mississippi R. 400 mls. The affluents of Lake Superior, owing to the structure of the country, are short and have much fall. The Montreal R. descends about 800 feet in little more than 30 mls., and the fall of the other streams, which empty also into Lake Superior, as the Bad R., Bois Brulée R. and St. Louis R., is equally great. The Menomonee R., Peshtigo R., Oconto R., Pensaukee R. and Fox R., with its tributary the Wolf, run into Green B. The Mississippi receives the Wisconsin, Black, Chippewa and St. Croix Rs. The St. Croix is navigable for 60 mls., and the Chippewa as high up as the falls. The lakes and the Mississippi are connected by a short canal at Portage, uniting the navigable waters of the Fox and Wisconsin Rs., through which vessels may pass during high water. The bed of the Wisconsin from Portage to Sauk City has been freed from snags, and further improvements are in contemplation. The Rock R., which drains Lake Horicon, flows through the southern part of the state and unites with the Mississippi near Rock Island, Ill.

Climate.—The climate of Wis. is pleasant and cool, though not severe, and comparatively free from sudden changes. The southern part, embracing about one-third of the whole state, has a mean annual temperature of from 44° to 47°. In the northern part the mean annual temperature sinks down to about 41°. The summers are short; the winters long and dry. The average temperature of winter is 20°, of spring and fall 47° and of summer 72°. The annual rain-fall varies from 30 to 31 inches, and is nearly equal throughout the state. Snow generally falls before the ground is frozen and protects the plants and crops from the severe winter frosts.

The extensive forests which cover the northern and larger portion of the state yield excellent timber, and are a chief source of wealth of the state. They consist of basswood, maple, hickory, elm, ash, black walnut, butternut, oak, birch, poplar, hemlock, cedar and pine. The southern part of the state is an extensive prairie, without native tree or shrub, except on the banks of the streams.

Population.— The settlement at Green Bay, made in 1669 by the French, was the first within the limits of the state, and for a considerable period remained the only one. But of late the growth has been very rapid. In 1840 the population was 30,945; in 1850, 305,391; in 1860, 775,881, and in 1870, 1,054,670. This number includes 1,051,351 white persons and 1,206 colored persons and 1,206 Indians out of tribal relations. The Indians living on reservations, or agencies, numbered 10,315.

In regard to nativity the population was distributed as follows: Born in the United States 690,171, including 450,272 natives of the state, 5,714 of Conn., 12,233 of Ill., 6,415 of Ind., 2,423 of Iowa, 1,582 of Ky., 8,931 of Me., 10,403 of Mass., 5,302 of Mich., 2,103 of Minn., 1,386 of Mo., 4,908 of N. H., 3,194 of N. J., 105,697 of N. Y., 23,164 of Ohio, 21,358 of Pa., 1,152 of R. I., 16,421 of Vermont and 2,059 of Va. and W. Va., and born in foreign countries 364,499, including 25,666 natives of British America, 4,486 of Austria, 162,314 of Germany, 6,069 of Switzerland, 2,704 of France, 28,192 of England, 48,479 of Ireland, 6,590 of Scotland, 6,550 of Wales, 5,990 of Holland, 40,046 of Norway and 2,799 of Sweden.

The population of 10 years and over numbered 751,704, of whom 292,808 were engaged in all classes of occupations, viz.: 159,687 in agriculture, 58,070 in professional and personal services, 21,534 in trade and transportation, and 53,517 in manufactures and mechanical and mining industries.

Minerals and Mining.—Lead, iron, copper and building materials constitute the chief mineral resources of the state. The lead mines are situated in La Fayette, Green, Grant and Iowa cos., and yield about $500,000 worth of the metal per annum. The Penokee Iron Ridge, in Ashland co., is one of the most extensive in the country, and contains rich mines, yielding ores of superior quality. It is situated about 20 mls. from the port of La Pointe on Lake Superior. Extensive iron deposits are in Sauk, Jackson and Dodge cos. Copper mines occur in the region bordering on Lake Superior, but have thus far been developed to a limited extent only. Kaolin, or porcelain clay, is found at Grand Rapids on the Wisconsin R., and some zinc in the lead region. Peat and marl exist in vast beds, underlying the marshes, and are highly valued as fertilizers; the former being also useful as fuel.

Agriculture.—The best farming region of the state is the southern part, the prairies and river bottoms of which have a highly productive soil and are equally adapted to grain growing and stock raising.

In 1870 Wisconsin had 102,904 farms, of which 370 were under 3 acres large, 5,535 from 3 to 10 acres, 10,955 from 10 to 20 acres, 40,064 from 20 to 50 acres, 30,060 from 50 to 100 acres, 15,776 from 100 to 500 acres, 112 from 500 to 1,000 acres and 32 over 1,000 acres.

The farms included 5,899,343 acres of improved land, 3,437,442 of woodland and 2,378,536 of unimproved land. The cash value of farms was $300,414,064, and of farm implements $14,239,364. The amount of wages paid was $8,186,110, and the total, estimated, value of farm productions, including additions to stock and improvements, was $78,027,032.

The productions were: Spring wheat, 24,375,435 bush.; winter wheat, 1,230,909 bush.; rye, 1,325,294 bush.; Indian-corn, 15,033,998 bush.; oats, 20,180,016 bush.; barley, 1,645,019 bush.; buckwheat, 408,897 bush.; Irish pot's, 6,646,129 bush.; sweet pot's, 2,220 bush.; tobacco, 960,813 lbs.; butter, 22,473,036 lbs.; wool, 4,090,670 lbs.; hops, 4,630,155 lbs.; flax, 407,398 lbs.; maple sugar, 507,192 lbs.; honey, 299,341 lbs.; hay, 1,287,651 tons.

The live stock had a value of $45,310,882, and comprised 252,019 horses, 4,195 mules and asses, 308,377 milch cows, 53,615 working oxen, 331,302 other cattle, 1,069,282 sheep and 512,778 swine.

The vast forests of the state support a very extensive lumbering business, especially in the northern and western counties. The pineries of Marathon, Chippewa, Clark, Wood and St. Croix furnish millions of feet of lumber. The forest products in 1870 had a value of $1,327,618.

Manufactures.—The manufacturing industry of Wis. is steadily increasing, and in 1870 the state occupied the 13th place in the Union with regard to the value of manufacturing products. There were 7,013 establishments (against 3,064 in 1860), which used 926 steam-engines of 30,509 horse-power, and 1,288 water-wheels of 33,714 horse-power. The number of hands employed was 43,910; the amount of wages paid, $13,575,642, and the capital invested, $41,981,872. The materials consumed had a value of $45,851,266, and the commodities produced, of $77,214,326.

The principal products, with their respective values, were: Agricultural implements, $2,393,428; boots and shoes, $2,271,428; carriages and wagons, $2,596,534; men's clothing, $2,260,004; flour and meal, $20,419,877; furniture, $1,423,976; forged and rolled iron, $1,129,552; pig iron, $737,268; iron castings, $1,137,324; tanned leather, $2,013,093; curried leather, $2,360,347; malt liquors, $1,790,273; planed lumber, $614,270; sawed lumber, $15,129,869; sash, doors and blinds, $1,852,379, and woollen goods, $1,115,646.

Commerce and Railroads.—Wis. possesses excellent commercial facilities in the navigable waters that surround it on nearly all sides, and the rivers that intersect it, as the Wisconsin, Fox and Chippewa Rs. There are exported from the ports on Lake Michigan, especially from Milwaukee, large quantities of grain, flour and lumber. The foreign commerce, however, of the state is small; the exports and imports amounting in 1872 to only $1,595,079.

The first railroad was built in 1850. Ten years later the railroad mileage was 905; in 1870, 1,525, and in 1872, 1,878. The principal lines are the Milwaukee & St. Paul R. R., which, with its various branches, has a length of 1,396 mls.; the Mineral Point R. R., from Mineral Point to Warren, Ill., with a branch from Calamine to Platteville, (51 mls.); the Sheboygan & Fond du Lac R. R., (80 mls.); the West Wisconsin R. R., from Elroy to St. Paul, Minn. (197 mls.); and the Wisconsin Central R. R., from Menasha to Ashland (260 mls.), with branches from Menasha to Appleton City and from Stevens Point to Portage City.

Wealth, Taxation and Debt.—The assessed valuation in 1870, of real estate, was $252,322,107, and of personal estate, $80,887,731, making a total for both kinds of property of $333,299,838. The estimated or true value of the same, however, was $702,307,329, against $273,671,668 in 1860. The assessed valuation in 1871 was $455,300,800, and in 1872, $390,454,875. The state tax levied in 1871 was $629,143, or 1.38 mills on the assessed value of real and personal estate, and in 1872, $765,292, or 1.96 mills on the same.

At the close of the fiscal year, September 30, 1872, there was a cash balance in the treasury of $239,109. The receipts of the treasury during the same year amounted to $1,060,477 and the disbursements to $1,076,443. The disbursements comprised $337,595 for ordinary expenses, as salaries of state officers, legislative expenses, Supreme Court, Circuit Court, printing, stationary, etc., and $738,848 for extraordinary expenses, as for state institutions, $458,708; interest of state debt, $160,032, and special appropriations, $120,103.

The debt of the state on September 30, 1872, was $2,252,057, of which $2,233,900 were for certificates of indebtedness in trust for the school fund, university fund, normal school fund and agricultural college fund.

Education, etc.—Wis. has made liberal provisions for elementary and higher educational institutions. The public schools are under the supervision of a State Superintendent of Public Instruction and county and city superintendents.

In 1872 the number of children over 4 and under 20 years of age was 423,717, of whom 266,789 attended public schools, and 15,618 private schools. There were in the state 4,979 public school-houses and 5,304 teachers. The valuation of school-houses was $3,295,268.

The state has three Normal Schools, one at Platteville, one at Oshkosh, and one at Whitewater.

The State University, at Madison, is in a prosperous condition, and had, in 1870, 27 professors and 462 students, of whom 124 were females. It embraces a College of Letters, a College of Arts, a Preparatory Department and a Female Department. The College of Arts is the agricultural and scientific college of the state.

The other institutions for higher and professional education embrace 12 colleges, 5 academies, 1 law school and 3 theological schools.

The state maintains the following institutions for the support and education of the unfortunate: the Hospital for the Insane, at Madison; the Institution for the Education of the Deaf and Dumb, at Delavan; the Soldiers' Orphan Home, at Madison, and the State Reform School, at Waukesha. There is an Institute for the Blind, at Janesville. The State Prison, at Waupun, in 1872 had 186 convicts, being a less number than at any time during the six preceding years.

The Press of the state comprised, in 1870, 190 newspapers and periodicals, having an aggregate circulation of 343,335. Fourteen of these were dailies, 2 tri-weeklies, 3 semi-weeklies, 160 weeklies, 2 semi-monthlies and 9 monthlies.

Government.—Wis. formed part of the territory N. W. of the Ohio R. On the division of that territory it was included in the Ter. of Ind. In April, 1836, the Ter. of Wis. was organized and embraced the present state of Wis., and the region now forming Minn., Iowa and Dak. Ter. The first territorial government was inaugurated in July, 1836. In August, 1846, Congress authorized the people to form a state government. A convention drafted a constitution, which was approved by Congress, but rejected by the people on the ground that it prohibited banks and banking. The second convention adjourned in February, 1848, and the constitution which they submitted was ratified by the people in March of that year, and Wis. was admitted as a state into the Union by an act of Congress approved on May 29, 1848.

Every male person, of the age of 21 years and upward, belonging to either of the following classes, who shall have resided in the state for one year next preceding any election, shall be deemed a qualified voter at such election: 1. Citizens of the United States. 2. Persons of foreign birth, who shall have declared their intention to become citizens of the United States. 3. Persons of Indian blood, who have

once been declared by law of Congress to be citizens of the United States; and 4. Civilized persons of Indian descent, not members of any tribe.

The legislative power is vested in a Senate and Assembly. The Assembly, according to the constitution, shall never be less than 54 nor more than 100, and the Senate shall consist of a number not more than one-third nor less than one-fourth of the number of members of the Assembly. The members of the Assembly are chosen annually for one year, and the Senators annually for two years.

The executive power is vested in a Governor, who holds his office for two years. A Lieutenant-Governor is chosen at the same time and for the same term. There are further chosen at the time and places of choosing the members of the Legislature, a Secretary of State, Treasurer, and an Attorney General, who hold their offices for the term of two years.

The judicial power is vested in a Supreme Court, Circuit Courts, Courts of Probate and Justices of the Peace. The Supreme Court has appellate jurisdiction only; but in no case removed to the Supreme Court shall a trial by jury be allowed. It has a general superintending control over all inferior courts, and has power to issue writs of habeas corpus, mandamus, injunction, quo warranto, certiorari and other original and remedial writs. It holds at least one term annually at the seat of government.

The state is divided into five judicial districts, for each of which a judge is chosen by the qualified electors therein. The Circuit Courts have original jurisdiction in all matters civil and criminal, and appellate jurisdiction from all inferior courts and tribunals, and a supervisory control over the same. A Circuit Court is held at least twice in each year in each county of the state, organized for judicial purposes. There is chosen in each county by the qualified electors thereof a Judge of Probate, who holds his office for two years; and the electors of the several towns elect Justices of the Peace, whose term of office is also two years.

Wis. is divided into the following 58 counties: Adams, Ashland, Barron, Bayfield, Brown, Buffalo, Burnett, Calumet, Chippewa, Clark, Columbia, Crawford, Dane, Dodge, Door, Douglas, Dunn, Eau Claire, Fond du Lac, Grant, Green, Green Lake, Iowa, Jackson, Jefferson, Juneau, Kenosha, Kewaunee, La Crosse, La Fayette, Manitowoc, Marathon, Marquette, Milwaukee, Monroe, Oconto, Outagamie, Ozaukee, Pepin, Pierce, Polk, Portage, Racine, Richland, Rock, Sauk, Shawano, Sheboygan, St. Croix, Trempealeau, Vernon, Walworth, Washington, Waukesha, Waupaca, Waushara, Winnebago and Wood.

The capital of the state is Madison, which has a population of 9,176. The other cities, with their population, are Milwaukee, 71,440; Oshkosh, 12,663; Fond du Lac, 12,764; Racine, 9,880; La Crosse, 7,785; Watertown, 7,550; Janesville, 8,789; Sheboygan, 5,310; Manitowoc, 5,168; Green Bay, 4,666; Appleton, 4,518; Kenosha, 4,309; Beloit, 4,396; Portage, 3,945, and Beaver Dam, 3,265.

Wisconsin, tn. in Jackson co., Minn. Pop., 193.

Wisconsin River, a tributary of the Mississippi R. in Wis.; issues from the Vieux Desert Lake on the N. boundary of the state, flows nearly S. as far as Kilburn City, then turns E. to Portage City and from here flows S. W. to its entrance into the Mississippi, 4 mls. below Prairie du Chien. The entire length exceeds 600 mls., and it is navigable for small boats as far as Portage City, 200 mls. above its mouth. The principal tributaries are the Tomahawk R., which drains numerous lakes in Marathon co., the Pelican R., the Rib R., the Big and Little Eau Claire Rs., the Big and Little Aux Plains Rs., the Plover R. and the Kickapoo R.

Wiscoy, tn. in Winona co., Minn. Pop., 523.

Worcester, co. in Md., forming the S. E. extremity of the state. Area about 500 sq. mls. Pop., 16,419; in 1860, 20,661. It is bounded on the E. by the Atlantic Ocean and Chincoteague Sound, and on the W. partly by the Pocomoke R. St. Martin's R. intersects the co. The surface is low and level and the soil moderately fertile. Snow Hill is the co. seat. Agr. productions in 1870: Wheat, 20,674 bush.; rye, 20 bush.; Indian-corn, 606,944 bush.; oats, 157,700 bush.; Irish pot's, 60,845 bush.; sweet pot's, 44,836 bush.; butter, 39,460 lbs; hay, 28 tons. Cash value of farms, $3,461,948. Total, estimated, value of all farm productions, including additions to stock, etc., $822,453. Value of manufactures, $286,633.

Worcester, co. in Mass., occupying the central part of the state. Area about 1,500 sq. mls. Pop., 192,716; in 1860, 159,659. Its surface is considerably diversified by hills and isolated peaks, as Mt. Wachusett and others. The soil is productive and well cultivated. The western part is drained by Miller's R., Chicopee R. and other tributaries of the Connecticut R., and the eastern part by Nashua, Blackstone and Thames Rs. Numerous R. R. lines intersect the co. Worcester is the co. seat. Agr. productions in 1870: Wheat, 10,016 bush.; rye, 20,612 bush.; Indian-corn, 284,886 bush.; oats, 173,349 bush.; Irish pot's, 639,305 bush.; sweet pot's, 24 bush.; butter, 1,275,897 lbs.; hay, 130,185 tons. Cash value of farms, $22,495,282. Total, estimated, value of all farm productions, including additions to stock, etc., $6,351,411. Principal products of industry: Agricultural implements, $391,000; bleaching and dyeing, $908,355; boots and shoes, $18,904,922; carpets, $1,180,000; men's clothing, $552,444; cotton goods, $7,814,126; edge tools, $614,000; flour and meal, $1,298,216; chairs, $3,114,622; hardware, $988,493; hats and caps, $727,725; iron castings, $1,392,092; curried leather, $1,371,393; machinery $4,866,896; paper, $1,037,104; printed cotton goods, $1,451,490; straw goods, $830,950; wire, $2,230,072; woollen goods, $9,543,908, and woosted goods, $1,182,320. Total value of manufactures, $74,579,759.

***Worcester,** city and the co. seat of Worcester co., Mass., on the Boston & Albany R. R., 44 mls. from Boston and 54 mls. from Springfield; is the S. terminus of the Fitchburgh & Worcester Division of the Boston, Clinton & Fitchburgh R. R., the N. terminus of the Worcester Division of the Boston, Hartford & Erie R. R., the N. W. terminus of the Providence & Worcester R. R., the S. terminus of the Worcester & Nashua R. R. and the S. E. terminus of the Boston, Barre & Gardner R. R. The city is beautifully situated in the richest agricultural region of the state, partly in the valley of the Blackstone R. and partly on the hills inclosing the valley. The streets are wide and mostly intersect each other at right angles. Main street is the principal thoroughfare, and contains several fine churches and the principal business houses and hotels. Near its lower end is the Oread Seminary, and Central Park is E. of the street. Passing N. many fine business blocks are seen, with St. Paul's church (Catholic), Trinity church (Methodist), the High School, etc. On the right is the Mechanics' Hall, and on the side streets, diverging to the left, are the Post-office, the building of the Young Men's Christian Association and the Free Library, which contains 32,000 volumes. The rooms of the Natural History Society, with valuable collections, are on Foster street. On Main street, beyond Mechanics' Hall and the Bay State House, is the old Exchange Hotel, where Washington and La Fayette stopped, and just beyond it the Congregational church, the Court House and the building of the American Antiquarian Society, which has a library of 50,000.

Worcester has numerous fine educational and literary institutions, as the Classical and English High School, the Oread Seminary, for young ladies, the College of the Holy Cross (Roman Catholic), the State Normal School, the Free Industrial School, with lecture halls, laboratories and all appliances for instruction in architecture, civil engineering, chemistry, etc., and the Highland Military School. The State Lunatic Asylum is near Lake Quinsigamond. In the Park stands the Gothic monument erected in honor of Colonel T. Bigelow, and near it will be raised the Soldiers' Monument, with bronzes cast in Munich.

Worcester was settled in 1669. In 1850 it had a population of 17,049; in 1860, 24,960, and in 1870, 41,105, of whom 29,159 were natives of the United States, and 11,946 of foreign countries. In all classes of occupations were employed 16,527 persons, viz.: in agriculture, 567; in professional and personal services, 4,539; in trade and transportation, 2,339, and in manufactures and mechanical industries, 9,082.

Worcester is, next to Boston, the chief manufacturing city of the state, and produces cotton and woollen goods, hollow ware, iron castings, carpets, railroad cars, agricultural implements, pistols, musical instruments, telegraph and other wire, paper, saddles, harness and mechanics' tools.

Six newspapers are published in the city, of which the following are dailies: "Worcester Gazette," "Worcester Press," and "Worcester Spy."

Worcester, tn. in Otsego co., N. Y. Pop., 2,327.

Worcester, p. v. in the above tn., on the Susquehanna R. and the Albany & Susquehanna R. R., 5 mls. N. E. of Schenevus and 60 mls. W. S. W. of Albany; contains several flouring mills and is a thriving agricultural place.

WYOMING, territory in the western part of the United States; is bounded on the N. by Mont. Ter., on the E. by Dak. Ter. and Nebr., on the S. by Colo. Ter. and Utah Ter., and on the W. by Mont. Ter., Idaho Ter. and Utah Ter. It extends from 41° to 45° N. lat. and from 104° to 111° W. long. It is 355 mls. long from E. to W. and 276 mls. wide from N. to S., and has an area of 97,980 sq. mls. or 62,645,120 acres.

Surface.—Wyo. is a mountainous region. The Rocky Mts. trend through it from the S. E. to the N. W., and with their subordinate ranges occupy the larger part of its area. The principal chain of the great system is here interrupted by the South Pass and the valley of the Sweetwater R., which intersects the territory from W. to E. South of this valley are the Sweet Water Mts. and the Black Hills, which bound the Laramie Plains on the N. and E., and still further S. the northern prolongations of the Medicine Bow Mts., the Elk Mts. and the Sierra Escalante, with its spurs, the Bishop, Queen and Horned Mts., which enter the territory from Colo. Ter.

North of the South Pass rises the Wind River Range, the highest of the territory, supporting the lofty Fremont Pk. (13,570 feet), Union Pk., Mt. Hayden (13,858 feet) and others. The Rattlesnake Hills bound the valley of the Sweet Water R. on the N. and terminate on the banks of the North Platte R. The Big Horn Mts. con-

sist of several chains, which cover a large region E. of the Big Horn R., and the Black Hills (not to be confounded with the chain of the same name mentioned before) extend from Dak. Ter. into Wyo. Ter., and occupy a region of more than 6,000 sq. mls., between the North and South Forks of the Cheyenne R. Their highest pks. attain an attitude of over 6,700 feet.

Rivers and Lakes.—Wyo. is intersected by the great continental divide, here formed by the Rocky Mts. The N. E. part of it is drained by affluents of the Missouri R., as the Yellow Stone, Big Horn, Platte and others, and the S. W. part by the Green R., a branch of the Colorado of the West.

The Yellow Stone R. issues from the Yellow Stone Lake in the N. part of Uintah co., and traverses that famous region which has been made by act of Congress a National Park, to be kept forever in its natural state, with its stupendous canyons and waterfalls, geysers and volcanic springs, and to remain unoccupied by settlers. Wind River has its rise near Fremont's Pk.; flows S. E. for nearly 100 mls. along the eastern foothills of the Wind River Mts., and after receiving the Popo Agie, turns N. and passes along the base of the Big Horn Mts. under the name of Big Horn R. Grey Bull R. and Bad Water Cr. are its principal affluents in this territory. Powder R. rises in the Big Horn Mts., and with its tributaries Little Powder Cr., Salt Clear Fork and Crazy Woman's Fork, drains a large portion of N. E. Wyo.

The North and South Forks of the Shyenne R. intersect the E. part of the territory and drain the lofty group of the Black Hills with numerous small affluents. The North Platte R. enters Wyo. from the North Park of Colo. Ter., flows N. N. W. to its junction with the Sweet Water R. and then turns gradually E. through the valley between the Rattlesnake Hills and the Black Hills, receiving Big and Little Laramie Rs. and other affluents.

The Green R. rises in the Wind River Mts. and flows S. into Utah Ter. It receives the Big Sandy R., Bitter Cr., Current Cr., Muddy Fork and Henry's Fork, beside numerous smaller affluents. West of the Wind River Mts. rise two branches of the Snake R., the Gros Ventres and John Gray's Rs.

Climate.—The climate of Wyo. is marked by great extremes, though on the whole mild and very salubrious. The mean annual temperature along the Rocky Mts. is about 36° and thence increases to 45° and 46° in the eastern part and to 42° in the south-western. The winters are extreme, especially among the mountains, but the summers are warm and in the valleys hot. The amount of rain and snow falling during the year averages about 12 inches, and only in the extreme eastern portion it rises to 16 inches and over.

The vegetation is scanty. Many of the mountain slopes and foothills produce bunch and buffalo grasses, occasionally with scattering pine, spruce and aspen timber, while the higher mountain flanks and the crests of the lower ranges are covered with pine, spruce and hemlock forests. The trees often attain a large size and yield excellent lumber.

Population.—Wyo. had, in 1870, 9,118 inhabitants, of whom 8,726 were white, 183 colored, 143 Chinese and 66 Indians. The Indian tribes living on reservations and agencies were estimated at 2,400 persons.

The native population numbered 5,605 and the foreign population 3,513, inclusive of 329 natives of British America, 652 of Germany, 556 of England, 1,102 of Ireland and 260 of Scotland.

In all classes of occupations were engaged 6,645 persons, of whom 165 were engaged in agriculture, 3,170 in professional and personal services, 1,646 in trade and transportation and 1,664 in manufactures and mechanical and mining industries.

Minerals and Mining.—Like all the territories or states of the far west, Wyo. is rich in mineral treasures. Gold mines have been opened near several stations of the Pacific R. R., and new discoveries have been made in other sections. Gulch mining for gold is also carried on with good success.

Extensive coal fields exist, often in juxtaposition with rich iron deposits. The large coal field which extends along the eastern base of the Rocky Mts. from Lodge Pole Cr. to the Arkansas R. in Colo. Ter., lies partly within this territory. On Cooper Cr., W. of Laramie, a seam of coal 9 feet thick has been opened, and there are others in the same locality of still greater thickness. Along the Union Pacific R. R. in the Western part of the territory numerous coal discoveries have been made, and if they should all belong to the same bed, the area underlaid by productive coal measures would be quite extensive and include the entire plateau of Green R.

Iron seems also to be very abundant. The valley of the Chug Water R. is rich in magnetic iron ore of superior quality, and other ores are known to exist in the Black Hill country. Gypsum, copper and lead occur in several localities, but are not yet worked.

Agriculture.—The aridity of the climate renders irrigation indispensable in farming, and as only the narrow valleys along the streams can be irrigated the area fit for farming is quite limited.

In 1870 there were 175 farms in the territory, 164 of which had less than 10 acres. The farms included 338 acres of improved land, 35 acres of woodland and 3,968 acres of unimproved land. The cash value of farms was $18,187, and the total, estimated, value of farm productions, including improvements and additions to stock, $42,760. According to the census the productions were oats, 100 bush.; Irish pot's, 617 bush.; wool, 30,000 lbs.; butter, 1,200 lbs.; and hay, 3,180 tons. The live stock had a value of $441,795, and included 584 horses, 283 mules and asses, 707 milch cows, 922 working oxen, 9,501 other cattle, 6,409 sheep and 146 swine.

The 32 manufacturing establishments produced goods to the value of $765,424. They used 13 steam-engines of 310 horse-power, and two water-wheels of 34 horse-power. The number of hands employed was 502; the capital invested amounted to $889,400; the wages paid to $347,578, and the materials consumed had a value of $280,156. The principal products of industry, with their values, were sawed lumber, $158,000; railroad ties, $110,000; milled quartz, $76,600; tin, copper and sheet-iron ware, $40,320; and boots and shoes, $41,640.

The Union Pacific R. R. intersects the southern part of Wyo. from E. to W., and has within the same a length of 470 mls. The Denver Pacific, connecting Cheyenne with Denver, Colo. Ter., has been completed.

Wealth and Taxation.—The assessed value of real estate was, in 1870, $863,665, and of personal estate, $1,653,083. The true, or estimated, value of both kinds of property, together, was $7,016,748.

The territorial taxes amounted to $6,163, and the county taxes to $28,308.

Government.—The Governor and Secretary are appointed by the President of the United States for four years. The Legislative Assembly consists of a Council of nine members and a House of Representatives of thirteen members.

The judicial power is vested in a Supreme Court, District Courts, Probate Courts and Justices of the Peace. The Supreme Court consists of a Chief Justice and two Associate Justices, any two of whom constitute a quorum, and who hold a term at the seat of government annually. They are appointed by the President of the United States for four years. The

territory is divided into three judicial districts, and in each of them a District Court is held by one of the Justices of the Supreme Court.

The territory is divided into the following 5 counties: Albany, Carbon, Laramie, Sweetwater and Uintah.

The territorial capital is Cheyenne City, which has 1,459 inhabitants.

Wyoming, p. v. in Kent co., Del., on the Delaware R. R., 3 mls. S. of Dover. Is the seat of Wyoming College. Pop., 280. One newspaper.

Yellow Stone, p. o. in La Fayette co., Wis.
Yellow Stone River, a tributary of the upper Missouri R.; is the outlet of Yellow Stone Lake in N. W. Wyo. Ter. It flows first to the N., and after emerging from the Rocky Mts., turns to the E. and empties near Fort Union. It is probably over 1,000 mls. long, and receives the Big Horn, or Wind, R., the Tongue R. and Powder Horn R. The region which surrounds the Yellow Stone Lake and the upper course of the river has been reserved from settlement or sale by act of Congress, and constitutes the famous Yellow Stone Park, measuring 55 by 65 mls. In weird beauty and magnificent grandeur it doubtless surpasses any landscape on the globe. It was in comparatively recent times the scene of the most wonderful volcanic activity. From a thousand fissures were poured forth unlimited quantities of lava, fragments of rock and volcanic dust, and even now some 3 or 4 sq. mls. include hundreds of active hot springs and geysers, or the remains of springs which have ceased to flow. The lake from which the Yellow Stone R. issues, is about 20 mls. long and 15 mls. wide, and has a wild, irregular but beautiful shore line. Its area is about 300 sq. mls., its greatest depth 300 feet and its elevation above the sea 7,427 feet. It lies upon the summit divide of the continent, and receives no tributaries, its waters coming solely from the snows of the lofty mountains that hem it in on every side. A short distance from this lake the river commences its passage through a series of rents and rifts in the solid crust of the earth, either falling over precipices or coursing through deep and gloomy canyons. At the mouth of Tower Cr. the Great Canyon commences. Twenty mls. in length, it is impassable throughout, and inaccessible at the water's edge except at a few points. Its rugged edges are from 200 to 500 yards apart, and its depth is so great that no sound ever reaches the ear from the bottom. Down, down, down, the river is seen attenuated to a thread, tossing and dashing against the massive walls which imprison it. Obstructed by massive boulders and jutting points, it rushes madly on its solitary course. At the upper end of this canyon the river plunges down in two grand cataracts, known as the Upper and Lower Falls. For some distance before it reaches the former the river breaks into rapids, and narrowed between the rocks as it approaches the brink, leaps in a sheet of snow-white foam over a nearly perpendicular precipice about 140 feet high. The stream, which is about 200 feet wide between the falls, narrows again as it approaches the Lower Fall, and here plunges over a level shelf of rock 350 feet high, in a compact, solid sheet. The canyon here is 1,000 feet deep, its vertical sides rising darkly to shelving summits.

The banks of the Yellow Stone abound with ravines and canyons which are cut through the hardest rocks. The most remarkable of these is the Canyon of Tower Creek and Column Mt. The latter is composed of successive pillars of basalt overlying a thick stratum of cement and gravel. The canyon of Tower Cr. is about 10 mls. in length, and is so deep and gloomy that it has been called the "Devil's Den." About 200 yards before it enters the Yellow Stone, the creek makes a perpendicular fall of 165 feet, which is surrounded with columns of volcanic breccia, some resembling towers, others the spires of churches, and still others the slender minarets of a mosque. Below the falls, the stream descends in numerous rapids with great velocity through a gloomy gorge, to its union with the main river.

York, co. in Pa., S. part. Pop., 76,134; in 1860, 68,200. The Susquehanna R. forms the entire eastern boundary of the co., and drains it with its tributaries Muddy Cr., Codorus Cr. and Conewago Cr. Yellow Breeches Cr. washes the northern border. The northwestern portion of the co. is occupied by the South Mts. and Conewago Hill; the remainder has an undulating surface. The soil is generally fertile and well cultivated. The Northern Central R. R. intersects the co. from N. to S., and from it branches off the York & Wrightsville R. R. and the Gettysburgh R. R. York is the co. seat. Agr. productions in 1870: Wheat, 1,129,750 bush.; rye, 121,035 bush.; oats, 1,444,763 bush.; Indian-corn, 1,531,541 bush.; Irish pot's, 248,461 bush.; sweet pot's, 29,905 bush.; butter, 1,734,895 lbs.; hay, 92,820 tons. Cash value of farms, $36,358,454. Total, estimated, value of all farm productions, including additions to stock, etc., $6,443,180. Principal products of industry: Cordage and twine, $691,090, and flour, $986,499. Total value of manufactures, $7,028,934.

York, tn. in the above co. Pop., 2,594.

***York,** p. borough and co. seat of York co., Pa., on Codorus Cr. and on the Northern Central R. R., at W. terminus of the York Branch of the Pennsylvania R. R., 28 mls. S. of Harrisburgh and 24 mls. W. of Lancaster. It is regularly laid out, substantially built, and contains many handsome churches and private residences. It is surrounded by a rich agricultural region, is the center of a large produce trade and the seat of several large manufactories, such as foundries, car factories and planing mills. Pop., 11,003. Eight newspapers, one of which is daily.

York, district in S. C., N. part. Area about 600 sq. mls. Pop., 24,286; in 1860, 21,502. It extends from the Catawba R. in the E. to Broad R. in the W., and is drained by Buffalo, Allison's, King's and Fishing Crs. The surface is hilly and in the northern part mountainous. King's Mt., near the northern border, is the highest elevation in the co. The Charlotte, Columbia & Augusta R. R. and the King's Mountain R. R. intersect it. Yorkville is the co. seat. Agr. productions in 1870: Wheat, 57,839 bush.; rye, 420 bush.; Indian-corn, 353,174 bush.; oats, 46,114 bush.; Irish pot's, 7,141 bush.; sweet pot's, 18,435 bush.; cotton, 6,010 bales; butter, 130,633 lbs. Cash value of farms, $1,516,639. Total, estimated, value of all farm productions, including additions to stock, etc., $1,316,715. Value of manufactures, $238,297.

York, co. in Va., S. E. part. Area about 70 sq. mls. Pop., 7,198; in 1860, 4,949. The co. borders in the N. E. on the York R. and Chesapeake B.; has a level or but slightly undulating surface, and on the whole a fertile soil. In York R. are extensive oyster beds, and the shipping of oysters to the northern cities is one of the principal branches of industry of the inhabitants. Yorktown is the co. seat. Agr. productions in 1870: Wheat, 3,289 bush.; rye, 94 bush.; Indian-corn, 107,103 bush.; oats, 12,060 bush.; Irish pot's, 12,416 bush.; sweet pot's, 12,954 bush.; butter, 18,411 lbs. Cash value of farms, $484,734. Total, estimated, value of all farm productions, including additions to stock, etc., $176,478. Value of manufactures, $199,643.

Yortysville, p. o. in Washington co., Pa.
Yosemite Valley, in Mariposa co., Cal.; is one of the most remarkable wonders of the world. It is situated on the Merced R., 140 mls. S. E. of San Francisco, but nearly 250 mls. distant by any of the usually traveled routes. It consists of a narrow gorge 8 mls. long and from a half to a mile in width, and is inclosed in granite walls rising with perpendicular faces and towering rocks from 3,000 to 6,000 feet above the bottom. It was discovered in 1851 by Major I. D. Savage, while in pursuit of a band of predatory Indians. Approaching the valley from the Mountain-View House, the traveler, after a rough ride of 12 mls., reaches Inspiration Point, a little green plateau, some 20 feet sq., and raising his eyes to the E. beholds in one glance the whole Yosemite Valley, with its mountains, rocks, barren domes of gray granite, waterfalls and winding streams. The descent into the valley is toilsome and takes about 3 hours. According to I. D. Whitney, of Howard University, the Yosemite owes its existence to the subsidence of the ground, and is not, as some have asserted, a rent produced by some volcanic action, in which case the opposite walls would exhibit parallel faces, the projections of one side corresponding to cavities on the other. The bottom and the talus or debris at the base of the rocks are covered with grass, shrubbery and trees. On every hand are seen the beautiful and many-colored "manganita" and "madrona," and the colossal red-wood conifers, peculiar to the Pacific slope.

The principal objects of interest in the valley are the following: El Capitan, a colossal rock with perpendicular sides, 3,300 feet high, standing near the W. end of the Yosemite. On the opposite side are the Cathedral Rocks, 2,600 feet high, and standing like isolated church spires, with the beautiful Bridal-Veil Falls, descending 940 feet into the valley. The Virgin's Tears Cr. makes a fine fall, over 1,000 feet high, in a deep recess of the rocks near the lower corner of El Capitan. Farther up the valley is the group of rocks known as the Three Brothers, the highest of which is 4,000 feet high, and beyond these are the Yosemite Falls, 2,634 feet, or about half a mile in height, consisting of three leaps of 1,600 feet, 434 feet and 600 feet, respectively. East of this wonderful cataract are the Royal Arches, a vast, rocky wall with perpendicular sides. On the south side of the valley, and beyond the Cathedral Rocks, is the Sentinel Rock, near which looms up the gigantic Sentinel Dome. Farther to the E. the Yosemite divides into two valleys, the northern of which is traversed by Tenaya Cr., which expands near the Half Dome, the loftiest and most imposing mountain in the whole valley, being 6,000 feet high, into the Mirror Lake, a small but exceedingly picturesque body of clear water; while the southern, or the Little Yosemite Valley, is rendered attractive by the Vernal Falls, and higher up by the Nevada Falls, which are both formed by the Merced R.

By an act of Congress, the Yosemite Valley and the Mariposa Grove of Big Trees were granted to the state of Cal. upon the condition that they should be kept as public lands, inalienable for all time.

(For a full description the reader is referred to Prof. I. D. Whitney's Yosemite Guide Book.)

Yuba, co. in Cal., central part. Pop., 10,851; in 1860, 13,668. A part of the W. boundary is formed by the Feather R. This co. includes a part of the lower slopes and foothills of the Sierra Nevada, and extends into the great low plain of Cal., which is traversed by the Sacramento R. A large extent of its area consists of rich farming and grazing lands, while about one-fourth of it is mining land. Agriculture is the leading pursuit. Much gold is however gained from the placer and hydraulic mines. The rivers traversing the co. are all tributaries of the Feather R., and flow in deeply cut valleys, having mostly a southwesterly course. Marysville is the co. seat. Agr. productions in 1870: Wheat, 147,347 bush.; rye, 213 bush.; Indian-corn, 33,245 bush.; oats, 27,867 bush.; Irish pot's, 9,256 bush.; sweet pot's, 1,442 bush.; wool, 63,425 lbs.; butter, 100,695 lbs.; hay, 14,081 tons. Cash value of farms, $1,350,827. Total, estimated, value of all farm productions, including additions to stock, etc., $906,224. Value of manufactures, $1,337,831.

Yuba Gap, a pass in the Sierra Nevada of Cal., 6,642 feet high, in lat. 39° 38′ N.

Yuba River, a tributary of Feather R., in Cal., is formed by the confluence of the North, Middle and South Forks. The former runs through Sierra co., the Middle Fork forms the boundary between Sierra and Nevada cos., and the latter traverses Nevada co. The three forks flow through deep valleys of the Sierra Nevada. The Yuba enters the Sacramento at Marysville.

Yucatan, tn. in Houston co., Minn. Pop., 610.

Yucatan, p. o. in the above tn

Yuma, co. in Ariz. Ter., S. W. part. Area about 7,000 sq. mls. It is bounded on the W. by the Colorado R. and on the N. by Bill Williams Fork. The southern part is intersected by the Gila R., a large tributary of the Colorado. The surface consists largely of sandy desert plains and mountain chains, as the Sierra Cabeza, Prieta and Sierra del Gila. Only some portions of the river valleys are fit for farming. Ehrenberg is the co. seat. Cash value of farms, $5,400. Total, estimated, value of all farm productions, including additions to stock, etc., $30,340. Value of manufactures, $55,700.

Zumbro, tn. in Wabasha co., Minn. Pop., 458.
Zumbro Falls, p. o. in the above tn.
Zumbrota, tn. in Goodhue co., Minn. Pop., 784.
Zumbrota, p. v. in Goodhue co., Minn., 22 mls. S. of Red Wing, the co. seat.
Zumbrota River traverses Wabasha co., Minn. and empties into the Mississippi below Wabasha.
Zuni Mountains, an elevated chain in W. N. Mex. Ter.; trends N. N. W. and forms the water-shed between the Rio Grande and the Gila R.
Zuni River, a tributary of the Little Colorado R.; rises in the Zuni Mts. of N. Mex. Ter. and has a S. W. course.
Zuni Station, p. v. in Isle of Wight co., Va., on the Norfolk & Petersburgh Division of the Atlantic, Mississippi & Ohio R. R., 17 mls. N. W. of Suffolk. Pop. about 400.
Zurich, v. in Wayne co., N. Y., on Sodus Point & Southern R. R., 10 mls. S. of Sodus Point.
Zwingle, p. o. in Dubuque co., Iowa.

APPENDIX.

ALADDIN, borough in Armstrong co., Pa. Pop., 29.

Albion, v. in Oswego co., N. Y. (See Sand Bank, the p. o.)

Allentown, borough in Alleghany co., Pa., near Pittsburgh. Pop., 772.

Alma, v. in St. Clair co., Ill. (See Ridge Prairie, the p. o.)

Amsterdam, v. in Hancock co., Iowa. (See Upper Grove, the p. o.)

Annapolis, v. in Crawford co., Ohio. (See Sulphur Spring, the p. o.)

Antioch, v. in Oglethorpe co., Ga. (See Stephens.)

Arrapahoe, new co. in Kans., W. part. Area, 720 sq. mls. It consists of undulating prairies, is well adapted to stock raising and is intersected by the Arkansas R.

Arrocoma, v. and the co. seat in Logan co., W. Va., on Guyandotte R., 44 mls. from Kanawha Court House. The p. o. is Logan Court House.

Ashmore, new co. in Dak. Ter., S. E. central part. It borders in the W. on the Missouri R. The eastern part of the co. is occupied by the Plateau du Coteau du Missouri. The soil is moderately productive.

Auburn, v. in Fond du Lac co., Wis., 20 mls. S. S. E. of Fond du Lac. The p. o. is New Cassell.

Ayer Junction, v. in Middlesex co., Mass., on the Peterborough & Shirley Branch of the Fitchburgh R. R., the Worcester & Nashua R. R. and the Stony Brook R. R. It is a flourishing place and an important railroad center. The p. o. is Ayer.

BALD EAGLE, v. in Blair co., Pa., on the Bald Eagle Valley R. R., 5 mls. N. E. of Tyrone. The p. o. is Olivia.

Bangor, v. in York co., Pa. (See West Bangor.)

Barbour, new co. in Kans., S. W. part. Area, 720 sq. mls. It has an undulating surface and is admirably fitted for stock raising. Nescutunga R. intersects the S. W. corner of the co. and Medicine Lodge Cr. drains the greater part of it.

Baxter, new co. in Ark., N. part. Area, 550 sq. mls. It borders in the N. on Mo. and in the W. on White R. and the Buffalo Fork of White R. The latter stream also intersects it and receives the Big North Fork. The surface is rolling and in some parts hilly; the soil is productive. The co. was formed of parts of Fulton, Marion, Izard and Searcy cos. Mountain House is the temporary co. seat.

Beadle, new co. in Dak. Ter., E. part. This co. is intersected from N. to S. by the Dakota R., which drains it with several small affluents. The soil along the streams is productive.

Bellevue, borough in Alleghany co., Pa., near Alleghany City. Pop., 384.

Benton, v. in Crawford co., Ohio, 13 mls. from Bucyrus. The p. o. is Poplar.

Berkeley, co. in W. Va., N. E. part. Pop., 14,900; in 1860, 12,525. The Potomac R. forms its N. E. boundary and Opequan Cr. its S. E. The surface is mountainous; North Mt. passing through its W. center in a N. E. and S. W. direction. Parallel with it and beyond the valley of Back Cr. is Third Hill Mt., and on its western border is Sleepy Creek Mt. Its valleys are highly productive. It is drained by Back Cr., Opequan Cr. and other tributaries of the Potomac. The co. is intersected by the Baltimore & Ohio R. R. Martinsburgh is the co. seat. Agr. productions in 1870: Wheat, 296,975 bush.; rye, 6,265 bush.; Indian-corn, 297,639 bush.; oats, 107,588 bush.; Irish pot's, 17,738 bush.; wool, 41,147 lbs.; butter, 239,493 lbs.; hay, 8,529 tons. Cash value of farms, $5,487,717. Total, estimated, value of all farm productions, including additions to stock, etc., $1,120,041. Value of manufactures, $8,144.

Berlin, v. in Washington co., Md., on the Potomac R. and the Baltimore & Ohio R. R., 75 mls. N. W. of Washington and 6 from Point of Rocks. Pop., 208.

Berwick, borough in Adams co., Pa. Pop., 325.

Black Hand, v. in Licking co., Ohio. (See Toboso, the p. o.)

Blakely, borough in Luzerne co., Pa., near Olyphant. Pop., 659.

Bloomfield, v. in Muskingum co., Ohio, 4 mls. from New Concord. The p. o. is Sago.

Bloomfield, v. in Pickaway co., Ohio. (See South Bloomfield, the p. o.)

Bloomfield, borough in Perry co., Pa. Pop., 655. (See New Bloomfield, the p. o.)

Bloomingville, v. in Hocking co., Ohio. (See South Bloomingville, the p. o.)

Boonsborough, v. in Caroline co., Md., on the Maryland & Delaware R. R., 7¾ mls. S. W. of Goldsborough. Pop., 835. The p. o. is Ridgely.

Boreman, new co. in Dak., central part. The Missouri R. forms the eastern boundary and drains the co. with its tributaries Cannon Ball R. and Ree, or Grande, R. The surface is rolling and the soil moderately productive.

Boston, v. in Halifax co., Va. (See South Boston, the p. o.)

Bottineau, new co. in Dak. Ter., N. part. It borders in the N. on the British territory of Swan River, is intersected by the Souris, or Mouse, R. and has rolling surface with a moderately productive soil.

Boxborough, tn. in Middlesex co., Mass. Pop., 338.

Braddocks, borough in Alleghany co., Pa., on the Monongahela R. and on the Pittsburgh, Washington & Baltimore R. R., 10 mls. S. E. of Pittsburgh. The p. o. is Braddock's Field. Pop., 1,290.

Bradford, v. in White co., Ind., on the Louisville, New Albany & Chicago R. R., 8 mls. N. of Reynolds. The p. o. is Monon.

Breese, v. in Clinton co., Ill. Pop., 489. (See Shoal Creek Station, the p. o.)

Brentwood, v. in Scott co., Minn. (See Sand Creek, the p. o.)

Bridgeport, v. in Bedford co., Pa., on Wills Cr. and the Pittsburgh, Washington & Baltimore R. R., at the southern terminus of the Bedford Division of the Pennsylvania R. R., 135 mls. from Pittsburgh and 15 mls. N. of Cumberland, Md. The p. o. is New Bridgeport.

Bridgeport, borough in Fayette co., Pa., on Monongahela R. near Brownsville. Pop., 1,199.

Bridgeton, borough in Bucks co., Pa. Pop., 944.

Bridgewater, borough in Beaver co., Pa., on Beaver R., below Brighton. Pop., 1,119.

Brookings, new co. in Dak. Ter., S. E. part. It borders on Minn., and has an undulating surface and fertile soil. The western part is intersected by the Big Sioux R., the eastern is drained by small affluents of the Minnesota R.

Brook's Station, v. in Bullitt co., Ky., on the Louisville & Nashville R. R., 14 mls. S. of Louisville.

Brown, v. in Terrell co., Ga., on the Central R. R. of Georgia, 8 mls. S. W. of Smithville. The p. o. is Powers.

Brown Deer, v. in Milwaukee co., Wis. (See Ten Mile House, the p. o.)

Brown's Switch, v. in Luzerne co., Pa. (See Old Forge, the p. o.)

Buffalo, new co. in Kans., W. part. Area, 720 sq. mls. It consists of undulating prairies, which are admirably adapted to stock raising. It is drained by small tributaries of the Arkansas R., which intersects the S. W. corner of the co.

Burbank, new co. in Dak. Ter., N. E. part. It is intersected from N. to S. by the Cheyenne R., a tributary of the Red River of the North; has a rolling prairie surface and a moderately productive soil.

Burchard, new co. in Dak. Ter., S. E. central part. This co. is situated on the Plateau du Coteau du Missouri; has an elevated or rolling surface and is drained by small tributaries of the Dakota R., which forms the eastern boundary.

Burleigh, new co. in Dak. Ter., central part. This co. is bounded on the W. by the Missouri R., whose affluents, Prairie Cr., Long Lake Cr., Apple Cr. and others, drain it. The eastern part extends to the Plateau du Coteau du Missouri, and has an elevated surface and a moderately productive soil.

CADIZ JUNCTION, v. in Harrison co., Ohio, on the Pittsburgh, Cincinnati & St. Louis R. R., 25 mls. W. of Steubenville. The p. o. is Means.

Calhoun, v. in Portage co., Ohio. (See Windham, the p. o.)

Campbell, new co. in Dak. Ter., central part. It is bounded on the W. by the Missouri R., from the bottom of which the surface gently rises toward the eastern part, which lies on the Plateau du Coteau du Missouri. The soil is moderately fertile.

Campbells, v. in Guernsey co., Ohio, on the Central Ohio Division of the Baltimore & Ohio R. R., 8¼ mls. E. of Cambridge. The p. o. is Gomber.

Campbell's Corners, v. in Oakland co., Mich. (See Oakwood.)

Carrollton, v. in Muhlenburgh co., Ky. Pop., 240. (See South Carrollton, the p. o.)

Carrollton, v. in Montgomery co., Ohio. (See West Carrollton, the p. o.)

Cass, new co. in Dak. Ter., E. part. It borders in the E. on the Red River of the North, which separates it from Minn., and is drained by numerous tributaries of this stream, as the Cheyenne R. and others. The surface is gently undulating and the soil productive, especially along the Red River.

Castleton, v. in Ontario co., N. Y., 5½ mls. from Hopewell. The p. o. is Seneca Castle.

Cavileer, new co. in Dak. Ter., N. E. part. It borders in the N. on the British territory of Manitoba, has a rolling surface and is drained by affluents of the Red River of the North. The soil is but moderately productive.

Centre Ridge, v. in Mercer co., Ill., 5 mls. W. of Lynn Centre on the Rockford, Rock Island & St. Louis R. R. Pop., 359. The p. o. is Swedona.

Centreville, v. in Wabasha co., Minn., 16 mls. from Mineska. Pop., 637. The p. o. is Plain View.

Centreville, v. in Clinton co., N. Y., on the Ogdensburgh & Lake Champlain R. R., 3½ mls. W. of Mooers. The p. o. is Mooers Forks.

Centreville, v. in Onondaga co., N. Y., 7 mls. N. of Syracuse. Pop., 282. The p. o. is Plank Road.

Centreville, v. in Gallia co., Ohio, 6 mls. from Portland. The p. o. is Thurman.

Centreville, v. in Medina co., Ohio. (See Spencer, the p. o.)

Chase, new co. in Nebr., S. W. part. Area, 720 sq. mls. The surface consists of undulating prairies. The co. is drained by tributaries of the Republican Fork of the Kansas R.

Cheyenne, new co. in Kans.; forming the N. W. corner of the State; consists of rolling prairies, which are generally productive: is intersected by the Republican Fork of Kansas R.

Cheyenne, new co. in Nebr., W. part. Area about 1,500 sq. mls. The surface is rolling and consists mainly of prairies. The northern part of the co. extends into the "Bad Lands." The North Fork of the Platte R. flows through the co. from W. to E. and the South Fork intersects the S. E. corner, receiving Lodge Pole Cr. The Union Pacific R. R. runs along this creek from E. to W.

Clark, new co. in Dak. Ter., S. E. part. This co. lies on the Plateau du Coteau des Prairies, and has an elevated and rolling surface, which is studded with numerous small lakes. The soil is but moderately productive.

Clark, new co. in Kans., S. W. part. Area 720 sq. mls. The surface is undulating and consists mainly of rolling prairies. The co. is drained by affluents of Cimarron R., which intersects the S. E. corner.

Clarkville, v. in Otsego co., N. Y., 6 mls. from Cooperstown. The p. o. is Middlefield.

Clayton, new co. in Ark.; forming the N. E. corner of the state. Area about 600 sq. mls. It was formed of parts of Greene and Randolph cos.; borders in the E. on the St. Francis R., which separates it from Mo., and is drained by Black and Cache Rs. Crowley Ridge intersects the co. from N. E. to S. W.

Clayton Centre, v. in Clayton co., Iowa, 12 mls. W. of Clayton. The p. o. is Read.

Clinton, v. in Beaver co., Pa. (See Rock Point, the p. o.)

Clover Hill, v. in Chesterfield co., Va. (See Winterpock, the p. o.)

Clymers, v. in Cass co., Ind., on the Toledo, Wabash & Western R. R., 5 mls. S. W. of Logansport. The p. o. is Montez.

Coalfield, v. in Chesterfield co., Va., on the Richmond & Danville R. R., 13 mls. S. W. of Richmond. The p. o. is Midlothian.

Cockato, v. in Wright co., Minn., on the St. Paul & Pacific R. R., 50 mls. from Minneapolis. The p. o. is Mooers' Prairie.

Colesburgh, v. in Hardin co., Ky. (See Robertsonville, the p. o.)

Collier, v. in Brook co., W. Va. (See Pan Handle, the p. o.)

Competition, v. and the co. seat of Pittsylvania co., Va., 17 mls. N. of Danville. The p. o. is Pittsylvania Court House.

Confluence, p. v. in Somerset co., Pa., at the junction of Youghiogheny R. with Laurel Hill Cr. and Castleman's R., and on the Pittsburgh, Washington & Baltimore R. R., 84 mls. S. E. of Pittsburgh. Pop. about 300.

Corwin, v. in Tippecanoe co., Ind., on the Louisville, New Albany & Chicago R. R. Pop., 104. The p. o. is Romney.

Corwin, v. in Warren co., Ohio, on the Pittsburgh, Cincinnati & St. Louis R. R., 14 mls. S. of Xenia. Pop., 135.

Coultersville, v. in Alleghany co., Pa., on the Youghiogheny R. and the Pittsburgh, Washington & Baltimore R. R., 23¼ mls. S. E. of Pittsburgh. Pop. about 200. The p. o. is Duncan.

Cragin, new co. in Dak. Ter., S. E. part. Its surface is rolling and elevated, and the soil moderately fertile. The eastern part is drained

by affluents of the Dakota R., the western by affluents of the Missouri R.

Cranberry Summit, v. in Preston co., W. Va. (See Portland, the p. o.)

Crosswicks, v. in Warren co., Ohio. Pop., 48.

Crowley's v. in Androscoggin co., Me., on the Androscoggin R. R., 14 mls. N. W. of Brunswick. The p. o. is South Lewiston.

DANVILLE, v. in Highland co., Ohio, 10 mls. S. W. of Hillsborough. The p. o. is Nevin. Pop., 157.

Danville Station, v. in Boyle co., Ky. Pop., 223. (See Shelby City, the p. o.)

Davison, new co. in Dak. Ter., S. E. part. It borders in the W. on the Dakota R.; has a rolling surface, which consists chiefly of prairies, and has a productive soil, especially along the water-courses.

Dayton, v. in Taylor co., Iowa., 13 mls. from Nodaway. The p. o. is Memory.

Decatur, new co. in Kans., N. W. part. Area, 900 sq. mls. It has an undulating prairie surface and is drained by North Fork of Solomon R., Prairie Dog Cr., Little Beaver Cr., Sappa Cr. and other affluents of the Republican Fork of Kansas R.

Deerfield, v. in Randolph co., Ind., on the Columbus, Chicago & Indiana Central R. R., 10 mls. N. W. of Union City. The p. o. is Randolph. Pop., 239.

De Forest, v. in Dane co., Wis., on the Madison & Portage R. R., 14 mls. N. of Madison. The p. o. is North Windsor.

Delaware, v. in Ripley co., Ind., on the Ohio & Mississippi R. R., 23 mls. W. of Aurora. The p. o. is Rei.

Dewey's, v. in Berkshire co., Mass., on the Housatonic R. R., 4 mls. from Lenox. The p. o. is New Lenox.

Dickson, borough in Luzerne co., Pa., on the Delaware, Lackawanna & Western R. R., 4 mls. N. of Scranton. Pop., 391.

Dorsey, new co. in Ark., S. central part. Area, 620 sq. mls. It was formed of parts of Jefferson, Dallas, Bradley and Lincoln cos.; is bounded on the W. by Bayou Moro and intersected by Saline R. The surface is rolling and well timbered.

Douglas, new co. in Dak. Ter., S. E. part. It has an undulating prairie surface and a fertile soil, and is drained by small affluents of the Missouri and Dakota Rs.

Duncanton, v. in White co., Ill., 5 mls. S. E. of Duncan City. The p. o. is Roland.

Dundy, new co. in Nebr., S. W. part. Area, 720 sq. mls. It is bounded on the W. by Colo. and on the S. by Kans.; has an undulating surface and is drained by the Republican Fork of the Kansas R.

Dunham, v. in Jackson co. Ind. (See Shields, the p. o.)

EAGLE, v. in Chester co., Pa. (See Spread Eagle, the p. o.)

Eagle Lake, v. in Oakland co., Mich. (See Ortonville.)

East Conemaugh, borough in Cambria co., Pa., 3 mls. near Conemaugh Borough. Pop., 381.

Elizabethtown Furnace, v. in Blair co., Pa., on the Pennsylvania R. R. The p. o. is Sabbath Rest.

Elizabethtown, v. in Licking co., Ohio, 5 mls. N. E. of Hanover. Pop., 113. The p. o. is Perryton.

Elizabethtown, v. and the co. seat of Wirt co., W. Va. (See Wirt Court House, the p. o.)

Etna, v. in Huntington co., Ind., on Salamonie R., 9 mls. S. of Huntington. The p. o. is Mount Etna.

FAIRFIELD, v. in Howard co., Ind. (See Oakford.)

Fairview, v. in Bond co., Ill., 8 mls. E. of Greenville. The p. o. is Pleasant Mound.

Fairview, v. in Luzerne co., Pa., on the Lehigh & Susquehanna R. R. and the Lehigh Valley R. R., 14 mls. N. of White Haven. The p. o. is Mountain Top.

Fallston, borough in Beaver co., Pa., on Beaver R. below Bridgewater. Pop., 629.

Farmington, v. in La Crosse co., Wis., 9 mls. N. of West Salem. The p. o. is Mindoro.

Faulkner, new co. in Ark., central part. Area, 810 sq. mls. It was formed of parts of Conway and Pulaski cos.; is bounded on the W. by the North Fork of Cadron Cr. and Arkansas R., and is drained by the East Fork of Cadron Cr. and other tributaries of the Arkansas. The surface is rolling and generally well timbered.

Fayetteville, v. in Fayette co., Ind. (See Orange.)

Foote, new co. in Kans., S. W. part. Area, 720 sq. mls. The surface is undulating or level, and consists chiefly of prairies. The Arkansas R. passes through the northern part of the co.

Four Corners, v. in Schoharie co., N. Y., 4 mls. S. of Richmondville. The p. o. is Summit.

Franklin, borough in Cambria co., Pa., near Johnstown. Pop., 426.

Freeport, v. in Warren co., Ohio. (See Oregon.)

Fremont City, v. in Fremont co., Iowa. (See Plum Hollow, the p. o.)

Frontier, new co. in Nebr., S. part. Area, 720 sq. mls. The surface consists of gently sloping prairies; the soil is productive. The co. is drained by Muddy Cr. and other tributaries of the Republican R.

Furnas, new co. in Nebr., S. part. Area, 900 sq. mls. It has an undulating surface, is mostly covered by prairies and is intersected by the Republican Fork of the Kansas R.

GARDNER VILLAGE, v. in Worcester co., Mass., on the Vermont & Massachusetts R. R., 4½ mls. S. W. of Ashburnham Junction. The p. o. is South Gardner.

Gaysport, borough in Blair co., Pa., near Hollidaysburgh. Pop., 799.

George's, station on the South Carolina R. R., in Colleton district, S. C., 14 mls. from Branchville. The p. o. is Saint George's.

Georgetown, v. in Harrison co., Ohio, 7 mls. from Cadiz. The p. o. is Short Creek.

Girard, v. in Erie co., Pa., on Lake Shore & Michigan Southern R. R., 15½ mls. S. W. of Erie. The p. o. is Miles Grove.

Gladesville, v. and the co. seat of Wise co., Va. (See Wise Court House, the p. o.)

Glendon, borough in Northampton co., Pa., near S. Easton Borough. Pop., 707.

Good Hope, v. in Cumberland co., Pa., near the Cumberland Valley R. R., 4½ mls. W. of Carlisle. The p. o. is Plainfield.

Gorham, v. in Ontario co., N. Y. (See Stanley Station, the p. o.)

Gouldsborough, v. in Wayne co., Pa. (See Sand Cut, the p. o.)

Graham, new co. in N. C., formed from the northern part of Cherokee co.; lies in the Blue Ridge Country, and is bounded on the N. W. by the Unaka Mts. and on the N. by the Hiawassee R. The surface is elevated and partly occupied by mountains. The soil of the valleys is fertile and well adapted to stock raising. The co. seat is Fort Montgomery.

Grant, v. in Kankakee co., Ill. (See Yellowhead, the p. o.)

Grant, new co. in Kans., S. W. part. Area, 720 sq. mls. It consists chiefly of prairies and is intersected and drained by the Arkansas R. and tributaries.

Grayson, v. in Grayson co., Va. (See Nuckollsville.)

Greenfield, v. in Monroe co., Wis. (See Tunnel City, the p. o.)

Gregg, new co. in Tex., N. E. part. Area about 165 sq. mls. It is bounded on the S. by Sabine R., and drained by several small affluents of this stream. The surface is undulating and the soil highly productive.

Gregory, new co. in Dak. Ter., S. E. part. It borders in the S. on the Keya Paha R., which separates it from Nebr., and in the N. E. on the Missouri R. The surface is rolling and the soil on the whole productive.

Gull Corners, v. in Kalamazoo co., Mich., 10 mls. N. E. of Kalamazoo. The p. o. is Richland.

HALF WAY HOUSE, v. in Saratoga co., N. Y., on the Saratoga & Schenectady Branch of the Rensselaer & Saratoga R. R., 7½ mls. S. of Ballston and 8 mls. N. of Schenectady. The p. o. is South Ballston.

Hamden, v. in Vinton co., Ohio, at the junction of the main line with the Portsmouth Branch of the Marietta & Cincinnati R. R., 30 mls. W. of Chillicothe. The p. o. is Reed's Mills. Pop., 364.

Hamilton, new co. in Kans., W. part. It borders in the W. on Col. Ter.; has an undulating surface and is intersected by the Arkansas R.

Hamilton, v. in Livingston co., N. Y., on the Rochester Branch of the Erie R. R., 9 mls. S. E. of Avon. The p. o. is South Lima.

Hammond's Corners, v. in Chemung co., N. Y., 7 mls. E. of Elmira. The p. o. is North Chemung.

Hanover, v. in Columbiana co., Ohio, on the Cleveland & Pittsburgh R. R., 8 mls. from Franklin. The p. o. is Maysville. Pop., 129.

Hardenberg, v. in Jennings co., Ind., on the Ohio & Mississippi R. R., 8 mls. E. of Seymour. Pop. about 100. The p. o. is Six Mile.

Harlan, new co. in Nebr., S. part. It is bounded on the S. by Kans. and consists of level or gently undulating prairies. The Republican Fork of the Kansas R. flows through it from W. to E.

Harlem, v. in Cook co., Ill. (See Oak Park.)

Hawher's, v. in Greene co., Ohio. (See Zimmerman, the p. o.)

Hedge's Store, v. in Pickaway co., Ohio, 4 mls. from Milford. The p. o. is Nebraska.

Hitchcock, new co. in Nebr., S. W. part. It borders in the S. on Kans., has a level or slightly undulating surface and consists mainly of prairies. The Republican Fork of the Kansas R. intersects the co from W. to E.

Highland, v. in Monmouth co., N. J., near the New Jersey Southern R. R., 1¼ mle. S. of Port Monmouth. The p. o. is New Monmouth.

Hodgeman, new co. in Kans., S. W. part. Area, 1,080 sq. mls. The surface consists of level or undulating prairies and the soil is productive. The co. is drained by Middle Fork, South Fork and numerous other branches of Pawnee Cr., a tributary of Arkansas R.

Holden, v. in Goodhue co., Minn., 18 mls. from Faribault. The p. o. is Norway.

Honey Valley, v. in Crawford co., Wis., 23 mls. N. N. E. of Prairie du Chien. The p. o. is Seneca.

Hopewell, borough in Chester co., Pa., 3 mls. E. of Oxford. The p. o. is Hopewell Cotton Works. Pop., 268.

Howard, new co. in Ark., W. part; was formed of parts of Polk, Sevier, Hempstead and Pike cos. Area about 625 sq. mls. It is bounded on the W. by Saline Cr., an affluent of Little R., and drained by numerous small tributaries of said creek. The surface is rolling and well timbered; the soil is productive. Centre Point is temporarily the co. seat.

Howard, new co. in Dak. Ter., N. part. It is bounded on the N. by the Missouri R. and intersected by the Little Missouri. The Yellow Stone R. joins the Missouri at the N. W. corner of the co. The surface is rolling and the soil but moderately productive.

Huntsville, v. in Randolph co., Ind., 9 mls. from Winchester. Pop., 130. The p. o. is Trenton.

INDEPENDENCE, v. in Preston co., W. Va., on Raccoon Cr. and the Baltimore & Ohio R. R., 7¼ mls. W. of Tunnelton. The p. o. is Raccoon.

JACKSON CENTRE, v. in Mahoning co., Ohio. The p. o. is North Jackson.

Jackson Corners, v. in Orleans co., N. Y. (See West Barre.)

Jackson's River, v. in Alleghany co., Va. (See Selma, the co. seat.)

Jackson's Shop, v. in Orange co., Va. (See Woolfolk, the p. o.)

Jacksonville, v. in Otsego co., N. Y., 13 mls. N. of Oneonta. The p. o. is Mount Vision.

Jefferson, borough in York co., Pa. Pop., 327. (See Codorus, the p. o.)

KELLERS, v. in Wabash co. Ind. (See Rich Valley, the p. o.)

Kellysburg, v. in Indiana co., Pa. (See Home, the p. o.)

Ketchum, v. in Dodge co., Nebr., on the Union Pacific R. R., 54 mls. W. of Omaha. The p. o. is Timberville.

Kings, v. in Saratoga co., N. Y., on the Adirondack R. R., 8 mls. N. W. of Saratoga Springs. The p. o. is North Greenfield.

Kingsville, v. in Johnson co., Mo., on the Western Division of the Pacific R. R. of Missouri, 5 mls. W. of Holden. Pop., 298. The p. o. is Ramey.

Kirkersville, v. in Licking co., Ohio. (See Outville.)

Winston, p. v. and co. seat of Forsyth co., N. C., near Salem, and 120 mls. W. by N. of Raleigh. It has some manufacturing interests and its surroundings are devoted to tobacco raising, fruit culture and general agriculture. Pop., 443. Two newspapers.
Wrightsville, v. in Adams co., Ohio., on the Ohio R., 5 mls. above Manchester. The p. o. is Vineyard Hill. Pop., 63.

APPENDIX NO. 2.

***Albany,** city, co. seat of Albany co. and capital of the state of New York; is situated on the W. bank of the Hudson R., 144¾ mls. N. of New York city. The site is a narrow plain along the river, backed by rapidly rising ground, parts of which overlook the river at a height of 200 to 300 feet. The plan is irregular, but some of the streets are very handsome, and in general the buildings are substantial and commodious. Some of the structures are quite imposing, the most notable of which are the State Capitol, facing the square at the end of State street; the State Hall, a marble edifice devoted to departments of state; the City Hall, also of marble; the State Normal School, Dudley Astronomical Observatory, Albany Medical College, the Albany University, and several academical and library buildings. The State Library has a collection of nearly 100,000 volumes, and the records and collections at the State Agricultural Rooms are very numerous and valuable. The school buildings are neat, and ample for the accommodation of the 10,737 children of school age. The church architecture of the city is of a very high order, and the cathedral is regarded as one of the finest in the United States.

Albany is an important manufacturing center. In 1870 the city and county had 721 manufacturing establishments, employing 6,103 horse-power, 14,495 hands, a capital of $16,031,268; consuming $13,439,705 worth of material, and turning out products of the value of $24,785,921. The principal articles of manufacture, with their value, were cotton goods, $4,086,734; stoves, heaters, etc., $3,216,431; hosiery, $2,476,226; liquors, $1,259,745; boots and shoes, $987,661; cars, $635,014; flour, etc., $596,717; wrought iron and castings, $941,512; lumber planed and sawed, $538,600; malt, $457,200; paper, $442,000; printing and newspapers, $562,900; woollen goods, $473,430.

The city is enviably situated for commerce, being at the head of heavy navigation on the Hudson R., in direct steamboat communication with New York, by canal and river, in water communication with Lake Champlain, and by Erie Canal with the great lakes of the North-west. It is also at N. terminus of Hudson River R. R., at N. E. terminus of Albany & Susquehanna R. R., at E. terminus of New York Central R. R., at W. terminus of Boston & Albany R. R. and at S. terminus of Renssalaer & Saratoga R. R. It has long ranked as among the leading lumber marts of the country.

Albany was named in honor of James II., Duke of York and Albany, in 1664, and was chartered as a city in 1686. Its population in 1810, was 9,356; 1820, 12,630; 1830, 24,238; 1840; 33,721; 1850, 50,763; 1860, 62,367; 1870, 69,422, of whom 47,215 were natives of the United States and 22,207 were foreign born. Of these 194 were engaged in agriculture, 7,464 in professional and personal services, 4,343 in trade and transportation, and 9,375 in manufactures. The total population constituted 14,105 families of 4.92 persons each, who lived in 8,748 dwellings, an average of 7.94 persons to a dwelling.

Nineteen newspapers and periodicals are published in the city, of which the "Journal," "Times," "Argus," "Express," "Freie Blaetter," "Herald," "Knickerbocker," "Post" and "Country Gentleman," are the principal dailies and weeklies.

Blue Mountain, p. o. in Tippah co., Miss. Has female Seminary of same name.

***Buffalo,** (lat. 42° 53', long. 78° 55') city, port of entry (Buffalo Cr.) and the co. seat of Erie co., N. Y., is situated on a capacious, easily accessible, and safe harbor, formed by the estuary of Buffalo Cr., at the E. extremity of Lake Erie, and at the head of Niagara R., also 441¾ mls. via Albany, and 432½ mls. via Corning, N. W. of New York city; 297 mls. W. of Albany, 23 mls. S. of Niagara Falls, 275 mls. E. of Detroit and 268 mls. N. of Pittsburgh, Pa. Its site is a plain, gently rising into a plateau of some 50 feet elevation, commanding a fine view of the lake and Canada shore. The plan of the streets is mainly rectangular. They are wide, firmly laid, frequently fringed with shade trees, and built up with beautiful dwellings and commanding business and public structures. The city possesses an air of neatness and grandeur seldom found in this country. Main street (120 feet wide) is the principal thoroughfare. The plateau, or upper portion, is mainly devoted to residence, while the lower portions are given to manufacturing interests and to commerce. The city is not more noted for its elegant private than for its substantial business and palatial public structures. Among the latter are the City Hall, the United States Custom House, Penitentiary, Post-office, Court House, State Arsenal, City Hospital, Erie County Savings Bank and other banks, Providence Insane Asylum (Catholic), St. Mary's Deaf Mute Asylum, State Insane Asylum, which will have a front, when completed, of 2,700 feet, the largest in the United States, if not in the world, with park and grounds of 208 acres; Buffalo Orphans' Asylum, St. Vincent's Orphan Asylum, Hospital of Sisters of Charity, etc. It is the seat of Buffalo University and Medical School, the Grosvenor Library, a State Normal School and several well-stored libraries. The Young Men's Association have large buildings, a choice reading room and a library of 25,000, and St. James Hall, a splendid audience room. The city is very rich in church architecture, its two cathedrals (St. Joseph's and St. Paul's), St. John, St. Louis, Calvary, North, Westminster, Asbury and Riverside churches, and Church of the Messiah and Church of the Holy Angels, rank among the finest specicimens of architectural beauty. Here are several handsome squares and parks, which add to the comfort and cheerfulness of the place. Their entire acreage is 530. The city is a delightful summer resort, enjoying perpetual breezes. The death rate in 1872 hardly reached 14 to each 1,000 population.

The manufacturing interests of Buffalo have grown very rapidly, and in this respect it is surpassed by few cities in the Union. They aggregate a value of (1870) $28,000,000; the principal of which are agricultural implements, $499,305; boots and shoes, $696,010; cheese, $715,219; men's clothing, $1,328,235; flour and meal, $1,931,932; iron blooms, $650,000; forged and rolled iron, $2,062,865; pig iron, $875,100; castings, $1,264,250; leather, $901,412; dressed skins, $599,390; distilled liquors, $1,177,920; malt

liquors, $405,775; engines and boilers, $846,624; lumber, $1,797,441; machinery, $405,775; malt, $600,821; tin, copper and sheet-iron ware, $502,244.

The commercial facilities of the city are very great. Its position is that of an entrepot for the commerce passing eastward, and a shipping point for that passing westward. Its harbor has been greatly improved by the judicious expenditure of large sums of money, and it presents during the season of navigation a scene of as much activity as some of the busiest Atlantic ports. Here are ample wharves, docks, ship-building and repair yards, and a system of grain elevators the greatest in capacity and power found on the lakes. During 1873, 9,959 vessels, tonnage 4,886,733, entered and cleared at the port of Buffalo. The total tonnage of the district (Buffalo Cr.) was 153,238, viz: 33,547 sail, 7,484 iron steamers, 42,699 steam vessels of all kinds, 3,065 barges, and 61,440 canal boats. There were 31 elevators in 1873, with a storage capacity of 7,215,000 bush., and a transfer capacity of 2,715,000 bush. every 24 hours. The quantity of grain received from the West, was 104,000,000 bush., including flour reduced to wheat bushels. The cattle yards cover 50 acres, at which live stock to the value of $50,000,000 was received.

The facilities of the city for inland commerce are commensurate with those by the lake. It is at the W. terminus of the Erie Canal (completed 1824), the great water thoroughfare of the state, also at W. terminus of New York Central R. R., at N. E. terminus of Lake Shore R. R., at N. terminus of Buffalo, New York & Philadelphia R. R., at N. W. terminus of Northwest Division of Erie R. R., and at S. terminus of Niagara Falls Branch of Erie R. R. It is thus brought into contact with all the marts of the East, West and South, and is made neighbor to the great coal fields of Pennsylvania, receiving in 1873, 1,237,768 tons of coal, and shipping 638,653 tons.

Buffalo was laid out in 1801 by the Holland Company, and was incorported as a city in 1832. In 1810 it had a population of 1,508; in 1820, 2,095; 1830, 8,653; 1840, 18,213; 1850, 42,261; 1860, 81,129, and 1870, 117,714; 71,477 of which were native born, and 46,237 foreign born. Of these 665 were engaged in agriculture, 15,935 in professional and personal services, 7,250 in trade and transportation, 15,836 in manufacturing and mining. There were 22,325 families in the city, averaging 5.27 persons to a family, and 18,285 dwellings, an average of 6.44 persons to a dwelling.

It publishes twenty-eight newspapers, of which the "Commercial Advertiser," "Buffalo Courier," "Demokrat," "Express," "Freie Presse," "Post," "Telegraph" and "Volks Freund" are dailies and weeklies.

***Elmira,** city in Chemung co., N. Y., and the co. seat, is situated on Chemung R., at the mouth of Newtown Cr., 274 mls. by rail W. by N. of New York city, 112 mls. S. by E. of Rochester, 148 mls. (via Hornellsville) S. E. of Buffalo, and 78 mls. N. of Williamsport, Pa. The city is picturesquely located, is handsomely laid out, and contains many fine private residences, business structures and public edifices. Among the latter are the Female College and other educational institutions, the Court House, and imposing churches. The growth of the city in manufacturing and commercial importance has been rapid, and these interests are largely enhanced by its situation on the Erie R. R., the Northern Central R. R. and at the commercial N. terminus of Lehigh Valley R. R. It is thus the pivotal point for the anthracite coal trade northward, and for the thronged travel to the lakes, vineyards, glens and waterfalls of central and N. W. New York. It was settled in 1788, and had a population in 1840 (including the tn.) of 4,791; in 1850, 7,966; in 1860, 8,682; and in 1870 it had an exclusive population of 15,683; 12,472 of whom were native born, and 3,391 foreign born. Five newspapers are published here, of which the "Advertiser" and "Gazette" are dailies and weeklies.

Howellville, v. in Chester co., Pa. (See Chester Valley the p. o.
